SALE OF BOISE & ARROWROCK
RAILROAD.

DEPARTMENT OF THE INTERIOR.
Washington, D. C., December 5, 1916.
In pursuance of an Act of Congress entitled
"An Act to authorize the Secretary of the Interior
to cause to be appraised and to sell the Boise &
Arrowrock Railroad, and for other purposes,"
approved August 11, 1916 (Ch. 318, 39 Stat.,
506), notice is hereby given that the property described below will be sold at not less than its
appraised value, at public auction to the highest
bidder, at the office of the Project Manager,
U. S. Reclamation Service, City of Boise, Idaho,
at 2 o'clock P. M., January 10, 1917, to-wit:
ITEM 1. That part of the Boise & Arrowrock
Railroad extending from its junction with the
Oregon Short Line Railroad at Barberton, Idaho,
to its junction with the Intermountain Railway
near the mouth of Moore's Creek, Idaho, a distance of approximately 11.75 miles, being all the
right, title and interest of the United States in and
to the right of way and all structures thereon; subject, however, to two certain contracts, one with
the Oregon Short Line Railroad Company, dated
November 16, 1915, and one with the Barber
Lumber Company, dated May 2, 1911, copies of
which contracts will be furnished upon request.
Appraised for \$99,190.00.
ITEM 2. The track material now upon that
part of the right of way of the Boise & Arrowrock
Railroad extending from the above mentioned
junction point with the Intermountain Railway
to the Arrowrock Dgm, Idaho, a distance of approximately 5.25 miles. Appraised for \$17,793.00
ITEM 3. The right, title and interest of the
United States in and to the right of way for approximately 5.25 miles referred to under "Item 2."
excluding all structures thereon. Appraised for
\$26,207.00.
ITEM 4. Two locomotives, appraised at
\$1,000.00 each; one combined passenger and baggage car, appraised at \$750.00; one passenger
coach appraised at \$500.00; two flat cars appraised

excluding all structures thereon. Appraised for \$26,207.00.

ITEM 4. Two locomotives, appraised at \$1,000.00 each; one combined passenger and baggage car, appraised at \$750.00; one passenger coach appraised at \$500.00; two flat cars appraised at \$100.00 each; twenty-six gondola dump cars appraised at \$250.00 each. All rolling stock standard gauge.

Each of the above-mentioned items will be offered for sale separately. Item No. 2 and Item No. 3 will be offered together first and if not struck off will be offered separately. The rolling stock mentioned in Item No. 4 will be offered in parts. Each successful bidder will be required to deposit, at the time of accepting the bid, a certified check or New York draft payable to Special Fiscal Agent U. S. Reclamation Service, Boise, Idaho, for 10% of the appraised value of the property struck off to him. Upon approval of bid and payment of the full purchase price, the Secretary of the Interior will transfer, by appropriate conveyance, all the right, title and interest of the United States in and to the property so sold. The entire sale is subject to the approval of the Secretary of the Interior and to his right to reject any or all bids. In case of the rejection of any bid the proceeds of the check or draft deposited by the bidder will be returned to him at once.

ALEXANDER T. VOGELSANG, Acting Secretary of the Interior.

The War and the Market.

Anticipation and enjoyment of war profits constituted the motive power which started the rise in the stock market.

How will the market anticipate peace? What are the reconstruction profits probable from peace?

We have endeavored to answer those and other questions in a graphic chart with an explanation.

CAPITALIZATION

Outstanding Seven Per Cent (7%) Cumulative Preferred Stock_____\$1,500,000 \$500,000 1,500,000 Common Stock 1,000,000

Extracts from Letter of Mr. C. Henderson Supplee, President of the Company:
The Supplee Milk Company is the largest retail milk company in Philadelphia, supplying about 75,000 customers daily. Its predecessor company, the Supplee Alderney Dairy, has been in continuous existence for 47 years. It has taken the highest awards for purity of product.
The net value of real estate, buildings, equipment and other tangible assets has been appraised at over \$1,000,000, without including any valuation for milk routes and other intangibles, which, in my opinion, have a value in liquidation of more then \$500,000 additional

have a value in liquidation of more than \$500,000 additional.

No further mortgage, bond or prior lien may be issued, or may the issue of preferred stock be increased except to provide for additions, extensions and improvements, at not exceeding 85% of the actual cost, and without consent of at least two-thirds of the preferred stock then outstanding.

An annual Sinking Fund of 2% of the amount of Preferred Stock outstanding to be used to retire stock

An annual Sinking Fund of 2% of the amount of Preferred Stock outstanding to be used to retire stock at 107½ and accrued dividend per share, unless purchaseable at a lower rate.

The by-laws of the Company provide that the holders of the Preferred Stock shall receive out of the net earnings of the Company preferential cumulative dividends at the rate of 7% per annum, payable quarterly on the first days of March, June, September and December.

The accounts of the corporation have been audited by Messrs. Barrow, Wade, Guthrie & Company, Chartered Accountants, the property appraised by the American Appraisal Company, and all legalities connected herewith passed upon by Messrs. Morgan, Lewis & Bockius of Philadelphia, Pa.

The net earnings of the Company have averaged, for the past three years, four times dividend requirements. Current earnings are at the rate of over six times preferred dividend charges.

New York, December 13, 1916.

A Dividend of One Dollar and Twenty-five cents (\$1 25) per share on the Capital Stock of this Company has been declared payable February 1, 1917, at the office of the Treasurer, to stockholders of record at the close of business January 2, 1917.

For the purpose of the Annual Meeting of stockholders of this Company, which will be held January 24, 1917, the stock transfer books will be closed at 3 P. M., January 2, 1917, and reopened at 10 A. M., January 25, 1917.

EDWARD L. ROSSITER, Treasurer.

MERRITT OIL CORPORATION

CAPITAL STOCK

AUTHORIZED \$6,000,000

PAR VALUE \$10.00

From a letter signed by K. C. Schuyler, President of the Corporation, under date of December 5th, 1916, we summarize as follows:

OUTSTANDING STOCK: There balance being in the Company's treasury. There is outstanding \$3,750,000 apital Stock, the

ROPERTIES: The Company owns leases on acreage in the heart of the Big Muddy field of Wyoming, as follows: An undivided one-half interest with the Ohio Oil Company in a 500-acre tract, which is the equivalent of 250 acres owned by the Merritt Oil Corporation; All of 250 acres adjoining said 500 acres on the South; All of 280 acres adjoining said tract on the North; An undivided 25 per cent. In about 3,000 acres adjoining the 500-acre tract on the West and continuing through the central part of the Dome, this interest being equivalent to 750 acres. In addition, the company has acreage on the edges of the field, and is endeavoring to secure additional acreage within the dome.

The Midwest Refining Company, RELATIONS WITH OTHER INTERESTS: which is the predominant interest in the Wyoming fields, owns a substantial interest in the Merritt Oil Corporation. The Ohio Oil Company is interested in the property through ownership of a one-half interest in a 500-acre tract.

IMPORTANCE OF BIG MUDDY FIELD: The importance of the field in which the corporation's holdings are located is illustrated by the activity of practically all of the large producing companies of the country in seeking to acquire holdings in the Big Muddy field since the Merritt Oil & Gas Company recently struck a well in the Wall Creek sand at a depth of 3,155 feet, considered to be good for 1,000 barrels a day.

The Big Muddy field lies 18 miles east of Casper, Wyoming, the site of the Midwest Refining Company plant. The principal oil-bearing structure of the field is a "dome" about 4 miles long and 1½ to 2 miles wide, rivaling in extent the famous Salt Creek field, of Wyoming. The principal source of supply is the Wall Creek sand, which for thickness and degree of saturation, according to experts, is rivaled only by the Bartlesville sand, of Oklahoma. Oklahoma.

The Ohio Oil Company has paid \$500,000 for a half-interest in the 500-acre tract in which the deep well is situated, and has also acquired other interests in the Big Muddy field. The Midwest Refining Company owns considerable holdings in the field. The Texas Company has acquired leases on 500 or 600 acres, and it is understood that the Carter Oil Company, and Prairie Oil & Gas Company (Standard Oil group); the Producers Oil Company (Texas Company subsidiary), and Gypsy Oil Company (Gulf Oil Corporation) are seeking to acquire leases in the field.

The Merritt Oil Corporation, its officers believe, will occupy the most favorable position in the field.

All statements herein are believed to be accurate, having been obtained from official sources, but they are not guaranteed.

A block of the above stock available for sale was immediately disposed of at \$9 per share, and this advertisement appears only as a matter of record.

NEW ISSUE

McCORD MANUFACTURING CO.

(Incorporated Under the Laws of the State of New York)

SEVEN PER CENT CUMULATIVE PREFERRED STOCK

(With Right to Subscribe to an Equal Amount of Common)
Preferred as to assets and dividends.

Dividends payable quarterly, January, April, July and October. Redeemable at 110 and accrued dividends.

Sinking fund of 5% annually for redemption purposes, beginning January 1, 1917. If earnings in any year equal or exceed \$750,000, sinking fund automatically increases to 10% for that year.

PAR VALUE OF SHARES, \$100

Common Stock, No Par Value

CAPITALIZATION

Seven Per Cent Cumulative Preferred Stock \$1,000,000 \$750,000 Common Stock (no par value) 75,000 shares 75,000 shares

We summarize from a letter of A. C. McCord, Esq., President of the Company, as follows:

- (1) Largest independent manufacturers of automobile radiators in the country.
- (2) Net tangible assets over \$1,875,000, or two and one-half times the Preferred issue. Net quick assets alone, \$1,000,000, or one and one-third times the Preferred issue.
- (3) Net earnings for twelve months ended October 31, 1916, over \$563,000, or more than ten and one-half times the Preferred dividend requirements.
- (4) Net earnings from other departments (excluding Radiator Department) more than sufficient to pay preferred dividends.
- (5) The Company does not speculate in materials, but buys only against actual orders, and raw materials are sheets of copper and brass which have absolute market value.
- (6) The present efficient management will continue in charge and control of the business.
- (7) Unfilled orders on the books at the present time are approximately \$4,500,000, a figure greater than the total gross business of the past year.

For the protection of the Preferred stockholders, the charter of the Company will provide that no mortgage or funded indebtedness can be created without the consent of 75% of the Preferred stock outstanding, and that no stock having priority to or equality with the present Preferred Stock may be issued, unless the net income and earnings applicable to the payment of dividends on Preferred Stock shall have been in each of any two successive twelve months' periods, ending not earlier than two months prior to the date of such issue, twice the sum of the annual dividends upon all of the shares of Preferred Stock then outstanding and all of the shares of Preferred Stock to be issued; and unless at such time the net quick assets shall equal 100% of the Preferred Stock then outstanding and the net assets shall be one and one-half times all the Preferred Stock outstanding and to be issued. It is further provided that no dividends shall be paid on the Common Stock unless the net assets are equal to 150%, and the net quick assets 100% of the Preferred Stock outstanding.

Copies of the reports of Messrs. Ernst & Ernst, Certified Public Accountants, the American Appraisal Company and the by-laws of the Company, in our office, open to inspection.

The organization of the Company and all legal matters in connection therewith, and the issue of its securities, have been under the supervision of and approved by counsel: Messrs. Kales, Kelly & Hale, for the bankers, and Lucien E. Harding, Esq., for the Company.

\$4,800,000 CONSOLIDATED GAS ELECTRIC LIGHT AND POWER COMPANY OF BALTIMORE

General Mortgage 4½% Gold Bonds

(Closed Mortgage)

Dated February 14, 1905

Due February 14, 1935

Authorized and issued, \$15,000,000

LISTED ON BALTIMORE AND LONDON STOCK EXCHANGES

The Company does the entire gas, electric light and power business in Baltimore and vicinity, serving a population of about 700,000. This Company, and the constituent companies which preceded it have served the community with gas since 1817 and with electricity since 1881.

From a letter of Mr. Herbert A. Wagner, President of the Company, we summarize as follows:

First Mortgage on the principal steam-electric plant of the Company, with capacity, installed or in process of installation, of 80,000 horsepower. Further secured by lien (subject in part to underlying securities) upon all the other electric, gas and other properties, real and personal, now owned or hereafter acquired by the Company. Only mortgage covering the entire property.

EARNINGS

Year ended		Net after	Total Fixed	
June 30	Gross	Taxes	Charges	Balance
1911	\$4,867,776	\$2,412,336	\$1,377,403	\$1,034,933
1912	5,465,287	2,822,399	1,417,267	1,405,132
1913	6,114,973	3,151,792	1,476,767	1,675,025
1914	6,400,896	3,067,074	1,567,689	1,499,385
1915	6,789,401	3,212,818	1,640,361	1,572,457
1916	7,431,768	3,583,692	1,580,058	2,003,634

Net earnings for the fiscal year ended June 30, 1916, \$3,583,692, were substantially more than twice the fixed charges.

At present quoted prices securities representing the equity behind these bonds have a market value of more than \$27,000,000.

Price 93 and interest, yielding about 5.10%

All legal proceedings in connection with this issue and the purchase of these bonds have been approved by Messrs. Haman, Cook, Chestnut & Markell of Baltimore, Attorneys for the Company, and Messrs. Venable, Baetjer & Howard, Attorneys for the bankers.

Alex. Brown & Sons Brown Brothers & Co. Jackson & Curtis Lee, Higginson & Co.

Just for Investment

The whims of a speculative market impress upon security buyers the necessity for seeking bonds which are just for investment. Our organization have chosen, after careful searching, several issues which would, we consider, withstand many of the poundings of international influences. The earnings of the issuing companies will, we believe, go on steadily.

Among these issues are	• •	Rate.	Maturity	Approx. Yield
New York Telephone Co.	First & Gen.	41/28	1939	4.52%
Dayton Lighting Co.	First & Ref.	5s	1937	5.00%
Los Angeles Railway Co.	First Cons.	5s	1938	5.03%
Southern California Edison Co.	General	5s	1939	5.05%
Butte, Anaconda & Pacific Ry.	First	5s	1944	5.07%
Dayton Power & Light Co.	First & Ref.	5s	1941	5.14%
Utah Power & Light Co.	First	5s	1944	5.23%
The Pine Bluff Co.	First	5s	1942	5.25%
Carolina Power & Light Co.	First	5s	1938	5.32%
Pacific Gas & Electric Co.	Gen. & Ref.	5s	1942	5.52%

Preferred Stocks Offer Investment Opportunities

Many preferred stocks offer, we believe, a high degree of safety, combined with an attractive yield. There are a number of issues on our list at this time, but we suggest particularly

UTAH POWER & LIGHT COMPANY
7% First Preferred Stock, to Yield about 6.93%

Send for complete descriptions of this issue and any of the bonds listed above.

THE FINANCIAL SITUATION.

All the commercial and financial markets this week have been under the spell of the peace proposal of the Central Powers (Germany, Austria-Hungary, Bulgaria and Turkey), and judging by its immediate effects the announcement promises indeed to become an occasion of "historical importance" as was proclaimed in Berlin dispatches the day before, when the members of the Reichstag were summoned to attend the special sitting of that body on Tuesday, Dec. 12, to hear the announcement.

All the markets have responded in precisely the way expected. It remains to be seen whether the peace proposition will have any definite results in the way of bringing about peace. The terms upon which Germany is ready to lay down arms have not yet been declared and upon that point, therefore, there is nothing but mere conjecture, though, of course, more or less tangible rumors have found currency as to what Germany is prepared to offer, and these rumors have been of such a nature that the whole peace proposal has met with very cavalier treatment on the part of all the responsible authorities connected with the Entente countries. But the mere possibility that the peace negotiations might be crowned with success has been sufficient to startle all the markets to the realization of the tremendous changes that would be involved in a return to a normal state of affairs, from the abnormal conditions that have prevailed since the beginning of August, 1914, when the great conflict had its advent.

On Tuesday morning, before it became known what the event of "historical importance" which was to convulse the world was to be, German and Austrian exchange rates made new low records. The launching of the German peace proposal caused a sharp upward reaction and the rise has made further progress since then, so that the reichsmark was quoted at 74 cents (the value of 4 marks being the basis of quoting and the value on that basis when German exchange is at par, being 95.28 cents), as against 65¾ on Tuesday morning, and the Austrian kronen being quoted at the close yesterday at 13.25 cents (the value of which when at par is 20.26 cents), as against 10.98 cents Tuesday morning. The recovery here indicates that the financial markets rather look for some measure of success from the peace proposal. Another effect was an immediate rise in the prices of foreign Government securities here, these having suffered badly at the beginning of the month as a result of the pronouncement of the Federal Reserve Board cautioning the member banks against purchasing foreign Government Treasury bills, and warning investors generally against making too ready investments in foreign securities of any kind.

In the grain markets a tremendous collapse in prices occurred. This was on the theory that with the ending of the war the urgency of the foreign demand for our cereals would abate. The May option for wheat in Chicago dropped from \$1 781/8 on Monday to \$1 64 on Tuesday and yesterday got down to \$1 53½. Other grains also suffered severe collapse, the May option for corn, for instance, at Chicago, dropping from 93% cents on Monday to 89 cents on Tuesday and yesterday touching 88 cents. Sugar prices also fell off. This depreciation in these articles of foodstuffs indicates plainly enough that the problem of the high cost of living will be brought measurably near a solution with the termination of very long period of lean business and sparse profits.

the European conflict. Coffee prices, on the other hand, which had been ruling very low because of the cutting off of the German markets, developed firmness on the supposition that these German markets, and the markets generally of the Central Powers, would now again be opened up and a heavy demand for coffee set in as a consequence.

Cotton, too, evinced a rising tendency, on the theory that the German markets previously cut off would now become free buyers, inasmuch as the Teutonic countries have been suffering from a dearth of the staple for over two years. Here however the advance was preceded by a serious break which culminated the day before (Monday) when the ginning report of the Census was made public and it became manifest that this season's yield of cotton in the United States would be considerably larger than those who had engineered the recent great rise had affected to believe. The cotton market had been depressed last week, and on Monday (before there was an inkling what was to come from Germany with regard to peace negotiations) dropped wide open, middling upland spot cotton touching 18 cents against 20.30 cents Dec. 1. On Tuesday there was a recovery to 18.35 cents and yesterday the price was 18.60 cents.

In the stock market there was the inevitable great tumble in the prices of the industrial shares for which everyone had been looking with the first intimation of a definite nature that peace might be in prospect. Liquidation has been on a tremendous scale, and the decline in prices has been of huge dimensions, being naturally proportioned to the previous phenomenal rise. After the sharp downward descent on Tuesday the market steadied somewhat on Wednesday on the supposition that there was little liklihood that the peace proffer would find quick acceptance at the hands of the Entente countries, but on Thurdsay and Friday the liquidation proceeded with renewed vigor. The shrinkage, while of prodigious extent, has proceeded in an orderly fashion. The way the bottom has dropped from under the industrial shares furnishes a striking commentary upon the extent to which the prosperity and great profits of the industrial concerns have come from war orders and also the extent to which the great activity that has been prevailing in all lines of industries has been due to the same circumstances. Plainly the car shortage problem is not going to trouble the country much after peace is declared in Europe.

It is quite likely nevertheless that the decline in the industrial properties will be carried too far under the pressure of liquidation forced by the banks and the fear that many of these industrial concerns which were moribund or in a state of semi-insolvency or complete insolvency when the war broke out will speedily return to the same unfortunate condition. Such a conclusion would be wholly wrong. Not only have most of these concerns orders on their books that will keep their plants busy for a considerable time, but their financial condition is totally different from what it was before the war. While they have made huge profits they have a the same time (or at least most of them) pursued a conservative policy in the distribution of these profits, retaining large amounts in their treasuries as a precaution against future adversity. The more prominent of them are carrying enormous cash balances with their banks, sufficient to tide them over a The shares of these industrial corporations, therefore, are worth a great deal more than they were when the war broke out, and this advantage they will retain, according to present indications, for many a year. Consequently, those who are counting upon the shrinkage in the values of these industrial properties to continue until the former low level of quotations is reached, are basing expectations upon a mistaken assumption and have no true conception of the real status of the properties and their prospects for the immediate future.

Knowledge of these facts should quiet apprehensions as to the possibility that a panicky situation may develop out of the decline in these industrial properties. For the immediate future the decline seems, in any event, likely to proceed in a more leisurely fashion. For many weeks to come varying degrees of probability will attach to the prospects of peace and there will be room for sharp differences of opinion as to the ultimate success of the move. This will furnish opportunity for sharp rallies and also occasion more or less confident buying with each downward dip after the immediate and urgent liquidation now in progress has run its course. Should the negotiations be abruptly broken off, a new lease of life, of course, will be given to the war order business.

There would seem little occasion, therefore, for anxiety. The banks, however, should prepare for possible eventualities. They have been forcing liquidation upon the Stock Exchange and in this they have been well advised. They must not let speculation get out of hand, for their position is not as strong as could be wished, and they must remember that the Aldrich-Vreeland Law is no longer on the statute book to help them out in a possible emergency, and it remains to be seen how far the Federal Reserve banks can be depended on as a substitute.

It is surprising how low the money holdings and surplus reserves of our Clearing House banks are, considering the enormous importations of gold that have occurred. If we compare last Saturday's Clearing House return with the figures in the return for Dec. 31 1915, we find that the gold holdings now are only \$296,641,000, as against \$335,397,000, and total money holdings only \$413,337,000, as against \$490,-049,000, and surplus reserves (even after last Saturday's improvement) no more than \$73,790,840, as against \$145,951,130. It may be thought the banks have weakened themselves by promoting speculating on the Stock Exchange, or making investments in foreign government securities, but as a matter of fact the loan account shows no inordinate increase, the total of loans and investments last Saturday being \$3,330,499,000, as against \$3,257,606,000 Dec. 31 1915. Deposits, too, show comparatively small changes, being \$3,420,018,000 last Saturday as against \$3,466,720,000 at the end of December last year. In tabular form the comparison is as follows:

CONDITION OF NEW YORK CLEARING HOUSE BANKS AND TRUST COMPANIES.

		OMITANIES.	
	Dec. 9 1916.	Dec. 31 1915.	
	\$. \$	\$
Loans	3,330,499,000	3,257,606,000	Inc. 72,893,000
Deposits	3,420,018,000	3,466,720,000	Dec. 46,702,000
Money holdings			municipal solution
Gold	296,641,000	335,397,000	Loss 38,756,000
Silver	51,085,000	77,857,000	Loss 26,772,000
Legal ten-	14		to Carrier Inch
ders, &c	65,611,000	76,795,000	Loss 11,184,000
Total	413,337,000	490,049,000	Loss 76,712,000
Surplus reserve	73 790 840	145 951 130	Loss 72 160 200

Thus the New York banks can hardly be claimed to be in an over extended condition. What has happened is simply that they have lost heavily of reserve money and the reason for that is found in the working of the Federal Reserve Law. The burden of meeting the additional installment of reserves which the member banks were obliged to pay into the Reserve banks in November fell entirely upon them, as we showed last week, and an installment of reserves also had to be transferred last May and that in the same way proved a drain on the money holdings of the New York City institutions, the interior banks ordering their reserve correspondents in this city to pay over the money. As a matter of fact, the installment of reserves that had to be paid in by the member banks in November of last year also had to be met in considerable part by the New York City institutions. Surplus reserve of our clearing house banks were at their maximum Sept. 11 last year, at \$224,-122,990, but from this figure got down to \$145,951,-130 by Dec. 31 of that year.

It is a striking fact that the gold and money holdings of the Federal Reserve Bank of New York have also been reduced in the same interval, although its deposits have been considerably added to. These deposits last Saturday were \$194,526,977, as against \$183,207,122 Dec. 30 1915, but the gold reserve of the bank was only \$148,678,120, as against \$175,-736,937 last year in December, and the legal tender holdings of the Bank also diminished, being only \$1,302,205, against \$7,477,057. If we take into consideration the net holdings of Federal Reserve notes (which in the hands of the bank are the equivalent of gold, being secured by an equal amount of gold) the comparison is still more unfavorable, the net holdings of notes last Saturday having been \$10,463,620, as against \$15,876,710 Dec. 31 1915. We annex the figures in tabular form:

CONDITION OF FEDERAL RESERVE BANK OF NEW YORK.

Dec. 8 1916. Dec. 30 1915.

Reserve deposits 194,526,977 183,207,122 Gain 11,319,855 Govt. deposits 4,725,116 Gain 4,725,116

Total 199,252,093 183,207,122 Gain 16,044,971

Noney holdings—Gold 148,678,120 175,736,937 Loss 27,058,817

Legal tenders and silver 1,302,205 7,477,057 Loss 6,174,852

Total reserve 149,980,325 183,213,994 Loss 33,233,669

Fed. Reserve notes 10,463,620 15,876,710 Loss 5,413,090

Grand total____160,443,945 199,090,704 Loss 38,646,759 Thus the situation as far as monetary conditions at this centre are concerned is that the New York City Clearing House institutions hold \$76,712,000 less cash than at the close of last December and the Federal Reserve Bank of New York holds \$38,646,759 less, making together a diminution of no less than \$115,-358,759. The further gold importations this week should improve the position of both the Clearing House institutions and the Reserve Bank. It seems imperative nevertheless—in view of the possibility of danger involved in developments arising out of the war situation—that the New York City banks should considerably further recruit their strength. It has been made evident that they are still called upon to bear the burden of unusual demands coming from the interior while their control over the gold and the money currents has been measurably weakened, as we showed last week, by the interposition of the reserve system. The situation is one calling for caution as well as study.

The cotton crop estimate of the Department of Agriculture, made public on Monday, in pointing to a yield somewhat in excess of what had been quite generally expected, proved to be an element of marked weakness in the markets for the staple, assisting materially in forcing down prices from the very high level recently ruling. In fact, at New York, the decline immediately following the announcement of the estimate was the greatest instantaneous drop witnessed at any time since the Sully campaign of a dozen years back. With the area under cotton added to largely last spring, and involving an acreage apparently the largest in the history of the country, a yield close to or in excess of that of 1914-15 was believed to be probable. But according to the official reports, adverse weather conditions during the growing season and insect ravages as well, and finally early frosts were instrumental in greatly curtailing production in Atlantic and Gulf sections so that recently majority opinion seemed to have centred around 11 to 111/4 million bales (not including linters) as the season's outcome. Consequently, when a total in excess of that figure, even though only moderately so, was announced, weakness immediately supervened, and although prices recovered somewhat later on, quotations still exhibit a substantial decline from those ruling a week ago.

The Department's estimate foreshadows a yield for 1916-17 (actual growth as distinguished from the commercial crop, or amount marketed between Aug. 1 and July 31—which may be swelled to a more or less appreciable extent by cotton held back last season) of 5,506,896,000 pounds of lint (not including linters), equivalent to 11,511,000 bales of 500 pounds gross weight each. To this must be added to cover linters, close to 1 million bales, making the total yield 12½ million bales, or about 400,000 bales more than the actual growth of 1915-16, but some 4 million bales less than in 1914-15, and $2\frac{1}{2}$ millions smaller than in 1913-14. Analyzing the estimate by States, we find that practically every Atlantic and Gulf State records a loss, with the Alabama crop little more than half that of a year ago. West of the Mississippi, however, gains over last year are general, with the yield in Arkansas a record

The Census ginning report is of interest in connection with the crop estimate, as it indicates that, unless the Department's total is to be exceeded, a much smaller amount of cotton than usual remains to be put in merchantable shape hereafter. It showed that 10,359,346 running bales (excluding linters) of a greater average weight than 500 lbs. gross (somewhere about 515 in fact) had been ginned to the date mentioned, or 655,734 bales more than in the same period of 1915. Waiving this difference in weight, we find that to reach the Department's total, as above, only 1,152,000 bales will have to be ginned from Dec. 1 on, this comparing with 1,365,-000 bales a year ago, 2,832,000 bales in 1914-15 and nearly 2 million bales in 1913-14. Moreover, contrasting the details of this latest ginning statement with those of the crop estimate we see that to reach the totals the latter discloses for Alabama and Louisiana, only 20,000 bales remain to be ginned in each instance, and that in some other States also the work is very unusually well forwarded.

It would seem to us that accepting the Department's estimate as correctly forecasting the size

of the crop, there would still be no reason to fear a dearth of cotton this season and especially with prices ruling so relatively high as to hold consumption in check to some extent. Naturally, however, previously existing surplus stocks will have to be drawn upon materially. The supply of American cotton for the season, as we figure it, and not including stocks of American cotton at mills outside the United States, is as follows: Crop, including linters, 12,500,000 bales; visible supply Aug. 1, 2,088,000 bales; stock at mills North and South, 1,590,000 bales; stock in public storage and compresses, less amount at ports and counted interior towns, 285,000 bales, and stock in private warehouses and on plantations, 500,000 bales, or a total of 16,963,000 bales. Against this we have 7,500,000 bales as the probable consumption in the United States, leaving 9,493,000 bales as otherwise available—to cover exports during the season and the carry over July 31. Under existing conditions this would not appear to spell famine.

The first definite and official move in the direction of peace has occurred this week. It has taken the form of identical notes to the United States, Spain and Switzerland as neutral Powers and also to the Vatican declaring that the Governments of the Central Powers were ready to discuss peace. The neutral Powers were requested to make known the contents of the notes to the nations at war with the Teutonic Allies. Dr. von Bethmann-Hollweg, the German Imperial Chancellor, communicated these facts on Tuesday to the Reichstag, which had been called together in special session for the purpose. The notes containing the peace offer were especially flambouyant, declaring that Germany and her allies had given proof of their unconquerable strength by achieveing important successes with the adversaries superior in numbers and in war material. Recent events had demonstrated, the statement continued, that the prolongation of the war would not be able to break their power of resistance. On the other hand the general situation justified them in hopingforfurther successes. "It was to defend their existence" the note continued "and the freedom of their national development that the four allied Powers were forced to take up arms. The achievements of their armies have not altered this purpose. In not a single instance have they departed from the conviction that respect for the rights of other nations was in no way incompatible with legitimate interests. They do not seek to shatter or annihilate their adversaries." notes, which we print in full on subsequent pages, then conclude:

"Conscious of their military and economic power and ready if necessary to continue to the very end the struggle which has been forced upon them, but inspired at the same time with the desire to stop the flow of blood and to put an end to the horrors of war, the four allied Powers propose to enter forthwith into negotiations for peace. They are convinced that the proposals which they will submit and which aim to insure the existence, the honor and the development of their peoples will be appropriate to serve as a basis for the re-establishment of a permanent peace.

"If, despite this offer of peace and reconciliation, the struggle should go on the four allied Powers are determined to continue it to the end, disclaiming solemnly before humanity and history responsibility

herefor."

The first reception that this important news received in many quarters was not cordial. The tendency was to regard the move as an adroit but insincere attempt to divide the Entente Powers and also an attempt to reinforce the position of the German war machine at home, where the situation was believed to be becoming an unmanageable one. In the latter-named circumstances, if the burden of continuing the war could be placed squarely upon the shoulders of the enemy, a substantial moral advantage would undoubtedly have been gained. Later, however, the peace offering seemed to receive consideration in a more serious light as marking the beginning of negotiations that, if not immediately, would sooner or later culminate in a suspension of hostilities.

The effect of the publication of the note was to cause extreme excitement on the New York Stock Exchange, where prices, especially of the so-called war stocks, were forced down in a sensational way. At Tokio the Stock Exchange was closed to protect the market there from a threatening panic. Japan, like our own country, has derived enormous benefits from war orders from the Entente Powers. New corporations in great numbers have been formed, their securities being listed on the Tokio Exchange. When the news of the peace overtures was received, liquidation of these securities ensued on such a large scale that it was, as already noted, deemed necessary to suspend business.

The attitude of the Entente Governments toward the proposals, so far as it has been shown unofficially, has been one of doubting the genuineness of the motives behind the overtures. On the other hand, the statements reflect the belief, already alluded to, that Germany and her allies are in bad shape from an economic and supply standpoint, and are willing to offer attractive terms for a prompt ending of the embarrassing conditions. There have been no official or even responsible semi-official statement of the terms which the German Chancellor will propose if invited to name them by the Entente Powers. is significant, however, that almost identical statements have been published in Switzerland, Holland and in our own country, which seem to have emanated from semi-official German circles. The statements in brief are:

A restoration of the status quo existing before the war. This includes the evacuation of Belgium and the restoration of the occupied portions of northern France, with the exception of Alsace and Lorraine.

All Germany's lost colonies to be returned. Her possessions in the Pacific are not deemed important, and the Berlin Government is understood to be ready to relinquish the claim on Kiau Chau.

The security of Turkey in possession of Constantinople probably would be insisted upon by the Central Powers, as well as the restoration of Albania.

The establishment of independent kingdoms in Lithuania and Poland would be one of the factors in the German proposal, although that part of Poland possessed by Germany at the outbreak of the war would not be included.

What adjustment would be made to cover the Trentino region between Austria and Italy, or any provisions affecting Egypt, the Suez Canal, Mesopotamia or the gateways of control to the Indian Empire are not made clear in German quarters here. The Balkan situation is considered so delicate it would have to be untangled in the peace conference.

Our own State Department it is understood will merely transmit the notes to the Entente Govern-

ments with no other statement than that the President is ready to forward any reply to the Central Powers. In the absence of the official copies of the notes and of the terms that Germany has decided to offer there has been only a more or less general instead of specific reference to the action in foreign official circles. The position of Great Britain, however, was very clearly stated by the new Chancellor of the Exchequer, Andrew Bonar Law in the House of Commons on Thursday. In part he said:

"Something has happened of which I think it necessary that I should say a word. Naturally the newspapers are full of the peace proposals from Berlin. Until now no proposal has reached His Majesty's Government. It is obvious that in these circumstances no member of the Government can make any statement on the subject, and in my view it would be better that very little should be said in the House of Commons.

"There is one thing which even at this stage I think it necessary to say. In moving the last vote of credit the late Premier in a peroration which moved the House and the nation, used these words: 'They [the Allies] require that there should be adequate reparation for the past and adequate security for the future.'

"That is still the policy, still the determination, of His Majesty's Government."

Another answer of a very practical character was made by the Chancellor, namely that provision had been made for an additional one million men of all ranks for the army service during the present financial year. The original estimate was for four million men. The Chancellor moved a vote of credit of £400,000,000 (\$2,000,000,000), the motion being unanimously adopted.

In Paris the Premier, M. Briand, denounced the German offer as a trap and declared in the House of Deputies that he would ask for increased power with which to carry on the war. The Premier referred to the French success at Verdun and the gains made on the Somme. He derided Germany for her claim of victory while at the same time it was taking such a measure as what he termed the militarizing of the entire population. The Chamber applauded unanimously when he affirmed that the war government of France would not follow the policy of Germany. He asked, however, for power to regulate all questions concerning the national defense including the possibility of requisition, but said that if the latter step was considered necessary it would not be carried out considerately. The Premier concluded by saying that the German proposal was a manoeuvre to separate the Allies, disturb the conscience and demoralize the people of the French Republic.

At Petrograd, to quote an Associated Press dispatch, the German proposal is regarded by the Russian Government as "an attempt to court puble opinion and encourage the people of Germany by appearing to put the responsibility for a continuation of the war upon the Entente Powers." An official of the Russian Foreign Office concluded a long statement which was issued by the semi-official Petrograd news agency as follows:

"We are sure that this new enterprise of the disturbers of peace will lead no one astray, that it is condemned to failure, like the previous efforts.

"The Entente Powers would assume a terrible responsibility before their peoples, before all humanity, if they suspended the struggle against Germany's latest attempt to profit by the present situation to implant her hegemony in Europe. All

the innumerable sacrifices of the Allies would be nulified by a premature peace with the enemy, who is exhausted but not yet brought down.

"The firm determination of the Entente Powers to continue the war to a final triumph can be weakened by no illusory proposals of the enemy.'

Next in point of interest to the peace proposals has been the changes that have taken place in foreign Ministries. Official announcement was made last Saturday night that a new British Government had been constituted with a War Cabinet comprising the following:

David Lloyd George, Premier.

Lord Curzon, Lord President of the Council (also Government leader in the House of Lords).

Arthur Henderson, Minister without portfolio.

Lord Milner, Minister without portfolio.

Andrew Bonar Law, Chancellor of the Exchequer (also leader in the House of Commons).

The other members of the Ministry who are not in the War Cabinet are:

In the War Cabinet are:

Lord High Chancellor, Sir Robert
Bannatyne Finlay.
Secretary of State for the Home Department, Sir George Cave.
Secretary of State for Foreign
Affairs, Arthur J. Balfour.
Secretary of State for the Colonies,
Walter Hume Long.
Secretary of State for War, the Earl of Derby.
Secretary of State for India, Austen
Chamberlain.
President of the Local Government
Board, Baron Rhondda.
President of the Local Government
Board, Baron Rhondda.
President of the Local Government
Board, Baron Rhondda.
Sir Albert Stanley.
Minister of Labor, John Hodge.
First Lord of the Admiralty, Sir
Edward Carson.
Minister of Munitions, Dr. Christopher Addison.
Minister of Blockade, Lord Robert
Cecil.
Food Comptroller, Baron Davonport.
Shipping Comptroller, Sir Joseph
Paton Maclay.

Other more bore of the Colonies,
College M. Mond.
Chancellor of the Duchy of Lancaster, Sir Frederick Cawley.
Postmaster-General, Albert Illing-worth.
Minister of Pensions, George N.
Barnes.
Attorney-General, Sir Frederick E.
Smith.
Socilctor-General, Gordon Hewart.
Secretary for Scotland, Mr. Munro.
Under Market M. Mond.
Chancellor of the Duchy of Lancaster, Sir Frederick Cawley.
Postmaster-General, Albert Illing-worth.
Minister of Pensions, George N.
Barnes.
Attorney-General, Sir Frederick E.
Smith.
Socilctor-General, Gordon Hewart.
Secretary for Scotland, Mr. Munro.
Under Market M. Mond.
Chancellor of the Duchy of Lancaster, Sir Frederick Cawley.
Postmaster-General, Albert Illing-worth.
Secretary for Scotland, Mr. Munro.
Cord Advocate, James A. Clyde.
Solictor-General for Scotland Thomas B. Morison.
Wimborne.
Chief Secretary for Ireland, Baron Wimborne.
Chief Secretary for Ireland, Sir Ignatius J. O'Brien.

Other members of the Cabinet who ordinarily have been designated Cabinet Ministers now are called heads of departments. The War Cabinet will hold daily sessions, directing the prosecution of the war. The freedom of its members from departmental duties will permit them to devote all their time to the war council. The work of the Exchequer and the Government leadership in the House of Commons will absorb most of Bonar Law's time, necessatating his absence from the Council frequently, so that the remaining four members will from now on be the chief directors of the war. The most important of the new members are the food and shipping controllers. The former, Baron Devenport, has been Manager of the Port of London, a post requiring first rate business ability, and Sir Joseph Maclay, the shipping commissioner, is one of the great Scottish shipowners. Business is further represented by Baron Rhonda, who is a coal mining magnate at the Local Government Board; by Sir Albert Stanley, at the Board of Trade; by Sir Alfred Mond, a manufacturer, as First Commissioner of Works, and by Frederick Cawley and Albert Illingworth.

In France, too, there has been a concentration of war control. On Tuesday formal announcement was made of the completion of a new Cabinet containing a special war council of five members. Nivelle, commander of the French troops at Verdun, has been appointed Commander-in-Chief of the armies of the north and northeast. The official announcement of this appointment says that it is the first step toward the reorganization of the higher commands. It is suggested that Gen. Joffre may be appointed to head the military council of the Allies, retaining the title of Commander-

in-Chief and receiving the rank of Marshal. members of the War Council comprise:

Premier and Foreign Minister—Aristide Briand.

Minister of Finance—Alexandre Ribot.

Minister of War—General Hubert Lyautey.

Minister of Marine-Rear Admiral Lacaze.

Minister of National Manufactures, including Munitions and Transport-Albert Thomas.

Other members of the Cabinet are as follows:

Minister of Public Instruction—Paul Painleve.

Minister of the Interior-Louis J. Malvy.

Minister of Commerce and Agriculture-Etienne Clemen-

Minister of National Subsistence and Labor-M. Herriot. Minister of the Colonies-Gaston Doumergue.

Minister of Justice and Public Works-Rene Viviani.

Three Under Secretaries will also be members of the Cabinet under M. Thomas, namely M. Loucheur, for Muitions; Albert Claveille, for Transportation, and Justin Godart, for Sanitary Service.

General Lyautey, the new Minister of War, has been Governor of Morocco for the last five years. M. Herriot is

Mayor of the City of Lyons.

The Austrian Ministry also has resigned, a fact that is attributed in Vienna papers as due in part to the opposition of a number of German speaking deputies to the reopening of Pariament and in part to a desire to reach a solution of the quesion of a compromise between Austria and Hungary on the lines proposed by the Ministry of the late Count Karl Stuergkh. Alexander Spitzmueller who has been asked to form the new Austrian Ministry was a member of the Stuergkh cabinet, playing an important part in the negotiations with Hungary on the compromise question.

Bonar Law, the British Chancellor, in moving for the new British war credit on Thursday announced that the daily average expenditure of Great Britain in the war had risen to £5,710,000. The actual expenditure had exceeded the estimate owing to the increase in munitions and additional loans to Great Britain's allies and to her Dominions. "Financially," he continued, "we cannot hope to go on indefinitely on the present scale, but we can go on long enough to make sure that it will not be from financial causes if we fail to obtain victory." The Chancellor said the total amount of votes of credit since the outbreak of the war was £3,852,000,000 (\$19,260,000,-000), including £32,000,000 (\$160,000,000) for extra administration expenses. Assuming the rate of expenditure was the same as at present, the vote would carry them until Feb. 24. The budget estimate of the financial year, Mr. Law said, was exceeded by £350,000,000 (\$1,750,000,000). Loans to allied governments amounted to £400,000 (\$2,000,-000) daily. The enormous increase in output of munitions was emphasized by the Chancellor, who said that if he could give the figures of June 1915 and those of to-day the difference would be almost incredible.

Reginald McKenna, the Chancellor under Mr. Asquith, congratulated Bonar Law on his speech, thus showing the entente cordiale existing between the old and new Governments. He then made the following interesting statement concerning operations through the medium of dollars:

"We are bound to supply munitions to the full extent of our capacity, and we are bound likewise to meet all the demands of our allies, so far as we are able. The extent of our ability to meet those demands is enormous, but there is one restriction: namely, that it will not be easy to convert sterling wealth into dollar wealth. We must pay in dollars for what we buy now all over the world, and that is the limit of our power to help our allies."

Touching on the large increase in the expenditure during the last two months, Mr. McKenna said:

"Mr. Bonar Law mentioned that our average daily expenditure for the last sixty-three days reached £5,700,000 (\$28,500,000), but in that period there were brought into the account large sums expended in the United States, which ought to have been brought into the charges of an earlier period. I believe that the true daily expenditure now is about £5,500,000 (\$27,500,000). Therefore, we may hope that the estimate of £1,950,000,000 (\$9,750,000,000) for the financial year will not be exceeded."

As to the actual military operations this week there has been a distinct lull, which must in large measure be ascribed to seasonal weather. Nevertheless, a German attack on Lassigny, that part of the front nearest to Paris, was made on Thursday in force, but was repulsed. It appears to have been concerted to coincide with von Bethmann-Hollweg's note, probably with a view of impressing the French with a local success.

So far as the Rumanian campaign is concerned while there have been numerous reports of "stands" being made by the retreating Rumanians, it seems settled that the Teuton forces have obtained virtually complete control. Yesterday's reports stated that they had captured Buzeu, the great railway and petroleum centre, located seventy miles northeast of Bucharest. Pressure is still being exerted upon King Constantine of Greece to force a definite position and definite guarantees against attacks on the Allied troops. It is understood that Constantine has again yielded to the demands of the Allies presented to the Greek Government yesterday. They were in the nature of an ultimatum. All Greek troops are to be withdrawn from Thessaly, according to the demands, and only a certain number of soldiers are to be concentrated in Peloponnesus. The demands for reparation for the events of Dec. 1 and 2, when fighting took place between Entente landing forces and Greek troops, are to be formulated later. Encounters are reported between Royalist troops and a French detachment near Esyterine, but no confirmation has been received.

The Plebiscite, held in Denmark, on the question of the sale of the Danish West Indies to the United States resulted in 283,000 votes being cast in favor of the sale, and 157,000 votes against. This means that the matter will now come up in the Riksdag, the Danish Parliament. A treaty for the sale of the islands was concluded between the United States and Denmark on Aug. 1, the purchase price being fixed at \$25,000,000. The treaty was ratified by the United States Senate on Sept. 7. Opposition developed in Denmark, but this apparently has finally been overcome.

The financial markets in London have ruled more or less idle, reflecting a widespread disposition to do nothing until time has been afforded for a calm appraisal of the two momentous events in the week's news, namely, the change in the Cabinet and the peace proposals from Berlin. The illness of Lloyd George, the new Premier, has prevented definite statement of the new Government's war program,

except that Bonar Law, the new Chancellor of the Exchequer, on Thursday, in asking a new credit, declared that the position of the new Government is identical with that announced by the ex-Premier, Mr. Asquith, when requesting the previous credit, namely, reparation for what has been done and a guaranty for the future. Francis W. Hirst, cabling from London to the New York "Tribune," declares that the approach of famine conditions everywhere has produced an atmosphere of sobriety throughout England. He hears that an official proposal will soon be made to adopt the Australian system of minimum or protected prices with minimum wages for agriculture, thus uniting landlords with the labor interests. The London Stock Exchange and English provincial stock exchanges will be closed on Dec. 23 to 26 inclusive and on Jan. 1. An Associated Press correspondent at London declares that in financial circles there is no inclination to view Germany's offer to open peace negotiations with any more enthusiasm than was displayed in the instance of previous suggestions. Prominent bankers refused to express opinions in view of the absence of news regarding the actual terms of the offer. Little, however, seems to be expected as a result of the offer at present, though the hope is expressed in many quarters in the money market that the Entente Powers would not rush into "an inconclusive peace."

In Lombard St. money rates were practically unaffected; but in the exchange market, which perhaps is the most sensitive to political movements, the tone was a shade uncertain, though the only movement of note on Wednesday—the day following the announcement—was the decline of a point in Petrograd exchange. The absence of speculation precluded any excited dealings or movements in prices such as were experienced in Wall Street. In New York demand bills on Berlin rose to 74, though the closing quotation was $73\frac{1}{2}$, against $65\frac{3}{4}$ on Tuesday. Austrian kronen reached 13.25, against 10.98 early on Tuesday. Shipping shares in London have not been depressed as a result of the appointment of a new shipping Controller. Ship owners hope that arrangements may be made to facilitate the unloading of cargoes and for more economical employment of tonnage. Shipping combinations develop. The Cunard continue to it is reported, is about to purchase the Canadian Pacific Railway's Atlantic fleet. It is stated that the Canadian Pacific intends to devote attention to developing its Pacific trade, and that, for this purpose, the purchase of control of the Union Steamship Co. of New Zealand is under consideration.

There has been no change in the Bank of England rate and no definite developments in connection with the proposed new long-term war loan. The change in Cabinet may, to a large extent, be charged with responsibility for this delay. The new Chancellor of the Exchequer is credited with a desire to finance the war more by taxes and less by loans. It is more than likely, too, that action will be still further delayed in view of the German peace proposals, however unlikely may be the view that these proposals will not be entertained seriously. There is, for instance, an apparent undercurrent of feeling that despite their military victory in Rumania, the Central Powers may be suffering internally to such an extent as to name terms of peace sufficiently broad to be acceptable to the Entente countries. At any rate it seems fair to assume that the new Government will not be inclined to announce a new long-term loan whose automatic effect will be to raise at one stroke the interest on former loans, until there is full assurance that such a new large loan will be required at all, and therefore that the necessity does in fact exist for raising the interest on all long-term obligations. The strength that developed in money circles in New York furnished additional incentive for the delay that has taken place in offering the new war loan. The revenue for the United Kingdom for the week (as reported on Dec. 13), amounted to £9,827,000 and the expenditures, £16,455,000. The amount of Treasury bills outstanding increased £583,000 for the week. Sales of Exchequer bonds were £9,480,000.

In France, as in England, security markets have attracted slight attention owing to the changes in the Ministry and in the direction of the war. Ribot, however, remains Minister of Finance. a statement issued during the Ministerial crisis he said: "I put out two loans which passed expectations. I put out Treasury bonds for which the public subscribed by billions a month. Still our floating debt is only 25% of the funded debt, while the floating debt of England is 40% of her funded debt. Thus, you see, our situation is good." M. Ribot gave new figures on the gold turned into the Bank of France. On Nov. 28 it reached 1,943,000,000 francs, which exceed by two or three times all calculations. A nearly equal sum has been exported. France supplied gold to England to enable her to keep up her gold standard.

Raoul Peret, former Minister of Commerce, discussing in the Chamber of Deputies on Saturday last on behalf of the Appropriations Committee the budget for the first three months of 1917, pointed out that France would have incurred expenditures to the amount of 72,600,000,000 francs (\$14,520,000,-000) between the opening of hostilities and the end of March next, while Great Britain in the same period would have made an outlay of 90,000,000,000 francs. This statement drew exclamations from the Deputies to the effect that Great Britain "is thus proved to have collaborated cordially and completely." M. Peret contrasts the resources with the expenditures made and authorized amounting approximately to 63,700,000,000 francs, as follows: 10,200,000,000, tax receipts; 38,700,000,000, short and long term bonds of France; 5,600,000,000, loans from England and the United States; 9,000,000,000, advanced by the Bank of France; 200,000,000, advanced by the Bank of Algeria. This leaves an apparent deficit of 8,900,000,000 francs. M. Peret said that this did not represent the actual expenditures, but the authorized outlay, and that of the appropriations for 1914 included in the total 700,-000,000 francs was annulled. He added that the cancellations for 1915 would be proportionately large, and before the total remaining net amount was due several months would elapse. "France has paid when due every debt incurred," he continued. spite of the apparent discrepancy between the appropriations and the receipts anxiety for the future."

Official rates at the leading European centres continue to be quoted at 5% in Paris, Vienna and Copenhagen; 5½% in Italy, Sweden, Portugal and Norway; 6% in London and Petrograd, and 4½% in Switzer
years ago, respectively. General deposits total 2,021,810,000 francs. Last year the amount was 2,214,156,447 francs and in 1914 947,575,000 francs. Bills discounted amount to 575,431,000 francs, com-

land, Holland and Spain. In London the private bank rate has remained at $5\frac{1}{2}$ @ $5\frac{5}{8}$ % for sixty-day and ninety-day bills. Cables from Berlin still give $4\frac{7}{8}$ % as the nominal private bank rate at that centre—an advance of $\frac{1}{4}$ % for the week. No reports have been received by cable of open-market rates at other European centres as far as we have been able to learn. Money on call in London has not been changed from $4\frac{3}{4}$ %.

The Bank of England in its weekly return showed another loss in its gold item of £836,806 this week. Notes in circulation were expanded £99,000; consequently, the total reserve was decreased £936,-000, and the proportion of reserve to liabilities declined to 21.70%, against 21.79% last week and 23.55% a year ago. Public deposits this week decreased £1,205,000 and other deposits £2,420,000. Government securities continue without change. Loans (other securities) were reduced £2,690,000. The English Bank's holdings of gold aggregate £55,-105,924, which compares with £50,281,182 a year ago and £72,414,101 in 1914. Reserves now stand at £35,599,000, as against £34,464,372 in 1915 and £55,272,166 the year previous. Loans total £104,-059,000. A year ago the amount was £96,856,303 and in 1914 £116,481,844. The Bank reports as of Dec. 9 the amount of currency notes outstanding as £124,058,127, against £122,022,217 a week ago. The amount of gold held for the redemption of such notes remains at £28,500,000. Our special correspondent is no longer able to give details by cable of the gold movement into and out of the Bank for the Bank week, inasmuch as the Bank has discontinued such reports. We append a tabular statement of comparisons:

The Bank of France in its weekly report shows the further increase in its gold holdings of 11,240,600 francs, the gain this time being all in the amount held by the Bank itself, the balance held abroad remaining unchanged at 1,385,185,950 francs. The total gold holdings, both at home and abroad, aggregate 5,066,-013,725 francs. Last year at this time the total (all in vault) was 5,026,399,110 francs, and the year preceding 4,141,350,000 francs. In the silver item there was a reduction for the week of 3,035,000 francs. Total silver on hand amounts to 313,633,000 francs, as compared with 357,721,603 francs in 1915 and 625,325,000 francs in 1914. Note circulation showed further expansion to the extent of 85,946,000 General deposits increased 68,897,000 francs and bills discounted 17,448,000 francs, while Treasury deposits fell off 41,716,000 francs and the Bank's advances decreased 2,030,000 francs. Note circulation is now 16,383,952,000 francs, against 13,449,-502,520 francs and 6,683,175,000 francs, one and two years ago, respectively. General deposits total 2,021,810,000 francs. Last year the amount was 2,214,156,447 francs and in 1914 947,575,000 francs. paring with 366,754,461 francs last year and advances are 1,348,183,000 francs against 1,150,083,698 francs in 1915. In 1914 bills discounted and advances combined aggregated 3,202,975,000 francs. Treasury deposits stand at 26,654,000 francs. A year ago they amounted to 2,236,748,361 (having risen from 155,-849,134 francs the week preceding as a result of subscriptions to the war loan), and in 1914 to 382,575,-000 francs. The figures here given for 1914 are those for the week ending July 30, the Bank having discontinued the publication of weekly returns with the outbreak of the war.

The Imperial Bank of Germany in its weekly statement, as of Dec. 7, shows the following changes: Total coin and bullion increased 161,000 marks; gold increased 271,000 marks; Treasury notes decreased 51,758,000 marks; notes of other banks expanded 2,601,000 marks; bills discounted were reduced 145,003,000 marks; advances decreased 905,000 marks; investments increased 14,779,000 marks; other securities gained 689,000 marks; notes in circulation recorded an expansion of 68,230,000 marks; deposits registered the large reduction of 238,252,000 marks, and other liabilities declined 9,414,000 marks. The Bank's gold holdings aggregate 2,518,758,000 marks, which compares with 2,436,197,000 marks a year ago and 2,018,931,000 marks in 1914. Combining loans and discounts the total is 6,944,577,000 marks, against 5,055,500,000 marks in 1915 and 2,081,320,000 marks the year preceding. Circulation is 6,940,274,000 marks. year ago it was 6,040,890,000 marks and in 1914 4,229,928,000 marks.

In local money circles there was again a temporary flurry early in the week, call loan rates on the Stock Exchange on Monday reaching 10%, though on that day 3\%\% was the ruling rate, while on Tuesday 6\% was both the highest and renewal basis. As the week advanced an easier tone became obvious, further large importations of gold from Canada aiding materially in this respect, while active liquidation of Stock Exchange securities had, too, the natural effect of increasing the floating supply of funds. Lenders are inclined to maintain previous rates for time commitments. The demand may not be said to be of an urgent character. In fact, the more general disposition seems to be to await the course of events during the next two weeks or so, which will show whether the preparations for the usual New Year dividend and interest disbursements will pass without effecting another temporary advance in rates. After the turn of the year there seems a tendency to look for a more settled feeling in money circles, especially if liquidation of speculative accounts in the stock market shall proceed with anything like the vigor that has marked the week now closing.

Referring to money rates in detail, loans on call did not get above 10% this week, and the range was $3\frac{1}{4}@10\%$, against 3@15% a week ago. On Monday the maximum was advanced to 10%, although the low was at $3\frac{1}{2}\%$ and renewals at $3\frac{3}{4}\%$. Tuesday's range was 4@6% and 6% the renewal basis. On Wednesday $4\frac{1}{2}\%$ was the high and ruling figure and $3\frac{1}{4}\%$ the low. Thursday the range was $3\frac{1}{2}@4\%$ with 4% the renewal rate. On Friday 6% was the maximum, with 4% low and 6% the basis for renewals. In time money, last Saturday's strong bank statement induced a somewhat easier tone dur-

ing the early part of the week; later, however, firmness again became evident, more especially in the shorter maturities, and sixty and ninety-day bills were advanced to $4\frac{1}{4}@4\frac{1}{2}\%$, against 4%, although four, five and six months' money remained at 4@ 41/4%, unchanged. Trading was dull and rates more or less nominal in character. Last year sixty-day money was quoted at $2\frac{1}{4}$, ninety days at $2\frac{1}{2}$, four months at $2\frac{1}{2}$ @ $2\frac{3}{4}$ % and five and six months at $2\frac{3}{4}$ %. Commercial paper rates were not changed from 3\(^4\)@4\(^6\) for sixty and ninety days' endorsed bills receivable and six months' names of choice character, while names less well known still require 4@41/4%. The Federal Reserve Bank at New York on Thursday advanced its open market rate for prime member bank acceptances from $2\frac{3}{4}$ to $2\frac{7}{8}$ % for sixty days and to 3% for ninety-day bills. In sympathy, open market rates were advanced, banks' and bankers' acceptances at the close being quoted as follows:

ì		spot Delivery		Delivery

The Federal Bank of Boston announces that the discount rate on commercial paper running to ten days is now $3\frac{1}{2}\%$, against 3% previously, while the discount rate on commercial paper for eleven to ninety days is 4%; the rate from eleven to thirty days had been $3\frac{1}{2}\%$, while beyond that to ninety days the rate was 4%. The discount rates of the different Reserve banks for the various classes of paper are shown in the following:

OPEN MARKET DISCOUNT AND PURCHASE RATES OF FEDERAL RESERVE BANKS.

Bankers Acceptances.—Authorized discount rate for all Federal Reserve banks; minimum, 2%; maximum, 4%.

Trade Acceptances.—Bills with maturities of 90 days or less, purchased in open market without member bank endorsement, by New Orleans branch of Atlanta Federal Reserve Bank; 3% to 4%.

Commercial Paper.—Bilis purchased in open market by Dalias Federal Reserve Bank; 3 to 5%.

Bills of Exchange.—Bills purchased in open market by Atlanta Federal Reserve Bank; 3½ to 5½%.

Bills With or Without Member Bank Endorsement.—Bills with maturities of 90 days or less pure as d in open market by St. Louis Federal Reserve Bank; 2 to 4%.

The weekly statement of New York Clearing House banks and trust companies, issued on last Saturday, showed substantial improvement, and reflected in some measure the extensive calling in of loans and the heavy gold imports of the week. Loans were again reduced—\$39,599,000. Net demand deposits decreased \$28,597,000, although net time deposits registered a small increase, viz., \$152,000. In consequence of the reduced requirements, aggregate reserves gained \$27,364,000, now standing at \$633,-165,000, against \$738,767,000 a year ago. The reduction in the required reserve was \$5,425,530, and

surplus reserves as a result were expanded \$32,789,-530, which brought the total of excess reserves up to \$73,790,840, which is still much below the large total of \$179,116,110 at the corresponding date in 1915. Reserves in "own vaults" increased \$23,744,000 to \$413,337,000, of which \$347,726,000 is specie. A year ago the total in own vaults was \$526,363,000, including \$467,986,000 in specie. Reserves in Federal Reserve vaults were also increased, \$4,019,000, to \$166,078,000, as against \$157,443,000 last year. Reserves in other depositories declined \$399,000, to \$53,750,000. This contrasts with \$54,961,000 the year preceding. Note circulation is \$28,787,000, a reduction of \$889,000. The bank statement is given in fuller detail in a subsequent section of this issue.

Conditions in sterling exchange circles have not been spectacularly affected either by the German peace proposals or the nervous conditions that have developed in our own money situation. Rates for bills on London continue to be maintained arbitrarily, fluctuations being confined to the smallest fractions for demand bills while other documents have scarcely changed at all. This simply adds to previous testimony that the control of affairs is in the hands of the British Treasury, which is sending gold to this centre in sufficient amounts to maintain quotations and to spread ease in money rates at this centre. The gold engagements for imports this week have included \$27,000,000, comprised of \$8,000,000 to Philadelphia and \$19,000,000 to New York. Exports have been confined to \$700,000 to Cuba.

Compared with Friday of last week sterling exchange on Saturday was firm and practically unchanged: demand was quoted at 4 7555, against the previous range of 4 75½@4 75 9-16, while cable transfers continued at 4 76 7-16 and sixty days at 4 715%. On Monday the opening was firm, but in the late afternoon under the influence of a renewal of the flurry in call money and a further substantial decline in Anglo-French bonds, a somewhat easier tendency became evident, with demand 5 points lower at 4 7550 @4 7555, although cable transfers and sixty days remained at 4 76 7-16 and 4 715/8, respectively. Announcement on Tuesday of Germany's willingness to discuss peace terms had little or no effect upon sterling quotations, which ruled all day at 4 76 7-16 for cable transfers and $4.71\frac{5}{8}$ for sixty days, unchanged; demand bills were fractionally easier, at $4.757-16@4.75\frac{1}{2}$. Wednesday's market was quiet but steady; further gold imports and buying of cables by J. P. Morgan & Co. were sustaining influences and demand ranged at 4 7545@4 75½, while cable transfers were still pegged at 4 76 7-16 and sixty days at 4 71%. Peace talk as well as additional gold arrivals induced increased firmness on Thursday, with a fractional advance in demand to 4 75½@ 4 7555; cable transfers and sixty days, however, ruled at the previous day's levels. On Friday the market became strong. Closing quotations were 4 72 for sixty days, 4 7555 for demand and 4 7645 for cable transfers. Commercial sight finished at $4.75\frac{1}{2}$, sixty days at $4.71\frac{1}{8}$, ninety days at 4.69, documents for payment (sixty days) at 4 711/8 and seven-day grain bills at 4 743/4. Cotton and grain for payment closed at 4 75½@4 75 9-16.

The Continental exchanges have experienced another week of nervousness and irregularity, and in some instances sensational advances. In German in the principal European banks:

and Austrian exchange opening transactions were at a new low level, with sight bills on Berlin nominally at 65% and Austrian kronen at 11.00. But when Germany's peace proposals were announced, both reichsmarks and kronen at once responded by a sharp rise, the former to 74 and the latter to 13.30. Francs were well maintained, having in fact ruled at substantially higher levels, while rubles also were firm. Lire early in the week were heavy, declining to as low as 6 91½ for sight bills, the lowest point on record, attributed to reports of internal troubles and the strained condition of Italian finances. Later they participated in the firmness in other quarters. The sterling check rate on Paris closed without change at $27.81\frac{1}{2}$. In New York sight bills on the French centre finished at 5 83½, against 5 85½; cables at 5 82½, against 5 85; commercial sight at 5 84, against 5 $85\frac{1}{2}$, and commercial sixty days at $5.88\frac{1}{2}$, against 5.90 last week. Demand bills on Berlin closed at $70\frac{1}{2}$, which compares with $66\frac{5}{8}$, and cables at 73\(^3\)4, against 66 7-16 a week ago. Kronen finished at 13.30, against 11.25. Rubles closed at 30.25, compared with 29.35 on Friday of last week. Lire finished at 6 69 for bankers' sight and $6.68\frac{1}{2}$ for cables. A week ago the close was $6.85\frac{1}{2}$ and $6.79\frac{1}{2}$, respectively.

As regards the neutral exchanges a considerable degree of excitement was also in evidence. Swiss exchange, under the stimulus of extensive buying, attributed to speculative interests, moved up to 4 98 for checks, which constitutes another new high record and compares with a rate of 5 20 quoted about a month ago. The close was 5 03. Pesetas continue strong. Rates of Scandinavian exchange were firmer, and guilders were stronger. Bankers' sight on Amsterdam closed at 40\%, against 40 13-16; cables 40 15-16, against 40\%; commercial sight at 40 11-16, against 40 11-16, and commercial sixty days at 405/8, against 40 9-16 last week. Swiss exchange finished at 5 03 for bankers' sight and 5 01 for cables, compared with 5 $12\frac{1}{2}$ and 5 $11\frac{1}{2}$ a week ago. Greek exchange (which must still be regarded as neutral) has remained at 5 12 nominal for sight bills. Copenhagen checks closed at 27.00, against 27.05. Checks on Norway finished at 28.00, comparing with 27.80 and checks on Sweden closed at 28.90, against 28.90 the previous week. Spanish pesetas finished at 20.60, as against 21.35 on Friday of last week (inadvertently given as 20.35 in last week's issue).

The New York Clearing House banks, in their operations with interior banking institutions, have lost \$1,425,000 net in cash as a result of the currency movements for the week ending Dec. 15. Their receipts from the interior have aggregated \$7,252,000, while the shipments have reached \$8,677,000. Adding the Sub-Treasury and Federal Reserve operations and the gold imports, which together occasioned a gain of \$6,913,000, the combined result of the flow of money into and out of the New York banks for the week appears to have been a gain of \$5,488,000, as follows:

Week ending Dec. 15.	Into Banks.	Out of Banks.	Net Change in Bank Holdings.		
Banks' interior movement Sub-Treas.& Fed.Res.op.&goldimpt.	\$7,252,000 40,556,000	\$8,677,000 33,643,000			
Total	\$47,808,000	\$42,320,000	Gain \$5,488,000

a Gold holdings of the Bank of France this year are exclusive of £55,407,438

The gold holdings of the Bank of Russia for both years in the above statement we been revised by eliminating the so-called gold balance held abroad.

c July 30 1914 in both years. h Aug. 6 1914 in both years.

GERMANY'S MOVE FOR PEACE.

All other considerations bearing on the war were necessarily superseded by last Tuesday's proposal of the German Government for discussion of terms of peace. The announcement to that effect from Berlin appeared to take the markets and the community at large entirely by surprise; yet reasons already existed for expecting some such news. It has been perfectly evident, for more than a year past, that the German Government has been more anxious for peace than the Allies. Whether this was due to a very unfavorable economic situation in Germany and Austria (a suggestion to which the heavy break in Berlin and Vienna exchange, at the very moment of the Teutonic victories in Rumania, lends some plausibility), or to belief at Berlin that time is working against the Central Powers in a continued war, or to growing uneasiness as to the longer results of Germany's continued loss of her foreign trade, or merely to conviction that the war as a whole is a deadlock and should, therefore, be ended on the best terms obtainableall these theories are purely a matter of debate.

But actual events have left no doubt that the German Government long ago resolved to use every occasion of its own success in the field to press. directly or indirectly, for termination of the war. Russia's defeat in the Carpathians during the summer of 1915 is known to have been followed by secret negotiations for a separate peace with Russia. The victory over Serbia a year ago was followed by the roundabout peace overtures of Buelow in Switzer-To-day the victory land and through the Vatican. over Rumania has manifestly been regarded as providing a proper occasion for renewing similar overtures, more publicly and directly. We suggested our own belief, two weeks ago, that the fall of Bucharest might logically be followed by precisely such action from Berlin.

This week's German overtures take the form of a note to the neutral Powers and the Vatican, outlining in general terms the motives of Berlin in seeking peace. This war, the note declares, is "a catastrophe . . . which injures the most precious achievements of humanity." "The spiritual and material progress which were the pride of Europe at the beginning of the twentieth century are threatened with ruin." Therefore, "prompted by the desire to avoid further bloodshed and to make amends to the atrocities of war, the four allied Powers propose to enter forthwith into peace negotiations." The victory over Rumania is referred to and the claim asserted that the Teutonic allies are unconquerable.

were originally "obliged to take up arms to defend man action, in so far as it is based primarily on

justice and the liberty of national evolution." The purposes of the Central Powers, however, so the note declares, "are not to shatter nor annihilate our adversaries." Finally, "if, in spite of this offer of peace and reconciliation, the struggle should go on, the four allied Powers . . . disclaim responsibility for this before humanity and history." A similar declaration, though in different language, is made in Germany's note to the Vatican, is repeated in somewhat weaker form in a separate note from Austria to the neutrals, and was stated on Tuesday by Bethmann-Hollweg to the Reichstag, with particular and perhaps somewhat boastful reference to the Rumanian campaign—evidently designed for home consumption.

In the natural order of procedure, the neutral Powers will merely transmit these communications to the Entente Allies. It is to be observed that the Central Powers do not name their terms of peace. This course of action was probably due to a wish to avoid any immediate rebuff; to ascertain officially whether or not England, France, Italy and Russia are willing to consider any terms. Of that there can, to our mind, be no doubt whatever. The English Premier and other public authorities of the Allies have repeatedly stated their willingness at least to consider any proposal of peace formally made by Germany. These past declarations might, doubtless, still be made the basis for a reply, stating that Germany must name her terms of peace before obtaining even a provisional assent by the Allies to consider them. But in such a case the terms would probably be immediately named. Rumor, which in this case is perhaps nothing but conjecture, has stated that the German proposals would include restoration of the occupied provinces to Belgium and France, erection of a new Polish kingdom, recovery of the Trentino by Austria from Italy, return of her colonies to Germany and, very vaguely, a conference of all the Powers to rearrange the Balkan situation. Even the week's rumors say nothing specifically regarding Serbia; which led to the supposition that Austria still demands incorporation of Serbia in her Empire.

If these terms, or anything closely resembling them, actually form the body of the German proposals, their rejection is an absolute certainty. But that would not imply the closing of the door to further negotiations. It may be taken for granted that Germany, like all other diplomatic bargainers in history, would ask originally for more than she expected to get, leaving readjustment of the terms to subsequent negotiation. To the Allied Powers, therefore, after officially receiving the German note and conferring on it, three possible recourses would exist—first, outright rejection of the German proposals, without suggesting further consideration of terms; second, rejection of the terms proposed, but expression of willingness to consider terms more admissible; third, counter-proposals by the Entente Allies, embodying their own terms—presumably. as in the case of Germany, demanding more than they expected to obtain.

The first recourse is possible, but less probable to-day than at any previous time—this notwithstanding the French Premier's declaration to the Deputies on Wednesday regarding the German move, that "it is a clumsy snare which they offer." Further, it is declared that the Central Powers | There can be no doubt of the cleverness of the Gergrounds of humanity with a disclaimer of responsibility to civilization if the offer should be refused outright.

Mere expression of willingness on the part of the Allies to consider further terms, though rejecting the first proposals, is also possible; but the conditions of the moment seem to us to point rather strongly to the political necessity that the Allies should now state plainly their own terms. For such reply, indeed, the form of Germany's own note imposes a certain necessity. This is not only because of the question of humanity raised in the German note, but because of the emphasis placed in that note on Germany's victories and the advantageous position of the Teutonic Powers at this stage of the conflict.

It would be altogether reasonable as well as wholly dignified if the English and French Governments, or the Allies as a whole, should answer, while conceding the victories in Rumania, that the German army was beaten in its great campaign against Verdun, after having been defeated and driven back a hundred miles in the earlier campaign against Paris; that Germany has been cut off and is still cut off from the trade of the world; that the German fleet is shut up in protected harbors and as completely removed as an active force in war as was the French fleet after Trafalgar; and that all of Germany's colonial empire is now in the hands of the Allies. Attention has so exclusively converged of late on the land campaign in Central Europe, and England's naval supremacy in this war was so instantaneously achieved, that the average man is not always disposed to give due weight to these considerations. But history will do so, and so must all parties to the peace negotiations. This might very naturally mean, in the present case, insistence by the Entente Allies, not only on return to the status quo, so far as Germany's territorial acquisitions are concerned, but on some positive reparation; at least in the case of Belgium.

The question, what will be the actual outcome of this initiative by Germany, depends on many and complex considerations. The Allied Powers are pledged to consider no peace proposals except jointly, and to act on them in unison. Such unison may be difficult to obtain. What England might accept, France might reject as wholly inadequate in view of her own sacrifices; and even if France consented, Russia might easily object to relinquishing her dreams of possessing Constantinople, or Italy to surrendering her hope of retaining the Trentino. It is impossible to deny that this aspect of the situation presents great difficulties.

It is not less so, when the controversy as a whole will almost inevitably be complicated and embittered by the German note's reassertion that the war was forced on the Central Powers—this despite the perfectly convincing documentary evidence to the contrary and the agreement among neutral communities, long ago, that the German Government provoked the war and that England and France were honestly laboring to avert it. It is difficult, also, to believe that the manner in which Germany has conducted the war in Belgium and on the sea will not influence the disposition, on the part of even half-willing allies, to consent to peace on terms of mutual concession. There would remain the familiar and possibly weighty argument, that an inconclusive peace would leave Europe with the prospect of renewed war perpetually overhanging.

Yet if it were to be conceded by thoughtful men, in Europe and elsewhere in the world, in their honest private judgment, that the war as a whole is bound to result in a drawn battle, no matter how long continued, then these impressions could not fail to be modified by that conclusion. For if the military situation, say, a year from now, were to be substantially what it is to-day, then the general problem would remain unchanged, except for the vast intervening waste of life and treasure. Back of all other considerations, meantime, is bound to arise the question of economic results, not only in the Teutonic countries but in the countries of the Entente Alliance if war is to be indefinitely continued.

THE BATTLE OF THE LABOR UNION COMBINATIONS.

With the unemployed at a minimum, and the average wage of labor the highest in history, with capital so abundant that it is able to finance foreign loans, and in many lines receiving the highest price for its products ever enjoyed, we witness labor and capital fighting a pitched battle in the halls of Congress. Why?

Does capital feel the goading of force, when by virtue of large contracts it is powerless to resist? Why should the old fear and jealousy over so-called unequal conditions, the old protest against the curse of Cain, the old cry of the unrequited, reach a climax at this time?

Macaulay saw in the votes of the selfish and ignorant, in the rule of the majority, in a democracy, the engulfing sands of the seashore that would in time swallow up the republic. To what have we come when combinations of labor openly threaten to resist the injunctions of courts? Why should an appeal be made to a government of law for a law, when open defiance is breathed against its adjudication by duly constituted and impartial courts? What do these things signify to a representative and republican form of government? How far beyond this defiance lies anarchy and the denial of law and government themselves?

When in many lines of employment there is more work than labor can perform why should this eight hour law disturb our industrialism now? Is it because the common toiler is misguided by his leaders who are officers of an organization the life of which depends upon getting all it can and keeping all it gets, regardless of conditions? Is it because it has become a fixed policy of labor organizations in this country to demand an increase under favorable conditions and never to willingly submit to a decrease under unfavorable, and to appeal to law that their increases may be fixed and permanent regardless of industrial and commercial operations? Is it sought seriously thus to fix an oligarchy of labor upon the country?

Capital is not trying to enslave labor to-day, if it ever did. On the contrary voluntary increases in wages that amount to millions of dollars annually are almost a daily occurrence and cover a wide range of industry. In view of this, has this eight hour day a case in the court of public opinion at this time? There does not seem to be a good and sufficient cause for this activity to secure the bauble of an eight hour day for all workmen, when more nearly than ever before every man has his chance and few are suffering for opportunity.

Something deeper than current acts must be discovered and studied if we are to understand the situation to which we have come. In true cooperation there is no compulsion. It is possible to point out that this has been violated by the labor unions as they are now constituted. It is possible further to read in their present activities a secret sense that they are slipping from power, that they find themselves undermined by the closer unions of individual workmen inside the plants they operate, unions which are harmonious and beneficent between employers and employees, and which, disregarding outside influences and orders to strike, accomplish mutual good. In the one case there is a union whose efforts are based on visionary theories of human relations, and on the other unions to accomplish definite results in production, trade, and profits through actual and practical association for the common good. Looking at these voluntary acts of capital in increasing wages it is reasonable to say that it has sooner perceived the way to mutual helpfulness than has labor.

Do we note in all the underlying facts of this growing controversy that labor, as interpreted by the leaders of these old labor unions, is conceding anything at all? And are these men afraid of the passing of their power? Do they read the doom of the old form of unionism in these separate and independent combinations of labor inside the organism of the corporation and industry, which, while conserving individualism at the same time exert a force which affects favorably the efforts of all men in the field of world-wide competition? so, these recent attempts to capture the citadels of government are fraught with swift doom to their aspirations. The old unions must swiftly disintegrate before the power of the new and better way. Capital will, as a consequence, by the conciliations which it is making voluntarily, win this fight in the court of public opinion, and republican institutions will stand the test, and the rights of property and of contract will be preserved.

A union of employers and employees within the confines of a single integer in an industry for the common good is as pure a democrcy as the old original New England town meeting where every man's voice could be heard. It is local self-government in its highest form. For every man potentially may be his own employer if he chooses to own a share of stock. Labor and capital unite upon a common basis. The corporation is merely a skeleton form for an association of spiritual as well as material interests, and the rights of contract are free. The individual workman loses none of his power, but is enabled to openly express it, by treating directly with the organism which represents capital, a part of which may be his if he so chooses. Is there any doubt, looking at the open and conscious efforts of managers of industries to enable employees to feel an interest in the success of the individual enterprise, that they have been the first to see and act upon this underlying truth?

If beneath the surface of current events these suses are at work, the theories of labor leaders are even now driving their unions to destruction. The fiasco of an eight hour law enacted by Congress, which before it has had a test is discountenanced everywhere as a miserable makeshift, impossible of interpretation or application, is the worst blow

the United States, and unionism as heretofore constituted is destined to be undone by its own act. No eight hour day can ever be justly applied to all forms of industry because it is contrary to the nature of things. And this is the very reason why it may be made to apply between the two elements within an industry, by agreement, and thus tend to individual welfare and human happiness.

Every effort to fix an unjust, inoperative, inefficient law upon the statute books of the nation serves to disclose the rights of all parties in interest, and to demonstrate the binding force of natural laws which cannot be abrogated, as binding on capital as on labor. But the sooner attempts to do the impossible cease, the sooner these natural laws will have sway, and the sooner there may be brought about harmonious relations between capital and labor. For, in its last analysis, labor is the chief capital of mankind, and is the magic touchstone which gives to every created thing from mush to marble its intrinsic and enduring value. Through the continuous application of this labor to elemental conditions all property is preserved and civilization advanced.

And just as units of effort are brought into existence by need, purpose, and environment, so it is possible for individual industries to combine and co-operate. And only by his action as an employee inside a single operating industry, being a part of its ownership and power, can the individual workman project his personal force against the worldwide conditions that control production and interchange. And he divests himself of this power when he joins a union that is not a business, and whose only purpose is to force concessions in wages regardless of these elemental conditions.

Thus, if a workman in United States Steel, through a union of his fellow workers in that corporation, have a voice in its affairs, that voice is heard in the world's competition in which capital and labor must live whether they will or not. But his voice in an old-time labor union is merely a voice crying in the wilderness, and has no power save to deny the usefulness of concerted and loyal effort inside a going concern by the negative and disastrous resort to a strike, or a futile declaration of a socialistic theory of the proper human relations. If in the undercurrents of our affairs these things are true, then we are progressing, and the right to unionize is being brought into harmony with the general good.

Too much the workman has been forced in the past to succumb to a power outside himself, made to become a tool of theories that were not consonant with his own interests, made to obey the leaders of organizations whose only purpose was to demand, regardless of inherent conditions and mutual benefits. Industry is too complex, competition too vast, the country too big, and the rights and the interests of nonparticipating citizens too great, for a union of all workmen to be the best thing for the individual workman.

UNWISE POSTAL PROPOSITIONS.

There are two propositions in Washington concerning the postal service which should be promptly and emphatically condemned, one being in the ostensible interest of economy and the other being ostensibly for increase of revenue. The first is the recommendation of Mr. Burleson that auto trucks the old form of organized labor has ever received in be substituted for pneumatic tubes for mails-carrying in large cities, which would involve abandonment of a scheme now many years in operation and the scrapping of an expensive plant. It is inconceivable that this could be offered as a step for greater efficiency, in plain view of the fact that subways are the great desideratum in great cities and that the air itself is more and more deemed a feasable and necessary medium for transmitting both intelligence and material bodies. It is of course possible that some defects and possibly some overcharges may have crept into the tube service, notwithstanding the clear proposition that when there is only one possible customer for anything the vendor is quite as much dependent on the user as the latter can be on the vendor. Whether there is or is not any reasonable ground for complaint need not be discussed now, for it is foreign to the question of abandoning the tube work, and any fair investigation of the possibility of correction or improvement would always be in order.

With traffic on the surface already so congested that its regulation is a serious problem, any increase of it by transferring what is now and can be moved underground seems preposterous. Such a change would be away from efficiency, and if economy is suggested, the answer is that, as to this city at least, there has long been a disposition towards niggardliness of treatment of the post office, as though the work done here were for local instead of general benefit. As the Chamber of Commerce points out, over 30 millions of postal revenue were contributed here, last year, and this post office in fact carries a large burden on account of others. fact is not one for boasting or for complaint, and neither is indulged in here; only it is neither for efficiency nor for economy to resist improvement, much more to apply a cheese-paring method, where the most profitable portions of the postal service begin.

The other of the two bad pending propositions is condemned in advance by its being tagged, in the old abominable manner, as a "rider" to an appropriation bill; it is out of place, not being germane to the subject of the bill, and it confesses itself wrong by seeking to escape full observation and to be dragged along by the necessary measure to which it is fastened. This is Mr. Randall's proposition to change the long-maintained classification of publications as "second-class matter" and put them, like merchandise per parcels post, on a "zone" basis, by which the rates would progressively and materially increase with distance, after the first 300 miles.

The Constitution is silent concerning the details of mails-carrying and concerning the purpose of maintaining a governmental work which is on the balance sheet unprofitable. It grants to Congress. inter alia, the power "to establish post offices and post roads," that is all. We suppose nobody questions that the private express companies could and would carry and deliver all mail matter with a greater efficiency and less waste, if they did the work at all, and the sole reason why they should not do it is that they would necessarily do it on a "zone" basis. Everybody sees at once that this would make impossible the general transmission of intelligence for which the postal service, itself a miserable failure if judged on the basis of income and outgo, is conceded to exist. The country could not be geographically large; its population could thus leaving a moderate increase in net earnings, in

not become homogeneous and cohesive, and national existence on any such scale and basis as we now have in some degree, and confidently hope to increase indefinitely in the future, would be beyond possibility, except by maintaining an "unprofitable" yet indispensable and profitable scheme of mails communication. We have always had this; it has grown with the country, tolerably well; with some defects, it has served us well; we could not exist without it, nor can we easily conceive the state to which its loss would reduce us.

Any proposition to impair it, or even to put hindrances in its growth, must stand condemned upon the mere presentation. At present, as all publishers do know well and all readers ought to be aware, the entire publishing business is burdened by the mounting costs of paper and other materials. Any new load might have the effect of suppressing some minor yet useful publications. If journals generally passed the added tax on to the public (and they would be compelled to do this, directly or indirectly, in some manner) the inevitable effect would be a tax on the diffusion of intelligence. Are we ready for such a tax, or can we afford it? Have we already too much of general information and understanding, or would not the country, on the contrary, be the gainer by a greater intelligence? Take this late election as an example in test: the really ignorant vote, the stolid party vote, the simply selfish vote which asked only what the voter himself or the faction or class interest in which he ranked was likely to gain by making or not making a change on governmental control—did not this low and undesirable vote largely determine the result? What right thing is not likely to gain, and what wrong thing is not sure to weaken, under publicity and free discussion in the broad light?

It should be needless to spend space on arguing that, since we cannot have a censorship, but the gradual lifting of public taste and public sense of both wisdom and justice can come only by gradual education. A tax upon the increase and general diffusion of intelligence is the last step which can be safely hazarded, in a democracy where the vote is thrown wide open already, with very slender restrictive conditions, and where the uncertain factor of the female voter is coming in. The postal service, notwithstanding all efforts to show the contrary by defective accounting, is not self-supporting. We might even say that it ought not to be, since in such a growing country all gains by efficiency and economy are liable to be offset by natural increase in work done.

Economy is valuable, and the country never before had so much need of increased efficiency and decreased waste; but the proper direction for both is outside either of these propositions.

RAILROAD GROSS AND NET EARNINGS FOR OCTOBER.

Rising operating expenses are now a conspicuous feature of the revenue returns of United States railroads. In the case of many of the large Eastern systems the augmentation in expenses even exceeds the gains in gross receipts, though these gains are by no means inconsiderable. For the country as a whole, however, the improvement in gross earnings runs larger than the additions to the expenditures, the main because of the very favorable returns made by roads in the West and South.

Our observations have reference to the showing for the month of October, as presented by our compilation further below. In brief, as compared with the heavy totals in the corresponding month of last year, there is betterment of \$35,050,786, or 11.28% in the gross earnings, attended by an augmentation of \$23,252,662, or 12.13% in the expenses, leaving therefore an improvement of \$11,798,124, or 9.91% in the net earnings.

October (452 roads)-	1916.	1915.	Amount Increa	28e %
Miles of road	246,683	246,000	+683	0.28
Gross earnings\$	345,790,899	\$310,740,113	+\$35,050,786	11.28
Operating expenses	214,929,751	191,677,089	+23,252,662	12.13
Net earnings	130,861,148	\$119,063,024	+\$11,798,124	9.91

What gives especial significance to these increases in gross and net the present year is that they follow very noteworthy improvement in the same month of last year. As indicating the striking nature of that improvement, we would recall that in reviewing the results for October 1915 we pointed out that it was a very long time since we had had such an extremely favorable statement of railway gross and net earnings as it was then our privilege to record. Doubtless, too, we remarked, it would be many a day (after the unusual conditions then prevailing had passed away) before it would be again possible to present exhibits of the same extraordinarily auspicious character. We were witnessing at that time tremendous gains in gross earnings, while expenses were being added to in only slight degree and on individual roads were actually being reduced. This uncommon combination produced large absolute and huge ratios of gain in the net. In short, our October compilation last year registered \$37,087,941 gain in the gross, or 13.57%, and no less than \$30,079,562 gain in the net, or 33.70%. The further gain this year comes on top of this improvement in 1915. It is true, however, that in considerable part these large gains last year represented recovery of previous losses, the totals of earnings having shown decreases in gross and net alike in both the two years preceding. It was nevertheless a fact that the improvement in 1915 far surpassed the losses of 1914 and 1913 combined. For October 1914 our compilations registered \$28,740,856 decrease in gross, or 9.64%, and \$8,014,020 decrease in net, or 8.38%. In October 1913 our table showed a shrinkage in the gross of \$1,281,011. This was hardly more than nominal, it is true, being but 0.48% but it was attended by an augmentation in expenses of no less than \$11,829,842, thus producing a loss in net in amount of \$13,110,853, or 11.85%. Combining the losses for 1914 and 1913, the gross was reduced roughly \$30,000,000 in two years, and net over \$21,000,000, the exact amount of decrease being \$21,124,873.

In October 1912, however, our figures showed a gain in gross in the magnificent sum of \$35,264,683 (due in part to the circumstance that there was an extra working day in the month, owing to there having been only four Sundays against the previous five Sundays), and a gain in net of \$14,822,-028. For October 1911 our compilations recorded trifling gains, the increase in gross for the whole railroad system of the United States being only \$1,370,362, or hardly more than one-half of 1%, while the addition to the net was on the same slender basis, being no more than \$2,110,767, or 2.30%. In October of the year preceding (1910), the addition to gross was also relatively insignificant, being \$2,643,-

059, while at the same time there was a large increase in expenses, and as a consequence net earnings fell behind no less than \$10,489,004. In October 1909, of course, there were large gains in both gross and net, \$28,560,921 in the former and \$15,360,538 in the latter, the large improvement at that timefollowing mainly because of the poor statement for October 1908, when there was a decrease in gross in the large sum of \$18,196,132. In the net there was then no loss, owing to the practice of the most rigid economy and the cutting down of expenses in all directions, so that the loss in gross was converted into a gain of \$5,176,453 in net. In October 1907, which was the month when the panic occurred, there was considerable improvement in the gross, but the net fell off, owing to the great rise in expenses, which was a noteworthy characteristic at that period. In the following we furnish a summary of the October comparisons of gross and net for each year back to 1896. For 1910, 1909 and 1908 we use the Inter-State Commerce totals, but for the preceding years we give the results just as registered by our own tables each year -a portion of the railroad mileage of the country being always unrepresented in the totals, because of the refusal at that time of some of the roads to give out monthly figures for publication.

Note.—In 1896 the number of roads included for the month of October was 125; in 1897, 125; in 1898, 121; in 1899, 126; in 1900, 131; in 1901, 111; in 1902, 105; in 1903, 168; in 1904, 100; in 1905, 96; in 1906, 91; in 1907, 88; in 1908 the returns were based on 231,721 miles; in 1909 on 238,955 miles; in 1910 on 241,214 miles; in 1911 on 236,291 miles; in 1912 on 237,217 miles; in 1913 on 243,690 miles; in 1914 on 244,917 miles; in 1915 on 248,072 miles; in 1916 on 246,683 miles.

As already stated, the tendency of expenses to increase the present year is strongly indicated in the case of the large Eastern systems. The Pennsylvania RR., the New York Central, the Erie, the Baltimore & Ohio, the New Haven and several others show additions to expenses far exceeding the gains in gross earnings. In this the showing is the reverse of that of the previous year, when the increases in expenses were very light. The Pennsylvania RR. on the lines directly operated the present year reports a decrease of \$250,754 in net in face of a gain of no less than \$2,175,199 in gross. In 1915, however, the Pennsylvania reported \$4,707,286 increase in gross and \$3,125,698 increase in net, this following \$3,048,162 decrease in gross and \$398,671 decrease in net in October 1914.

The New York Central this time has \$1,962,807 increase in gross with \$13,911 decrease in net. This is for the Central proper after its recent merger with the Lake Shore & Michigan Southern and some other lines. Including the various auxiliary and controlled roads, like the Michigan Central, the Big Four, &c., the whole going to form the New York Central System, the result is better, there being then a gain of \$3,834,300 in gross and of \$638,434 in net. In October last year there was for the Central System \$4,596,792 gain in gross and \$4,017,381 gain in net.

The Baltimore & Ohio this time has \$653,103 increase in gross with \$99,620 decrease in net. Last year this company added \$2,048,737 to gross and \$1,202,512 to net. The Erie for the present year reports only \$97,388 gain in gross and no less than \$959,626 loss in net, this coming after \$1,028,409 addition to gross and \$1,210,592 to net in October 1915.

A few roads have losses this year in gross as well as net. Conspicuous in this respect are the Great Northern and the "Soo," where the reason for the falling off in the gross is self-evident, it being found in the great shortage of the spring wheat yield the present season. On the Great Northern the falling off in gross amounted to \$631,907 and in net to no less than \$1,026,102. The "Soo" road falls behind \$354,721 in gross and \$394,498 in net. Southwestern roads stand at the head of those distinguished for large improvements. Thus the Atchison overtops all others for amount of increase this time in both gross and net, the former being \$2,207,096 and the latter \$1,875,475, and this compares with \$502,-526 gain in gross and \$135,914 gain in net the previous year. The Missouri Kansas & Texas, however, which this time reports \$952,771 increase in gross and \$173,394 increase in net, last year had \$183,183 loss in the former and \$132,832 loss in the net. And some other Southwestern roads had losses in net even where there were no losses in the gross. Generally speaking, Southwestern as well as Southern and Western roads give exceedingly good accounts of themselves the present time, as will appear from the following, showing all changes for the separate roads for amounts in excess of \$100,000, whether increases or decreases, in both gross and net:

a This is the result for the Pennsylvania RR., together with the Pennsylvania Company and the Pittsburgh Cincinnati Chicago & St. Louis, the Pennsylvania RR. reporting \$239,023 decrease, the Pennsylvania Company \$15,938 loss and the P. C. C. & St. L. \$4,207 gain. Including all lines owned and controlled which make monthly returns to the Inter-State Commerce Commission, the result is a gain of \$50,696. When the roads are arranged in groups or geo-

graphical divisions according to location, it is found that every division records an improvement in gross, but that the Eastern and Middle division registers a decrease in net. Our summary by groups is as follows:

SUMMARY BY GROUPS.

NOTE .- Group I. includes all of the New England States.

Group II. includes all of New York and Pennsylvania except that portion west of Pittsburgh and Buffalo; also all of New Jersey, Delaware and Maryland, and the extreme northern portion of West Virginia.

Group III. includes all of Ohio and Indiana; all of Michigan except the northern peninsula, and that portion of New York and Pennsylvania west of Buffalo and Pittsburgh.

Groups IV. and V. combined include the Southern States south of the Ohio and east of the Mississippi River.

Groups VI. and VII. combined include the northern peninsula of Michigan, all of Minnesota, Wisconsin, Iowa and Illinois; all of South Dakota and North Dakota and Missouri north of St. Louis and Kansas City; also all of Montana, Wyoming and Nebraska, together with Colorado north of a line parallel to the State line passing through Denver.

Groups VIII. and IX. combined include all of Kansas, Oklahoma, Arkansas and Indian Territory, Missouri south of St. Louis and Kansas City; Colorado south of Denver, the whole of Texas and the bulk of Louisiana; and that portion of New Mexico north of a line running from the northwest corner of the State through Santa Fe and east of a line running from Santa Fe to El Paso.

Group X. includes all of Washington, Oregon, Idaho, California, Nevada, Utah and Arizona and the western part of New Mexico.

J. P. MORGAN'S VISIT TO WASHINGTON.

Conferences with the British and French Ambassadors in Washington were held by J. P. Morgan on the 14th inst. The discussion is said to have been devoted chiefly to matters bearing on financial conditions abroad as observed by Mr. Morgan during his European trip. Mr. Morgan, as noted in these columns last week, returned from London on the 8th inst.

With his arrival Mr. Morgan declined to comment on his mission abroad, and had nothing to say concerning financial conditions in England other than to state that such conditions were very good. Concerning the war he was quoted as saying:

"There is no doubt regarding the outcome of the war. that the Allies will win, but how long it will be before the signing of the treaty of peace is purely a matter of conjecture. People in England be-lieve that it will be soon."

LOAN TO REPUBLIC OF ARGENTINA.

J. P. Morgan & Co., as head of the South American Group, officially announced on Dec. 12 that pending completion of its plans for permanent financing, the Argentine Republic has sold to the South American Group, \$16,800,-000 of six months' notes dated Dec. 15 1916. be no public offering of these notes.

The members of the Group, other than J. P. Morgan & Co., are, The National City Co., Kuhn, Loeb & Co., Lee, Higginson & Co., the Guaranty Trust Co. and Harris, Forbes & Co.

The New York "Sun" in its issue of Dec. 13 gave the following explanation of the purpose of the new loan:

Part of the proceeds will be used to refund a \$5,000,000 Argentine loan maturing Dec. 15, and a similar loan on Dec. 31. The remainder will take up short-term bank loans of the Argentine Government.

Originally it was intended to refund all of Argentina's loans maturing in the next year into a long-term loan amounting to more than \$75,000,000, but it was found that the legislation necessary by Argentina to complete the transaction could not be obtained on such short notice. Officials of the Argentine Government, however, have assured the American bankers that such legislation will be passed by the latter part of January, in time to include the February maturity of \$18,500,000 in the new long-term Argentine loan.

W. P. G. HARDING'S DISCLAIMER CONCERNING RESERVE BOARD'S WARNING ANENT FOR-EIGN TREASURY BILLS.

The declaration that there was no intention to reflect on the credit of any nation in the recent issuance of the Federal Reserve Board's warning to bankers against the locking up of their money in foreign treasury bills was reiterated by W. P. G. Harding, Governor of the Federal Reserve Board in a speech delivered at Boston on the 14th inst. Mr. Harding's remarks were addressed to the Boston City Club. From the dispatches we learn that he said:

I know that there has been criticism of the Board's action in making this statement, which has been given a significance neither justified nor intended in its reference to investors. It was not the purpose of the Board to make an attack, either open or covert, upon the credit of any Government, nor did it seek in its statement to reflect upon any particular obligations.

In my opinion, what the Board had in mind when it made its brief reference to investors, was simply this: American investors have for many years been accustomed to buying industrial securities—railroad obligations to a great extent. In dealing with these securities certain well established rules have been developed. The investor has acquired the habit of requiring specific information regarding gross earnings, fixed charges, net earnings, sinking funds, etc., and he insists upon knowing definitely whether he is offered a first mortgage bond, income bond, preferred stock or common stock.

It is the practice of every issuing house when offering securities to state all necessary details, either over its own signature or that of the head of the borrowing corporation. Nowhere is the importance of authentic and complete information more fully understood and appreciated than in Europe, both in England and on the Continent, and prospectuses for foreign loans contain all the important facts relating thereto, in a statement signed by an authorized representative of the foreign Government or by the issuing house, or, in some cases, by both.

house, or, in some cases, by both.

The Board sought merely to call attention to the fact that as this country has become an important market for foreign securities the same business-like habits which are well established regarding domestic loans should be developed in marketing foreign flotations.

Mr. Harding is said to have denied that the stiffening of call money rates in New York after the statement was issued, was due to the Board's action, and said that any "flurry" at that time was confined entirely to loans secured by Stock Exchange collateral. Discussing the inflow of gold into the United States, he said the Board did not regard it as a danger except "the inflowing gold should remain uncontrolled and be permitted to become the basis of undesirable loan expansions and of inflation." He pointed out the Board had suggested that a step toward control of this gold by cooperation by the banks would be an act of Congress authoring the final immediate transfer of lawful reserves of banks members of the Reserve system to the proper Federal Reserve bank. He added:

There are now approximately \$600,000,000 of so-called reserves held by national bank reserve agents which, if the amendment becomes a law, and in any event in November 1917 will no longer be counted as such and will have the status simply of balance in bank. The actual gold requirements will be increased by about \$200,000,000, and if we do not regard profit as a first consideration, there are other means by which the continued inflow of gold into this country can be used to its lasting benefits.

'Mr. Harding said this country has been handicapped for many years by an inelastic currency, "particularly legal tender notes or greenbacks and national bank notes." He said the suggestion has been made that it might be well to require retirement of \$200,000,000 national bank notes within three years. Continuing he said:

Treasury notes possessing legal tender qualifications are outstanding to the extent of \$348,721,925, of which \$346,681,016 are the old wartime greenbacks and \$2,040,909 are Treasury notes of 1890, which were issued on account of silver purchases, but which are payable in coin. The suggestion has been made frequently that advantage should be taken of the piethora of gold to retire permanently these notes. No doubt some opposition which manifested itself in the early seventies against the retirement of legal tender notes may spring up again should their retirement be seriously considered. But if our currency is redundant, would it not be wise to strengthen it by retaining gold, at the same time retiring the notes which have caused so much controversy and disturbance in times past?

The principal objection will probably come from those who may fear that the retirement of the legal tender notes will lead to permanent contraction, but if they could be convinced that this is not the case and that the vacuum created could be filled at any time when necessary by Federal Reserve notes of a truly elastic character, their opposition would have little to rest upon.

If Congress should ever decide upon the retirement of the greenback the Federal Reserve banks could be utilized as a means of effecting the operation without the slightest disturbance to interest rates or to credit facilities.

CLOSING OF TOKIO STOCK EXCHANGE.

The cables on the 13th inst. announced the closing of the Tokio Stock Exchange on account of the great shrinkage in the values of stocks occasioned by Germany's peace overtures.

With regard to the closing of the Exchange the "Wall Street Journal" of yesterday printed the following dispatch from Tokio:

Speculators on the Tokio Japanese Stock Exchange, who were hit hard by the news of Germany's peace overtures, are asid to have lost \$15,000,000. It was announced that the Exchange will reopen Monday. It was closed Tuesday night after one of the most riotous days in its history. The rice and silk Exchanges also are closed temporarily.

It is stated that this is the third time during the present war that the Exchange closed; its first suspension was at the outbreak of the war, when it was closed for several months. It again temporarily suspended on Nov. 30 1915.

MARINE INSURANCE RATES REACH HIGH FIGURES

War risk marine insurance reached its highest level on the 14th inst. since the war broke out. At that time the rate reached 20%. We quote the following from the New York "Times" of Dec. 14 regarding the matter:

War-risk marine insurance yesterday reached a higher level than at any other time since Aug. 1914, when with the beginning of the war the rate went to 20%. The usual peace rate is one-fourth of 1 per cent, but yesterday the lowest rates obtainable were 15% for Mediterranean shipments and from 8 to 10% for transatlantic cargoes—rates based on total valuation of ship and cargo and not on the latter only, as heretofore.

The great rise in rates dates back to Saturday when, apparently, inklings of German peace plan coupled with strong belief in its eventual rejection reached insurance circles downtown. As was explained yesterday, insurance men are convinced that Berlin's parleys will come to naught and that, with her halt-the-war scheme frustrated, she will send her submarines to sea with orders to sink all ships.

The action of the New York underwriters in putting up charges followed action taken in London, and, though downtown brokers admitted they thought the rates too high, they justified their move by saying that English underwriters admittedly were in closer touch with the shipping situation, and that any action they took must be paralelled here.

Some idea of what 10% insurance means may be gathered from the fact that the average valuation of a ship laden with munitions is between \$3,000,000 and \$4,000,000, entailing payment of \$300,000 to \$400,000 in premiums. Despite the enormous costs it was said that business, far from falling off, continued to pile up faster than the insurance companies could expeditiously handle it.

It has been frequently reported during the past two weeks that a German raider is now in Atlantic waters. A warning received at Halifax on the 8th inst., from the British naval authorities read: A vessel was intercepted at 3 a. m. on Dec. 2 in latitude 59.36 north, longitude 12.42 west, and was allowed to proceed, under the impression that she was a vessel named Gamma. Latter was at Kirkwall at the time, clearing 11 a. m., Dec. 3. Identity of former not yet established, but description is as follows: "About 1,200 tons, black hull with red bottom, white upper works, one funnel, thought to be plain black; no Dutch flag on bow. Ship was apparently in ballast, steering a course about west-southwest. Vessel may be raider."

Another warning that a heavily armed steamship fitted with torpedo tubes had been sighted 500 miles north of the Azores in the middle of the Atlantic steamship lane, was received by merchant vessels of the Entente Powers, by wireless on the 11th inst., from either a British or French cruiser lying off Sandy Hook. The message which was sent first in English and which was repeated in Italian reads:

"Sighted 7 a. m., Dec. 4, latitude 48.45 north, longitude 27.57 west, a steamer of about 4,000 tons, 350 feet long and 45 feet beam. Vessel well armed and fitted with torpedo tubes. Had one short, broad funnel and two masts. Steamer probably high speed. Take all precautions."

GERMANY'S PEACE PROPOSALS.

Germany's proposals to enter into peace negotiations, communicated through the neutral nations to the countries with which she and her allies are at war, has been the paramount feature of the week's events. A forecast of this move was given on Monday, when Berlin dispatches announced that the following day's sitting of the Reichstag would be "the most remarkable since the outbreak of the war and of world-wide historical importance." It was stated that all the members of the Reichstag, even those at the front, had been summoned to Berlin by telegraph, and that Chancellor von Bethmann-Hollweg had during Monday received the Ministers of all the Federal States of the German Empire and discussed with them the subjects which he would bring up in the Reichstag. The Chancellor's speech of Tuesday, announcing the willingness of Germany and her allies to enter nto peace negotiations, was listened to by thronged galler-While declaring herself ready to entertain peace measures, Germany announced that if, in spite of its offer, the struggle should go on, the four allied Powers (Germany, Austria, Turkey and Bulgaria) "are resolved to continue the war to a victorious end." Its note to this effect, submitted through the United States, Spain and Switzerland, is identical with communications transmitted by the Governments at Vienna, Constantinople and Sofia. At the same time a note went forward to the Vatican soliciting the active interest of the Pope in the peace move. The Chancellor in addressing the Reichstag with regard to Germany's move toward peace said:

The Reichstag had not been adjourned for a long period, but fortunately it was left to the discretion of the President as to the day of the next meet-This decision was caused by the hope that soon happy events in the field would be recorded, a hope fulfilled more quickly almost than expected. I shall be brief, for actions speak for themselves.

The Chancellor said Rumania had entered the war in order to roll up the German positions in the east and those of Germany's allies. At the same time, the grand offensive on the Somme had as its object to pierce the German western front, and the renewed Italian attacks were intended to paralyze Austria-Hungary. He continued:

The situation was serious. But with God's help our troops shaped conditions so as to give us security which not only is complete but still more so than ever before. The western front stands. Not only does it stand, but in spite of the Rumanian campaign, it is fitted out with larger reserves of men and material than it had been formerly. The most effective precautions have been taken against all Italian diversions. And while on the Somme and on the Carso the drum-fire resounded, while the Russians launched troops against the eastern frontier of Transylvania, Field Marshal von Hindenburg captured the whole of western Wallachia and the hostile capital of Bucharest, leading with unparalleled genius the troops that in competition with all the Allies made possible what hitherto was considered

And Hindenburg does not rest. Military operations progress. By strokes of the sword at the same time firm foundations for our economic needs have been laid. Great stocks of grain, victuals, oil and other goods fell into our hands in Rumania. Their transport has begun. In spite of carcity, we could have lived on our own supplies, but now our safety is beyond question.

To these great events on land heroic deeds of equal importance are added by our submarines. The spectre of famine, which our enemies intended to appear before us, now pursues them without mercy. When after the termination of the first year of the war the Emperor addressed the nation in a public appeal, he said: "Having witnessed such great events, my heart was filled with awe and determination."

Neither our Emperor nor our nation ever changed their minds in this re-pect. Neither have they now. The genius and heroic acts of our leaders have fashioned these facts as firm as iron. If the enemy counted upon the weariness of his enemy, then he was deceived.

The Reichstag, by means of a national auxiliary war service law, helped

to build an offensive and defensive bulwark in the midst of the great struggle. Behind the fighting army stands the nation at work—the gigantic force of the nation, working for the common aim.

The Empire is not a besieged fortress, as our adversaries imagined, but one gigantic and firmly disciplined camp with inexhaustible resources. That is the German Empire, which is firmly and faithfully united with its brothers in arms, who have been tested in battle under the Austro-Hungarian, Turkish and Bulgarian flags.

Our enemies first ascribed to us a plan to conquer the whole world, and then desperate cries of anguish for peace. But not confused by assevera-tions, we progressed with firm decision, and we thus continue our progress. always ready to defend ourselves and fight for our nation's existence, for its free future, and always ready for this price to stretch out our hand for

Our strength has not made our ears deaf to our responsibility before God, before our own nation and before humanity. The declarations formerly made by us concerning our readiness for peace were evaded by our adversaries. Now we have advanced one step further in this direction. On Aug. 1 1914, the Emperor had personally to take the gravest decision which ever fell to the lot of a German—the order for mobilization—which he was compelled to give as a result of the Russian mobilization. During these long and earnest years of the war, the Emperor has been moved by a single thought: How peace could be restored to safeguard Germany after the struggle in which she has fought victoriously.

Nobody can testify better to this than I, who bear the responsibility for all actions of the Government. In a deep moral and religious sense of duty towards his nation and, beyond it, towards humanity, the Emperor now considers that the moment has come for official action toward peace. Majesty, therefore, in complete harmony and in common with our allies, decided to propose to the hostile Powers to enter into peace negotiations. This morning I transmitted a note to this effect to all the hostile Powers, through the representatives of those Powers which are watching over our interests and rights in the hostile States. I asked the representatives of Spain, the United States and Switzerland to forward that note.

The same procedure has been adopted to-day in Vienna, Constantinople and Sofia. Other neutral States and His Holiness the Pope have been similarly forward.

larly informed

After reading the note, the Chancellor said:

Gentlemen, in August, 1914, our enemies challenged the superiority of power in the world war. To-day we raise the question of peace, which is a question of humanity. We wait the answer of our enemies with that sereneof mind which is guaranteed to us by our exterior and interior strength ness or mind which is guaranteed to us by our exterior and interior strength and by our clear conscience. If our enemies decline to end the war, if they wish to take upon themselves the world's heavy burden of all these terrors which hereafter will follow them, even in the least and smallest homes, every German heart will burn in sacred wrath against our enemies, who are unwilling to stop human slaughter, in order that their plans of conquest and amplilation may continue. and annihilation may continue.

In a fateful hour we took a fateful decision. It has been saturated with the blood of hundreds of thousands of our sons and brothers, who gave their lives for the safety of their home. Human wits and human understanding are unable to reach to the extreme and last questions in this struggle of nations, which has unveiled all the terrors of earthly life, but also the grandeur of human courage and human will in ways never seen before.

God will be the judge. We can proceed upon our way without fear and mashamed. We are ready for fighting and we are ready for peace.

The following is the text of the note addressed by Germany and her allies to the neutral Powers for transmission to Great Britain and her allies:

The most terrific war experienced in history has been raging for the last two years and a half over a large part of the world—a catastrophe which thousands of years of common civilization was unable to prevent and which injures the most precious achievements of humanity.

Our aims are not to shatter nor annihilate our adversaries. In spite of

our consciousness of our military and economic strength and our readines to continue the war (which has been forced upon us) to the bitter end, if necessary, at the same time, prompted by the desire to avoid further bloodshed and make an end to the atrocities of war, the four allied Powers propose to enter forthwith into peace negotiations.

The propositions which they bring forward for such negotiations, and which have for their object a guaranty of the existence, of the honor and liberty of evolution for their nations, are, according to their firm belief. an appropriate basis for the establishment of a lasting peace.

The four allied Powers have been obliged to take up arms to defend justice and the liberty of national evolution. The glorious deeds of our armies have in no way altered their purpose. We always maintained the firm belief that our own rights and justified claims in no way control the

The spiritual and material progress which were the pride of Europe at the beginning of the twentieth century are threatened with ruin. Germany and her allies, Austria-Hungary, Bulgaria and Turkey, gave proof of their unconquerable strength in this struggle. They gained gigantic advantages over adversaries superior in number and war material. Our lines stand unshaken against ever-repeated attempts made by armies.

The last attack in the Balkans has been rapidly and victoriously over-The most recent events have demonstrated that further continuance of the war will not result in breaking the resistance of our forces, and the whole situation with regard to our troops justifies our expectation of

If, in spite of this offer of peace and reconciliation, the struggle should go on, the four allied Powers are resolved to continue to a victorious end, but they disclaim responsibility for this before humanity and history. The Imperial Government, through the good offices of your Excellency, asks the Government of here is inserted the name of the neutral Power address in each instance] to bring this communication to the knowledge of the Government of [here are inserted the names of the belligerents].

The note of the German Government, as presented by Dr. von Muhlberg, German Minister to the Vatican, to Cardinal Gasparri, Papal Secretary of State, reads as follows:

According to instructions received, I have the honor to send to your Eminence a copy of the declaration of the Imperial Government to-day, which, by the good offices of the Powers intrusted with the protection of German interests in the countries with which the German Empire is in a state of war, transmits to these States, and in which the Imperial Government declares itself ready to enter into peace negotiations. The Austro-Hungarian, Turkish and Bulgarian Governments also have sent similar notes

The reasons which prompted Germany and her allies to take this step are manifest. For two years and a half a terrible war has been devastating the European Continent. Unlimited treasures of civilization have Extensive areas have been soaked with blood. been destroyed. of brave soldiers have fallen in battle and millions have returned home as invalids. Grief and sorrow fill almost every house.

Not only upon the belligerent nations, but also upon neutrals, the destructive consequences of the gigantic struggle weigh heavily. Trade and commerce, carefully built up in years of peace, have been depressed. The best forces of the nation have been withdrawn from the production of use ful objects. Europe, which formerly was devoted to the propagation of religion and civilization, which was trying to find solutions for social problems, and was the home of science and art and all peaceful labor, now re-sembles an immense war camp, in which the achievements and works of many decades are doomed to annihilation.

Germany is carrying on a war of defense against her enemies, which aim at her destruction. She fights to assure the integrity of her frontiers and the liberty of the German nation, for the right which she claims to develop freely her intellectual and economic energies in peaceful competition and on an equal footing with other nations. All the efforts of their enemies are uhable to shatter the heroic armies of the (Teutonic) allies, which protect the frontiers of their countries, strengthened by the certainty that the enemy shall never pierce the iron wall.

Those fighting on the front know that they are supported by the whole nation, which is inspired by love for its country and is ready for the greatest sacrifices and determined to defend to the last extremity the inherited treasure of intellectual and economic work and the social organization and sacred soil of the country.

Certain of our own strength, but realizing Europe's sad future if the war continues; seized with pity in the face of the unspeakable misery of humanity, the German Empire, in accord with her allies, solemnly repeats what the Chancellor already has declared, a year ago, that Germany is ready to give peace to the world by setting before the whole world the question

whether or not it is possible to find a basis for an understanding.

Since the first day of the Pontifical reign, his Holiness the Pope has unswervingly demonstrated, in the most generous fashion, his solicitude for the innumerable victims of this war. He has alleviated the sufferings and ameliorated the fate of thousands of men injured by this catastrophe. Inspired by the exalted ideas of his ministry, his Holiness has seized every opportunity in the interests of humanity to end so sanguinary a war.

The Imperial Government is firmly confident that the initiative of the four Powers will find friendly welcome on the part of his Holiness, and that the work of peace can count upon the precious support of the Holy See.

An official Austrian statement referring to the peace offer, given out at the same time, said:

When, in the summer of 1914, the patience of Austria-Hungary was exhausted by a series of systematically continued and ever increasing provocations and menaces, and the Monarchy, after almost fifty years of unbroken peace, found itself compelled to draw the sword, this weighty decision was animated neither by aggressive purposes nor by designs of conquest, but solely by the bitter necessity of self-defense, to defend its existence and safeguard itself for the future against similar treacherous plots of hostile neigh-

That was the task and aim of the Monarchy in the present war. In combination with its allies, well tried in loyal comradeship in arms, the Austro-Hungarian Army and Fleet, fighting, bleeding, but also assailing and conquering, gained such successes that they frustrated the intentions of the enemy. The quadruple alliance not only has worth immense series. of victories, but also holds in its power extensive hostile territories. Unbroken is its strength, as our latest treacherous enemy has just experienced. Can our enemies hope to conquer or shatter this alliance of Powers? They will never succeed in breaking it by blockade and starvation measures. Their war aims, to the attainment of which they have come no nearer in the third year of the war, will in the future be proved to have been completely unattainable. Useless and unavailing, therefore, is the prosecution of the fighting on the part of the enemy.

The Powers of the Quadruple Alliance, on the other hand, have effectively pursued their aims, namely, defense against attacks on their existence and integrity, which were planned in concert long since, and the achievement of real guarantees, and they will never allow themselves to be deprived of the basis of their existence, which they have secured by advantages won.

The continuation of the murderous war, in which the enemy can destroy much, but cannot—as the Quadruple Alliance is firmly confident—alter fate, is ever more seen to be an aimless destruction of human lives and property, an act of inhumanity justified by no necessity and a crime against civilization.

This conviction, and the hope that similar views may also be begun to be entertained in the enemy camp, has caused the idea to ripen in the Vienna Cabinet—in full agreement with the Governments of the allied [Teutonic] Powers—of making a candid and loyal endeavor to come to a discussion with their enemies for the purpose of paving a way for peace.

The Governments of Austria-Hungary, Germany, Turkey and Bulgarla have addressed to-day identical notes to the diplomatic representatives in the capitals concerned who are intrusted with the promotion of enemy nationals, expressing an inclination to enter into peace negotiations and requesting them to transmit this overture to enemy States. This step was simultaneously brought to the knowledge of the representatives of the Holy See in a special note, and the active interest of the Pope for this offer of peace was solicited. Likewise the accredited representatives of the remaining neutral States in the four capitals were acquainted with this proceeding for the purpose of informing their Governments.

Austria and her allies by this step have given new and decisive proof of their love of peace. It is now for their enemies to make known their views before the world.

Whatever the result of its proposal may be, no responsibility can fall on the Quadruple Alliance, even before the judgment seat of its own peoples, if it is eventually obliged to continue the war.

All the Ambassadors and Ministers of foreign Governments were in the diplomatic box while the Chancellor spoke. The American Charge d'Affaires, Joseph C. Grew, and Mrs. Grew, were among those present, as were the Ministers of Argentina, Brazil, Chili and the other States of Central and South America. The Reichstag building was surrounded by a great crowd, and the adjoining streets were thronged. The people were intensely interested, and the Imperial Chancellor on his arrival was cordially greeted in the usual fashion. The Reichstag adjourned to be reconvened at the call of the President. Prior to adjournment, the President of the Chamber declared that the nation and its representatives would always support the Chancellor in a policy which was farsighted and intelligent.

A Central News dispatch from Amsterdam to London on the 12th inst. stated that it was announced officially in Berlin that Emperor William had notified his commanding Generals of Germany's peace offer, and had informed them it was still uncertain whether the offer will be accepted. Until that uncertainty was ended, the message said, they were to fight on. The message is quoted as follows:

Soldiers: In agreement with the sovereigns of my allies, and with the consciousness of victory, I have made an offer of peace to the enemy. Whether it will be accepted is still uncertain. Until that moment arrives you will fight on.

While there is nothing in the notes to indicate the terms on which Germany would be willing to agree to peace, reports have it that these terms are expected to include provisions for:

The restoration of Belgium.

The evacuation by Germany of all territory occupied in northern France,

in return for the restoration to Germany of her oclonies.

The establishment of Poland and Lithuania as independent kingdoms.

The restoration to Austria of territory captured by Italy in the neigh-

borhood of the Adriatic Sea.

The retention of Constantinople by Turkey.

The retention of Serbia by Austria-Hungary and the restoration to Bulgaria of all territory lost in the second Balkan War.

Count von Bernstorff, the German Ambasador at Washington, was quoted to the following effect on the 12th inst. concerning the peace proposals of his country:

I am gratified by the steps taken by my Government and I think that even if they should not result in peace they at least are proof that Germany, even in the height of a victorious campaign, has no desire to prolong human woe and suffering. Germany wants peace and does not want conquest. I cannot say anything about terms for the reason that I do not know what they may be.

CANADIAN MINISTER'S ADVICE TO UNITED STATES ON PEACE PROPOSALS—JAMES M. BECK'S PEACE VIEWS.

The peace proposals of Germany this week lend especial interest to the utterances at the dinner of the Pennsylvania Society at the Waldorf-Astoria last Saturday night. Setting out the Allies' stand Sir George Eulas Foster, K. C. M. G., Canadian Minister of Trade and Commerce, offered the query "Who in this war's woes does not sigh for peace?" and added that "the Allies know that the time for peace cannot come until the cause of the war has been scotched." "Then," he said, "the question of maintaining that peace permanently will tax the great minds of the world." As a

warning to the United States to refrain from proffering its services toward effecting peace at this time, Sir George was quoted in the New York "Times" as saying:

If I were an American I should say that it is time for America to do more than talk—to do more than "resolute." It is time for America to know her own mind and to let other people know it. What is the reply of Canada to those who come to us with plans for a present peace? The reply of Canada is, "Don't butt in."

Do not propose plans of peace to us until the vital issues of the war have been fought out, until the crime that caused it has been blotted out, till the evil influence which caused it has been restricted and restrained to the maximum.

Wait till the war has been fought to a decisive victory and then come to us with plans of peace, when a peace—a peace won by victory—will not again be broken up into war.

To-day the cause of the Allies is not triumphant; the issues of the war are still at stake. Do you realize that there are 800,000,000 people among the nations engaged in this war? Seven hundred million of them are on the side of the Allies. Are 700,000,000 people, with hearts so true, with souls so pure, with ideals so high, going to lie down at this time and cry for peace. No neutral nation, not China, nor the United States, nor any other

No neutral nation, not China, nor the United States, nor any other nation, will have any part in making peace. Those who have given their lives and treasure will make peace when the war has been fought to an end. Does this mean that neutral nations shall have no part in insuring peace for the future? Not in the least. Their part will be when the war is finally ended, to stand by, to counsel, and then to support the guarantees of peace in such a way as will prevent such a war from happening again.

The remarks, on the same occasion, of John W. Davis, Solicitor General of the United States, were of like interest. Mr. Davis, who was said by the toastmaster, James M. Beck, to be in a position to "speak for the Administration," characterized proposals of peace at this time by a neutral as "not only brutal, but impertinent." Mr. Davis let it be known that the subject was one he had not intended to discuss, but that his remarks were prompted by what Sir George had to say, and his desire to endorse the Canadian's views. The "Times" quoted Mr. Davis as follows:

No nation, our own or any other, has any right to dictate the terms on which the beligerent nations shall compose their differences. Plans for peace put forward at this time not only serve no good purpose, but they are calculated to disturb the councils of those charged with responsibility.

are calculated to disturb the councils of those charged with responsibility.

It is noted by the "Times" that while Mr. Davis did not state that he spoke for the Administration, he did not disavow Mr. Beck's statement. The "Times" in a Washington dispatch on the 10th further said:

Mr. Davis said to-night that he was giving only his personal views when he said that proposals for peace at this time were not only futile but impertinent, and that plans of peace put forward at this time would not only serve no good purpose, but that they might call forth expressions of opinion from the belligerent nations that might handicap the United States in the future in its efforts to bring about an understanding when the chances for peace might be brighter than they are now. He also said in his speech that "no nation, our own or any other, has any right to dictate the terms on which the belligerent nations shall compose their differences."

In expressing these opinions, Mr. Davis said, he was in no way commissioned to speak for the Administration, and he added that his introduction at the dinner as its spokesman was "purely complimentary."

Mr. Beck, President of the Society, made some laudable comments on the question of peace at the gathering; a large part of what he had to say dealt with the working principle of peace enunciated by William Penn. During the course of his speech Mr. Beck stated that "the great objective of human progress should undoubtedly be to have peace with justice, but unless and until both are attainable it is infinitely better to have justice with war than injustice through peace." Mr. Beck's address follows:

We address ourselves to the serious theme that has been selected for our deliberations to-night. It is one that is in every mind and rests heavily upon every soul. It concerns not the causes of the world war or the respective merits of the different belligerents, but the great question as to how human society can be reconstructed so that this most stupendous catastrophe that the world has ever known may not again overwhelm the world with the crushing weight of an avalanche.

The Pennsylvania Society has in the past labored for the great cause of peace. If it had not done so it would have been false to the memory of the great founder of Pennsylvania, who was easily the most conspicuous apostle of peace of his day and generation.

Nearly seven years ago we gave a dinner in honor of the foremost advocate in our day and nation of the cause of peace, the then President of the United States, William Howard Taft. No American statesman has carried the principle of international arbitration to a greater length. He sought to apply it to every kind of controversy between nations.

In behalf of this country and its President, he extended the right hand of friendship to every nation and expressed a willingness on the part of the United States to agree to submit any controversy to arbitration, even though it might seem to involve questions of international honor. And yet it is obvious that President Taft had no illusions on the subject of peace, for at this dinner of the Pennsylvania Society seven years ago he devoted his entire speech to the proposition, that, notwithstanding pending arbitration treaties, we should not neglect to fortify the Panama Canal.

At the same dinner one of the greatest lawyers and noblest publicists of our time, Joseph H. Choate, told us of the great progress that had been made in the path of peace at the two Hague conferences, from the last of which he had just returned as a delegate. He told us with evident gratification that the forty-four sovereign nations which assembled in this great world conference had unanimously agreed that there ought to be an international tribunal, before which the grievances of nations could be argued and decided in the light of reason. He, however, significantly added that while these nations had unanimously agreed to constitute an international tribunal, they were unable to agree as to the mode of selecting the judges.

He added to this the rather disconcerting remark that while the delegates found no difficulty in agreeing upon abstract ideas, they did find it exceedingly difficult to agree upon the phraseology in which these abstract ideashould be expressed. This led Mr. Choate to make the sagacious observas tion that "it is one thing to favor an idea and quite another to carry it into

Having accomplished this great result, The Hague Convention, after dispute as to the time of its next meeting, finally agreed to meet again in about ten years. In the meantime the leading nations feverishly increased their armies and navies.

The Pennsylvania Society, not discouraged by the fact that its first contribution to peace only resulted in the fortification of the Panama Canal, next proceeded to London in 1911, to honor the memory of Penn by erecting a tablet in the church on Tower Hill, where he was baptized. This was made the occasion of a notable international dinner at Stafford House, and made the occasion of a notable international dinner at Stafford House, and the great privilege and high honor was assigned to your President to respond to the toast of "Penn, the Apostle of Peace." Unfortunately the air at that time was charged with the electricity of war, and was vibrant with the excitement of the Moroccan crisis, and my oratorical chant in praise of Penn was somewhat submerged in the more suggestive speeches of Lord Kitchener, representing the English army; Admiral Lord Charles Beresford and Admiral Crompton, speaking for the British navy, and Rear-Admiral Chadwick, speaking for the navy of the United States. The presence of these distinguished soldiers and sailors seemed to indicate that Othello's occupation was not wholly gone. Othello's occupation was not wholly gone.

To-night we again address ourselves to the great subject which William

Penn had so deeply at heart. I shall not attempt to discuss it, for that task has been left to the three distinguished gentlemen who have honored us with their presence and to whom we especially extend not only a hearty welcome but our deep appreciation of their courtesy in accepting our invitation. And yet I may, in a very short introductory address, suggest to this audience the true doctrine of William Penn with respect to peace.

Penn recognized, as we must recognize, that there are two kinds of peace. The one is a natural peace, which requires no force to vindicate it. Such peace is a spirit and has its own potency. Such peace always has existed and always will exist between individuals and nations, when each desires nothing that is not just, and where each is willing, in the event of a difference of opinion as to what is just, to submit a disputed and justiciable question to the processes of reason through an international tribunal or otherwise.

It is obvious, however, that such a peace must depend upon the pacific purposes of both parties to a controversy, for while it takes two to make a peace, it takes only one to make a quarrel, and the everlasting truth of the last two years is that the peace of the world depends not upon the disposition of the pacific, but upon that of the bellicose. As long as there is one nation in the world that prefers might to right, the world will cry "Peace, peace,

Penn himself illustrated this natural peace in a manner that excited the admiration of all posterity in his famous treaty with the Indians. The peaceful and noble-minded Quakers desired nothing that was not just, while the Delaware Indians were peaceful by disposition, and were not less generous in their views than their white brethren.

Penn recognized this and in noble and never-to-be-forgotten words he said to the denizens of the forest:

"We are met on the path of mutual respect and fair dealing. vantage will be taken on either side, but all shall be openness and love. I will not call you children, for even parents sometimes chide their children too severely; nor brothers, for even brothers sometimes differ. Our friendship I will not liken to a chain, for that the rain might rust or a fallen tree might break. We are as if one man's body were divided into two parts. We are all one flesh and blood."

To this noble appeal to the spirit of generosity and justice the so-called

savages replied:
"While the sun shines and the river runs we will keep peace with William
Penn and his children."

Penn and his children." In that age of ever-recurring wars, nothing more deeply impressed the imagination of the world than this treaty under the branching elms of the Delaware. This treaty did not prove, like the treaty of London of 1839, which guaranteed the neutrality of Belgium a "scrap of paper." seventy-five years Penn's compact with the Indians was kept with scrupulous fidelity by both parties and evoked from the cynical Voltaire the sadly truthful statement that it was the only treaty between nations which was not reduced to parchment and ratified by an oath and yet was never

Penn, however, recognized that such a peace, the natural peace, could only exist between nations or individuals all of whom were just in purpose and pacific in spirit. He so clearly recognized this that in 1693 he wrote his "Essay Toward the Present and Future Peace of Europe," in which he advocated the formation of an international parliament, in which all European nations should be represented and before whom all controversies should be brought, and recognizing that such a tribunal could not work in the world of fallible men and selfish nations except with the motive power of force, he, notwithstanding his Quaker doctrine of non-resistance, advocated that the judgment of the proposed international tribunal in any case, to quote his exact language, "should be made so binding that, if any Government offers its case for decision and does not then abide by it, the other Governments parties to the tribunal shall compel it."

Thus was the working principle of peace, now advanced by the League to Enforce Peace, enunciated by William Penn in the last years of the seven-teenth conturn, and if that ideal has not yet here realized among men, it is

teenth century, and if that ideal has not yet been realized among men, it is simply because there has not yet been developed a solidarity of humanity which recognizes the obligation of every nation to vindicate the cause of

justice, and in this way, and in this way alone, maintain peace.

The great objective of human progress should undoubtedly be to have ace with justice, but unless and until both are attainable it is infinitely better to have justice with war than injustice through peace. Multip death, horrible as it is, is infinitely better than multiplied disgrace. peace which would deliberately sacrifice justice and enthrone wanton wrong would be a crime against God and man alike. A peace which would even return to the unhappy people of Belgium their own country, without reparation or atonement, would be even a greater mischief than the war that is now deluging half of the world with blood. Of the sorrows of Belgium it can be truly said in the stern and terrible words of Abraham Lincoln, in his last inaugural:

Vainly do we hope, fervently do we pray, that this mighty scourge of wa may speedily pass away; yet if God wills it that it continue until all the wealth piled by the bondmen's 250 years of unrequited toil shall be sunk and until every drop of blood drawn with the lash shall be paid by another drawn by the sword, as was said three thousand years ago, so still it must be said, 'The judgments of the Lord are true and righteous altogether.' "

The great need of our age is not to bring about peace at any price, but to compel ever nation to recognize its share of a common responsibility.

I was deeply impressed with the statement that President Wilson made during the recent campaign, to the effect that this was the last great war in which America could remain a neutral.

Without accepting the literal truth of this statement, its substantial meaning should find a favorable response in every American heart. It is possible that the trembling balance of power in Europe, which has caused between its nations so many bitter quarrels and bloody wars, may yet be redressed when a new and puissant nation, the enemy of none and the friend of all, comes forward and exerts its moral authority in behalf of international justice. Thus the United States might be accorded the moral leadership

of the world. It cannot gain this proud position of world arbiter by tacit acquiescence, in the supposed interests of peace, in every infamy that any nation may perpetrate. If it is to become the great arbiter of civilization, its voice must first be heard on the side of justice in no uncertain tones.

However dark the future is—and humanity has never passed through a darker period since the Thirty Years' War—thoughtful men of every nation must press on to the ultimate goal of peace with justice, with the faith and sublime spirit of Penn, the noblest idealist of his time.

The night will pass away and the morning will break. Wise and noble men of every nation, who tread the mountain ranges, believe they see the first glimmer of the dawn, even when the valleys are still wrapped in night. Enlightened publicists of other nations eagerly look to the United States. not for present intervention, which is not desired, but for future guidance when the war shall have ended and the reconstruction of society through the processes of peace shall again be undertaken.

Among the noblest of these publicists is a true friend of America, who has sent a message across the Atlantic to this gathering of Americans. His message will come with added weight because for many years he most acceptably represented his great empire at Washington, and his words of wisdom will have the greater force because they come from a publicist than whom no other more completely understood our institutions or sympathized more deeply with our country and its peculiar problems.

Nicholas Murray Butler, President of Columbia University, who also addressed the gathering said in part:

The important point for the American people to consider and to decide is this: taking the world as it is in the twentieth century, what is to be the attitude and what the policies of the American people and of the American Government toward other nations and toward those problems and those questions of principle which cannot be confined within national boundaries or restricted by any barriers of race or religion or speech?

If the United States is to be an international power and to exert international influence, it must prepare itself for these severe and responsible tasks. It must make sure that it enters into no international obligations that it cannot and will not keep, and it must scrupulously keep every international obligation into which it enters. It is poor satisfaction to have to say to a foreign Government, as more than one Secretary of State has had to say, that the United States Government is without power to enforce in its own courts the treaty rights of an alien. A nation that makes a treaty with the United States expects it to be kept by the United States, and not to be subject to the local veto of a State Legislature in obedience to some local interest or local demand.

It has been pointed out that more than twenty commercial treatles, upon which as many nations felt that they might rest secure, were in effect abrogated by the so-called La Follette Shipping Bill, passed at the last session of Congress. It is not a comforting thought that occurrences of this sort increase in number, and that in consequence foreign nations are coming to wonder whether the Government of the United States is, so to speak, internationally competent or whether it is so constructed that, while it may make engagements, it cannot be expected to keep them.

The time has come, indeed it has long passed, for the American people earnestly and intelligently to consider their foreign relations and to formulate a foreign policy that is worthy of their best traditions and in consonance with the language of the Declaration of Independence itself. Patriotism cannot rest on prosperity; it must be based on principle.

PROPOSED CHANGE IN NEW YORK STOCK EXCHANGE RULE REGARDING COMMISSIONS.

The Governors of the Stock Exchange at a meeting on Wednesday approved an amendment to the constitution regarding commissions on transactions in foreign and domestic short term notes and bonds. At present a commission of one-eighth of one per cent. is exacted from nonmembers by members for buying or selling securities having five years or less to run. Under the change contemplated the question of commission will it is understood be a matter of mutual agreement and not subject to a fixed rule. the event that the resolution is not disapproved by the members it will go into effect on the 20th inst.

CHICAGO CONFERENCE ON COLLECTION CHARGES OF COUNTRY BANKS-RESULTS OF REFERENDUM.

A meeting to consider a plan of action to be taken with regard to securing an amendment to Section 16, of the Federal Reserve Act, which provides for the so-called par collection of checks was held in Chicago this week by the Committee of Twenty-five named at the annual meeting of the American Bankers' Association to co-operate with the latter's Federal Legislation Committee in bringing about remedial legislation. Of the Committee of Twenty-five, 15 represent the country bankers and 10 bankers in Reserve cities. The country bankers, according to the Chicago "Post," are seeking to obtain permission to charge 66 2-3 cents for every \$1,000 remitted in the form of checks or drafts; last year, it is stated 726,000,000 such items were handled, involving an aggregate of \$30,000,000,000. It is pointed out that the Post Office Department, through its money order division, charges \$9 10 per 1,000 on similar business, and the country bankers contend that if this charge is exacted by the Government, it is unreasonable to deprive them of a moderate compensation for their services, which entail labor, risk and expense. Jerome Thralls, Secretary of the Committee, and Secretary of the Clearing House and National Bank Sections of the American Bankers' Association, stated at this week's conference that a referendum vote on the question, taken throughout the United States among State and national banks, showed that over 75% of the bankers were in favor of action by the Committee looking to an amendment of the provision to remedy the present situation.

The Chicago Conference named as permanent Chairman of the Committee, Nathan Adams, Vice-President of the American Exchange National Bank of Dallas; Mr. Thralls, who had been acting Secretary, was named as Secretary. The Committee will confer with the Congressional Committee on Banking and Currency concerning the contemplated amendment.

The results of the referendum on the check collection plan of the Federal Reserve system conducted by Jerome Thralls, Secretary of the Clearing House and National Bank Sections of the American Bankers' Association, and Secretary of the Committee of Twenty-five, which was named by the Association to assist in bringing about an amendment to the collection provision of the Reserve law, were printed in the "Journal of Commerce & Commercial Bulletin" on Thursday. While the latter announces the referendum as completed, Mr. Thralls advises us that the complete results are not yet available. Concerning the results the "Journal of Commerce" says that it shows that about 77% of the bankers of the country find the present plan unsatisfactory, while 17% find it satisfactory and 6% are uncertain.

More than two-thirds of the banks, the "Journal of Commerce" further states, are in favor of amending the law so as to eliminate the clearing and collection feature. A great many of them feel that such action would have a decided influence upon the attitude of State banks becoming members of the Federal Reserve system. Twenty-six per cent of the banks state that under the operation of the present plan they are losing \$500 a year or less, 31% are losing from \$500 to \$1,000; 16% are losing from \$1,000 to \$2,000, and 12 o are losing more than \$2,000 a year. Others are unable to estimate their losses. A feature of the answers is that nearly two-thirds of the banks believe it would be to their advantage for the Federal Reserve banks to establish and maintain a clearing and collection system which will be voluntary and self-sustaining. We give below the list of questions and the answers as published by the "Journal of Commerce," which states that the percentages are calculated only for the national banks, but that approximately the same proportion, it is understood, is maintained in the replies of the State banks and trust companies:

Question 1 .- Is the plan of clearing and check collection now operated

by the Federal Reserve banks satisfactory to you?

16.9% yes, 76.9% no, 6.5% indefinite.

Question 2.—Do you think the law should be amended so as to eliminate the clearing and collection features?

68% yes, 25.5% no, 6.5% indefinite.

Question 3.—Do you think the Federal Reserve banks should undertake to maintain a comprehensive clearing or collection system?

32.2% yes, 57.6% no, 10.2% indefinite. Question 4.—Would the elimination of the clearing and collection feature from the law have any decided bearing upon State banks joining the Federal Reserve system?

42.6% yes, 29.8% no, 27.6% indefinite.

Question 5.—What rate of exchange per thousand dollars did you charge for drafts sold over your counter prior to the inauguration of the Federal erve clearing system?

16% no charge; 8% charged under 1-20; 11.9% charged 1-20; 54% charged 1-10; 6.4% charged 1-8; 1.7% charged 1-4; 2% indefinite.

Question 6.—What rate of exchange per thousand dollars do you now

Question 6.—What rate of exchange per thousand dollars do you now charge for drafts sold over the counter?

18.6% no charge; 1.6% charged less than 1-20; 12.6% charged 1-20; 49.3% charged 1-10; 5.6% charged 1-8; 1.6% charged 1-4; 10.7% indefinite.

Question 7.—What rate of exchange per thousand dollars did you charge for remitting to cover checks received through the mails prior to the inau-

guration of the Federal Reserve clearing system?

11.6% no charge; 1.4% charged less than 1-20; 17.6% charged 1-20;
54.4% charged 1-10; 7.9% charged 1-8; 1.4% charged 1-4; 5.7% indefinite.

Question 8.—What rate of exchange per thousand dollars do you now

charge for remitting to cover checks received through the mails, from sources other than the Federal Reserve system?

18.3% no charge; 2.1% charged less than 1-20%; 15.6% charged 1-20; 50% charged 1-10; 7.5% charged 1-8%; 1.2% charged 1-4; 5.3% indefinite. * Question 9 .- What percentage of your items are now coming to you through the Federal Reserve bank?

45.4%, 10% or less; 18%, 25%; 15.2%, 50%; 6.5%, 75%; 6%, over 75%; 8.9% cannot determine.

Question 10 .- What amount of net income or revenue do you figure your bank will lose per annum on account of the influence and operations of the resent Federal Reserve clearing system?
26% show a loss of less than \$500; 31.3% show a loss from \$500 to \$1,000;

16% show a loss of \$1,000 to \$2,000; 12.3% show a loss of \$2,000 or over; 14.4% cannot determine.

Question 11.-Do you think it would be of advantage to the banks and the general business interests for the Federal Reserve banks to establish and maintain a clearing and collection system which will be voluntary and self-systaining? That is, a system: First-Open for the use of those who desire to use it (no bank being obliged to use it). Second-The expense of its maintenance to be borne by those who use it on a pro rata basis, as is the custom with regular clearing houses. Third—Allowing banks to make a reasonable charge to cover expense of remitting and service. Fourth— The system to have no connection whatever with the reserve feature and to be operated and developed on merit only—that is, its ability to render the highest character of service along efficient and economical lines.

In event clearing feature is retained in the law: 62% yes, 24% no, 14%

indefinite.

Question 12 .- If you think a plan as described above should be instituted, what rate would fairly cover your expense of remitting and your service and time costs?

19.3% would cover at par; 2.5% charged less than 1-20; 15.6% charged -20; 33.2% charged 1-10, 2.9% charged 1-8; 1% charged 1-4; 25.5% definite.

Question 13.—Do you think Section 19 of the Federal Reserve Act should be amended so as to reduce the amount of reserves required for country banks—if so, to what per cent should the required reserve be reduced?

48% yes, 34.6% no, 17.4% indefinite. Question 14.—If the required reserves remain as now fixed, would you favor an amendment permitting country banks to carry 3% of their required reserves with national banks in cities now designated as "reserve cities" or in any national bank within a radius of 300 miles from the home of the respective country banks? 88.6% yes, 4.8% no, 6.6% indefinite.

NEW YORK BANKERS URGE REDUCTION OF COUNTRY BANK RESERVES.

Group VI of the New York State Bankers' Association at a meeting at the Hotel Martinique, this city on Tuesday, adopted a resolution advocating legislation which would reduce the amount of reserve which country banks are required, under the Federal Reserve Act, to carrry with the Federal Reserve banks. The resolution was introduced by Benjamin Smythe, President of the Gramatan National Bank of Bronxville. The Group comprises bankers in Westchester, Orange, Duchess, Rockland and Ulster Counties. State Superintendent of Banking, Eugene Lamb Richards, and F. C. Schwedtman of the National City Bank, were speakers at the gathering. The following were elected officers of the Group for the ensuing year: Chairman, T. De Witt E. McKinstry, of Newburgh, N. Y.; Secretary and Treasurer, F. E. Bridges, of Liberty, N. Y.; Chairman of Executive Committee, H. E. Colwell of New Rochelle.

GEO. E. EDWARDS ARGUES IN FAVOR OF SAVINGS BANKS AND LIFE INSURANCE COMPANIES.

"The Interests in Common of Savings Institutions and Life Insurance Companies" was the theme of an address delivered at the tenth annual meeting in New York yesterday of the Association of Life Insurance Presidents by George E. Edwards, President of the Savings Bank Section of the American Bankers' Association and President of the Dollar Savings Bank of New York. Mr. Edwards's remarks were devoted to a discussion of savings bank life insurance and the co-operative movement for the promotion by banks of life insurance, which he described as "a healthy interest in common of the two institutions;" he likewise had something to say regarding their common interest in railway security holdings, and urged in conclusion the necessity for cooperation to further the interests of each community throughout the United States. We quote what he had to say below: Every social and economic revolution has had its Peter the Hermit. So

it was in the movement for savings bank life insurance in Massachusetts. It was designed, primarily, as a charitable or benevolent enterprise, promoted and financed by officials of the Commonwealth at the expense of taxpayers. It was instituted in England in 1864 with the result that twenty-three and one-half thousand policies were issued in forty years. In Massachusetts personal canvass was not essential. Such expense should In Massachusetts personal canvass was not essential. Such expense should be saved, thus resulting in premiums being appreciably reduced and dividends being appreciably increased for the benefit of the wage earner. Theoretically the plan was immensely successful. One hundred and twelve thousand people joined the movement. Four banks, after four years, agreed to operate savings insurance departments. In nine years from 1907 to 1916 the number of policies issued was 14,418 for insurance of \$6,185,693, doubling itself in the past two years as the result of legislation increasing the limit of insurance for any individual from \$500 to \$1,000, thus evidencing that much of the insurance placed was outside of the inthus evidencing that much of the insurance placed was outside of the industrial class, an average of \$429 02 per policyholder; whereas \$140 is the average per policyholder for industrial insurance in the regular insurance companies. I hold no brief for the insurance companies nor for the State of Massachusetts. The facts are self-explanatory. State aid is paternalism. Paternalism is undesirable. Such legislation lacks the personal equation, the recognition of experience and the principle of the greatest good to the greatest number. Chaos and confusion result where unfair competition is promoted in place of co-operation. The average selfrespecting American wage earner does not wish charity. If rates for industrial insurance are fair and equitable experience evidences willingness of the wage earner to pay them. State aid under the present social and economic regime is not a welcome visitor. Private enterprise and ingenuity of the American are not to be stifled by disturbing reformers. However, the movement in Massachusetts, regardless of the attitude that may be assumed, has undoubtedly emphasized the urgent need of life insurance for the individual. I dare say that the people of Massachusetts are to a greater degree than ever before aware of the vital necessity of providing for the future. It pays to advertise. Thus, in this manner the savings banks of Massachusetts, which put into operation life insurance departments, unintentionally, perhaps, did more to give publicity to the existing life insurance companies than any other medium-in some ways similar to the benefits the savings banks derived from the postal savings movement. of the public was forcibly brought to thrift and the desirability of providing for the future. The savings of the country have grown to a greater extent n of p in the past five ye mcepu like period in the history of the country. Over 6,000 post offices in the United States are constantly bringing to the attention of the public the necessity for saving. Director Keene appropriately characterized the postal savings system as the moving platform to the savings institution. So it is with savings bank life insurance in the larger sense; it is the moving platform to life insurance companies. Hence, considering the subject from such aspect proves there is no competition but the greatest co-operation. It is indeed a healthy interest in common of the two institutions.

Savings institutions and life insurance companies naturally should be

nseparable; their interests are one. In 1862 a national savings bank with

innumerable branches was proposed, in the main, to secure capital to finance the government. An insurance department for the issuance of annuities and endowments was to be added. It was substituted, however, by the National Bank Act. The idea of the two institutions, therefore, being closely associated, is not new. William F. Dix in 1910 stated: "If the wage earner could be taught regularly to place his surplus earnings with a savings bank which would not merely be kept there for him in trust, but used as premiums to pay for insurance on his life, poverty stricken families among the laboring classes would largely cease to exist. If the wage earner could be persuaded to put a certain sum in the savings bank each week and arrange to have the bank apply a portion of his funds to pay premiums on his life insurance, still keeping a steadily growing residue in the bank, this plan would be still better, because in the time of stress when his wages stopped, temporarily for instance, his reserve fund in the bank would prevent his policy from lapsing."

Not until six years after this speech, in February 1916, was the suggestion of Mr. Dix apparently followed. The credit belongs to a large and growing State bank of St. Louis, the St. Louis Union Bank, for conceiving a plan for greater co-operation of savings institution and life insurance company, whereby depositor-policyholders would save in order to promptly pay premiums. The plan had its basis in newspaper advertising, boosting life insurance and containing a series of twenty advertisements; the purpose being to impress upon the insurance men of the city and country the value of advertisements themselves as aids in selling insurance, and the further value of the underlying idea of co-operation between savings institutions and life insurance companies. A national effort was then made to bring about the use of these advertisements by at least one bank in every large city of the United States. Assistant Cashier Moser of the Union Bank recently wrote me in explanation of their campaign that "the big idea of this spirit of co-operation between banks and life insurance companies has taken hold throughout the United States, as is evidenced by the fact that two hundred banks have already used the advertisements we prepared. It stands to reason that the wealth of any community is increased in proportion to the insurance carried in that community, and for this reason, if for no other, we should be very glad indeed to promote the sale of life insurance, as we have endeavored to do. The bank profits in this connection from another angle, namely all life insurance men necessarily feel most friendly to the bank, which helps them to sell insurance. The main object of our campaign of advertisements was not only to help the insurance men sell insurance, and in that way develop business which, sooner or later, would come back to the bank, but, primarily, to obtain the good-will and the influence of every life insurance man in the city." Some altruists, perhaps, would ridicule the commendable efforts of this institution. It wo

The final interest we have in common, which I desire to call to your attention, is regarding our railway security holdings. The savings banks of the country hold \$825,000,000 of their assets in railway securities. This amount added to the railway security holdings of commercial banks and trust companies totals \$1,705,000,000, about 16% of the total bonded indebtedness of the railroads. 22 7-10% of the population of the United States are depositors in savings banks or savings departments. The railway security holdings of life insurance companies would bring the above total to more than \$2,500,000,000. There are holders of 42,000,000 life insurance policies in the United States. What a tremendous aggregation interested in this vital question! How essential it is that the investigation of the railroad situation undertaken by the Newlands Committee be continued. Assuredly, there is required much assistance to aid such a committee in its deliberations. Referring to this question, President Wilson recently stated: "The interest of the producer, the shipper, the merchant, the investor, the financier and the whole public in the proper maintenance and complete efficiency of the railroads is too manifest. They are indispensable to our whole economic life, and railway securities are at the very heart of most investments large or small, public or private, by individual and by institution." At the Kansas City convention of the American Bankers' Association a resolution was unanimously adopted which "favored a system of railroad regulation, which will eliminate the costly conflicts between Federal and State authority, and enable Congress exclusively to exercise in behalf of all the States its constitutional power to control inter-State commerce in the general interest and to call the attention of Congress to the vital importance of upholding railroad credit." We are preparing a monograph in pursuance of the aforementioned resolution as our part in the investigation and study of this great ecomonic problem.

In conclusion, my thought is that we should all recognize our interests in common; we should see the necessity for co-operation; we should at all times endeavor to further the interests of each community throughout the United States by getting in touch with the individual through selling him life insurance and encouraging him to open a savings account, thus teaching him to conserve, thus materially furthering economic preparedness and national progress—the theme of this excellent meeting—in the next decade.

E. L. RICHARDS AGAIN URGES CO-OPERATION OF GOVERNMENT AND BUSINESS.

Eugene Lamb Richards, Superintendent of Banks of the State of New York, was the guest of honor at the annual meeting and dinner given by the Bankers' Association of the State of Delaware in Wilmington on the 14th inst. Superintendent Richards dwelt upon the need of preparation to meet present and future financial problems and emphasized in the solution of these problems the importance of co-operation between Government agencies and business interests. He said:

After two years of supervising the State banks and trust companies of New York, with between five and six billions of resources, I have come to be

a firm believer in the middle way for banking—the middle way between absolute Government control and private ownership. I believe that the solution for most of our difficulties lies in a system of complete co-operation between banks and the State—a co-operation between the State and every officer or director of banks under its supervision, with like co-operation between the banks and their depositors.

I believe that the present system of finance or banking should be developed and improved, but not substantially changed. But there are necessary elements in which all must do their part. The Apostles of Buncombe have pictured all bankers as selfish, greedy, and honest only by force.

And what can you bankers do? You must meet these attacks both by word and by deed—by word, through frank publicity in full and open detailed information to your depositors and to people generally; by deed, in not borrowing money from your own banks yourselves and by keeping your banks clean of slow and dangerous loans made either to friends or to selfish interests. The man on the street must be made to believe not only that your financial statements are true, but that your business dealings

are square.

Certainly the problems that we are to face are becoming tremendous. A leading financial authority has recently said that in the past two years there has been an increase in the gold currency of the world of over \$1,000,000,000 and an inflation of total currency, including gold, of over seven billions of dollars; and that this process of inflation is going on with uniformly accelerated motion. Given a continuance of such money conditions and then given a sudden stoppage of at least part of the foreign trade with Europe which we are now enjoying, and it does not require much imagination for banks to see that a condition will arise demanding preparedness along the highest lines of co-operation.

what must the bankers of this State and the bankers of any other State do? My answer is that they must combine. They must co-operate.

It is doubly important that we should face these problems here and now,

It is doubly important that we should face these problems here and now, and not to put off the day of solution. With the constantly increasing wealth of this country, and with the continuing importance of its banking position in the world, we should take stock now of our banking conditions and methods, and prepare to meet the responsibilities which both the present continuance and the future discontinuance of the war will necessarily involve.

CONFERENCE OF FEDERAL RESERVE GOVERNORS.

A report on the question of the establishment of branches of the Federal Reserve banks was laid before the Federal Reserve Board at Washington by the Governors of the Reserve banks on the 14th inst. Thus far but one branch has been established—the New Orleans branch of the Atlanta Federal Reserve Bank. It is stated that no conclusion was reached on this subject, or any other discussed at the conference in Washington, which had been in progress from Monday until Thursday. The deliberations also dealt with the following:

Reserve and central reserve cities, disposition of Government bonds, reserve banks as fiscal agents of the Government, uniformity in reports of reserves and enforcement of reserve penalties, report of the transit managers' conference neld at Chicago, report of the auditors' meeting held at Chicago, handling of gold settlement fund, retirement of national bank notes, vault reserves, purchase of domestic and foreign acceptances, conversion of 3% Treasury notes into 30-year 3% bonds, treatment of organization expenses, collections and clearances, loans on farm land and other real estate, national banks as insurance agencies, the accumulation of gold by Federal Reserve banks, and the establishment of branches or

agencies of Federal Reserve banks.

NEW DIRECTORS OF FEDERAL RESERVE BANK OF ST. LOUIS.

Sam A. Ziegler of Albion, Ill., has been elected a Class "A" director of the Federal Reserve Bank of St. Louis for a three-year term, to succeed Oscar Fenley of Evansville, Ind., whose term expires Dec. 31.

W. B. Plunkett of Little Rock, Ark., has been re-elected a Class "B" director of the bank, for a three-year term beginning Jan. 1.

ELECTION IN RICHMOND FEDERAL RESERVE DISTRICT.

The Federal Reserve Bank of Richmond announces that at the election just held, Col. John F. Bruton, of Wilson, N. C., was elected Class A Director to succeed himself, and Capt. James F. Oyster, of Washington, D. C., was elected Class B Director to succeed himself. The newly-elected directors will serve for three years from Jan. 1 1917. Through Caldwell Hardy, Chairman of the Board of Directors, the bank says:

Of 170 banks in Group No. 2 entitled to vote for a Class A director this year, only a limited number advised the appointment of electors. The same was the case among the 178 banks in Group No. 3 entitled to vote for a class B director this year. A number of banks, however, still remained as they were originally in these two groups, and had originally appointed electors for the first election. Under a ruling of the Federal Reserve Board "that when such elector has once been elected, he may continue to serve as such until the member bank properly elects a successor," these original electors were entered as the representatives of their respective member banks and ballots sent them accordingly. This gave the largest possible number of banks in these groups the opportunity to vote.

Four names were placed in nomination for Class A director. Out of 108 ballots cast, 100 were first choice for Col. John F Bruton as Class A

Four

Four names were placed in nomination for Class B director. Out of 77 ballots cast, 68 were first choice for Capt. James F. Oyster as Class B director.

The Class A and Class B directors whose terms expired this year were

The Class A and Class B directors whose terms expired this year were elected respectively by banks in Group No. 2 and banks in Group No. 3, as only these groups were entitled to participate in this election.

SENATE PASSES IMMIGRATION BILL

The immigration bill, with the literacy test, was passed by the Senate on the 14th inst. by a vote of 64 to 7. The bill passed the House at the last session—on March 30. On the 11th inst., when the bill came up in the Senate, Senator Works of California blocked action on it by giving notice that he reserved the right to demand a separate vote on a Senate Committee amendment providing for the exclusion of Hindus and other Asiatics by prescribing geographical areas from which the immigrants shall not be admitted without enumerating races. The amendment, recommended by the State Department after inquiries had been made by the Japanese Government respecting provisions of the bill as it passed the House, eliminated all references to the Root-Takahira passport agreement regulating Japanese immigration. Senator Works insisted that this would leave the United States at the mercy of Japansese dictation as to immigration from that

Senator Works's attack caused the Senate to consider the subject behind closed doors, since treaty rights were involved in the issue. Senator Works in opposing the amendment said:

The amendment leaves the United States with absolutely nothing but the so-called gentlemen's agreement on which to depend. Whenever that agreement is abrogated, the entry of Japanese into this country would be unrestricted. We will be absolutely at the mercy of Japan in the future if we have no other safeguard or restrictions except this agreement.

The proposed bill makes conditions much worse than they are now. We leave it absolutely to Japan to determine in the future what of her citizens should come into this country.

Senators Chamberlain and Reed also voiced their disapproval of the amendment, while Senators Smith, Pomerene, Lodge and others defended it.

Senator Lodge said that the amendment was "awkward," but left the United States in "no worse or no better" position than at the present time. The effect, he said, was to exclude all Asiatic immigration not already excluded by the gentlemen's agreement with Japan.

After another day of debate over the exclusion of aliens on account of race, the Senate on the 12th inst., adopted the Committee amendment barring Hindus and certain other Asiatics without mentioning them by name, with an added provision stipulating that nothing in the Act shall be construed to repeal any existing law, treaty or agreement which serves to prohibit or restrict immigration. This added stipulation, proposed by Senator Phelan, of California, was designed to replace the direct reference to the so-called ' tleman's agreement" with Japan, which was stricken out of the House bill by the Senate Committee. During the debate Senator Lodge and Senator Phelan engaged in a lively argument, the former insisting that it was needless to insert in the bill any reference to agreements because they would not strengthen the position of the United States. The Phelan provision prevailed without a roll call and the committee amendment as modified was adopted by a vote of 42 to 14, Western Senators voting against it. An amendment of Senator Reed's to exclude African negroes from United States was defeated by a vote of 32 the When the Senate adjourned on the 12th there was pending another amendment by Senator Reed to exclude all persons who came to the United States for temporary employment as laborers, intending to return to their native land. This was adopted on the 13th inst.

An amendment offered by Senator Phelan to exclude women not married according to American law where men of the same race are excluded was defeated on the 13th inst. without a record vote. The Senator explained that it was intended to prevent admission of so-called "picture brides," who come from Japan when their photographs bring requests for them as wives for Japanese residents of the United States. Senator Poindexter offered an amendment to exclude from admission to the United States all immigrants incapable of becoming naturalized American citizens; this failed by a vote of 41 to 24. Another amendment offered by the Immigration Committee and adopted by the Senate excludes persons who have come to the United States and later returned to their native land to take up arms against a country with which the United States is at peace. This amendment is aimed at the reservists and others who returned to Europe during the present war to enlist for service.

Final action on the bill was deferred on the 13th to permit consideration of an amendment proposed by Senator La Follette designed to eliminate a clause excluding persons who advocate or teach the destruction of property. With its reconsideration of the clause on the 14th the Senate adopted an amendment by Senator Hardwick for the Committee, permitting entry of persons who advocate or teach

destruction of property "in war, insurrection or revolution" but not otherwise.

Senator Phelan of California made a final attempt on the 14th to secure reconsideration of his amendment prohibiting the entrance of "picture brides," but the attempt was defeated. On the bill's final passage three Republicans—Brandegee, Colt and du Pont—and four Democrats—Husting, Martine, Phelan and Reed—voted against it. The bill now goes to conference. Representative Burnett's immigration bill, carrying a literacy test provision, was vetoed by President Wilson in 1915, and it is expected that the present bill will meet a like fate.

PROPOSED INCREASE IN SECOND CLASS MAIL MATTER—POSTMASTER GENERAL'S REPORT

The House Committee on Post Offices and Post Roads is reported to have approved on the 9th inst. a rider to the Post Office appropriation bill providing for the application to second class mail matter of increased rates in accordance with the parcel post zone system. The rider, which was offered by Representative Randall of California, provides:

That all newspapers, magazines and other publications, regularly admitted to the mails as matter of the second class, shall hereafter be subject to the following rates of postage, the zone system now applying to parcel post matter to be adapted also to second class matter:

Local, first, second and third zone (under 300 miles), 1 cent per pound.

Fourth zone, 300 to 600 miles, 2 cents per pound.
Fifth zone, 600 to 1,000 miles, 3 cents per pound.
Sixth zone, 1,000 to 1,400 miles, 4 cents per pound.
Seventh zone, 1,400 to 1,800 miles, 5 cents per pound.
Eighth zone, over 1,800 miles, 6 cents per pound.

Provided, that free country circulation provided by law shall continue as at present; and provided, further, that no discrimination in rates of postage on account of the frequency of issue shall be permitted in the city or town where a publication is mailed or otherwise.

The Committee also, on motion of Representative Steenerson, added a provision increasing the rate on mail order catalogues from 2 to 8 cents a pound, making them third class matter instead of parcel post. Concerning the Randall proposal the New York *Times* says:

In defense of his amendment, to which there was little opposition in the House Committee, Mr. Randall said he estimated the average postage under the terms of the proposed law would be $2\frac{1}{2}$ cents a pound. He argued that ordinarily the circulation radius of a newspaper was 300 to 600 miles, or under 300 miles, and the increased postage would not be excessive. He admitted that the rates for the remaining zones were far in excess of the flat one-cent rate now prevailing, but insisted that the Government should not carry newspapers at aloss.

If the Randall amendment is approved, it will require six or more cents to mail a Sunday edition of the average newspaper from New York to the Pacific Coast. Magazines also would be hard hit by the legislation.

The change in second class rates was voted at an executive session of the Committee, and members were reluctant to discuss it or admit an agreement had been reached. It was learned that comparatively few votes were cast against it in Committee, and the rider would be carried in the Post Office budget.

The Committee also approved a one cent postage for "drop letters" for delivery on a local rural mail route, or within the city wherein the letters are mailed.

Post Master General Burleson in his annual report issued on the 8th inst. recommended that second class postal rates be revised to make such matter pay more of its share of transportation expense, and that the one centrate be applied to so-called "drop" letters. Coincident with the issuance of his report there was made public a letter which he addressed to Representative Moon, Chairman of the House Committee on Post Offices and Post Roads in which he advised the Committee to give heed to the representations of the publishers concerning the inexpediency of increasing rates at this time. In this letter Mr. Burleson said:

Since writing my annual report for the fiscal year ended June 30 1916 there has appeared before me a Committee representing the Agricultural Publishers' Association, also other representatives of periodicals and magazines, all of whom earnestly urged that no steps be taken at this tine to increase the rates of postage on second class matter. These representatives claim that the war and other unusual conditions have recently caused an abnormal increase in the price of paper, and such increases, coming as they did after the contracts had been entered into for the advertising matter, seriously threaten the financial stability of these periodicals and publications.

Because of these facts, which were not available at the time my report was written, I feel constrained to write you this letter and state that while I still adhere to the recommendations on this subject contained in my annual report, I feel that most serious consideration should be given to the repretations of these publishers. If conditions are as stated by them, it might be well to consider whether the increase in rates of postage on second class matter should be made at this time.

In his recommendations bearing on second class matter, the Postmaster General said:

Despite the material increase in the cost of print paper, mailings of newspapers and periodicals as second class matter at the cent-a-pound rate and free of postage in the county of publication showed no sign of diminution during the fiscal year 1916. On the contrary, such mailings were greater than ever before, aggregating 1,202,470,676 pounds, an increase of 93,184,891 pounds, or 8.4% over those of the fiscal year 1915, the postage derived from such mailings amounting to \$11,383,530.02. The cost of handling and transporting second class matter is several times the revenue received therefrom, and as the volume of such matter is constantly increasing the necessity of taking some step to readjust the rates thereon becomes more and more apparent.

Now that Congress has provided a solution of the railway mail pay problem, if a moderate step should be taken toward requiring those using the second class mail privileges to pay a fair part of the cost of that service, it would then be possible to revise the rates on first class mail and provide for penny drop-letter postage at all post offices. In any event, the Department recommends that as early as practicable the one-cent rate of postage be applied to all drop letters. In January 1914 the Department recommended as the initial step in the direction of a readjustment of the postage rates on second class matter on the basis of the cost of handling and transporting it that the rate on publications issued less frequently than weekly and on weekly publications other than newspapers be increased from one cent to two cents a pound, leaving for future determination an additional increase if the same should be found necessary or desirable.

As an alternative to this plan it is recommended that a flat rate of one and one-third cents a pound on all second class mail matter subject to the one cent a pound rate be considered, if such plan be regarded as more just

and equitable.

If it is thought that there should be a distinction between advertising and other matter carried in any of such publications, it is then recommended that the rate of postage on publications entered as second-class matter issued less frequently than weekly and on weekly publications other than newspapers shall be one cent a pound, except for such part of the publica-tion as is composed of sheets devoted in whole or in part to advertising matter, the rates of postage upon which shall be the same as the rates which are applicable to third and fourth class matter, respectively. would not change the rate on newspapers and would continue the one-cent-a-pound rate on all matter other than advertising contained in other periodicals, but would apply higher rates to advertising matter carried in periodicals other than newspapers. Such higher rates would conform to the rates on third-class matter where applicable and to the zone rates applicable to fourth-class matter in other cases.

The other recommendations of the Postmaster include the following:

That early action be taken by Congress declaring a Government monopoly over all utilities for the public transmission of intelligence and that as soon as practicable the telephone and telegraph facilities of the United States be incorporated into the postal establishment.

That \$300,000 be appropriated now for acquiring telegraph and telephone

utilities in Alaska, Porto Rico and Hawaii.

That changes be made in the present building policy which imposes a fixed charge on the department that has grown burdensome

That the classified service be extended to include the position of Post-

master at offices of the first, second and third classes That the department be authorized to bond its employees, so that the

Government may be protected more adequately and that relief may be afforded officials and employees of the service. That the pay of rural carriers be equalized by fixing salaries on the basis

of the number of pieces and weight of mail transported, length of routes and time required to serve them, instead of solely on length of routes as at pres-

That \$100,000 be appropriated for experiments in aerial transportation of mail.

Growth of the parcel post will cut the cost of living to the city dweller, the report declares. The service is now handling 90,000,000 packages a Liberal changes in its regulations have done much to bring about its extensions it is declared.

The discontinuance of the pneumatic mail service in Boston, Philadelphia, Chicago and St. Louis and a curtailment of the service in New York is also recommended in the report. Mr. Burleson's recommendations as to the New York Service are: That the tubes from Brooklyn to the Flatbush postal station be discontinued, that separate bids for tube service below and above 42d Street in New York be asked, and that any contract entered into may be terminated by the Post Office authorities at six months' notice. Vigorous protest by commercial and civic organizations representing the cities concerned have been lodged with the Post Office Committee as a result of this recommendation.

The report announces that the United States now has parcel post conventions with 53 countries and colonies. reporting a surplus of \$5,200,000 for the Department as a

result of the year's operations, the report says:

The Department lays especial emphasis upon the fact that it is no longer a tax on the general revenue, having produced surpluses for three out of four years of the present Administration; however, that its policy has been, and shall continue to be, not to permit the postal service to become a revenue producer for the Government, but that all surplus postal revenues should be used for the enlargement of the service, to increase postal efficiency and, when justified, to reduce the rates of postage.

Surpluses of \$3,500,000 for the year 1913, \$3,500,000 for the year 1914 and \$5,200,000 for the year 1916 were paid into the general fund of the Treasury, making a total during the past four years of \$12,500,000.

But for the business depression occasioned by the European war the Department would have undoubtedly secured a surplus of not less than \$18,000,000 during the four years ended June 30 1916. This is in marked contrast with the deficits for the eight years of the two preceding administrations, which drained the Treasury of 448,739,639 34 and 24,927,657 40, respectively.

SECRETARY McADOO COUNSELS NATION TO REMAIN NEUTRAL.

The duty of this country to civilization to continue its policy of neutrality during the war was impressed upon the members of the Southern Society by Secretary of the Treasury William G. McAdoo at the annual dinner of the organization at the Waldorf-Astoria on the 13th inst. quotes him as saying:

In this time of chaos to civilization throughout the world, we owe one This, in my judgment, means that this nation continue to preserve, as far as possible to do so with honor, the policy of neutrality which has

characterized its actions throughout the last two years.

By effective organization we must preserve our own prosperity and make ourselves as efficient as possible, so that we may, when the time comes, be able to render some service in settlement of the great issues that must arise when peace is restored to stricken Europe.

Unless, when the time comes, our country exerts great power to assis these other nations, and if necessary becomes a party to some undertaking which will insure the peace of the world, there will not be a possibility of assuring world peace in the future.

And I like to feel that the American people are considering the great questions of the future not wholly from the materialistic standpoint, but from the earnest desire to use their great power and great resources for the benefit as far as it is practicable for us to transmute them to our suffering brothers on the other side of the water.

SECRETARY OF TREASURY McADOO DENIES THAT HE IS TO RESIGN.

A persistent rumor that Secretary of the Treasury, William G. McAdoo would resign from the Cabinet, was denied by the Secretary on the 11th inst. at Washington, when he took occasion to state in reply to inquiries that "I have no intention of resigning from the Cabinet." The belief that Secretary McAdoo would resign has been based on reports that he had received an offer to become President of a leading New York trust company, and that he felt it incumbent upon him to retire from public life so that he might give more attention to his personal affairs.

WELDING RING IN DEVELOPMENT OF AMERICAN SHIPPING AND INDUSTRIAL PROBLEMS.

Discussing the "American Merchant Marine" before the Brooklyn Engineers Club on the 7th inst., Welding Ring, Chairman of the Executive Committee of the New York Chamber of Commerce, alluded to the rapid development of our ship tonnage during the past two years, and noted that at the present time every ship yard on both the Atlantic and Pacific coast, as well as our Great Lakes, is full of orders and unable to accept any new contracts for delivery in less than eighteen months to two years. Prices of Americanbuilt ships, said Mr. Ring, have also advanced, but there still seems to be a very large demand, particularly for our own shipping interests, as well as for Norway, Sweden and Holland, and the amount of tonnage now under construction and contracted for is greater than ever before in the history of the United States. Should these conditions continue for a further period of one or two years, Mr. Ring observed, the United States will reach the position of the second maritime nation of the world, and if for a longer period, very closely compare with that of Great Britain. He further said:

Three years ago no one could have anticipated any such conditions as exist at the present time, and it would be a rash prophet who would try to indicate what they will be two, three or four years ahead. Our own Government has recently passed its naval program providing for a very large amount of war tonnage to be built as soon as the yards can supply it, but it has developed that with so much tonnage already contracted for, there is not sufficient building capacity to care for all that the Government has to offer and there will undoubtedly be delays in the delivery of war tonnage far beyond what is now anticipated.

This combination of various demands, has placed the ship building interest on a very active basis, and undoubtedly a very prosperous one, and those interested can without doubt count upon a fairly long period of

prosperity.

will not do for us to close our eyes to the fact that competition in shipbuilding will be extremely keen when the war ends. The men who are now serving in the trenches and various capacities in Europe will then be released and will feel the necessity for returning to their positions or securing new ones, and the incentive of necessity will make them keen in their endeavors to push forward the developments of Great Britain and without question the same conditions will apply to Germany, France and Italy. Just how far this will affect the question of wages cannot now be determined, but we can reasonably count on their being on a higher basis than before the war commenced. They have been accustomed to higher payments in all manufacturing lines and when wages are once advanced, it is rarely they are reduced.

This brings to mind a question that is now confronting the United States seriously, and will be one of the most difficult problems to soive that we shall have in the future. The demand for labor at the present time is in excess of the supply and this condition always tends to advancing prices. Wages in every direction have rapidly advanced on the plea that the wageearner should participate in the prosperity of the country and to also meet increased cost of living. Both of these are fair reasons for advances and no one will dispute them. There is, however, great danger that the demands of labor may go too far. The reduction in the hours of labor to an eight-hour day means not only that there will be two hours daily of reduced production, but that costly machinery, the investment value of which is very large, becomes idle for the same period, and the result is that this decrease adds immediately to the cost of the article produced. It will be wise for our legislators, our merchants, manufacturers and bankers to give most careful consideration to the question of labor; the industrial problems looms large now, and still larger for the future, and it will only be by careful study and fair treatment on the part of both parties, that will bring about conditions most favorable for developments in this country, and particularly so in the shipping trade.

GROWTH OF AMERICAN SHIPPING.

American merchant shipping registered for the foreign trade and enrolled or licensed for the coasting trade and fisheries on June 30 1916 comprised 26,444 vessels of 8,470,-946 gross tons, according to the report of Secretary William C. Redfield of the Department of Commerce. On the subject of American shipbuilding the report says:

During the fiscal year ended June 30 1916 all American shipyards built 937 merchant vessels of 325,414 gross tons, compared with 1,157 vessels of 225,122 gross tons for the previous year. These figures cover vessels completed and documented for trade at the custom houses. It does not include vessels launched but not documented up to the end of the fiscal year. In my report last year it was estimated that this year's output doubtless would be 400,000 gross tons. The conditions which obtained in our larger shipyards, and, indeed, through our steel industries in the spring and early summer of 1916 are generally known. The demands upon such plants taxed them to their maximum capacity, and the demand for skilled labor, especially in shipyards, often exceeded the available supply. Wages generally were increased and strikes occurred in some shipyards. Delays in construction involving about 80,000 tons of ship construction were thus inevitable, and the finished product of our yards, accordingly, is less than was estimated a year ago. The total volume of construction under way or undertaken during the year greatly exceeds, however, the most sanguine expectations of our shipbuilders a year ago.

Since my last annual report the shipbuilding industry of the United

Since my last annual report the shipbuilding industry of the United States has ceased to hold the position merely of a domestic industry, and through the skill and enterprise of our builders, naval architects and capitalists has become a matter of prime international interest and concern, as, for the time at least, it must be a main source of supply of new ships for the prosecution of the world's foreign trade. During the first six months of 1916 American shipyards completed and the Bureau of Navigation officially numbered 524 vessels of 240,055 gross tons, while during the same period British shipyards, according to Lloyds's returns, launched 160 vessels of 238,255 gross tons. In June, however, British yards more actively resumed merchant shipbuilding, and during the nine months up to Oct. 1 they had launched 246 vessels of 430,522 gross tons. In the same period American yards had completed 846 vessels of 361,113 gross tons for American owners and 5 vessels of 17,203 gross tons for foreign owners, a total of 851 vessels of 378,316 gross tons. Some of the British ships launched await engines and machinery, the output of which is still delayed by the demands of the munitions department.

The current fiscal year opened, accordingly, with the promise of the largest output of American shipyards in our history. On July 1 1916 work had actually begun, according to the returns of shipbuilders, on 186 steel vessels of 699,658 gross tons, and under normal industrial conditions all this tonnage should be completed during the current fiscal year. During the calendar year 1915 British yards launched 650,919 gross tons. In addition American shipbuilders were under contract to build 199 other steel merchant vessels aggregating 526,126 gross tons, a portion of which will be completed during the current fiscal year, but the greater part of which will not be completed before the fiscal year ending June 30 1918.

On Oct. I 1916 American shipyards were building or under contract to build 417 steel merchant ships of 1,454,270 gross tons. Of this tonnage the builders at that date expected to launch 326 ships of 998,035 gross tons before the end of the current fiscal year. Some yards are working the full 24 hours with three shifts of men, and in some instances bonuses have been offered to builders and by builders to their employees for delivery in advance of the contract date. This does not include the wooden shipbuilding in many smaller yards. This product is usually about 100,000 gross tons annually and will be greater during the current year.

On the subject of our merchant marine Mr. Redfield sayss The American merchant marine has never before increased so fast a during the past two years. In that time we have doubled our shipping in the foreign trade—from 1,076,152 gross tons to 2,191,715 tons. No other nation ever in so short a time increased its shipping in foreign trade. Under the Ship Registry Act admitting foreign-built ships to American registry for foreign trade 182 vessels of 616,033 gross tons have been added to our merchant marine. On July 1 1915 our shippards were building or had under contract 76 steel vessels of 310,089 gross tons. On Oct. 1 1916 this had grown to 417 steel merchant vessels of 1,454,270 gross tons. This does not include work in progress or under contract on wooden ships in many yards. The merchant shipbuilding thus in progress is not only the greatest in our own history, but greater than any corresponding construction in the history of any other nation except Great Britain. It includes gross tons.

SECRETARY REDFIELD'S COMMENTS ON THE EXPANSION IN OUR FOREIGN TRADE.

With regard to our unprecedented foreign trade, Secretary of Commerce William C. Redfield, in his annual report made public on the 9th inst., points out that the balance of trade in favor of the United States on merchandise transactions for the fiscal year ended June 30 1916 was \$2,135,775,355. The total of our merchandise export trade was \$4,333,658,865 and our import trade \$2,197,883,510. In essaying that we must maintain our export trade and must continue and increase loans and investments abroad to protect our reserve of gold, Mr. Redfield says:

Our foreign indebtedness has been reduced possibly three billions. We have loaned abroad a total sum since the war began on Aug. 1 1914 estimated at \$1,500,000,000 and increasing. We are the wealthiest nation in the world and the most prosperous one. We have not wasted our men or means in war. Relatively to our fiscal power to-day our debts are trifling. Nations less wealthy than some of our individual States bear a heavier burden of debt and interest than we. We are the only one of the great industrial peoples that is at peace. Nations turn to us for goods and for means with which to pay us for the goods. None of us, in our wildest financial fancies, would five years ago have dreamed that things could be as now they are. To protect our reserve of gold, which is the ultimate base on which our domestic credits rests, we must maintain our export trade and must continue to increase loans and investments abroad. The work of the Bureau of Foreign and Domestic Commerce is devoted to these important duties. The report of the Chief of that service shows its extraordinary expansion and effectiveness. In thousands of business offices its aid is acknowledged and welcomed. Never has our Government put at the disposal of our business and industry the helpful facilities that are now provided.

It is of national importance that the great service, which shows such practical results, should be given the men and money necessary to carry on its great work even more efficiently. The force of commercial attaches should be enlarged. Further sums should be provided for the foreign traveling service, and the supervising and clerical staff should be made adequate to meet the demands of commerce. The department acknowledges with keen appreciation the aid which Congress has given. The funds for promoting the foreign trade of the country are now five times larger than they were four years ago. The results are many times greater than the increase in funds.

SECRETARY REDFIELD DISCUSSES WAGE INCREASE AND HIGHER LIVING COST.

Secretary William C. Redfield of the Department of Commerce in his annual report made public on the 9th inst. refers to the embarrassment at times of the service by the number of declinations of appointments received and resignations in the lower grade positions, and expresses the belief that, among other things, the establishment of a minimum rate of compensation for all clerical positions would have a beneficial effect upon the service. He points out that material increases in the wage scale have been made in recent years in practically all lines of work in the commercial world, this rendering it more difficult for the Government to obtain persons of the type and qualifications desired for certain classes of positions. Leading up to the wage increases and increase in cost of living witnessed since 1854, Mr. Redfield says:

While increases in many cases are desirable, it is not believed that a horizontal increase all along the line would solve the problem. It certainly would not be equitable, for the salaries of some positions are relatively much less than in others. Before there is any general increase in salaries there should be a thorough reclassification of positions and readjustment of salaries so that existing inequalities would be eliminated.

The following compilation has interest in connection with the facts relating to the cost of living of Government employees in Washington. The present scale of wages for clerks in the Government service, grouping them into four classes and fixing a salary of \$1,800, \$1,600, \$1,400 and \$1,200 respectively per annum for each of these classes, was fixed by the Act of Congress approved April 22 1854, and has not been changed since that time. For the subclerical grades the rates of compensation were fixed by the Acts of Congress approved July 23 1866 and July 12 1870.

For 60 years the rates of compensation to clerks have remained stationary, and for about 46 years to the subclerical grades. The available figures on file in the Bureau of Labor Statistics, based upon wages in selected industries, all of which, however, were not uniform for the entire period covered, but which can be accepted as typical, show an increase in daily average wage of 137.4% from 1854 to 1915. In other words, daily wages in 1915 were 2 1-3 times as much as in 1854. The reports on cost of living show that for the same period, 1854 to 1915, the increase has been 14.1%. These figures are based on wholesale prices and it is a fair assumption that the retail price increases will very closely approximate those of the wholesale price increases. Bringing the price figures up to the latest date for which they are available, the month of September 1916, by using figures relating to retail prices of food, the increase over 1854 is 32.4%. In other words, the increase from the average for 1915 to September 15 1916 in price of food commodities as a group is greater than the increase of the average price for the whole period from 1854 to 1915. The increase during the nine months ended Sept. 15 1916 over the average price for the year 1915 is approximately 16%. For the last few years the figures showing wage increases are based on the union wage scale. It is a well-known fact that in many industries to-day wages in excess of the union scale are being paid.

ADVANCES IN WAGES.

Further announcements have come this week of steps taken by large corporations and companies to assist their employees in meeting the high cost of living. The Standard Oil Company of New Jersey, which lately increased the wages of its laborers, issued the following statement on the 1.2th inst.:

In order to aid the employees of this company, who have not been included in the general wage advance already made and to meet the unusual living conditions that now exist, the board of directors has authorized a bonus payment to all such employees within the United States receiving less than \$3,000 per annum as follows:

Twenty per cent. to employees receiving up to and including \$1,000 per annum, 15% to employees receiving from \$1,001 to \$2,000 per annum and 10% for employees receiving \$2,001 to \$2,999 per annum.

Although the date of distribution of the bonus was not announced, it was expected that it would be included in the current month's pay, being in the nature of a Christmas present.

At Schenectady on the 11th inst., it was announced that the General Electric Co. would increase the wages of 60,000 of its employees, earning less than \$2,500 yearly, 10%. This increase is to be discontinued at the Company's pleasure. It will add about \$6,000,000 to the Company's annual payroll. The first payment will be made Jan. 15.

It was announced at Wilmington, Del., on the 10th inst., that the 20% extra pay or war bonus granted during the past year to payroll employees in the operating department of the Du Pont Company has been made a part of the total regular wages beginning Jan. 1. This action does not apply to or affect the salaried employees. It is estimated that between 35,000 to 40,000 men will be affected.

The National Surety Company of New York City announced on the 8th inst., that all employees earning \$200 a month or less who have been in the service of the company more than six months are to receive 15% increased pay to cover the increased cost of living. It is provided that those who have been in the service of the company less than six months will receive 10% additional compensation. Payments are to be made monthly, in addition to the regular salaries and are to be retroactive to cover the months of October and November. This additional compensation is a temporary measure. The company has nearly 600

salaried employees More than 20,000 Overland employees will receive an increase in wages. Jan. 18 it was announced by the Willys-Overland Co., in Toledo on the 8th inst. The increase will range from 5 to 10% and will add \$1,250,-000 to the annual payroll. Notice of the increase, signed by H. L. Shepler, Vice-President, was posted in the Overland shops and reads:

The Willys-Overland Co., realizing that the problem that the employees are compelled to face in meeting the increased cost of practically all neces sities of life is getting to be a serious one, and desiring to assist in such manner meeting this problem, the company, effective Jan. 18, 1917, will

increase hourly rates as follows: All rates up to and including 30 cents an hour, will be increased $10\,\%$. All rates over 30 cents and up to and including 40 cents, will be increased

All rates over 40 cents will be increased 5%.

All piece work will be increased 5%.

This advance will also increase the annual payroll of the Auto-Lite Co., Toledo, by \$225,000; the Elmira plant, \$350,000, and the Elyria plant,

It was made known that 17 shoe factories in Lynn, Mass., readjusted the wages of their employees. A change in trade conditions, by which the shoe cutters contended that they were unable to earn as much as formerly, was said to be responsible for the increase in wages.

The Corn Products Company, of Chicago announced a raise in wages of 17% on the 8th inst. This action affects 1,300 employees. Earlier in the year the company advanced

the wages of its employees 10%.

It was announced on the 11th inst., by the Champion International Company, paper manufacturers at Lawrence, Mass., that a 10% increase in wages would be given to its 600 employees. The Union Bag and Paper Company announced a bonus on the same date to its employees, amounting to 10% of their annual salaries and payable in quarterly installments beginning Dec. 15. It was stated on the 10th inst., that the Windsor Paper Company of Windsor Locks, Conn., a branch of the American Writing Paper Company would grant a temporary bonus to its employees of 10% of the present monthly wage. This bonus is not a steady advance in wages and is subject to discontinuance by the company, with the return of normal conditions. It is estimated that the granting of the bonus will affect about 4,000 employees. The order is effective Dec. 15. The International Paper Company at Watertown, N. Y., on the 6th inst., granted a 10% increase in wages to its 11,000 employees. The increase, which will continue until further notice, will be added to the monthly wages each month.

On the same date it was announced at Houghton, Mich., that approximately 17,000 of the 25,000 employees of Copper Mines in the Lake Superior district will participate in a bonus to be distributed on the first pay day of 1917. This bonus is an increase of 25 cents over the regular wages for every day to all employees who have worked steadily from July 1 to

It is understood that the Lucey Manufacturing Corporation, the oil well supply company, with offices in many cities of this country and in the oil centres of Europe, will pay a Christmas bonus of 15% of their year's salary to employees.

PROCEEDINGS IN EIGHT HOUR SUITS.

The determination by the U.S. Supreme Court of the constitutionality of the Adamson law in time for Congress to enact any supplementary legislation at this session was regarded as assured on the 11th instant, when the Court advanced the test case for argument on Jan. 8. The Court granted the Government's motion, submitted by John W. Davis, Solicitor General of the United States, to expedite the Missouri Oklahoma & Gulf Railroad case in which Federal Judge Hook held the Adamson law void. Mr. Davis's motion was referred to in our issue of Dec. 9. There had been some hope of having the case heard before Christmas, as the Adamson Act becomes effective Jan. 1. All interests are believed to be conserved pending the Court's decision, however. Special accounts of wages due employees under the law will be kept, and all other litigation will be held in abeyance by agreement between the Government and the railroads until the decision is given.

At Amory, Miss., on the 9th instant, a bill of injunction was filed in the Federal Court of Aberdeen, Miss., by the St. Louis & San Francisco Railroad Company against the Brotherhood of Engineers, the Order of Railway Conductors, the Brotherhood of Locomotive Firemen and the Order of Railway Trainmen, all of the Amory division of said orders. Process orde served on a member of each Order are returnable a Aberdeen on Dec. 22, answers t e 10th inst., Judge Ray being required. At Syracuse of the United States District Court issued temporary in-

junctions restraining Federal and railroad officers from enforcing the Adamson act, pending the Supreme Court's decision of the test case, now before it.

TWO RAILROAD MEASURES EMBRACED IN PRESI-DENT WILSON'S PROGRAM IN COMMITTEE.

Two bills designed to carry out President Wilson's railway program set out in his message to Congress last week, were presented to the Senate Inter-State Commerce Committee on the 14th inst. by Senator Newlands, chairman of the committee. One of these bills provides for the compulsory investigation of industrial disputes, and the other authorizes the President to take over railway, telegraph and telephone lines in case of national emergency. Public hearings on the bills will be held beginning Jan. 2.

LABOR'S EFFORTS TO AVERT ADOPTION OF PRESI-DENT WILSON'S PROGRAM FOR COMPULSORY ARBITRATION OF DISPUTES.

Intimations that Congressional action on President Wilson's railway legislation program might await the result of determined efforts of labor leaders to draft as a substitute for all forms of compulsory arbitration a plan for dealing with strikes, actual and threatened, which will be agreeable to their followers, employers and the Administration, were contained in newspaper dispatches from Washington on the 8th inst. These dispatches said:

The unofficial alliance between the American Federation of Labor and the four railway brotherhoods arranged recently at Baltimore for the purpose among other things of opposing "dangerous" legislation, is bearing its first fruit in conferences between representatives of both organizations for the purpose of drafting a plan that will shelve all compulsory arbitration

Congressional leaders, aware of this activity, are inclined to go slowly on the President's program pending announcement of labor's proposals, provided, of course, they are revealed during the present session of Congress. A delay even of sixty days, a House leader said to-day, would still leave Congress time to take any action it might deem necessary.

Samuel Gompers, President of the American Federation of Labor, said to-night (the 8th) that conferences already had taken place between Brotherhood and Federation leaders, but that no concrete plan had been worked out. Hope exists, he said, that some plan can be drawn which will be agreeable to all concerned and make Congressional action un-

"I can't give any details of what has been accomplished," he said, "because I want to help all I can in this movement. This, though, I will say, organized labor always will oppose any form of compulsory arbitration.

If a scheme satisfactory to the workers is drafted, it is understood, it then will be submitted to representatives of the railroads and other employers and to the President. Approval of it probably would mean that Congress at least would eliminate the compulsory arbitration feature from any legislation enacted.

If no substitute plan can be agreed upon the Congressional machinery will be ready for pushing the President's program in whatever form he may desire, to a speedy vote. If it should include a compulsory arbitration feature, organized labor is expected to make the fight of its life against

SAMUEL GOMPERS WARNS AGAINST GOVERNMENT-AL REGULATION OF INDUSTRIAL RELATIONS.

A warning against governmental regulation of the normal activities and personal relationships of the people was uttered by Samuel Gompers, President of the American Federation of Labor, at the Conference on Social Insurance held at Washington on the 8th inst. under the auspices of the International Association of Industrial Accident Boards and Commissions. At the same conference President Wilson argued in favor of a better "social understanding;" in welcoming the delegates President Wilson declared that the nation was turning its attention "more and more to those things which affect the daily life and fortunes of the rank and file" and was getting into closer touch with the daily lives of the men and women The President in part said:

We are living in an extremely interesting time. We have drifted away from purely political questions. We have, fortunately enough, ceased to make constitutional questions the centre of discussion and are turning our attention more and more to those things which affect the daily life and fortune of the rank and file of great nations. We are studying the people who long ago ought to have been served better than we have served them, and as we get in closer and closer touch with the daily lives of men and women we know how to conduct our own individual lives better, with a

deeper insight and a truer sympathy.

A conference such as this, to discuss social insurance, gives evidence of the dominant interest of our own time, and one of the best elements of social insurance is social understanding—an interchange of views and a comprehension of interests which for a long time was only too rare. It used to be confined to those who were supposed to be restricted to what the general public regarded as the useless precincts of the university it has spread to the ranks of practical men and has come to be regarded as a

Referring directly to the recently threatened nation-wide railroad strike, Mr. Gompers said that its discussion in Congress had led to an effort to enforce "conscription" on the workers. In passing, he mentioned the suggestion that strikes and lockouts be prohibited, pending the outcome of an investigation. He continued:

Giving governmental control over industrial relations gives great power to an unknown force. I beg you to have a care in attempting to regulate the personal relationships and normal activities of the people. I hope the nation will be warned in time. No matter how sympathetic or humanitarian may be the gloss over the plan, I beg you to be aware. We do not know what the effect will be of the war in Europe, but the people of the United States should hold their liberties in their own hands.

Mr. Gompers opposed compulsory social insurance, and praised the work of trade unions in promoting the welfare of the workers and in encouraging voluntary social insurance. Secretary Wilson of the Department of Labor, declared the next step would be old-age pensions. George Pope, President of the National Association of Manufacturers, told of the efforts of manufacturing companies and organizations to promote the welfare of their employees and opposed too much government "interference." Secretary Redfield of the Commerce Department, presided.

INQUIRY BY NEWLANDS COMMITTEE INTO RAIL-ROAD REGULATION.

The Congressional Joint Committee on Interstate Commerce, of which Senator Newlands is Chairman, suspended on Dec. 9 its hearings on the subject of Government regulation and control of transportation, because of the pressure of other work before Congress. It was announced on Thursday by the Chairman that the hearings would be resumed on Jan. 2. Under the resolution creating the Committee it is required to submit a report by Jan. 8. It is understood that before that time the Committee will ask for an extension of time

Max Thelen, President of the National Association of Railway Commissioners, who was examined by the Committee on the 6th, completed his statement in opposition to exclusive Federal regulation on Dec. 9 and was followed by S. W. Brookhart, of Washington, Ia. Mr. Thelen put into the record some newspaper clippings showing the increases in the earnings of railroads for 1916 and told the Committee that, in his judgment, "the railroads are now suffering from the hysteria of pessimism," and that although their earnings are greater than at any other time in their history they "are engaged in the absurd task of trying to ruin their own He opposed the plan of the Federal incorporation, saying that under decisions of the Supreme Court the Federal Government would have the power to take from the States even their police powers in so far as railroads engaged to any extent in interstate commerce are concerned, if they were incorporated with Federal charters, and that this conclusion probably follows as to state rates, State service and State facilities. He objected that the railroads desire to retain the advantages which they now enjoy under State charters while destroying the powers which the States may possess under the present charters. Under a plan of compulsory Federal incorporation he thought that if the present capitalization were left unchanged the railroads would have an opportunity to claim that their securities were outstanding under the compulsion of the Federal Government.

He did not agree with William J. Bryan that capitalization should be based on cost of reproduction on the ground that many railroads, because they were unwisely constructed or because their traffic has diminished, are not now worth the cost of reproducing them. He referred to the Western Pacific, which he said cost over \$81,000,000 to build originally and would cost more to reproduce to-day, but which was sold at a receiver's sale for \$18,000,000. On the basis of present and prospective earnings, Mr. Thelen said, that is all the road is worth. He did not believe that the suggestion that stock be issued without a par value would solve the problem. The entire plan of Federal incorporation, Mr. Thelen insisted, is unnecessary because it is possible for Congress to do everything under the commerce clause of the Constitution without it which it could do with it.

If the States make rates that discriminate against interstate commerce, he said, the condition ought to be remedied, but he thought the Supreme Court had done so in the Shreve-port case decision.

Mr. Thelen described at some length the work of the California Railroad Commission to show that it had cooperated with the roads on many occasions which had been appreciated by the railroads, and said that over 99½% of the Commission's decisions in formal cases had gone into effect without any court action. He opposed the proposed plan of regional commissions subordinate to the Interstate Commerce Commission on the ground that they would merely supplant the state commissions with Federal office-holders who would be strangers to local conditions. He duded:

"If the railroads had the intention of making all public regulation in effective, they could not do it in any way better than that which they now suggest: first, take away the powers from the States, which are on the job, and secondly, overload the Federal Government in such a way that the Federal Government's regulation will break down."

Mr. Thelen concluded his argument by insisting that the railroads have made an entirely wrong analysis of the causes of impaired credit and that they "propose to cut off the good right arm of State railroad regulation on the plea that State railroad regulation has injured their credit, when the real trouble with them is acute gastritis resulting from an overdose of securities which they have not been able to digest."

Mr. Brookhart, who appeared as representing the Iowa State Railway Commission, read a lengthy statement advocating government ownership of railroads.

THE INDEFINITENESS OF THE EIGHT-HOUR LAW.

Speaking in New York before the Forum of the Free Synagogue last Sunday night, Ivy L. Lee, formerly Assistant to the President of the Pennsylvania RR., stated, that it is in the highest public interest that an agreement should be reached between the railroads and their employees with reference to the Adamson Eight-Hour Law. What he had to say on the subject is quoted in part below:

Eminent lawyers regard the law as invalid, and yet it would be unfortunate if the Supreme Court should actually be called on to pronounce the law unconstitutional. In that event the employees would feel that they had been deprived by the Courts of something the President, the Congress, even the people indirectly, had said they were entitled to. Indeed, the men would probably feel themselves deprived of even more than the law ever contemplated giving them.

Whatever one's view may be of the law, therefore, one cannot escape a feeling that an unfortunate impression is likely to be created by a Court decision invalidating the law.

If the law is declared constitutional, nobody knows what it means. On its face it gives ten hours' pay for eight hours' work to those principally freight train operatives who have heretofore been paid on an hourly basis. But the bill also specifies that the one basis of a day's pay shall be eight hours, thus eliminating the mileage basis upon which a large number of men, principally those handling passenger trains, had worked.

The mileage basis means that if an employee runs for 100 miles, he shall have a day's pay even though it requires much less than eight hours to perform it.

Thus the literal interpretation of the Adamson Law would reward with a 25% wage increase the younger and less responsible employees who run the freight trains and would penalize those who after many years of service have obtained the more desirable passenger runs.

To apply the law as it stands would in fact work such injustice upon a large number of deserving men that no responsible railroad manager would seriously consider doing it.

Yet there the law stands, effective Jan. 1. It is a situation which calls for conference and agreement. Surely there must be some workable basis upon which managers and men can agree, and go to Congress with a petition to substitute their practical plan in place of the unworkable and unconstitutional Adamson Law.

Such an agreement is not only necessary to clear up the fog surrounding the Adamson Law, but it is of the greatest importance for these two reasons:

1. The atmosphere should be cleared of misunderstanding so that Congress shall be able to consider dispassionately the comprehensive railroad program recommended by the President; and

2. The railroads should be able to adjust their wage schedules as a whole to accord with the rapidly changing conditions. As matters stand, the uncertainties of the Adamson Law, threats of strike, &c., make any wise and confident treatment of the situation impossible.

Railroad managers are quite generally of opinion that a large number of railroad employees are underpaid and ought to have an increase in wages.

Adjustments that ought to have been made in the past were not made because the funds available for such purposes were absorbed by award of

arbitration boards to a minority and already the best paid of the men.

Something of this feeling was manifest in the bonus announced by the

Atchison Railroad a few days ago, to its employees not working under
contracts or arbitration award.

The industries of the country are making large increases in wages, the cost of living is going up steadily, and the demands upon railroad employees for energetic and unremitting service were never so great.

for energetic and unremitting service were never so great.

Railroad managers, desiring to do everything possible for their men, already see the turn in their own tide of prosperity. The cost of railroad living is curtailing the ability of the railroad to enable its own employees to meet the cost of individual living.

In the presence of that dilemma, the railroads also find themselves confronted with a law conferring special favors upon 20% of their men, whereas every railroad manager feels that the interests of 100% of the men deserve attention.

And a more fundamental difficulty of the railroad in meeting a situation the manager knows ought to be met is this:

Whereas an industry may raise its prices to pay its increased costs, a railroad must likewise pay its increased costs but is quite effectually stopped from raising its rates to pay the bill.

W. H. TAFT CHARACTERIZES THREAT OF FEDERA-TION OF LABOR AS AN ACT OF REBELLION.

The danger to American economic strength because of the tendency of union labor to place itself above law and order is characterized by former President William H. Taft as "one big cloud on our horizon when we look to the days to follow this world conflict." Mr. Taft made this declaration in delivering a broadshot at the American Federation of Labor while addressing the Chamber of Commerce Committee of One Hundred in Providence on the 1st inst. Describing as "an act of rebellion" the threatened action of the

Federation to strike if the Adamson law is not upheld, Mr. Taft insisted that all forces of public opinion be called on to prevent any such usurpation of power. In part he said:

We cannot get away from this European war. We must consider it, and the two questions that rise most prominently in our minds are: "When is it going to end?" and "What can we do to meet the conditions bound to arise when it does end?"

The danger to American economic strength through the tendency of union labor to place itself above law and order is one big cloud on our horizon when we look to the days to follow this world conflict.

Now, gentlemen, here is the issue. We tolerate these things, as is the nature of the American public. But some one must protest, and if no one else will, I will!

The American Federation of Labor wishes to deny to the unorganized laborer his right to labor. What the Federation seeks is the right to dictate who shall and shall not labor.

This amounts to an act of rebellion. And, more, the highest tribunal in the nation has been notified that unless the Adamson law is upheld the

threatened railroad strike will be enforced.

It is a threat to starve the nation into submission. The decision resulting may be the proper one, but the means contemplated are wholly wrong. The American Federation of Labor needs to be told that we cannot have a republic without obedience to organized restraint. The trouble is that our politicians don't tell them this. If we have a railroad strike, all forces of public opinion and public action must be called into play to force obedience.

The prospect for our nation's safety in the economic conflict which will follow the war is indeed gloomy if we are going to have this threatened disregard of law and order by the four railroad unions and other unions which may follow their example,

ELISHA LEE URGES NEED OF COMPULSORY SETTLE-MENT OF RAILROAD DISPUTES.

That the wage structure is just as complex as the rate structure, and wage problems present ever greater difficulties than rate problems, was the observation made by Elisha Lee, Chairman of the National Conference Committee of the Railways in an address before the Economic Club of New York on the 11th inst. When it is considered, he said, that nearly two-thirds of the cost of railroad operation is the wage bill, it is seen how closely related are rates and wages. A 10% flat increase in the wages of all railroad employees is, he pointed out, equivalent to a 70% increase in all freight The demands for higher wages made by the train organizations (only one-sixth of the employees) were, he added, equivalent to a 5% advance in freight rates. While he is not prepared to say that all railroad wage problems should be placed unreservedly in the control of a public commission, it is Mr. Lee's belief that when a controversy between the managements and the men reach a stage where the interests of the public are imperilled, there should be a compulsory peaceful settlement, a judicial settlement, that will conserve the public interest as well as the rights of the parties to the controversy. We quote what he had to say below:

The threat of a nation-wide stoppage of railroad traffic, that would strike at the very heart of our national existence, found the country unprepared to defend itself.

The mandate of the people, through acts of Congress and decisions of the courts, is that the railroads must be continuously operated in the public interest—that the public interest is greater than that of the individuals who own these properties, or of the individuals who earn their livelihood in the operation of them.

livelihood in the operation of them.

When the private rights of the railroads have come into conflict with their public duties, the public, through the courts, has declared that public duties are greater than private rights. To the railroads the public says: "You must operate continuously, under such regulations as we provide, and under such tariffs as we approve."

The unfortunate controversy of last August brought vividly before the country the weakness of a system of public regulation of railroads, which fails to provide insurance against a paralysis of the internal commerce of the nation.

The employees have a legal right to leave their posts on every mile of railroad in this country. Is not this unrestricted right of the railroad employees to quit work in a body a menace to the public welfare? Does not the individual who chooses to earn his livelihood in the public service of transportation assume a duty to help keep open these vital arteries of commerce, a duty greater than the right to strike?

A member of the Inter-State Commerce Commission, Judge Clements, recently expressed the opinion that railroad employees are affected with a public interest that they can no more ignore than can the carriers, and he suggested that there should be a legally established obligation upon these employees not to interrupt the service by strike until the justice of their demands had been determined by some public tribunal.

their demands had been determined by some public tribunal.

Such a definition by law of the public duties of railroad employees must have been in the mind of the President when he told a gathering of business men recently that "the business of government is to see that no other organization is as strong as itself; to see that no body or group of men, no matter what their individual interest is, may come into competition with the authority of society."

The President has since urged upon Congress the necessity of translating this idea into the law of the land—that no organization of persons shall interrupt the national life without consulting the Government.

Several years ago when we had to adjust a wage controversy with the engineers on our Eastern roads, a very distinguished board of arbitrators, in settling our differences, pointed out the dangers inherent in attempting to settle railroad industrial disputes by resort to the strike. The Chairman of that board was Dr. Van Hise of the University of Wisconsin.

This board said: "From the point of view of the public it is an intolerable situation when any group of men, whether employees or employers, whether large or small, have the power to decide that a great section of the country shall undergo a great loss of life, unspeakable suffering and loss of property beyond the power of description through the stoppage of a necessary public service. This, however, is the situation that confronts us as a nation."

That situation, so vividly portrayed, still confronts us as a nation. It confronted us in that crucial week in August when the President told the country "This situation must never be allowed to arise again."

During the recent wage controversy, when it became apparent that the problem could not be settled across the conference table, we asked the train organizations to join with us in laying the whole dispute before the Inter-State Commerce Commission.

It may be that this will be the ultimate solution of the railroad wage problem—regulation of wages by the same government commission that regulates rates. When it is considered that nearly two-thirds of the cost of railroad operation is the wage bill, it is seen how closely related are rates and wages. A 10% flat increase in the wages of all railroad employees is equivalent to a 7% increase in all freight rates. The demands for higher wages made by the train organizations (only one-sixth of the employees) were equivalent to a 5% advance in freight rates.

If the all-embracing commerce power under the Constitution covers railroad wages as well as railroad rates, then the way will be open for Congress to turn the whole problem of railroad wages over to the Inter-State Commerce Commission, or, as has been proposed by eminent publicists, to an Inter-State Wage Commission, working in co-operation with

the Commerce Commission.

No matter what remedy is finally adopted by Congress for safeguarding the nation against the sudden interruption of inter-State commerce, will it not fall of its purpose if it does not provide for a continuous oversight of railroad labor conditions by a permanent body of expert commissioners—men of the same high attainments and integrity as the members of the Inter-State Commerce Commission?

There would undoubtedly be serious confusion in the railroad rate structure if each new rate case were brought before a new board of investigators with no previous experience in adjusting rates. The public would not tolerate such a system—or lack of system—in rate regulation. But the wage structure is just as complex as the rate structure, and wage problems present even greater difficulties than rate problems, because the human element is so large a factor in the determination of just and reasonable wages, hours and working conditions.

We are at the parting of the ways. One road before us is a continuation of the system of unrestricted private wage bargaining that eventually leads to settlement by force.

The other road is a restriction and regulation of private wage bargaining for the protection of the rights of the public—trial by jury instead of trial by brute force.

I am not prepared to say that all wage problems on the railroads should be placed unreservedly in the control of a public commission, but I do believe that when a controversy between the managements and the men reaches a stage where the interests of the public are imperilled—that then there should be a compulsory peaceful settlement, a judicial settlement, that will conserve the public interest as well as the rights of the parties to the controversy, and that if any body of men are required in the public interest to subordinate their private rights to their public duties it should be with the full understanding that their rights must be in every way safeguarded by the public.

FISCAL YEAR OF RAILROADS CHANGED TO CALENDAR YEAR.

A change in the reporting year of the railroads so as to make it correspond with the calendar year is provided for in an order issued by the Inter-State Commerce Commission on the 11th inst. This change, as noted in these columns Dec. 2, was recently under consideration at a hearing before the Commission. The following is the order of the Commission calling for returns on Dec. 31, instead of on June 30, as heretofore:

That all common carriers subject to the provisions of the Act to regulate commerce, as amended, and the owners of all railroads engaged in inter-State commerce as therein defined, be and they are hereby required hereafter to file in the office of the Commission on or before the 31st day of March in each year, reports covering the period of twelve months ending with the 31st day of December preceding said date, giving the particulars heretofore called for in the annual reports required by the Commission of said carriers and owners of railroads.

N. Y. CHAMBER OF COMMERCE DECLARES AGAINST GOVERNMENT OWNERSHIP OF RAILROADS.

That public ownership of railroads is neither advisable nor necessary to work out the transportation system best adapted to the present needs and future development of the country is the view expressed in a resolution adopted by the New York Chamber of Commerce on the 7th inst. The Chamber endorses the movement to co-ordinate the control of railway and water facilities of an inter-State character under the Inter-State Commerce Commission, and approves the establishment of regional sub-commissions. We give the resolution below as offered by the Committee on Internal Trade and Improvements (of which Samuel W. Fairchild is President) and adopted by the Chamber:

In view of the paramount importance to this city, State and nation of adequate and efficient transportation facilities at all times—a condition which does not prevail at present, as is shown in the existing widespread car shortage, freight congestion and embargoes—and in view of the pending investigation of the conditions relating to inter-State and foreign commerce by a joint committee of Congress; and, further, in consideration of the important questions of government regulation and government ownership raised thereby, the Chamber of Commerce recognizes the timeliness of expressing itself on questions of policy affecting the transportation system of the country as a whole; therefore, be it

Resolved, First, That it is the confirmed and well-grounded conviction of the Chamber of Commerce of the State of New York, as expressed by vote of its members, that public ownership of railroads is neither advisable nor necessary to work out the transportation system best adapted to the present needs and future development of the country as a whole, and of its several component sections.

Second, That this Chamber heartily endorses the movement to co-ordinate the control of railway and water facilities of an inter-State character under the common guidance and direction of the Inter-State Commerce Commission, in opposition to the conditions arising from the attempt of the

several States, each in its own individual capacity, to regulate the commerce of the country on State lines.

Third, That in order to relieve the Inter-State Commerce Commission of a portion of its burdens, to expedite the transaction of business, and to assure protection of local interests, we favor the establishment of regional sub-commissions, assigned to definite traffic areas, for the consideration and disposition of questions arising therein, subject to review by the central commission.

Fourth, That inasmuch as the function of providing for adequate transportation in this country has been left to private capital, in order to attract such capital and to provide for the development of transportation facilities to meet the rapidly growing commercial needs of the country, and to develop its resources, Congress should enact such legislation as will restore the confidence of the investing public and guarantee the transportation service required to meet the needs of the business community.

N. Y. CHAMBER OF COMMERCE NAMES COMMITTEE TO STUDY INDUSTRIAL PROBLEMS.

In accordance with a recommendation contained in a report adopted by the New York Chamber of Commerce on the 7th inst., a Committee on Industrial Problems and Relations has been named by President Eugene H. Outerbridge. The resolution drew attention to the serious inconvenience and material losses suffered by the community in New York because of strikes and lockouts, and the need for a study of the effect of constantly changing economic conditions upon the relations between capital and labor. The committee named by Mr. Outerbridge to carry out the recommendations of the resolutions are Edward D. Page, George W. Perkins, William H. Childs, Otto M. Eidlitz and William L. Saunders. In naming the committee Mr. Outerbridge said:

I think that that is one of the most important committees which this Chamber has ever appointed. I think the function which it can ful may be of vast value to the industrial and business community here. I think the function which it can fulfill would like to say that there are specific trades and great organizations which are now waiting and anxious to be able to have the conference and advice of such a committee as this, as to what in its judgment constitutes sound public policy in relation to these great industrial questions which they feel they themselves are concentrating with so much necessary introspec tion into their own affairs, and perhaps miss the larger perspective of the

public point of view.

The following is the resolution offered on behalf of the Executive Committee by Welding Ring, Chairman of the latter, calling for the appointment of the new committee:

Whereas, The citizens of New York during the past year have been seriously inconvenienced and have suffered very material losses because of strikes and lockouts which have occurred both in the field of transportation and manufacture, and the country at large has recently been threatened with a suspension of transportation facilities by means of a strike; and Whereas, In all enterprises employing such large numbers of people there

is a real public interest in the maintenance of stable and uninterrupted

service and production; and

Whereas, There is constant need among the people intimately concerned in the conduct of large aggregations of capital or labor as to what sound public policy may be in relation to these questions; and

Whereas, With the constantly changing economic conditions there is need for a constant study of their effect upon the relations between capital and labor, it is the opinion of the Executive Committee that the Chamber of Commerce should have a special committee to deal with industrial problems and relations and to advise in reference thereto with employers

and wage earners when requested; now, therefore, be it

Resolved, That the President of the Chamber be, and he hereby is, requested to appoint a special committee of five to be known as the Committee

on Industrial Problems and Relations.

FEDERAL INVESTIGATION INTO HIGH COST OF LIVING.

The Federal investigation into the high cost of living began on the 6th inst. to take definite form with indications that it would be one of the most comprehensive ever undertaken, and would extend to every section of the United States. Not only is a sweeping inquiry into the causes of the rising cost of foodstuffs contemplated, but the recent pinch in the coal supply and its resultant price advances also will, in all probability, be made the subject of investigation.

Department of Justice officials on the 6th inst. held all day conferences with members of the Federal Trade Commission and District Attorney Anderson of Boston, in charge of the Department's investigation, to formulate a definite plan of conducting the nation-wide inquiry. About fifty investigators of the Department's Bureau of Investigation were reported to be at work throughout the country gathering data which will determine the Attorney-General's course of action. The Inter-State Commerce Commission probably will be called upon to aid by furnishing data relative to shipments of foodstuffs.

With the program still in process of formation there were increasing indications that officials were considering the

situation from three angles, namely:

First-Determination of the actual causes of the rapid rise in foodstuffs and coal, whether it was due to natural economic laws, to the unwarranted action of individual dealers and producers in advancing prices, or whether there exist agreements among groups of dealers or producers to boost prices.

Second-Vigorous prosecution of persons or firms, if any, who by violation of existing laws, in making agreements to raise prices or otherwise, have contributed to the upward trend of prices.

Third-Enactment of legislation to remedy the present situation and to prevent its recurrence

Department officials are understood to be considering the advisability of investigating such organizations as the Chicago Board of Trade, the Chicago Butter and Egg Exchange, the Elgin Board of Trade and the New York Produce, Sugar and Coffee Exchanges with a view of ascertaining by what practices the market values of certain foodstuffs dealt in by the bodies are determined. An inquiry into the amount of foodstuffs held in all the cold storage establishments of the country and possibly as to the volume of grain stored in elevators also is said to be under consideration.

Complaints have reached the Department that coal prices were advanced recently because, in large measure, of the activities of certain independent dealers not heretofore in the business who are reported to have contracted with the chief coal companies for virtually their entire unsold output for the winter. It was charged that these dealers, scenting fat profits, had tried to corner the available supply and thus

These and other complaints under investigation will be considered with a view to prosecution, if warranted, under Federal laws, which require that the supplies in question

must have been in or for inter-State commerce.

The Federal Grand Jury began its investigation into the increased cost of living on the 13th inst., and it was understood at that time that the coal situation would be the first matter looked into. Assistant United States Attorney-General Frank M. Swacker, in personal charge of the Government's investigation in New York City, issued subpoena's for witnesses on the 12th inst. Though the identity of the witnesses was not made known, it is believed that they are the representatives of coal companies and coal carrying railroads. It is expected that these will testify that while panic prices prevailed in New York, there was really no shortage, normal tonnage being supplied from the mines. Criminal prosecutions, if they develop, will be merely incidental to the Grand Jury's investigation, the purpose of the inquiry being to obtain information for the guidance of President Wilson and Congress in their attempt to formulate legislation affecting coal and food.

General approval of the investigation into the increased cost of living by the Department of Justice was given by President Wilson at a conference held with District Attorney Anderson of Boston on the 11th inst. Mr. Anderson is in charge of the nation-wide inquiry. The President will make a personal examination of the facts collected by various departments before deciding whether any remedial legislation

shall be recommended to Congress.

Proposals introduced at the opening of Congress looking to a remedy for the problem ranged from a discussion of the Omnibus Hatcheries Bill, which would provide for fish hatcheries in twenty States, to a declaration by Chairman Henry of the Rules Committee, after a conference with the President, that he thought Congress would conduct an investigation of the high cost of living. They embraced resolutions by Representatives Borland and Dill providing for general investigations. The resolution made by Representative Borland of Missouri to direct the Federal Trade Commission to make an investigation was sent to the House on the 14th inst. by the Judiciary Committee with a unanimous recommendation in favor of its passage. A resolution by Representative Campbell of Kansas would provide for an embargo on boots, shoes and manufactured leather goods and a bill by Representative Sabath of Illinois is designed to aid Federal employees to meet the situation by increasing from 10 to 20% the salaries of those earning up to \$1,800 annually

Four bills were introduced by Representative John J. Fitzgerald of Brooklyn, New York, who will in all probability lead the fight for a food embargo in Congress. His bills

provide:

That for one year there shall be an absolute embargo on exports of farm products or manufactured foodstuffs.

That the parcel post law shall be so amended that farm products not exceeding 150 pounds in weight may be shipped at the rate of 3 cents a pound for the first pound and 1 cent for each additional pound or fraction. These rates of postage shall apply without regard to existing zone restrictions.

That inter-State shipment of foodstuffs, excepting butter, which have been stored longer than ten mo articles of food are to be branded with full information showing how long they have been in cold storage.

That the President at any time within two years after the passage of the proposed law shall be empowered, "whenever in his opinion, because of excessive prices, the public interests shall so require, to prohibit by pro-clamation the exportation from the United States of all farm products, fish, game, and manufactured foodstuffs, or such of them as he shall specifically designate." The President may revoke such inhibition in his discretion; otherwise it shall continue for one year following the pro-

Representative McLemore of Texas introduced a resolution to prohibit inter-State transportation of food products except meats and fruits, that have been kept in cold storage over ninety days. A bill introduced by Representative Sabath of Illinois would require cold storage warehouses to file annual reports with the Department of Agriculture, for publication on July 1, showing food products stored for inter-State commerce. Representative Sabath introduced another bill which would direct the Attorney-General to investigate the causes of unreasonable advance in prices of foodstuffs, cotton goods or fabrics, wood-pulp, all kinds of paper and coal, in so far as they are claimed to be affected by any combination or conspiracy and report to Congress what remedies should be advocated. Representative Mc-Kellar of Tennessee reintroduced his bill to regulate cold storage of food. Representative Steenerson of Minnesota proposed free admission of seed wheat to help the Minnesota and North Dakota farmers. John R. Farr, Representative from Pennsylvania, reintroduced his bill to provide for the proclamation of an embargo upon wheat and its products the moment the supply of the country on hand falls below the ten year average. The anti-embargo side of the controversy was represented by a resolution introduced by Representative Charles A. Lindbergh of Minnesota, saying that all the trouble has been caused by "various subterfuges employed by parasite speculators" who have made use of expanding bank conditions to manipulate food prices.

Representative Emerson introduced a bill providing:

That it shall be unlawful for any person, persons, firms or corporations whose business is to store eggs, meats or other perishable food products, to hold said stored eggs, meats or perishable food products for a longer period than three months

Sec. 2. That when said goods are stored in such warehouse the date of receiving shall be stamped upon the article or container and a report in writing of the receiving of said goods and the quantity shall be made to the

Department of Agriculture.

Sec. 3. That if the person, persons, firm or corporation placing said goods in said warehouse refuses to remove same and place the same upon the market at the expiration of three months, or if said warehouse keeper retains said goods in his warehouse longer than three months, then it shall be unlawful for said warehouse keeper, or the said bailee, to ship said goods out of said State in which they are stored, and said goods can-not be used in inter-State commerce, and, further, said warehouse keeper and said bailee shall be further punished by being refused of using any of their goods in inter-State commerce or shipping same out of said States in which said goods are stored.

While it is understood that no attempt at legislation designed to force the prices of foodstuffs or to control dealings in foods will be made by Congress this year, various members of both Houses are apparently intent upon continuing their propaganda. Two resolutions were introduced in the House on the 12th inst., calling upon Cabinet officials for special information regarding the supply of wheat and sugar. The resolution regarding sugar was sponsored by Representative Sabath of Illinois, and reads:

Whereas, The price of sugar, to the consumer, has increased nearly $100\,\%$ within the past twelve months;
And, whereas, The board of directors of the Great Western Sugar Co.

announced that on Dec. 1 1916 a 42% stock dividend would be declared,

which dividend approximately represents \$20,000,000;
And, whereas, An additional 50% cash dividend is to be declared;
Be it resolved, That the Secretary of Commerce be, and he is hereby directed to report to the House of Representatives at the earliest possible moment, the amount of sugar produced in this country, the amount imported from other countries, the cost of production, the price paid by the consumer and the number and names of the large sugar companies, refiners and importer

The Secretary of Commerce is further directed to investigate and report concerning any agreements or arrangements found to exist between the various sugar concerns as to the production, importation and sale of sugar.

The resolution regarding wheat was introduced by Representative Farr. It provides:

That the Secretary of Agriculture be and he is hereby directed to inform the House of Representatives:

First, the actual supply of wheat, of wheat flour and of wheat products

available on the first day of July 1916.
Second, the quantity of wheat or wheat flour and of wheat products

exported since July 1 1916.

Third, the quantity of wheat, of wheat flour and of wheat products for which contracts for export have been made for shipment during the four months succeeding Dec. 15 1916; and

Fourth, estimates in possession of the Department of the quantity of wheat, of wheat flour and of wheat products required for consumption in the United States, including seed wheat and for all other purposes.

It is not expected that immediate action will be taken by Congress, but that ample opportunity will be given to the Department of Justice to do what it can in the meantime toward palliating the situation. It was announced by Representative Adamson, Chairman of the House Committee on Inter-State and Foreign Commerce, which has been holding hearings on some of the food bills introduced in Congress and referred to it, that after two hearings scheduled for the 14th and 15th instant, the Committee would adjourn until after the holidays. On the 5th inst. Senator Martine of New Jersey, introduced an embargo resolution which was referred to the Foreign Relations Com-

mittee. The general question of imposing an embargo on outgoing foodstuffs is receiving close attention from those vitally interested. The New Jersey State Grange meeting at Atlantic City on the 7th inst., placed itself on record as unqualifiedly opposed to an embargo on foodstuffs and disclaimed any responsibility on the part of the farmers for the high cost of living.

In an address made on the 12th inst. before the convention of the Michigan State Grange, being held at Lansing, Mich., Master of the Grange Ketcham attacked the food embargo movement. He denounced any measure of this kind which did not include an embargo on munitions. Resolutions of the Grange against a food embargo are expected shortly.

STATE MEASURES DIRECTED AT HIGH COST OF LIVING.

Not only is the Federal Government taking means to investigate the abnormal prices of foodstuffs, but the different States are taking an active interest in food conditions. In New York State Governor Whitman appointed on the 3d inst. a committee of five to investigate the causes of the high cost of living and to recommend remedial legislation. George W. Perkins heads the committee. The other members of the committee are State Senator Charles W. Wicks, George W. Ward, S. J. Lowell and Clifford S. Sims. other move was by Commissioner John J. Dillon of the State Department of Foods and Markets, who on Dec. 1 ordered the labelling of cold storage eggs plainly on each egg; this order went into effect Dec. 12. At first resistance was made by all egg dealers, but it was said that later approximately 90% of them began stamping their eggs. Commissioner Dillon argued that by the stamping of the eggs the eggs would go down in price, while the dealers insisted they would go up in price because more help would have to be employed for the stamping. An attempt was made on the 11th inst. by two attorneys of the Mercantile Exchange to have the order modified so that, instead of having to stamp the eggs separately, the individual cartons containing the eggs be stamped; this request was refused by Commissioner Dillon. Previous to these developments Commissioner of Weights and Measures Joseph Hartigan on Nov. 28 encouraged the housewives of New York City in inaugurating a city-wide boycott on eggs. Up to date it is claimed by the inspectors of Commissioner Hartigan and Mrs. Heath of the Housewives' League that the price of eggs has been decreased ten cents as a result of the boycott. It is claimed by them that storage eggs are selling from 35 to 37 1/2 cents a dozen, which, according to experts who have advised Commissioner Hartigan, is the price that the best quality storage eggs should sel at normally. Plans were made to make the boycott nationwide, and reports from States out West show that boycotts are in effect.

At the Monarch warehouse Nov. 25 last John Dill Robertson, Health Commissioner of Chicago, with a corps of fifty assistants, investigated the eggs held there to determine whether the city ordinance providing against the holding of eggs in cold storage longer than ten months was being violated. It was claimed, however, that of the 13,000,000 eggs held there by James E. Wetz, its owner, the earliest consignment of eggs was put in cold storage by Wetz last March. Health Commissioner Robertson said that he would hold for further investigation all eggs deemed suspicious; but the Monarch warehouse was given a tentative clean bill of health by him on Nov. 25. Other plants investigated up to and including Nov. 27 were the Chicago Cold Storage, the North American and the Western Cold Storage companies. The report submitted by Dr. A. J. Stokes, the chief food inspector, stated that from 16 to 25% of the egg stock examined was suspicious.

UNITED STATES FACTORIES IN CANADA.

The "Monetary Times" of Toronto in its issue of Dec. 9 contained an article under this caption showing an investment of \$150,000,000 in that way. Our contemporary finds that about 50 branch establishments of United States firms have been established in Canada since the outbreak of war. Most of these have come to Ontario, several to Quebec Province and a few to Western cities. With an average investment conservatively estimated at \$300,000, these 50 plants represent a new investment of \$15,000,000 in that country. Prior to the war there were about 450 such companies in Canada, the "Monetary Times" says. With a similar average investment, the total is \$135,000,000, and with the companies which have come here since the war, the grand total of American investment in Canada is

Among the United States companies which have established branches since the war commenced, are makers of the following: Railway accessories, overalls, chemicals, silverware and flatware, automobiles, horse-shoes, steel goods, patent medicines, spices, soaps, perfumes, glue, beet sugar, pumps, greenhouses, railway signals, fuses, boxes, spreaders, silk gloves, stockings, tires, steel, steel products, canned goods, automobile varnishes, belting, store counters, explosives, pulp and paper, sewing machines, aloxite and other abrasives and electric furnace products, grain and elevator machinery, silk and chamoisette gloves, refined nickel and cottonseed oil products.

Of the total of United States investments of \$978,000,000 in the Dominion, \$150,000,000 is represented by branch plants. Until 1914, this was the largest item in the list of United States investments here. Since then, Canadian securities have been sold in the United States in far greater volume than hitherto, and consequently that item now represents the largest United States investment in Canada, branch establishments coming second.

The largest number of branch plants of United States companies in Canada is located, it is stated, in Ontario, although there is a tendency to utilize Western Canadian points to a greater extent. At least twelve United States manufacturers of agricultural and farm implements have branches in the Dominion and about as many makers of automobiles. In the latter case, the parts are usually imported separately and assembled in the Dominion. Several United States manufacturers of chemicals, drugs, patent foods and cereals have factories or distributing houses on the Canadian side of the international line. A large number of firms manufacturing and supplying various machinery, fittings and plant are also doing business in Canada in a similar way.

Since informal discussion in various quarters has been heard as to the possibility of favorable tariffs among the Allies and the Dominions after the war, there has been an impetus given to the movement of United States branch plants to Canada, and a number of inquiries continue to be made by United States firms with a view to their establishment in the Dominion. In the event of favorable tariff treatment as between the Allies and the Dominions, these United States manufacturers in Canada, the "Monetary Times" asserts, expect to be regarded as Canadian manufacturers and thus entitled to the benefits of any such favorable tariff legislation. These firms are now in a position to cater at close range to the demands of the Canadian market and hope also to be in a position to handle some or all of their export trade from their Canadian factories, under present or revised tariffs of various countries.

AFTER-THE-WAR PROBLEMS AS VIEWED BY DR. EDWARD EWING PRATT.

In discussing "After-the-War Problems" before the Southern Commercial Congress at Norfolk on Wednesday, Dr. Edward Ewing Pratt, Chief of the Bureau of Foreign and Domestic Commerce, of the Department of Commerce, alluded to the violent readjustments in the social, political and economic life of the nations of Europe now in progress. Pointing out that on the economic side these adjustments offer us opportunities for profitable service, he urged that we be prepared as a nation to take advantage of these opportunities. In seeking to show first what these needs are as regards physical construction; and second, that the United States is the one nation best able to satisfy these physical needs, Dr. Pratt stated that Europe's most serious needs after the war may be grouped under four heads: First, capital; second, capital equipment, such as buildings, railways, ships, &c.; third, raw materials with which to commence manufacturing; and fourth, growing out of the higher costs of production, a need for time- and labor-saving machinery. He added:

We shall in all probability be called upon to let the nations of Europe—certainly Russia, France and Belgium—have the use of our capital, if they are to purchase our products. In other words, if Russia is to buy from us the rails, locomotives, cars and other equipment needed to extend her transportation system; if France and Belgium are to import from us the iron and steel, wood and timber, machinery and raw materials necessary to enable them to resume their normal industrial life, we must be prepared to continue making loans and advances to those countries. We shall probably have to give purchasers in Europe one or two years' time in which to realize a turn-over out of which our invoices are to be paid. But these loans will be for purposes of peace instead of war; for reconstruction rather than destruction. Our loans will be against gradually increasing securities

rather than as at present against slowly diminishing resources, national and radividual.

i In England, Germany and Italy, on the other hand, we must remember that there has been no great destruction of such capital as is represented by factories, railways, telegraph and telephone lines; that fixed capital and manufacturing plants are unimpaired except for the deterioration caused by the straining of capacity to the utmost and the inability to make repairs at proper intervals. In England there has been an almost complete cessation of building activity except in the construction of temporary wooden structures for the housing of workmen in busy munition centres. We may reasonably expect, therefore, that when the war ends there will be a demand in the United Kingdom for such construction woods as southern pine and for hard woods.

In England, also, as occasion arises, for the replacement of worn-out or antiquated machinery and equipment, we shall probably see a demand for the most up-to-date time- and labor-saving machinery. The war has shown England the need for scrapping a large part of her present industrial equipment. In many cases it was old-fashioned and, from a scientific point of view, altogether uneconomical in operation. The withdrawal of skilled men from the factories and shops has compelled the substitution of "fool-proof" machinery, since it had to be operated by unskilled men and in many cases by women and young men who had not served an apprenticeship. The generally increased costs of production in Great Britain, due to higher wages, higher taxes, higher interest rates, and currency inflation, will also have the effect of creating a demand for the labor-saving machinery in which the United States leads the world.

As to the position of Germany, we do not have the information to enable us to say in advance just what her needs will be, but we know that there has been no destruction of her manufacturing plant. It seems safe to say, however, that the stocks of material are low in Germany and that as soon as the war is over that country will call upon neutral nations for such articles as she does not produce at home. It seems also safe to say that her most serious loss in industrial efficiency is her loss of man power, which must be replaced by labor saying machinery.

must be replaced by labor-saving machinery.

In spite of statements to the contrary, and in spite of fundamental economic laws, the beligerent nations will not, I believe, for sometime after the war, trade with one another except in so far as they can not obtain elsewhere the articles which they need. In such cases it is more than likely that the business will be handled for a time at least through neutrals. The United States is the one nation which will be able to sell to all the belligerents alike, since we are the only nation which is likely to have any surplus of capital and because we are likely to be the only nation which is sufficiently developed as a manufacturing nation to supply the modern time- and labor-saving machinery for which we anticipate a demand from England, France, Belgium and Russia. We have the raw materials.

Dr. Pratt then went on to emphasize certain responsibilities and certain dangers that will accompany these after-the-war opportunities, and the necessity for improved banking facilities in carrying on foreign trade. He also emphasized the necessity of buying from Europe if we expect to sell to them. The history of this war, it was held, has shown the American business men that foreign trade is, after all, only an exchange of goods. As soon as normal conditions are restored there will be a drive directed upon the purchasing power of this country in the shape of increased exports from Europe and decreased imports into Europe in an effort to turn back the stream of gold which has been flowing towards the United States for the last two years. This, the speaker held, is absolutely necessary in order that Europe may regain control of the basis for its own retarded commercial expansion. In conclusion Dr. Pratt said:

On the whole I am optimistic as to the outcome of this commercial conflict which will follow the war. I believe that individual manufacutuers of the United States will be better able to compete with individual manufacturers of Europe than ever before, and that our costs and prices will more nearly approximate European costs and prices than ever before. I am also optimistic because I believe that the United States as a nation will take effective measures and will make the necessary provisions to enable us, as a nation, to compete effectively with whatever methods and alliances may be developed in Europe.

"The Influence of Banking Upon Foreign Trade" was discussed this week (Dec. 11-14) by John Clausen, Manager of the foreign department of the Crocker National Bank of San Francisco before the Southern Commercial Congress at its annual convention in Norfolk. "Every year of peace" said Mr. Clausen, "means increasing power and strength and there can be no doubt that our prosperity-although accelerated by the gigantic war among the peoples of the old worldis real and great and has its origin at home in this land of immense wealth and natural resources." In spite of our augmented wealth and expansion in trade, Mr. Clausen contended, we are peculiarly liable to suffer unless our business men and bankers begin to realize some of the economic difficulties which are now and will become even more pressing at the conclusion of the war, necessitating firm and original methods of treatment. In part, he continued:

We must be in position to adequately finance and carry on our greatly extended system of home industry and foreign commerce. No one can doubt the value of international trade and finance. While the United States is perhaps best able to fashion itself to meet with equanimity the great readjustment which is bound to come—if, to preserve our prosperity, we do not accept the present unexampled opportunity, and apply ourselves wisely and properly to the new order of things that loom beyond the day

of peace, we shall be guilty of great neglect.

There has been much discussion regarding the financial assistance available for American traders in their relations with foreign countries and to those who take a farsighted view of the situation with the power of perception and intellect, it appears that we as a nation are still inclined to

pride ourselves upon our isolation and ability for self-sufficiency in thought. No measure has been of greater importance, as affecting not merely the local financial conditions in the United States but the entire situation from an international standpoint, than the Federal Reserve Act. Its facilities for branch banking in foreign countries especially, and the privileges granted for bank acceptances, accord a great improvement of system in our local and international relations, likely to give the United States greater power in foreign trade. One of the difficulties of intelligently following the various provisions of the new Bank Act unquestionably lies in the imperfect comprehension which exists—even in banking circles—with regard to what the Act is intended to supersede and improve.

The banking element in our country should deal with these problems as seriously as is deserving and seek what help may be given to make the purpose of the law concrete facts by the scientific employment of capital in the shape of organized facilities, which in turn react to the benefit of the public from the operation of a well regulated and uniform banking

Just now we are living in an epoch of great prosperity—in a way artificially stimulated by the demand for materials from the nations at war—and our present position is acclaimed one of great strength and possibilities. Whether the advance will be maintained depends largely on the skill and acumen of our bankers to wisely use their money power, and upon the foresightedness of our merchants to strive for a greater diversifica-

tion of exports and markets.

If we can so develop our foreign trade—lend capital to needy countries and make them prosperous by producing more largely—we are not merely forwarding our own interest, but contributing to the welfare of mankind at large. Every consideration and self-interest urges us to comply with

The real object towards which we in common with other nations should aim, is to make ourselves more efficient and with increasing knowledge and skill, train all classes to intelligent labor.

Our commercial and financial organizations have grown up without much system and it is time that we depart from the old practice in adopting real activities along new and improved lines. Everything that will add to the ability of this country to hold its rightful position in foreign trade should be encouraged and developed to the utmost of human endeavor.

A study of the commercial organizations in European countries suggests the desirability of manufacturers and producers here enjoying the right of participating in possible export combinations. Co-operative associations, organized to increase the scope of American export business would, as well, facilitate a helpful and necessary growth of our home industries. Such influences have very largely moulded the economic developents of other nations.

The more successful countries— and in this may be included the individual—are those at pains to apply scientific study and knowledge to the problems with which they are most intimately associated.

It is requisite that there should be adequate banking accommodations if we are to take over the increased trade with all parts of the world. It would be well to study the objects of the proposed new "British Trade Bank" as also the Banco Espanol de Comercio Exterior (Spanish Bank for Foreign Trade), now in process of formation for the purpose, as their names imply, of fostering the commerce of their respective countries, and these institutions when organized and operated under effective management and with the power to base on their capital forceful systems of credit in the shape of acceptances, should soon have the nucleus of a large foreign business. These plans afford a striking example of the necessity for early and adequate preparation to advance our international trade relations.

Investment and trade are closely associated with the well-being of commerce and it is of the greatest importance to recognize that British oversea banks alone have capital exceeding 500 million dollars, as against only 5 or 6 million dollars so invested by North American interests.

only 5 or 6 million dollars so invested by North American interests.

Over and above all, we have the need to build up and retain a favorable trade balance with Europe especially, because of an accumulated gold supply such as has never been experienced before, and this in itself may throw obstacles in the path of our commercial prosperity with theoutside world

From statistics we learn that since the beginning of the European war the gain in our supply of gold approximates 850 million dollars, which, with the normal production has brought our gold stock to the stupendous figures of 2.700 million dollars.

of 2,700 million dollars.

The first step taken by our European contemporaries after the war will no doubt be that of attracting gold to re-establish their financial prestige. This can, of course, best be accomplished by again building up the commerce which they have temporarily neglected and so endeavoring to create an increase of exports over imports with the United States, if it should be that the bulk of the world's gold supply is still held here.

if it should be that the bulk of the world's gold supply is still held here.

Support of the most effective nature should be lent in the recommendation for more intelligent application of credit. Our problems do not seem so much that of retaining the present stock of gold and gaining the remainder of the world's supply, but rather that of creating and maintaing after the war a favorable trade balance—and in our ability to solve that problem lies the solution whether the European war will leave this country richer or

Since the war began the United States has loaned to foreign nations over 1½ billion dollars—repurchasing our securities at the rate of 100 million dollars in market value a month, and it is estimated that at this rate it would take but another year or two for complete liquidation of our indebtedness to Europe.

Whatever the motive, a large part of the neutral population are almost as much employed for warlike purposes as the belligerent peoples, and the financial obligations incurred as a result of the present war have increased enormously.

An appreciable portion of these expenditures will necessarily result in a destruction of capital and this will in future have a very important bearing on many of the world's problems. There will be general liquidation—I may say world-wide liquidation—which might necessitate Europe's selling—not pledging—her foreign-held securities, of which Great Britain is estimated to hold in Latin-American investments more than 5 bilition dollars and in Canadian obligations, exclusive of mortgages, 2½ billion dollars. While such securities may not come into immediate consideration because of the uncertain and presumably rising income tax, the obligations of this country held abroad—of which in railways it is estimated that Great Britain alone owns more than 2½ billion dollars, will as far as we are concerned, be the first problem presented to our investing element for solution.

This country produces more than it consumes and for this reason principally—with a consequent large and favorable trade balance resulting therefrom—are we able to draw and retain the gold that Europe is now forced to relinquish for carrying on its war, which if continued, would no doubt eventually cause London to retire from its enviable position as the great free gold market of the world.

However, with all the uncertainties in conditions prevailing at present and likely to continue—admitting a state of universal liquidatin, and if

you please, equalization of world's wealth—it is with a comfortable feeling of assured strength that the United States may face the situation not alone because of any stock of gold, but especially on account of the powerful advantage which its possession accords and enabling our exercising same even after the war ends—at least for the time it may take Europe to reduce our gold holdings—in reaching out and retaining the plane of vantage which rightfully is ours in world commerce.

BANKING, LEGISLATIVE AND FINANCIAL NEWS.

The sales of bank stocks at the Stock Exchange this week aggregate 42 shares. No sales of bank or trust company stocks were made at auction.

Shares. BANK—New York. Low. High. Close. Last previous sale. 42 Nat. Bank of Commerce____ 190 193½ 193½ Dec. 1916— 193½

At a meeting of the Board of Managers of the New York Cotton Exchange on Dec. 13 it was decided to pay to the employees of the exchange bonuses ranging from 5% to 15% of the yearly salary, in recognition of the prevailing high cost of living. The bonuses are to be added to the employees salary until the end of May, 1917, when the life of the present board of managers ends. The bonuses have been so arranged that all employees receiving yearly a salary of \$1,000 and under will get 15%; those having a yearly salary of more than \$1,000 and not more than \$1,999 will receive a bonus of 10%, while those whose annual salary is over \$1,999 and not more than \$2,499 will be paid a bonus of 5%.

The employees of the National Bank of Commerce in New York have just issued the first number of "Commerce Monthly," a magazine edited and published by them and devoted to their interests. It is the purpose of "Commerce Monthly", to develop co-operation among the several hundred clerks of the institution, to encourage thrift, to establish the foundation for an educational impetus and especially to provide a medium for the exchange of ideas among the clerks as well as to promote their mutual welfare. Following these precepts the first issue includes in its dozen pages a review of the career of James S. Alexander, President of the National Bank of Commerce, in New York, an instructive article by John E. Rovensky, foreigh exchange expert and Vice-President of the bank, and numerous other write-ups and comments upon the activities of the bank, of the clerks, and of the Commerce Club, an organization of the bank's employees.

The Chase Bank Club (the membership of which includes officers and clerks of the Chase National Bank) will dine at the Hotel Astor this evening. A. Barton Hepburn, Chairman of the Bank's Board of Directors, and Albert H. Wiggin, President of the Bank, will address the gathering. After the dinner the Club will attend the performance at the Hippodrome.

Many more financial institutions in addition to those heretofore mentioned by us, continue to announce their intention of paying to their employees bonuses to aid them in meeting the high cost of living. The National City Bank of New York on Dec. 12, announced its decision to pay to employees who have been in the employ of the bank for a year, and who are not receiving more than \$4,000 per annum, a bonus equal to 20% of their year's salary. The bonus is to be distributed in three installments, the employees received 10% yesterday, and will receive 5% on April 1 and 5% on July 1. More than 1,000 employees, it is said, will share in the distribution, including the employees of the International Banking Corporation, an affiliated institution of the city bank.

The directors of the First National Bank of this city have set aside a sum from which will be paid to employees an amount equal to 20% of their yearly salary.

The Harriman National Bank of this city, in view of the prevailing high cost of living, will distribute a percentage of its year's earnings—to its old employees 16% of their salaries for the year, and to the junior clerks from 11% to 14% of their year's salary, based upon term of service.

Employees of the National Bank of Commerce in New York will receive a percentage of their yearly salary to help defray the high cost of living. Those receiving up to \$2,000 per annum will receive 16% and those from \$2,000 to \$4,000 12%. Disbursements are to be made in five equal bimonthly installments, beginning Jan. 31 next.

The Seaboard National Bank of this city yesterday distributed to its employees 10% of their annual salary, and an insurance policy equal to a full year's salary.

The Mechanics & Metals National Bank, of this city, yesterday announced that it will give its employees a bonus

ranging from 5% to 15% of their salaries, determined by the amount of the yearly salary and length of service.

The directors of the Citizens Cental National Bank, of this city, have voted, in addition to substantial increases in the salaries of its employees, a 10% bonus on their yearly salaries, 5% of which is to be paid at the present time, and 5% the middle of 1917.

The Corn Exchange Bank, of this city, yesterday distributed by checks its usual 10% bonus to employees. About 600 employees benefited by the distribution, which was determined on their yearly salary.

The directors of the United States Mortgage & Trust Co. of this city have authorized the payment of a bonus of 10% of the yearly salaries to its employees. The Board has also authorized the further payment of $12\frac{1}{2}\%$ of the annual salary of employees receiving \$1,800 or less, and 10% to those getting more than \$1,800 a year. This will mean a distribution of 20% to the higher paid employees of the company and $22\frac{1}{2}\%$ to those receiving less than \$1,800 a year.

The Liberty National Bank of this city has announced that its employees will receive an additional 10% of their

yearly salary to offset the high cost of living.

The Broadway Trust Co., of this City, announced through its President Frederic G. Lee on Dec. 14, that the Directors of the company have authorized the distribution to employees of a bonus of 10%, the amount in each case being governed by the length of service and salary of the employees. The Board has also arranged to insure the lives of all employees who have been on the pay-roll for one year or longer, the premium to be paid by the company. Employees who have served from one to five years will be insured for \$500 each: those who have served from five to ten years will be insured for \$1,000, and employees who have been with the company for 10 years or more will be insured for \$1,500. As the period of employment increases it is planned to increase the in-The company reserves the right to terminate the insurance plan at any time. A savings fund has been provided by the company, from which employees who havebecome financially embarrassed may confidentially receive assistance in the form of loans, re-payable in installments out of their salary.

The Broadway Trust Co. has also given an increase in

salary to all employees.

The New York Title and Mortgage Co., of this City, has announced that it will distribute a bonus to all its employees and junior officers, on a sliding scale, based on the length of service and the salary received. The bonus ranges from 1 to 10% of the annual salaries, and will be given to all who have been in the company's service for six months or more.

The Empire Trust Co. of this city has voted a special bonus to its employees, which with the profit sharing plan inaugurated several years ago, will total about $12\frac{1}{2}\%$ of

their annual salaries.

The Transatlantic Trust Co. of this city has announced its intention of giving to its officers and employees a bonus of 10% of their yearly salaries. The directors at a meeting on Dec. 12, also voted to stockholders the regular semi-annual dividend of 3% and an extra dividend of 2%.

The Franklin Trust Co. of Brooklyn has announced a profit sharing plan in which all of its employees will participate. The distribution is based on a percentage of the net earnings for the year, and it is understood will amount to about 15% of each employees yearly salary.

The Bank of Flatbush of Brooklyn Borough, has decided to pay a bonus to its employees, the amount to be distributed in each case being proportionate to length of service.

The directors of the Mechanics' Bank of Brooklyn have declared a substantial cash bonus to each of the bank's employees. The bonus will be graduated in amount according to length of service. A general advance in the salary of each member of its staff, effective Jan. 1 1917, has also been provided for by the directors of the bank.

The Union Trust Co. of Baltimore, Md., on Dec. 13, distributed to its employees 20% of their annual salary. Every employee of the institution participated in the gift

of the company.

The directors of the Potter Title & Trust Co. of Pittsburgh, Pa., have declared a bonus to be paid to the officers and employees of the company in recognition of the faithful and efficient services rendered during the past year.

The Citizens National Bank of Louisville, Ky., has decided to award to its employees a full month's salary, in view of the advancing prices in the necessaries of life.

The employees of the Mercantile Trust Co. and the Mercantile National Bank of St. Louis, Mo., will receive a month's salary as a Christmas bonus, instead of one week's salary which has heretofore been distributed, according to an announcement made on Dec. 11 by Festus J. Wade, President of both institutions. The bonus is said to have been decided upon "in recognition of the faithfulness of all employees."

Justices Edgar W. Cullen and George L. Ingraham were elected to the directorate of the Equitable Life Assurance Society of America at a special stockholders' meeting on Dec. 6, to succeed William C. Redfield and Henry W. De Forest, whose terms expired. The following were re-elected to the directorate for a period of four years: Abraham Brittin, Edwin W. Robertson, Richard MacLaurin, Charles H. Zehnder, Victor J. Dowling, Jacob G. Schmidlapp, Alfonso De Navarro, George T. Wilson, Bradish Johnson, Richard H. Williams, John B. Lunger, Sir Edmund Walker and Evans S. Pillsbury.

The National City Bank of New York announced on Dec. 12 that it had decided to adopt a system of management similar to that under which many of the large European financial institutions are conducted, that is, to designate a board of managers whose duty it will be to co-operate with the President in the management of the bank. Under the plan, which has been tentatively in effect during the past year, Vice-Presidents W. A. Simonson, Samuel McRoberts, James A. Stillman, Charles V. Rich and James H. Perkins have been chosen as a Board of Managers of the bank. One of the five will be known as the General Manager of the bank, a rotating office. Mr. Simonson has been chosen to hold that office first, for a period of one year. He will be followed in turn by each of the other managers, one of his functions will be to act as President of the bank, during Mr. Vanderlip's absence, assisted by his associates. The five managers will relinquish their positions as Vive-Presidents, but no successors have as yet been chosen

John E. Gardin, Vice-President of the National City Bank of New York was chosen chairman of the board of directors of the International Banking Corporation at a meeting on Dec. 14. The new directorate of the International consists of the following: William T. Hicks, Guy Cary, D. S. Iglehart, Arthur Kavanagh, William S. Kies, Samuel McRoberts, Willard D. Straight, R. L. Farnham, John E. Gardin, H. T. S. Green, Lionel H. Hagenaers, E. W. Harden.

The retiring directors are George H. Church, Jules S. Bache, Oliver Carter Macy, Valentine P. Snyder and M. C. Kieth. The other officers of the International Banking Corporation are as follows: H. T. S. Green, President and General Manager; Lawrence M. Jacobs, Vice-President and Treasurer; B. Duis, Manager of the Foreign Exchange Department; L. I. Sharp, Cashier; M. D. Curry, Assistant Cashier, and P. W. Jones, Secretary.

William L. McKee formerly Assistant Cashier of the National City Bank, has been elected Vice-President of the National City Co. Mr. McKee's broad experience in the bond business, which includes his former connections with Harris, Forbes & Co. and Harrison Williams, in addition to his association with the bond department of the National City Bank particularly equips him for this important position.

John J. Lewis, heretofore Assistant Secretary of the Guaranty Trust Co. of New York, and Harold Stanley of the bond department, have been chosen Vice-Presidents of the company. William Bradley, Assistant Treasurer, has been appointed Manager of the bond department. He will retain the title of Assistant Treasurer.

The Fifth Avenue office of the company, and the Guaranty Safe Deposit Co., beginning Monday next, will be located in the new Postal Life Building at the southeast corner of Fifth Avenue and 43d Street. The Guaranty Trust has purchased the property at the northwest corner of Madison Avenue and Sixtieth Street, valued at \$500,000, as a site for another uptown branch office. The present dwelling is to be demolished and a two-story banking structure, costing approximately \$100,000, will be erected by the company. The Guaranty Trust, it is said, has had a 21 year lease on the property.

James M. Rhett has been chosen Manager of the bond department of the Equitable Trust Co. of this city, to succeed Morris K. Parker, who, as noted in our issue of Dec. 2, has been elected a Vice-President of the company, in charge of the bond and investment departments. Mr. Rhett has long been connected with the investment business, having previous to his connection with the Equitable Trust, been associated with R. L. Day & Co. and Kean, Taylor & Co.

The Farmers Loan & Trust Co. of New York, Paris, London and Berlin, Edwin S. Marston President, is to-day publishing its bank call statement as of Nov. 29 on another page. On this date the deposits of this international company were \$170,956,346. Surplus and profits \$8,628,127 in addition to \$1,000,000 capital and aggregate resources \$191,310,402. The market value of its bonds and stocks was \$16,137,766. Other investments (short term) had a market value of \$32,086,096; bills purchased \$43,906,478, loans \$41,659,995, bonds and mortgages \$1,818,140, real estate \$3,615,000, cash on hand and in bank \$43,127,566, liability of customers for acceptances \$8,097,942 and accrued interest \$861,419.

The New Netherland Bank, 41 West 34th St., this city, J. Adams Brown, President, reports \$5,500,000 deposits for the last bank call as of Nov. 29, an increase of three quarters of a million dollars over a year ago. The institution pays dividends of 8% upon its capital stock.

The Corn Exchange Bank, of this City, has decided to open a branch at 166th Street and Broadway. The new branch will be known as the "Audubon Branch," and will be the thirty-eighth of its kind to be operated by the Corn Exchange Bank.

John Kelly Cilley, a former President of the old Ninth National Bank of this city, died on Dec. 5. Mr. Cilley was President of the Ninth National from 1893 to 1901. The Ninth National Bank was merged with the Citizens, now the Citizens Central National Bank, in the latter year.

Jacques S. Halle, senior member of the Stock Exchange firm of Halle & Stieglitz of this city, died on Dec. 1. Mr. Halle was in his fifty-second year; he had been a member of the Exchange since 1887. He served as a member of its Governing and Arbitration committees, but was forced, because of illness, to resign from the former committee on Nov. 22.

The First National Bank of this city has declared an extra dividend of 20% in addition to the usual quarterly distribution of 7%, both payable Jan. 2, to holders of record Dec. 31. The quarterly dividend of 3% on the stock of the First Security Co. as payable at the same time.

The Mutual Bank of this city has declared an extra dividend of 6% in addition to the regular semi-annual dividend of 7%, both payable Jan. 2, 1917, to holders of record Dec. 18. This is the first extra distribution made on the stock of the bank.

The Transatlantic Trust Co. of N. Y. has declared a semi-annual dividend of 3%, and an extra dividend of 2%, both payable Jan. 1, 1917. The previous dividend was 3%, paid June 30, 1916.

The Chatham & Phenix National Bank of this city has declared a quarterly dividend of 3%, payable Jan. 1, 1917, to holders of record Dec. 19. This places the stock on a 12% per annum basis as against 10% paid previously.

The International Trust Co. of this city has been awarded a verdict by a jury before Justice Platzek in the Supreme Court, this city, for \$25,120 against William Gow, and for \$5,000 against John S. Jenkins, who as directors of the now defunct Borough Bank of Brooklyn are alleged to have sold to the International Trust, which they then controlled, 3,000 shares of the stock of the bank for \$200 a share, which was then selling in the open market for \$130. The other defendants, Nelson B.Burr, Stanley E. Garrison, William Maxwell and Fred Doolittle, in the suit were exonerated by the jury. Evidence presented at the trial is said to have shown that of the 3,000 shares of Borough Bank stock purchased by the International Trust but 2,552 shares were

delivered to the trust company. The total amount which the International Trust sought to recover was \$172,000.

Justice Callaghan of the Supreme Court on Nov. 28 asked Superintendent of Banks Richards, with a view to repaying the depositors of the Borough Bank as early as possible, to compile a list of the defunct banks assets, in order that appraisers may be selected by the Court to determine the minimum price at which the properties should be sold at auction. The lawyers in court, who represented the Depositors' Association and the State Banking Department, it is said, approved of Justice Callaghan's plan and announced their intention to co-operate with him in bringing the prolonged affairs of the Borough Bank to a close.

Edward M. Grout, ex-Comptroller and a former President of the defunct Union Bank of Brooklyn Borough, against whom a conviction for perjury was reversed by the Appellate Division of the Supreme Court in Brooklyn on Nov. 18, as reported in our issue of Nov. 25, was reinstated by the Appellate Division on Dec. 8 as a practicing attorney, with the privilege of resuming his practice at once. Grout was dismissed from the roll of attorneys in December 1915, following his conviction on a charge of pejury, in swearing to Union Bank statements alleged to be false. The Court also signed an order submitted by Mr. Grout which puts into effect the reversal of the conviction ordered on Nov. 18. A brief, submitted by the District Attorney's office, for the purpose of obtaining permission to take the Grout case to the Court of Appeals was not signed by the Court.

At the annual meeting of the stockholders of the Oyster Bay Bank of Oyster Bay, L. 1., to be held on Jan. 9, a resolution, it is said, is to be offered to increase the capital of the bank from \$50,000 to \$100,000, and to change the par value of the stock from \$50 to \$100 per share. The directors it is stated, have declared a dividend of 4% on capital stock, free from tax, payable on and after Jan. 1 1917.

The new Southside Safe Deposit & Trust Co. of Paterson, N. J., it is said, expects to open for business the first of the new year. At a meeting of the stockholders of the institution on Nov. 23 the following officers were elected: President, Thomas F. McCran; Vice-Presidents, John Hollbach, Thomas J. Arnold and George H. Burke; Secretary and Treasurer, Charles A. Bergen. The company will begin business with a capital of \$100,000, and surplus of \$50,000. Approval by the State Banking Department of its application to organize was noted in our issue of March. 11.

Stockholders of the Manufacturers' & Traders' National Bank of Buffalo, N. Y., at a meeting on Dec. 5 voted to increase the capital from \$1,000,000 to \$2,000,000. The increase follows the absorption of the Third National Bank of Buffalo, which went into effect Oct. 28, as noted in our issue of Nov. 4. The Manufacturers' & Traders' National is now one of the largest banks in Buffalo, having surplus and profits of over \$1,850,000 and deposits of over \$40,000,000. Harry T. Ramsdell is President.

William Crawford Barry, President of the Rochester Trust and Safe Deposit Co., of Rochester, N. Y., died on Dec. 12. He was head of the firm of Ellwanger & Barry, Inc., and the Ellwanger & Barry Realty Company. He was a Vice-President of the Lincoln National Bank of Rochester, and a director of the Monroe County Savings Bank.

At a meeting of the trustees of the Middletown Savings Bank of Middletown, Conn., on the 4th inst., Frank H. Frissell was elected a trustee in place of the late George A. Coles; ex-Governor Frank B. Weeks was elected President; Frank C. Smith, a Vice-President; and Frank A. Coles a director. The directorate now consists of Frank B. Weeks, President; Heman C. Whittlesey and Frank C. Smith, Vice-Presidents; Henry L. Mansfield, Frank D. Haines, Earle C. Butler and Frank A. Coles.

At a meeting of the directors of the Exchange Trust Co. of Boston on the 12th inst., the regular quarterly dividend of $1\frac{1}{2}\%$ was declared, payable Jan. 2 1917 to stockholders of record Dec. 26 1916.

At the annual meeting of the stockholders of the First National Bank of Boston, Mass., to be held on Jan. 9, the proposition to increase the bank's capital will be acted upon. The plan recommended by the directors calls for an addition of \$2,500,000 to the capital, raising it from \$5,000,000 to \$7,-500,000; the new stock (25,000 shares) will be offered to the present shareholders at \$300 a share. It is to be payable April 2 1917. The surplus of the bank will be increased as a result from \$10,000,000 to \$15,000,000. The action of the directors, it is pointed out, is in furtherance of the bank's policy to maintain a ratio between capital and liabilities which would make the bank one of the strongest financial institutions of the country. The First National has deposits of over \$124,000,000. The enlarged capital, it is said, will not necessitate a reduction in the bank's dividend rate, the purpose being, it is reported, to maintain present dividends of \$16 per share. The bank is headed by Daniel G. Wing as President.

Charles R. Batt, President of the National Security Bank of Boston, Mass., and a well-known figure in the city's financial circles, died on Dec. 9. He was seventy-four years of age.

Josiah Quincy Bennett, prominent banker and President of the Cambridge Electric Light Co., died on Nov. 29, in his sixty-second year. Mr. Bennett entered the banking field as a messenger and later became Cashier of the Market Bank of Boston. Subsequently, he became President of the Mercantile Trust Co. He had always been interested in electrical industries, and later founded the Cambridge Electric Light Co., of which he was President. He was also President of the Commonwealth Gas & Electric Co., the Commonwealth Light & Power Co., the Athol Gas & Electric Co., the Marlboro-Hudson Gas Co., and the Marlboro Electric Co. He was also Treasurer of the Boston Brick Co., besides being connected with many other business organizations.

J. Harper Dripps, heretofore Cashier of the National Security Bank of Philadelphia, Pa., was elected to the Presidency at a meeting of the directors on Dec. 12, to succeed the late Philip Doerr. William H. McKee, formerly Assistant Cashier, has been chosen to take the place of Mr. Dripps in the Cashiership, and F. William Doerr has been elected a director of the bank. The National Security Bank has a capital of \$250,000, surplus and profits of over \$1,100,000 and deposits of over \$4,800,000.

Edwin B. Malone has been chosen a director of the Tenth National Bank of Philadelphia, Pa., to succeed Samuel B. Vrooman, who has resigned because of the requirements of the Clayton Act.

Sidney F. Tyler has been chosen a director of the Fidelity Trust Co. of Philadelphia, Pa., to succeed the late George Philler

Edgar M. Yarnell has been elected a director of the Belmont Trust Co. of Philadelphia, Pa., to fill a vacancy.

The Third National Bank of Pittsburgh, Pa., opened for business on Dec. 4 in its new quarters in the Henry W. Oliver Building, Pittsburgh. The Third National, as noted in our issue of Nov. 25, has been located in the Oliver Avenue district for the past fifty-three years. The rapid increase in the bank's business is said to have made necessary its removal from its old home at Oliver Avenue and Wood Street. The bank is headed by W. McK. Reed as President.

Harry Milton Landis, Treasurer of the City of Pittsburgh, Pa., and a fermer bank official, died on Dec. 8. Mr. Landis had been City Treasurer since January 1914, and was also a director and Treasurer of the Pittsburgh Chamber of Commerce. Mr. Landis previous to accepting the office of City Treasurer was prominent in Pittsburgh banking affairs. As a young man he entered the employ of the old Tradesman's National Bank and by successive steps rose to the Cashiership of that institution. When the Tradesman's National was taken over by the Columbia National Bank he was chosen Cashier of the continuing bank. He later resigned that position to become Cashier and Vice-President of the Federal National, which office he occupied up until its closing in 1912.

Frank T. Williard, heretofore in charge of the trust department of the Citizens' Trust & Savings Bank of Columbus, Ohio, has been chosen Assistant Cashier, Secretary and Treasurer of the institution to succeed Herbert B. Halliday, who has resigned to become associated with Charles H. Neil, in the management of the Ironsides Company. Mr. Williard has been connected with the Citizens' Trust & Savings Bank for the past nine years.

The defunct Paisley banks of Chicago, Ill., have assets of \$102,000 and liabilities of approximately \$500,000, according to a report recently made by referee in bank-ruptcy Eastman to Charles H. Wells, representing the Chicago Title & Trust Co., as trustee. The W. H. Paisley & Sons' three banks, one known as the North Shore Savings Bank, of 5545 Broadway, another as the Grace Street branch of the North Shore Savings Bank at Halsted and Grace streets, and the third, the Summerdale Savings Bank of 5203 North Clark Street, were closed in September, as reported in our issue of Sept. 30, as a result of an investigation instituted into private banking concerns by State Attorney Hoyne.

The Central Trust Co. of Illinois in Chicago was appointed trustee to represent creditors of the defunct bank of Harry A. Dubia, known as the Industrial Savings Bank, at a meeting of the creditors on Dec. 4. The bank conducted business at 2007 Blue Island Avenue, Chicago. It is said to have assets of about \$350,000 as against liabilities of

\$750,000.

At a meeting of the directors of Greenebaum Sons Bank and Trust Company of Chicago, Ill., held on the 11th inst., the regular quarterly dividend of $2\frac{1}{2}\%$ was declared and an extra dividend of 4% payable on Dec. 30, to stockholders of record at that date.

The Union Trust Company of Chicago announces the election of Charles K. Foster, Vice-President of the American Radiator Company, as a director of that bank to fill a vacancy caused by the death of James Longley of Boston.

Frank I. Dugan has been chosen to the newly created office of Assistant Cashier of the Citizens National Bank of Louisville, Ky. Mr. Dugan has heretofore served as note teller of the Citizens National, which is headed by S. B. Lynd as President, and has a capital of \$500,000, surplus and profits of over \$700,000 and deposits of over \$5,400,000. The directors voted a bonus of a month's salary to all employees, as noted elsewhere.

The stockholders of the American National Bank of Macon, Ga., on Dec. 8 surrendered the charter of the institution and the succeeding day began business as the Citizens & Southern Bank of Macon with a capital of \$1,000,000 and surplus of \$1,000,000. The change in the bank's charter follows the purchase of a controlling interest in the bank's stock by Mills B. Lane, President of the Citizens & Southern Bank of Savannah, Ga., and associates. The sale of the stock, as noted in our issue of Oct. 28, was consummated by Joel Hurt of Atlanta, President of the Continental Trust Co. Mr. Hurt owned a large block of the stock and represented other large holding interests. The stockholders of the Citizens & Southern Bank have chosen the following directors: Judge W. H. Felton, Dr. Max Jackson, Dr. W. G. Lee, Dr. W. J. Little, R. C. Hazlehurst, E. T. Comer, J. D. Comer, Mills B. Lane, George B. Clark and O. A. Park. Mills B. Lane is President of the Citizens & Southern of Macon, George B. Clark is Vice-President, while E. C. Scott will serve as Cashier. The Citizens & Southern Bank of Savannah has a capital of \$1,000,000, surplus and profits of over \$1,200,000 and deposits of over \$11,800,000.

A condensed statement of the banks of Richmond, Virginia, has been compiled by the First National Bank of that city showing the standing of the various institutions at the date of the last bank call. The combined resources of all the Richmond institutions totaled \$107,803,515, deposits \$82,088,043, capital \$9,822,150 and surplus and profits \$10,238,049 A copy of this interesting record may be had on application to W. P. Shelton Assistant Cashier of the First National Bank of that city.

The Bankers' Loan & Securities Co. of New Orleans, La., through its President, James L. Wright, and his associates, has acquired the stock control of the Rural Credit Co. of New Orleans, and as soon as practical will absorb the loan assets of the latter and merge them into the investments of the Bankers' Loan & Securities Co. The Rural Credit Co. was organized in 1913 as the Banking Trust Co., with authorized capital of \$1,000,000 and its corporate title was later changed when the company began business with a capital of \$130,000 and a paid-in surplus of \$30,000. At a meeting of the directors on Dec. 1 the resignations of all former officers and directors of the company were offered and accepted. The following new officers and directors have been chosen pending the liquidation of the institution: Chairman of the board, James L. Wright; President, Peter M. Joachim; Vice-President and General Manager, F. Prevost Breckinridge; Vice-President, Roberts C. Milling; Secretary and Treasurer, N. H. Lewis. These officers, with Frank J. Mangham, R. E. Milling, O. W. McNeese, S. Ross Yancey, John W. Woolfolk and H. S. Armstrong, constitute the new directorate.

T. R. Watson, President of the defunct Farmers' & Merchants' State Bank of Teague, Texas, was found guilty in the Fifty-fourth District Court of Texas on Dec. 1 of murder in connection with the fatal shooting of John S. Patterson, late Texas State Commissioner of Banking and Insurance, and was sentenced to ninety-nine years in the State Peni-Commissioner Patterson, as noted in our issue of Sept. 2, died on Aug. 30 as the result of bullet wounds received at the hands of President Watson. The shooting took place in the Farmers' & Merchants' State Bank while the Commissioner was conducting an examination of the affairs of the institution and was about to post a notice formally closing the bank.

On the 8th inst. the Security Trust & Savings Bank of Los Angeles, Cal., passed the 100,000 mark in number of open accounts upon its ledgers. This is rather a noteworthy event, since it is claimed that it is the only bank outside of New York, Chicago, Philadelphia, Boston and Cleveland that has more than 100,000 depositors' accounts. It is an interesting fact that during the entire history of the Security Trust & Savings Bank, which is now rounding out its twenty-eighth year of existence, the bank has been under the same management, and it must be with a large degree of satisfaction that J. F. Sartori, who organized the bank, M. S. Hellman and W. D. Longyear, who became associated with it soon afterwards, and Chas. H. Toll and W. H. Booth, look back over the years and compare the ending of the bank's first year in a little store on Main Street, which showed resources of \$300,000 and 1,050 accounts, with the \$50,000,000 of resources and 100,000 accounts of to-day, which requires the handsome banking room at Fifth and Spring, now known as "Security Corner," and the branch at First and Spring to accommodate them. Undoubtedly an important factor in encouraging the confidence of that army of people which deposits in the Security is the fact that each of the directors of this bank has been a resident of its community from twenty to fifty years. The stockholders of the Security Trust & Savings Bank also own the entire stock of the Security National Bank, which is now located at Fourth and Broadway and is rapidly coming to the front as a commercial bank. A strikingly handsome building for the Security National is now nearing completion, immediately adjoining that of the Security Trust & Savings Bank on Spring Street, and will probably be occupied shortly after Jan. 1. The combined resources of these banks are now approximately \$55,000,000.

"That thrift is a blessing not only because of the accumulation of wealth, but because of the foundation and strengthening of character" is the lesson being taught school children of Spokane, Wash., in the encouragement of the school "savings bank" system in that city. The "savings bank" system is in operation in 35 schools of the city and has been successful since its inception. Savings amounting to \$90,000 have been deposited to date by 5,280 school children. idea of a "savings bank" system among the school children of Spokane was conceived in 1901 by R. L. Rutter, President of the Spokane & Eastern Trust Co. The plan is in vogue in other cities throughout the country, with the result that many children are being taught the value of forming habits of economy and savings.

Total resources of \$365,215,542 at the close of the fiscal year on Oct. 31 last are reported by the Bank of Montreal,

this representing an increase of \$62,334,987 over last year's figures. Profits for the year just closed, after deducting charges of management and making full provision for all bad and doubtful debts, amounted to \$2,200,471, an increase of \$91,840 over those reported for the period ending Oct. 30 1915, which were \$2,108,631. The total amount available for distribution, including a balance of \$1,293,952 brought forward from the previous year, was \$3,494,423. sum \$1,920,000 was distributed in four quarterly dividends and two bonuses, \$160,000 was paid out in war tax on bank note circulation, and \$1,414,423 was carried forward as balance of profit and loss. As usual, dividends of 10% were paid during the year, and two bonuses of 1 % were distributed. The interest bearing deposits of the bank increased from \$160,277,083 a year ago to \$210,439,032 on Oct. 31 1916. Deposits not bearing interest were \$88,767,018 on the latter date, as compared with \$75,745,729 last year. The bank has a capital of \$16,000,000.

At the annual meeting, Sir Vincent Meredith, Bart., President, in referring to the principal developments of the year and the plans that should be laid to cope with them, said in part:

The year has again been one of considerable anxiety to all those engaged in financial affairs. Our profits have been curtailed by payments of Government taxes at home and abroad, while earnings on loans in Canada have been affected by reduced borrowings on the part of our customers. not, however, an unfavorable feature that the prosperity of large manufacturing industries and business in general has produced a curtailment of bank loans and converted borrowers into depositors. The low rates of interest on that portion of our reserves carried in New York have also been a contributing factor to diminished earnings compared with those antecedent to the war. But despite these disabilities, we have been able, after making what we believe to be full provision for bad and doubtful debts, to pay our usual dividends with the customary bonus and to carry a balance to credit of profit and loss account.

At the shareholders' meeting the vacancies on the board of directors were filled by the election of Captain Herbert Molson of Montreal and Harold Kennedy of Quebec. At the first meeting of the new board of directors Sir Vincent Meredith, Bart., was re-elected President and the Vice-Presidency, which had been vacant for the past few years, was re-established by the appointment of C. B. Gordon, President of the Dominion Textile Co.

THE ENGLISH GOLD AND SILVER MARKETS.

We reprint the following from the weekly circular of Samuel Montagu & Co. of London, written under date of November 23 1916: GOLD

The Bank of England reserve of gold against its note issues shows a slight increase of £42,955 as compared with last week's return.

SILVER.

During the preceding week the market had been swept more or less clear A further advance in rates became unavoidable owing to the continued strength of the China exchanges which led to purchases in America and also in London. The quotation advanced daily from 34d. the price on Nov. 17 recording successive rises of $\frac{1}{2}-\frac{1}{4}-3-16-\frac{1}{4}$ and $\frac{1}{2}$ d.

Inquiry was not confined to mintage alone, but embraced orders for general purposes home and Continental, and also for the Indian Bazaars. The unfavorable views taken in India have caused a "bear" position to be ' position to be opened in the London market—a state of affairs, in view of the statistical position not without danger

It cannot be challenged that the present condition of the market is more sound than when the spectacular movements in May last carried the quotation to $37\,\%$. During the intervening period the Chinese stock has been reatly reduced, America has been relieved of certain accumulations she then held, and the Indian Currency figures, notwithstanding very large continuous purchases for the Indian Mints, show a declining tendency. The silver market has often lived up to its reputation of doing the unex pected, but the situation is such that further advances may be expected before the close of the year, provided no new factor intervenes

The last three Indian Currency returns received by cable give details

The stock in Bombay consists of 6,000 bars, as compared with 4,000 bars last week

The stock in Shanghai on Nov. 18 1916, consisted of about 20,000,000 ounces in sycee and 16,490,000 dollars, as compared with about 20,000,000 ounces in sycee and 16,500,000 dollars on Nov. 11 1916.

The following shipments were made from San Francisco during the week:

1,365,000 ounces to Bombay 709,000 ounces to Shanghai

It is announced that the copper output of the Anaconda Co. for October amounted to 31,500,000 lbs., as compared with 24,900,000 lbs. and 1,800,-000 lbs., respectively, in the corresponding months of 1915 and 1914. As or this great is quite likely that the output of silver has also greatly increased. Quotations for bar silver per ounce standard:

TRADE AND TRAFFIC MOVEMENTS.

UNFILLED ORDERS OF STEEL CORPORATION.—
The United States Steel Corporation on Saturday, Dec. 9, issued its regular monthly statement, showing the unfilled orders on the books of the subsidiary corporations at the close of November. Once again all previous records were broken, the aggregate of unfilled orders on Nov. 30 having reached 11,058,542 tons, an increase of 1,043,282 tons over last month, when the amount of outstanding orders was 10,015,-260 tons.

In the following we give the comparisons with the previous months:

Tons.		Tons.	Tons.
Nov. 30 1916_11,058,542	Sept. 30	19143,787,667 July 31	19125.957,079

Apr. 30 19154,162,244			
Mar. 31 19154,255,749		19137,827,368 Nov. 30	
Feb. 28 19154,345,471	Dec. 31	19127,932,164 Oct. 31	19102,871,949
Jan. 31 19154,248,571		19127,852,883 Sept. 30	
Dec. 31 19143,836,643		19127,594,381 Aug. 31	
Nov. 30 19143,324,592			19108,970,931
Oct. 31 19143,461,097	Aug. 31	19126,163,375	

The figures prior to July 31 1910 were issued quarterly only. These, extending back to 1901, were given in the "Chronicle" of March 13 1915, page 876.

ANTHRACITE COAL SHIPMENTS.—The shipments of anthracite coal for November 1916 as reported by the Anthracite Bureau of Information at Wilkes-Barre amounted to 5,992,997 tons, a decrease of 501,445 tons as compared with November last year, but an increase of 122,793 tons over October 1916. For the eleven months to Nov. 30 the movement aggregated 61,793,617 tons, against 61,734,389 tons for the corresponding period in 1915. Below we give the shipments by the different carriers for November 1916 and 1915 and for the 11 months ending Nov. 30:

_	-Nove	mber-	-Jan. 1 to	Nov. 30-
	916.	1915.		1915.
Philadelphia & Readingtons_1,2	00,814	1,163,851	11,802,088	10,358,940
Lehigh Valley	82,453	1,190,103	11,092,071	11,904,105
	21,584	762,140	6,535,290	
Delaware Lackawanna & Western 9	79,607	971,389	9,684,935	8,651,189
Delaware & Hudson 6	28,239	694,386	6,503,423	7,365,989
Pennsylvania 4	38,869	616,190	5,392,423	5,487,151
New York Ontario & Western 10	62,257	202,266	1,798,023	1,898,453
Erle 6	74,261	696,890	7,083,899	7,221,557
Lehigh & New England *2	04,913	197,227	*1,901,465	1,552,171
Total5,9	92,997	6,494,442	61,793,617	61,734,389

*After deducting (to avoid duplication) tonnage delivered to the Central RR. of N. J. at Hauto by the Lehigh & New England RR. and included as part of the tonnage of the latter. This amounted to 75,236 tons in November 1916 and to 477,170 tons for the six months ending Nov. 30.

Of the above exports for the week in 1916 \$3,399,000 were American gold coin.

The Federal Reserve Banks.—Following is the weekly statement issued by the Federal Reserve Board on Dec. 9:

For the week_____ Previously reported.

The Federal Reserve Banks.—Following is the weekly statement issued by the Federal Reserve Board on Dec. 9:

Large rediscount operations of the Eastern banks during the past week, as well as considerable purchases of paper in the open market, are indicated by the weekly bank statement issued by the Federal Reserve Board as at close of business on Dec. 8 1916. Federal Reserve notes in circulation increased by over 10 millions, all the banks except St. Louis and Dallas reporting additions to their outstanding circulation. Aggregate gold reserves show a decrease for the week of 11.2 millions, while total cash reserves declined 17.4 millions. Total net deposits increased about 7 millions, while earning assets went up about 23.3 millions, the difference between these two terms representing approximately the decrease in total cash reserve.

New York reports an increase of 9.3 millions in discounts and of 4.7 millions in acceptances held, also a total of about 4 millions of gold transferred to the Agent against Federal Reserve notes. On the other hand, the bank liquidated during the week about 6.4 millions not of warrants, issued almost the entire amount of notes received from the Agent, and reduced oy about ½ million its favorable balance in account with other Federal Reserve banks.

Philadelphia shows a decrease of 6.7 millions in reserve, together with an increase of 3.3 in earning assets, a total of 1.8 millions of gold transferred to the Agents, a reduction of over \$700,000 in total deposits, and a substantial decrease in the amounts due to other Federal Reserve banks. Discounts on hand—\$38,345,000—exceed by nearly 5 millions the previous high record total shown about a year ago. Over 60% of the total discounts is held at present by the three Eastern banks, and to transfers of gold to Agents against notes issued by the latter.

Discounts on hand—\$38,345,000—exceed by nearly 5 millions the previous high record total shown about a year ago. Over 60% of the total discounts is held at present by the three Eastern ban

funds. Bank deposits show a net gain of 5.1 minions, restricting the state of the system as a whole are given in the following table, and in addition The figures of the consolidated statement for the system as a whole are given in the following table, and in addition

we present the results for each of the eight preceding weeks, thus furnishing a useful comparison. In the second table we show the resources and liabilities separately for each of the twelve Federal Reserve banks. The statement of Federal Reserve Agents' Accounts (the third table following) gives details regarding the transactions in Federal Reserve notes between the Comptroller and the Reserve Agents and between the latter and the Federal Reserve banks.

Statement of New York City Clearing House Banks and Trust Companies.—The following detailed statement shows the condition of the New York City Clearing House members for the week ending Dec. 9. The figures for the separate banks are the averages of the daily results. In the case of the totals, actual figures at end of the week are also given. In order to furnish a comparison, we have diverged the totals of actual condition for each of the three groups and also the grand aggregates for the three preceding weeks.

In addition to the returns of "State banks and trust companies in New York City not in the Clearing House," furnished by the State Banking Department, the Department also presents a statement covering all the institutions of this class in the whole State. The figures are compiled so as to distinguish between the results for New York City (Greater New York) and those for the rest of the State, as per the following:

For definitions and rules under which the various items are made up, see "Chronicle," V. 98, p. 1661.

The provisions of the law governing the reserve requirements of State banking institutions were published in the "Chronicle" March 28 1914 (V. 98, p. 968). The regulations relating to calculating the amount of deposits and what deductions are permitted in the computation of the reserves were given in the "Chronicle" April 4 1914 (V. 98, p. 1045).

BANK OF MONTREAL

ANNUAL GENERAL MEETING HELD 4TH DEC. 1916.

The 99th Annual General Meeting of the Shareholders of the Bank of Montreal was held on Monday December 4th at the Bank's Headquarters.

On motion of Mr. R. B. Angus, Sir Vincent Meredith was requested

to take the chair.

Mr. C. J. Fleet, K.C., moved, and Mr. Alfred Piddington seconded, that Messrs. George R. Hooper and A. E. Ogilvie be appointed to act as Scrutineers, and that Mr. O. R. Sharp be the Secretary of the Meeting. This was carried unanimously.

The Chairman then called upon the General Manager, Sir Frederick Williams-Taylor, to read the annual report of the Directors to the Shareholders at their 99th Annual General Meeting, held Monday, 4th, De-

cember 1916.

THE ANNUAL REPORT. The Directors have pleasure in presenting the Report, showing the result of the Bank's business for the year ended 31st October 1916: Balance of Profit and Loss Account, 30th October 1915___\$1,293,952 95 Profits for the year ended 31st October 1916, after deduct-

ing charges of management, and making full provision for

all bad and doubtful debts_____ __ 2,200,471 04

Quarterly Dividend 2½% paid 1st Mar.1916 \$400,000 00 \$3,494,423 99

October 1916_____ 2,080,000 00

Balance of Profit and Loss carried forward..... \$1,414,423 99

Since the last Annual Meeting, Branches were opened at West Toronto and Renfrew, Ont., and the Sub-Agency at East End, Calgary, was

Also temporary offices were opened for the payment of the Troops while in Camp as follows:

In Ontario --Camp Borden.

Exhibition Camp, Toronto.

Petawawa Camp.

In Quebec —Valcartier Camp. In Manitoba—Camp Hughes.

All of these, with the exception of the Branch at the Exhibition Camp in Toronto, have now been closed.

The name of Berlin (Ont.) Branch has been changed to Kitchener. All the Offices of the Bank, including the Head Office, have been inspected during the year.

(Signed) H. V. MEREDITH,
President.

Bank of Montreal, 4th December, 1916.

THE GENERAL STATEMENT.

The General Statement of the position of the Bank on 30th October 1916 was read as follows: LIABILITIES.

H. V. MEREDITH, FREDERICK WILLIAMS-TAYLOR, General Manager.

THE PRESIDENT'S ADDRESS.

Sir Vincent Meredith, in moving that the report of the Directors, as read, be adopted and the same be printed for distribution among the shareholders, said in part:

I hoped when I last had the pleasure of addressing you that before this Annual Meeting the end of the cruel and devastating war which has convulsed Europe would be, if not reached, at least within measurable distance. In this expectation we have been disappointed. No one can yet fix the day of its termination, but I am sure I express your feelings when I say we hold an unshaken confidence of the ultimate victory of Britain and her Allies.

Canada, inspired by a deep-rooted loyalty to the Empire, has given and is still prepared to give freely her gallant youth and monetary means to the great cause, upon the success of which her liberties and national

existence so greatly depend.

The year has again been one of considerable anxiety to all those engaged in financial affairs. Our profits have been curtailed by payments of Government taxes at home and abroad, while earnings on loans in Canada have been affected by reduced borrowings on the part of our customers. It is not, however, an unfavorable feature that the prosperity of large manufacturing industries, and business in general, has produced a curtailment of bank loans and converted borrowers into depositors. The low rates of interest on that portion of our reserves carried in New York have also been a contributing factor to diminished earnings compared with those antecedent to the war. But despite these disabilities, we have been able, after making what we believe to be full provision for bad and doubtful debts, to pay our usual dividends with the customary bonus and to carry a balance to credit of Profit and Loss Account. I trust, therefore, that under the circumstances you will consider the results of the Banking year satisfactory.

RELATIONS OF UNITED STATES AND ALLIED COUNTRIES. The wide ramifications of the business of the Bank make us necessarily deeply concerned with commercial conditions in other countries. Great Britain, general trade has been spurred to great activity by the war's demands. There has been no lack of employment, wages have risen, money has been circulated freely, returning to the Banks in the form of increased deposits, and for the time being, at least, prosperity has prevailed, despite the displacement of labor by the war.

In the United States, also as a result of the war, there is an activity in business unexampled in its history. The shipments of gold to that country in payment of munitions, grain and other commodities have reached a sum in excess of \$700,000,000 since the outbreak of the war. This huge inflow of the precious metal, together with the fact that under the new Federal Reserve Act the proportion of reserves required to be carried by the Banks has been reduced, is causing concern to many financial men, who fear that it will bring about a period of inflation to be followed by a serious financial reaction.

At present these conditions are serving a useful purpose to the Allied Countries by causing a plethora of money, thereby enabling them to borrow at comparatively reasonable rates of interest. If the United States market will continue to look with favor on further Allied loans, any menace to the financial situation to that extent will be removed.

The recent action of the Federal Reserve Board in counselling caution in the investment of American Bank funds in Treasury Bills of Entente Powers it is thought may be intended as a warning to imprudent or inexperienced bankers. It is hoped, however, that it will not bring about a diminution in Allied borrowings in the United States, with the possibility of a check in the volume of trade with Europe.

The Allied loans so far issued in New York aggregate \$1,585,000,000, of which sum Great Britain has borrowed \$860,000,000, France \$570,-000,000, Russia \$130,000,000, and Italy \$25,000,000.

BUSINESS CONDITIONS IN CANADA.

The sudden reversal in the position of Canada from a debtor to a creditor nation, as respects foreign trade, has been very remarkable. In the seven months of the fiscal year to October 31st the excess of imports over domestic exports of merchandise was, as recently as 1913, no less than \$145,000,000 and in the like period of 1914 the adverse balance of trade amounted to \$60,000,000. Then the gap began rapidly to close. The production of munitions of war of every description, together with the bountiful harvest of last year, carried the exports to an unprecedentedly high figure. In the seven months to October 31st, 1915, the value of domestic exports exceeded imports by \$73,300,000 and in the corresponding period of this year the excess of exports over imports has reached the large sum of \$160,000,000.

Nor has this reversal of the balance of trade been accomplished by contraction of imports; in the present year the value of imports has outstripped all previous records. The change has been effected entirely by shipments abroad of the huge crop of 1915, and the large output of war supplies, the export of agricultural products in the seven months' period to October 31st having risen from \$75,500,000 in 1914, to \$233,500,000.

It is scarcely necessary to add that this striking change in foreign trade balance has greatly ameliorated the financial situation and is at once a cause and reflex of the existing commercial activities of the country.

SUCCESS OF DOMESTIC LOANS.

In a little more than a year, Canada has issued two Domestic Loans amounting to \$200,000,000, and the Canadian Government has borrowed in New York \$95,000,000. The success of our internal loans is a matter of pride and congratulation. It is due largely to the spirit of loyalty of our people and a determination to do all within them to bring the war to an early and successful conclusion.

The Minister of Finance, to whom the country owes much for his wise and far-seeing administration of our financial affairs, will doubtless keep in view these conditions when making further calls on our resources, which of necessity he must do from time to time.

The net debt of Canada on October 31st last was \$696,000,000, an increase within the year of upwards of \$200,000,000. The war expenditure has now reached \$23,000,000 a month and is increasing. Ere long the public debt of Canada will reach a billion dollars and involve an interest charge of not less than \$45,000,000 annually. While it is true that through adventitious circumstances public revenue has increased during the last year or two, no dependence can be placed on the continuance of this buoyancy, so that we will have to face a heavy interest charge on account of public debt, and a resulting taxation.

POLICY CANADA SHOULD FOLLOW.

There are three objects to which every effort must be bent:

Economy-that we may be enabled to provide the Government with funds to do our part to win the war and to make provision for taxes which we shall undoubtedly be called upon to pay.

Production—that we may increase our exports and furnish more plentifully our home markets; and above all

Immigration—(which will bring about increased production so neces

sary to our well-being) to be promoted at all times and under all circumstances, more particularly of settlers who seek the land.

The railway situation in Canada has been a matter of some anxiety to those connected with financial affairs. The Dominion Government has, as you are aware, appointed a Commission of capable and experienced you are to the received the situation in respect of the newer enced men to thoroughly investigate the situation in respect of the newer transcontinental railways, and while I cannot, of course, anticipate the findings and recommendations of this Commission, I may be allowed to express the hope that neither Government ownership nor Government operation will ensue, either of which, I am convinced, would prove detrimental to the best interest of Canada.

And now, as my remarks draw to a close, I am tempted, contrary to my usual practice, and unrestrained by the old adage, "Never prophesy unless you know," to look into the future. The thoughts of many men are turned towards the problems that will confront us after the war. Government commissions are dealing with them; the press devotes much space to their discussion; international conferences have met, but much space to their discussion; international conferences have met, but our first, obvious and imperative duty is to WIN THE WAR.

When that is done, new conditions will unquestionably supervene. It seems probable that for some months to come orders for munitions and war supplies will continue to keep our industrial plants actively employed.

OUTLOOK FOR POST-BELLUM PERIOD.

A temporary check in business generally may be looked for when peace is in sight, but I do not anticipate that any lengthened cessation of our commercial and industrial activities will immediately ensue. The period of reconstruction will probably not be accomplished for several months, and during this time Europe should provide a market for all we can produce, and new markets, perhaps, will be opened to us which we have never yet been able to reach.

Canada is bearing up magnificently under the strain of this world-wide war, and her sacrifices will be amply repaid by the engendering of a spirit of self-reliance, and she will emerge, a comparatively little-known country, to take her rightful position in the affairs of the nations.

The future, as I have said, is beset with new problems and is not

entirely free from financial anxieties, but by a young people possessing great national spirit, a territorial empire and unrivalled natural resources, the future can be looked forward to with hope and confidence.

THE GENERAL MANAGER'S ADDRESS.
Sir Frederick Williams-Taylor, the General Manager of the Bank, in making his annual address, said in part:

Gentlemen .- In this, the twenty-ninth month of the war, it is my duty to present for your approval the ninety-ninth annual statement of the Bank of Montreal.

Also it is my combined duty and privilege to explain the chief changes in the balance sheet now before you. First, however, let me comment briefly upon the factors that bear most importantly upon the future course of our affairs and that have influenced our banking position in the year under review.

The outstanding business feature in Canada is an industrial condition more abnormal in character than ever before in the history of this Bank.

The same statement applies in a greater or lesser degree to several belligerent and neutral countries, but in Canada economic conditions as well are in an unnatural state. This is partly due to the war, also a result of suspended immigration and of a lengthy period of an extravagance of which we are now feeling the cumulative effect.

Canada sold her record orop of last year at high prices, as in the years of the American Civil War, while this year we are disposing of a moderate crop at such steadily mounting prices that we again reap a golden harvest about equal in amount to that of 1915. The total value of last year's crop was \$799,000,000.

Our much criticised adverse trade balance has disappeared as though by magic, and our exports are now vastly in excess of our imports.

1914. 1915. 1916. Exports for year ended Oct.31\$459,300,000 \$550,500,000 \$1,172,700,000 Imports for year ended Oct.31 514,600,000 421,700,000 716,900,000

Total trade for year ended

Oct. 1st_____\$973,900,000 \$972,200,000 \$1,889,600,000 Many of our great industries have converted big floating debts, a cause of anxiety, into cash surpluses. As a natural outcome, our stock marke t

are booming. Not only is unemployment unknown, but unskilled labor commands wages two and a half times greater than the pay of our volunteer citizen soldiers, who so splendidly risk their lives for their country, while men engaged in "factory piece work" can earn as much as a college professor. It is, therefore, not surprising that the unanalytical minded, or those preoccupied with their own affairs, or those who have not contributed in flesh and blood to the Cause, should complacently say "Times are good."

Among those who do not join in this refrain are the men and women of the salaried class and those with small fixed incomes. These have been hard hit by war prices and are indeed finding it difficult to make both ends

The present buoyant industrial conditions are obviously the direct outcome of a steadily increasing demand by the Allies for food, clothing and other munitions of war at rapidly rising prices, yielding large profits to the producers.

Payment for these war exports and for our surplus crops, coupled with loans of \$275,000,000 effected in New York since the outbreak of hostilities, have brought money into the country at a rate not only unprecedented, even in the days of our heavy borrowing in London, but so undreamed of that we can advantageously ponder on what might have been

our condition had there been no war.

An American authority has said: "The war has saved the United States from a great industrial and financial calamity."

In many respects conditions in Canada are comparable with those in the United States. In two notable respects they differ. Our neighbors across the border are adding to their wealth at a pace without precedent in history, but, unlike the Dominion, unpenalized by increasing national debt and loss of human life.

There is another side to this picture on which it is not well to dwell unduly, but which should be kept clearly before us. Post bellum conditions will surely weigh upon us more heavily or less heavily in proportion to our present indifference or our foresight, and in direct ratio to the steps we take to provide for inevitable problems and difficulties. Our agricultural production brings not only prospertly but stability; apart therefrom, though the cost of these alleged good times will not fall equally upon individuals, Canada as a whole will pay, and is paying already, in hard cash, reflected in a formidable national debt and in a great public debt per capita. We are also paying in that most priceless of all treasures, the blood of the manhood of our country. So far the cost to us of the war is 14,000 lives plus 45,000 casualities, and in money \$354,000,000.

The transient nature of our increased exports alone is a simple index to a situation that commands the attention of all thinking people.

These views may not be acceptable to all, but they are common sense and based upon arithmetical facts. To be forewarned is to be forearmed.

These are the main factors that have influenced and will influence the banking position—the movement in deposits and loans and the safety of Therefore, in my opinion, the business of this bank should be conducted with such views plainly before us until the situation clears.

LONDON.

Throughout the year under review, the trend of money rates in London has been steadily upwards, and, therefore, notwithstanding heavy income tax, the substantial reserves we carry at that reserve point have been employed with profit to ourselves, also with advantage to the Empire, as the chief securities in which we deal, either by way of loan or purchase, are British Government securities.

It is not out of place to mention here that this Bank is among the important and appreciated lenders of short money in the London market, and though it is not for us to take praise for this, yet the fact is not to be lost sight of when weighing Canada's assistance to the Empire in this war.

In this connection I may say that as a borrowing centre London remains closed to the Dominions except for such loans as our Government effect from the Imperial Government for war purposes. On the other hand, some of our Provincial Governments and several municipalities have re-purchased largely their outstanding long-dated London loans and refunded them in New York, thus helping the sterling exchange situation. The obligant also has profited through reduction in capital debt.

The help that can in this way be rendered to Great Britain in maintaining the value of the pound sterling is in itself sufficient reason why all our public bodies with loans afloat in London should give this matter their loyal and early attention.

UNITED STATES.

With the exception of one brief spasm, both call and time money in New York have remained abundant and therefore cheap.

The call rate averaged 2.30% throughout the year, as compared with 2.39% the preceding year. It will be obvious to you that it is not very profitable to lend money at such rates, but our policy remains unchanged of carrying important reserves in New York, no matter what the earning power may be.

During the Bank's year Canada borrowed in New York by way of public loans \$153,000,000. This sum includes the Dominion Government loan of \$75,000,000, borrowed naturally on terms dictated by the lender, terms that should have been better but might have been worse had our credit not stood so high. Of the latter sum, \$25,000,000 was for refunding purposes.

In the previous year Canada borrowed in New York about \$142,000,-

000, and in 1914 \$25,000,000. The interest on Canada's indebtedness abroad-mainly to Great Britain and the United States—now amounts to about \$175,000,000 a

It is worthy of special mention that since August, 1914, New York has loaned no less than \$2,000,000,000 to foreign countries, thus extablishing itself in an important position among the great loaning centres of the world.

BOARD OF DIRECTORS

The Scrutineers appointed for the purpose reported the following gentlemen duly elected Directors: D. Forbes Angus, R. B. Angus, A. Baumgarten, H. R. Drummond, C. B. Gordon, E. B. Greenshields, C. R. Hosmer, Harold Kennedy, Sir William Macdonald, Hon. Robt. Mackay, Wm. McMaster, Sir Vincent Meredith, Bart., Capt. Herbert

Molson and Lord Shaughnessy, K.C.V.O.

At a subsequent meeting of the Directors Sir Vincent Meredith,
Bart., was re-elected President and Mr. C. B. Gordon was elected Vice-President.

Bankers' Gazette.

Wall Street, Friday Night, Dec. 15 1916.

The Money Market and Financial Situation.—The most important event of the week has, of course, been Germany's official announcement of her readiness to consider many's official announcement of her readiness to consider terms of peace. We give below, somewhat in detail, the effect of this announcement on the security markets. The cotton and grain markets were similarly affected. Cotton advanced on the prospect, however slight, of an open, untrammeled market. Wheat immediately declined eight cents per bushel and more later in the week, a matter of importance to every family and household in the country. Otherwise the incident passed almost without a jar and financial and industrial affairs are generally undisturbed.

The Steel Corporation's report of unfilled orders shows an unusual if not an unprecedented increase, the total now aggregating more than 11,000,000 tons. An estimate by the Government of this year's cotton crop places it at about

the Government of this year's cotton crop places it at about 11,500,000 bales, or half a million more than some supposedly reliable private estimates. This is, however, with one or two exceptions the smallest yield since 1910.

Saturday's bank statement showed a surplus reserve of over \$73,000,000, a large addition to that of the previous week, and again large amounts of gold have been received for foreign credit. The logical result is an easier money market and the probability that sufficient funds will be available for all legitimate year-end demands.

Foreign Exchange.—Sterling exchange improved fractionally during the week, though being such an arbitrary market at the present time there is not the same latitude for advances as shown in the exchanges of the Central Powers. Marks advanced to 74 for demand bills, while Austrian kronen reached 13.30.

Today's (Friday's) extual rates for sterling exchange were 4.7146.04.73.

Marks advanced to 74 for demand bills, while Austrian kronen reached 13.30.

To-day's (Friday's) actual rates for sterling exchange were 4.71% 4.72 for sixty days, 4.75% 64.75% for cheques and 4.7645 4.76% for cables. Commercial on banks, sight, 4.75½ 4.75 9-16, sixty days 4.71 4.71½, ninety days 4.68% 4.69 and documents for payment (sixty days) 4.71 4.71½.

Cotton for payment 4.75½ 4.75 9-16 and grain for payment 4.75½ 4.75 9-16 and grain for payment 4.75½ 4.75 9-16.

To-day's (Friday's) actual rates for Paris bankers' francs were 5.88½ 6.589 for long and 5.84 5.84 ½ for short. Germany bankers' marks were 73 6.74 for short, nominal for long and nominal for short. Amsterdam bankers' guilders were 40.11-16 for short.

Exchange at Paris on London, 27.81½ francs; week's range, 27.81½ francs high and also 27.81½ francs low. Exchange at Berlin on London not quotable.

The range for foreign exchange for the week follows:

Sterling, Actual — Sixty Days.

Cheques.

Cables.

High for the week. — 4.71½ 4.75.7-16 4.76.7-16

Paris Bankers' Francs—

High for the week. — 5.88½ 5.83¼ 5.82½

Low for the week. — 5.90 5.85½ 5.83½ 5.84½

Low for the week. — 6.5 1.66 6.513-16

Amsterdam Bankers' Guilders—

High for the week. — 40.94 40.15-16

Low for the week. — 40.94 40.13-16 40.%

Domestic Exchange. — Chicago, 5c. per \$1,000 discount. Boston, par. St. Louis, 15c. per \$1,000 discount bid and 10c. asked. San Francisco.

Domestic Exchange.—Chicago, 5c. per \$1,000 discount. Boston, par. St. Louis, 15c. per \$1,000 discount bid and 10c. asked. San Francisco, 10c. per \$1,000 premium. Montreal, .625c. per \$1,000 premium. Minneapolis, 30c. per \$1,000 premium. Cincinnati, par.

State and Railroad Bonds.—Sales of State bonds at the

Board are limited to \$56,000 Va. 6s tr. co. rects. at 57 to 59.

For reasons mentioned above and in sympathy with other security markets, railroad and industrial bonds have been decidedly weak. American Smelters Securities 6s dropped from 116 to 107¾, and Atchison Topeka & Santa Fe gen. 4s fell away slightly. Chile Copper 7s, always spectacular, lost 7¾ points, the final figure being 129½. Lackawanna Steel 5s, 1950, declined from 103¾ to 98, while St. Louis & San Francisco adj. 6s fell away from 81¾ to 79 and losses of one or more points were common. From a list of 25 most active issues only two, Bal. & Ohio g. 4s and ref. 5s, advanced. active issues only two, Bal. & Ohio g. 4s and ref. 5s, advanced.

The issues of foreign governments, such as Anglo-French 5s, American Foreign Securities 5s, Great Britain and Ireland 5s and the various Dominion of Canada issues, have been very active. Sales of State and United States Government bonds have been small, with New York City securities in demand.

No sales of bonds were reported on an s-20-f basis this week. United States Bonds .- Sales of Government bonds at the Board this week include \$15,000 Panama 3s, coup., at 102%, and \$3,000 4s, coup., at 111. For to-day's prices of all the different issues and for the week's range see third page

Railroad and Miscellaneous Stocks.—The inevitable, a formal proposal of peace in Europe, took the security markets by surprise early this week. The liquidation of industrial shares, following this news, carried values down six to ten or more points throughout the list, some of the high-priced issues losing as much as 35 points. Railway stocks, although

issues losing as much as 35 points. Railway stocks, although little dealt in, declined in sympathy.

American Can fell from 62½ to 49, American Locomotive from 93¼ to 78, while United States Industrial Alcohol lost 23 points for the week, the final quotation being 113½. The various steel issues fell away sharply, United States Steel reaching 109⅓ as a low figure. American Writing Paper pref., reversing its movement noted for several weeks past, fell from 64¼ to 43. The Copper issues were also weak and the high, low and last prices for Anaconda Copper. weak and the high, low and last prices for Anaconda Copper, Baldwin Locomotive, Colorado Fuel & Iron, Lackawanna Steel and Mexican Petroleum were 98, 83 \%, 86 \%; 81 \%, 65, 67 \%; 56 \%, 44 \%, 46 \%; 104 \%, 84 ex div., 88, and 108 \%, 96, 98. Among the railroad issues declines of from \% to 5 points were common. Norfolk & Western, Reading, Atchison Topeka & Santa Fe and Lehigh being among the most

prominent. New York, New Haven & Hartford fell away from 57 ½ to 51 ½ and Canadian Pacific from 167 to 165 ¼.

The volume of business on Thursday reached 2,450,296 shares, the largest day's trading since March 1907.

For daily volume of business see page 2233.

The following sales have occurred this week of shares not represented in our detailed list on the pages which follow:

Outside Securities.—Prices of securities on the Broad Street "curb" have declined, as has been the case in other security markets. Actna Explosives fell from 9½ to 6½ and Butterworth-Judson lost 10¾ points for the week. Carwen Steel and Central Foundry lost 4½ and 5½ points, respectively, the last prices being 12½ and 23½. General Motors w. i. fell from 151 to 117, while the high, low and last figures for Haskell & Barker Car Co., Marlin Arms, Midvale Steel, Submarine Boat and United Motors were 44-39¼-41, 59-42-43, 69-57¾-58¾, 38-24-29½ and 60½-45-46½. Standard Oil subsidiaries were active during the first part of the week, but few sales were noted the last two days. Prairie the week, but few sales were noted the last two days. Prairie Pipe Line moved between 345 and 352. South Penn Oil covered a range of 40 points, the high mark being 620 and, Standard Oil of New York fluctuated between 250 and 285; other oil issues, most of which sell at "cents per share," active.

Among the bonds sold at the curb were \$1,900,000 American and the sold at the curb were \$1,900,000 American active.

can Tel. & Tel. new 5s at 99 and 993%; \$195,000 French Municipal 6s at 96½ to 96½; \$1,240,000 Sinclair Oil 6s at 111 to 122, and \$1,265,000 Great Britain & Ireland 3 and 5-year bonds at 98-9734 and 9836-9736, respectively.

A complete record of "curb" transactions for the week will be found on page 2233

be found on page 2233.

-The December issue of "Development," the little journal published by Day & Zimmerman, engineers, 611 Chestnut St., Philadelphia, is

Investment and Kailroad Intelligence.

RAILROAD GROSS EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from July 1 to and including the latest week or month. We add a supplementary statement to show the fiscal year totals of those roads whose fiscal year does not begin with July, but covers some other period. The returns of the electric railways are brought together separately on a subsequent page.

Net Earnings Monthly to Latest Dates.—In our "Railway Earnings" Section or Supplement, which accompanies to-day's issue of the "Chronicle," we give the Oct. figures of earnings of all steam railroads which make it a practice to issue monthly returns or are required to do so by the Inter-State Commerce Commission. The reader is referred to that Supplement for full details regarding the Oct. results for all the separate companies.

separate companies.

In the following we give all statements that have come in the present week covering a later or a different period from that to which the issue of the "Railway Earnings" Section is devoted. We also add the returns of the industrial companies received this week.

ANNUAL REPORTS

Annual Reports.—An index to annual reports of steam railroads, street railways and miscellaneous companies which have been published during the preceding month will be given on the last Saturday of each month. This index will not include reports in the issue of the "Chronicle" in which it is published. The latest index will be found in the issue of Nov. 25. The next will appear in that of Dec. 30.

The Cuban-American Sugar Co., New York.

(Report for Fiscal Year ending Sept. 30 1916.)

The report will be found at length on a subsequent page including the remarks of President Hawley, the consolidated balance sheet and consolidated profit and loss account.

During the year the company paid the regular 7% (quarterly) on the preferred stock, and 10% (quarterly) on the common stock; also an extra cash dividend of 10% on the common stock, and a common stock dividend of 40% (payable in stock), both paid Oct. 2 1916 (V. 103, p. 667.) ANNITAL DEPORT

Julius Kayser & Co. (Glove Mfrs.), New York.

(Report for Eight Months ending Aug. 31 1916.)

Pres. Julius Kayser, N. Y., Sept. 1 wrote in substance:

At the meeting held July 21 the directors decided to change the company's fiscal year so that it shall run from Sept. 1 to Aug. 31.

The net operating profit, after the regular deduction for depreciation, amounted to \$1,467,658. The result of the operations for the 8 months in 1916 shows a very healthy growth over the corresponding period in 1915. There were purchased and canceled during the 8 months, 1,387 shares first preferred 7% stock at a cost of \$159,508, the amount prescribed for such period being \$100,000.

GENERAL INVESTMENT NEWS

RAILROADS, INCLUDING ELECTRIC ROADS.

Algoma Central & Hudson Bay Ry.—Trust Deed.—
This company has filed supplemental deeds of trust dated Oct. 1 1916, affecting the 1st Mtge. of 1910 and the 2nd Mtge. of 1914, as proposed by the plan of reorganization.—V. 103, p. 2078, 238.

Ashland (Wis.) Light, Power & St. Ry.—Bonds Offered. P. W. Brooks & Co. are offering an additional amount of 1st Mtge. 5% gold bonds of this company, making \$761,000 outstanding.—V. 103, p.1887.

Atlantic Coast Line RR .- Bonds Listed .-

The New York Stock Exchange has isted \$3,000,000 additional General Unified Mtge., Series A, $4\frac{1}{2}$ % bonds, due 1964, making the total amount listed \$17,667,000.—V. 103, p. 1980, 1992.

Bay State Street Ry., Boston.-Notes .-

The Mass. P. U. Commission has authorized the company to issue for new construction, rolling stock, &c., \$2,500,000 6% coupon notes, due \$357,000 annually on Dec. 1 1917 to 1922, and \$358,000 Dec. 1 1923. —V. 103, p. 2155, 1209.

Bingham Central Ry.—Reorganization.— See Ohio Copper Mining Co. under "Industrials" below.—V. 98, p. 1607,

Boise & Arrowrock RR.—Sale.—The Department of the Interior, Washington, D. C., gives notice by advertisement on another page that this company's property will be sold at auction at Boise, Idaho, on Jan. 2.

The road extends from Barberton, Idaho, on the Oregon Short Line RR. to a junction with the Intermountain Ry, near Moore's Creek, Idaho, about 11.75 miles. Track material has been distributed for an extension from the aforesaid junction to the Arrowrock Dam, Idaho, about 5.25 miles. The equipment consists of two locomotives, one passenger and baggage car, two flat cars and 26 gondola dump cars. This property, it is understood, is appraised at about \$153,140.

Bristol (Va.) Traction Co.—Receivers Appointed.—
Fred Dulaney and Joe A. Caldwell were on Dec. 9 appointed receivers of the property on complaint of the bondholders, as a result of the company's failure to meet interest on bonds aggregating about \$163,500.

A press dispatch from Bristol says: There recently has been friction between the traction company and the authorities of Bristol, Va., and the company some weeks ago served notice of its purpose to abandon its Virginia lines unless certain measures of relief were offered. "We will not operate further," said the management, "unless the city complies with the franchise agreements."—V. 93, p. 1323.

Carolina Power & Light Co.—Initial Dividend.—
An initial dividend of ½ of 1% has been declared on the common stock, payable Feb. 1 to holders of record Jan. 16. The regular quarterly 1½% on the pref. stock has also been declared, payable Jan. 2 to holders of record Dec. 16.—V. 102, p. 1058.

Chicago & North Western Ry.—New Stock-Official Announcement.—At a meeting of the directors on Dec. 12 resolutions were adopted providing that necessary action be taken to procure from the various State commissions having jurisdiction in the matter authority for a 10% increase of the outstanding capital stock, amounting to the sum of \$15,-250,950, and providing that upon such authority for a 10% increase of the outstanding capital stock, amounting to the sum of \$15,-250,950, and providing that upon such authority for a 10% increase of the outstanding capital stock, amounting to the sum of \$15,-250,950, and providing that upon such authority for a 10% increase of the outstanding capital stock, amounting to the sum of \$15,-250,950, and providing that upon such authority for a 10% increase of the outstanding capital stock, amounting to the sum of \$15,-250,950, and providing that upon such authority for a 10% increase of the outstanding capital stock, amounting to the sum of \$15,-250,950, and providing that upon such authority for a 10% increase of the outstanding capital stock, amounting to the sum of \$15,-250,950, and providing that upon such authority for a 10% increase of the outstanding capital stock, amounting to the sum of \$15,-250,950, and providing that upon such authority for a 10% increase of the outstanding capital stock, amounting to the sum of \$15,-250,950, and providing that upon such authority for a 10% increase of the outstanding capital stock, amounting to the sum of \$15,-250,950, and providing that upon such authority for a 10% increase of the outstanding capital stock, amounting the sum of \$15,-250,950, and providing that upon such authority for a 10% increase of the outstanding capital stock, amounting the sum of \$15,-250,950, and providing that upon such authority for a 10% increase of the outstanding capital stock, amounting the sum of \$15,-250,950, and providing that upon such authority for a 10% increase of the outstanding capital stock, amounting the sum of \$15,-250,950, and providing that upon such authority for a 10% increase of the outstanding capital stock, and the

Chicago Rapid Transit Co.—Commission's Plan for Extensive Transit System.—The City Commission, consisting

Chicago Rapid Transit Co.—Commission's Plan for Extensive Transit System.—The City Commission, consisting of William Barclay Parsons, Robert Ridgway and Bion J. Arnold, has prepared a plan, which as reported by the Chicago "Tribune" provides in substance:

1. Unified operation under one management (a company to be called the "Chicago Rapid Transit Co." or some similar title) of all of Chicago's local transportation facilities—surface lines, elevated lines and subways.

2. The control of the unified traction system to be vested in the City Council, but giving to a board of supervision and control the broadest possible powers as to improvement and regulation of service, development of the property, extension of facilities and other administrative matters.

At initial nine-year construction program which will increase the rapid trans, and 5.1 miles for surface cars; 64.5 single-track miles of double-track subway, of which six miles are for rapid transit (use by elevated; 150 miles of new surface lines, and 111 miles of rehabilitated surface lines.

4. A general plan, including this immediate construction program and being the logical development of the same, but without definite recommendation as to the order of construction, involving a total expenditure obtains to surface are; surface lines, 525 miles.

5. Existing companies, controlling both surface and elevated lines, to surrender their present franchises and receive in lieu thereof a franchise to the new corporation, terminable at any time by purchase by the city, by amortization, or by forfeiture if the corporation falls to comply with the provisions of the ordinance.

5. Existing companies, controlling both surface and elevated lines, to surrender their present franchises and receive in lieu thereof a franchise to the new corporation, terminable at any time by purchase by the city, by amortization, or by forfeiture if the corporation falls to comply with the provisions of the ordinance.

5. Existing companies, controlling both surface and elevated lines, to

Chicago Rock Island & Pacific Ry.—Deposits.—Up to Wednesday night 437,884 shares of Rock Island stock, or 58.7% of the total amount, and \$15,438,000, or over 75%, of the \$20,000,000 debentures had been deposited under plan. The N. Y. Stock Exchange has been asked to list the certificates of deposit for the stock. The debenture certificates are already on the list.

Mortgage Status.-The following published statement

The reorganization will be carried through without any change in the status of the Refunding mortgage. The proposal that a new open mortgage be authorized and an issue of $4\frac{1}{2}\%$ bonds be exchanged for the outstanding

Refunding 4s has been passed by. The differences between the two parties on that question were not eliminated, and the proposal has been dropped. Final action by the Refunding committee in regard to the plan will be determined at a meeting next week. Unofficially it may be stated that an understanding has been reached by which the petition of the refunding committee for foreclosure of that mortgage will not be pressed.

On the part of this committee the feeling is that while a more scientific readjustment plan might have been worked out, the position of the Refunding 4s is not jeopardized, since \$30,000,000 new money is being raised, but rather their position is that much better. Doubtless there is appreciation of the fact that with earnings such as they are, it is extremely uncertain that any court would sustain the foreclosure petition, especially since there has been no interest default so far as these bonds are concerned.

The only change in the bonded debt will be the transposition of the \$20,000,000 debentures to an equal amount of 6% preferred stock, but the balance sheet will show further the elimination of several millions of floating debt, while to the capital liabilities will be added \$30,000,000,7% preferred stock. Otherwise the financial structure will remain unchanged.—V.103, p. 2155, 2078.

Cities Service Co.—Stock Sold.—

Cities Service Co.—Stock Sold.—
The syndicate which recently underwrote this company's offering of \$8,000,000 6% pref. stock announces that the entire block has been sold.—V. 103, p. 2078, 1592, 1412.

Dallas Electric Corporation.—Plan Advanced.—
The "straw vote" of the poll taxpayers in Dallas having showed 9,896 in favor, and only 578 opposed to the proposed separate lighting and traction franchises, it has been decided to refer the matter to the voters of Dallas at a regular city election, to be held probably about April 1.

The franchises contemplate the elimination of the Dallas Electric Corporation and the transfer of its electric railway properties at a valuation of \$4,100,000, to a new Texas corporation to be headed by Charles W. Hobson. This new company would also take a lease of the Oak Cliff property and, along with numerous improvements, would undertake to build two interpurban extensions aggregating 30 miles. The lighting properties of the Dallas Electric Corporation would pass at a valuation of \$4,400,000 to a new Texas lighting company, in which J. F. Strickland would be actively interested. Lower lighting rates are proposed, also street car tickets at the rate of 22 for a dollar at oneo, and six for 25cts, whenever the earnings are 8% on the investment. Compare V. 102, p. 1896.

Denver Laramie & Northwestern RR.—Sale Postponed.

Denver Laramie & Northwestern RR.—Sale Postponed.
The foreclosure sale has again been adjourned until Jan. 24. There were no bidders at the proposed sale Nov. 20.—V. 101, p. 773.

Empire United Rys., Inc.—Payment on Notes.—
Holders of the 1-year 6% guaranteed gold notes issued under the indenture of Feb. 16 1915 with the Bankers Trust Co., N. Y., as trustee, are called upon by the trustee to present their notes for endorsement and to receive a further \$65.867 per \$1,000 of notes from funds received from certain of the guarantors. Compare V. 103, p. 1210, 1118.

Fitchburg & Leominster St. Ry.—Bonds.—
The Mass. P. S. Commission has been asked to sanction the issue of an additional \$150,000 4½% bonds of 1901, due Feb. 1 1921, to refund \$150,000 1800 1800. This will make \$300,000 of the 4½ soutstanding; total \$350,000.—V. 87, p. 812.

Gulf Mobile & Northern RR.—Successor Co.— See New Orleans Mobile & Chicago RR. below.—V. 101, p. 2071. Intermountain Ry., Light & Power Co.—Earnings.-

Interstate Rys. of Phila.—New Tripartite Agreement Proposed.—President John A. Rigg in a circular letter on

Proposed.—President John A. Rigg in a circular letter on Dec. 11 says in substance:

There was malled to-day by The Real Estate Title Insurance & Trust Co. of Phila., trustee, to the holders of United Rallways 4% gold trust certificates and Interstate Rallway Co. 4% collateral trust gold bonds, a circular letter notifying such holders of a proceeding in equity to have the tripartite agreement of Dec. 20 1902 declared terminated and ended and of the right of such holders to intervene in the equity suit and defend the same, enclosed being copies of the bill in equity and of the answers of Interstate Rallways Co. and said Trust Co.

The bill was filed more than six years ago, and was a part of the refinancing of Interstate Rallways Co., but because of the rehabilitation of the company by issuing preferred stock it was not pressed to a conclusion at that time.

United Power & Transportation Co., believing that a more flexible tripartite agreement would avoid a recurrence of the difficulties encountered by Interstate Rallways in 1908 and 1909, but being confronted by the unwillingness of the trustees (said Trust Co.) to declare the existing tripartite agreement should be removed.

This result, it believes, can be accomplished by showing the court that the Interstate Rallways Co. has not complied with its part of the tripartite agreement and for this reason the agreement should be declared void. It is proposed to follow the entering of the decree which the bill prays for with another tripartite agreement whereby the same securities which are now in the hands of the trustee will again be deposited for the benefit and security of the holders of United Rallways 4s and Interstate 4s, with, however, more flexibility and with the right to substitute other securities which are now in the hands of the trustee will again be deposited for the benefit and security of the holders of United Rallways 4s and Interstate 4s, with, however, more flexibility and with the right osubstitute other securities by loth are now in the hands o

The bonds are dated June 1 1911, due June 1 1946, but callable, in whole but not in part, on any interest date at 105 and int. on 60 days' notice. Int. J. & D. at the Guaranty Trust Co. of N. Y., trustee. Denom. \$1,000, \$500 c*. Normal Federal income tax paid by co. Tax refund in Penna.

Data from Letter of Pres. C. H. Harvey, Knoxville, as of Jan. 2 1917.

Organization.—Incorporated Aug. 5 1905 as a consolidation. Owns and operates all the street railways in Knoxville, with 55 miles of track. Does the municipal and commercial electric-light business of that city and adjacent territory, serving a population of about 85,000. Property substantially reconstructed since 1903. All franchises unlimited in time except on 1½ miles of unimportant track.

Capitalization.—

Ownership & Management.—Controlled through stock ownership by the American Cities Co., which in turn is controlled by the United Gas & Electric Corp. (The company has elected to redeem (a) its \$325,000 outstanding 2-year 6% collateral notes on Jan. 3 1917 at 100½% at the New York Trust Co., N. Y.; (b) all the outstanding consolidated mtgs. 5s (Nos. 1 to 926 incl. and 1751 to 3000 incl.) on March 1 at 107½ at the Guaranty Trust Co., N. Y.] See previous offering, V. 88, p. 405; V. 102, p. 1163.

Massachusetts Electric Cos.—Status.—Sub. Co. Notes.— See State Street Ry. of Boston above.—V. 103, p. 1301.

Massachusetts Northeastern Ry.—Bonds.—
The Mass. P. S. Commission has authorized the company to issue \$100,-000 20-year 5% bonds on account of improvements.—V. 103, p. 2078.

Minneapolis St. Paul & Sault Ste. Marie Ry.—Notes.—A press report states that the Michigan RR. Commission has sanctioned the issue of \$1,500,000 $4\frac{1}{2}\%$ short-term notes for the purpose of buying equipment needed to handle larger shipments of copper and iron ore.—V. 103, p. 1981, 1888.

Missouri Kansas & Eastern Ry.—Deposits.—

The protective committee, John W. Stedman, Chairman, now represents more than a majority of the outstanding 1st M. 5s of 1892 and has accordingly decided that after Jan. 20 1917 no deposits of bonds will be received except on such terms and conditions as it shall prescribe. Depositaries, Columbia Trust Co., N. Y.; Connecticut Trust & Safe Deposit Co. of Hartford, sub-depositary, Hartford, Conn. Bonds must be accompanied by coupons maturing Oct. 1 1916. (See M. K. & T., V. 103, p. 1210.) Compare V. 102, p. 886.

Missouri Kansas & Texas Ry.—Deposits.— See Missouri Kansas & Eastern Ry. above.—V. 103, p. 2079, 1981.

New Orleans Mobile & Chicago RR.—Plan Approved.—
A press dispatch from Jackson, Miss., on Dec. 6 says: The Mississippi RR. Commission to-day approved the consolidation of the three charters secured in the States of Mississippi, Alabama and Tennessee of the New Orleans Mobile & Chicago RR., and the reorganization under which it becomes the Gulf Mobile & Northern RR. The "Chronicle" understands that the new company will take possession of the property on or about Jan. 1.—V. 103, p. 1687, 1119.

New Orleans Ry. & Light Co.—Earns. Div.—Bertron, Griscom & Co. report for the 9 months ending Sept. 30:

9 Mos. end. Gross Net (after Misc. Bd., &c., Renew. & Balance, Sept. 30. Earnings. Tazes.) Deduc'ns. Interest. Replace'ts. Surplus. 1916 ----\$5.327.217 \$2.045.299 \$52.786 \$1.364.704 \$174.822 \$452.987 1915 ----\$5.147.362 \$1.959.582 29.574 \$1.309.756 103.315 516.937 The above surplus (\$452.987) for 9 mos. ending Sept. 30 1916 is stated before deducting the monthly charge of \$16.667 for additional reserve for repairs, maintenance and renewals and replacements, beginning June 1 1916 and ending June 1 1918.

A dividend of 1/2 of 1/8 has been declared on the \$20,000,000 common stock, along with the reguiar 11/2 % on the pref. stock, both payable Dec. 30 to holders of record Dec. 21. In Dec. 1915 1/2 of 1/8 was paid on the common stock.—V. 103, p. 939.

New Orleans Texas & Mexico Ry.—Securities Listed.— The New York Stock Exchange has listed the following new securities with authority to add to the list further amounts as shown below when duly issued, making the total amounts to be listed as here indicated:

Security— Listed. Additional. First mtge. 6% bonds, due 1925____\$4,857,000 \$1,143,000 \$Non-cum. 5% income bonds, Ser. A. 10,218,000 4,940,000 \$Voting trust certs. for capital stock_12,078,800 2,919,700 See annual report and bond offering in V. 103, p. 2156, 1787,

New York Chicago & St. Louis RR.—Dividend Resumed.

—A dividend of $2\frac{1}{2}\%$ has been declared on the \$11,000,000

2d pref. stock, payable Jan. 2 to holders of record Dec. 21.

This is the first payment on this stock since Mar. 1914, when a like amount was paid. A dividend of 5% was declared on the 1st pref. stock, payable $2\frac{1}{2}\%$ Jan. 2 to holders of record Dec. 21, and $2\frac{1}{2}\%$ on July 2. In March 1916 a dividend of 5% was paid on the 1st pref. (See Nickel Plate Securities Corp. below.)—V. 103, p. 2156, 2079.

New York Connecting RR.—Guaranteed Bonds Listed.—
The New York Stock Exchange has listed \$8,000,000 additional guaranteed 4½% First Mtge. bonds, Series A, making the total amount listed \$24,000,000. These bonds are guaranteed, p. & 1., by the Penna. RR. and the N. Y. N. H. & Hartford RR., and are issued to reimburse the company for general expenses of construction, &c.—V. 103, p. 407.

New York State Railways.—Dividend Decreased.—
A dividend of 1% has been declared on the \$19,952,400 common stock, payable Jan. 2 to holders of record Dec. 22. In Oct. last 14% was paid on the common. The regular quarterly 14% on the pref. was also declared payable the same date.—V. 103, p. 1032.

Nickel Plate Securities Corporation.—Successor Co.—
The Cleveland "Plain Dealer" on Dec. 13, (confirming our item of last week), says: "The Nickel Plate Securities Corp. has been formed in Delaware as a holding company for the interest of the syndicate that recently purchased control of the New York Chicago & St. Louis RR. Co. No change in management is contemplated. The corporation has a capital of \$15,000,000—\$12,500,000 common and \$2,500,000 first preferred. The new company's directors are O. P. Van Sweringen, M. J. Van Sweringen, J. R. Nutt, C. L. Bradley, F. H. Ginn, C. W. Fuller, all of Cleveland, and F. E. Myers of Ashland, O."
See New York Chicago & St. Louis RR. above.—V. 103, p. 2156.

Northern Ohio Electric Corp.—Sub. Co. New Stock.—The Northern Ohio Traction & Light Co., the operating subsidiary of the Northern Ohio Electric Corp., has applied to the Ohio P. U. Commission for authority to issue \$1,000,000 common stock at par, the proceeds to be used for construction work and extension. This stock will be taken by the Northern Ohio Elec. Corp., when, as and if issued.—V. 103, p. 1981.

Northern Securities Co.—Dividend—New President.—
A dividend of 3½% has been declared on the \$3.954,000 stock, payable Jan. 10 to holders of record Dec. 30. Since 1913 2% per annum has been paid each January.

E. T. Nichols has been elected President to fill the vacancy.—V. 102, p. 251.

Ocean Shore RR., San Francisco, Cal.—Assessment.—An assessment of \$3 per share has been levied on the stock delinquent Jan. 5, sale day Feb. 16.—V. 102, p. 67.

Ohio & Kentucky Ry.—Receiver Dismissed.—
This road having passed out of the hands of receiver M. L. Conley, L. P. This road having passed out of the hands of receiver M. L. Yandell of N. Y. has been elected President.—V. 98, p. 1695.

Pennsylvania RR.—Subsidiary Company Dividend.—See Phila. Balt. & Wash. RR. below.—V. 103, p. 1033, 844.

Pere Marquette RR.—Plan Approved.—
The Michigan Railroad Commission on Dec. 9 approved the plan of reorganization dated Oct. 30 1916. See V. 103, p. 1687, 1880, 2156.

Philadelphia Baltimore & Washington Ry.—Dividend Increased.—A semi-annual dividend of 4% has been

declared on the \$26,438,000 stock (of which on Oct. 1 1916 the Penn. RR. owned \$25,435,475), payable Dec. 30 to holders of record Dec. 13. Dividends of 2% semi-annually (4% p. a.) have been declared on the stock since the company's consolidation in 1902.—V. 103, p. 1033, 407.

Pittsburgh & West Virginia Ry.—Stock Increase.— This proposed successor of the Wabash-Pittsburgh Terminal Ry. has increased its authorized capital stock to \$39,600,000. See plan on p. 132, "Railway & Industrial Section."

The following officers have been elected: President, Park J. Alexander; Vice-President, W. G. Lowe; Secretary, F. J. Brunner; Treasurer, G. V. Early, all of Pittsburgh. Pending, however, the settlement of certain legal matters, the new company, we are informed, will not take possession of the property.—V. 103, p. 2157, 2080.

Public Service Corp. of N. J.—Capital Stock Listed.—
The New York Stock Exchange has authorized the listing on and after Jan. 1 1917 of the \$5,000,000 additional capital stock offered at par to shareholders of Oct. 2, making the total amount authorized to be listed \$30,000,000. See V. 103. p. 1593, 1211, 1119.

Quakertown & Bethlehem RR.—Successor Co.-See Quakertown & Delaware River RR. below.

Quakertown & Delaware River RR.—Reorganization. This company, recently sold under foreclosure sale, has been reorganized the Quakertown & Bethlehem RR. and is now operating as a freight

St. Louis Rocky Mountain & Pacific Co.—Div. Inc.—A dividend of 1% has been declared on the \$10,000,000 common stock, yable Jan. 10 to holders of record Dec. 30. In 1916 ½ of 1% was paid larterly.—V. 101, p. 1186.

Salt Lake Garfield & Western Ry.—New Name.— See Salt Lake & Los Angeles Ry. below.

Salt Lake & Los Angeles Ry.—New Name.—
On Oct. 28 1916 the name of this 15-mile road was changed to the Salt Lake Garfield & Western Ry.—V. 83, p. 1472; V. 65, p. 824.

Southern Pacific Co.—Bonus to Employees.—
The company has authorized the payment of a 10% bonus to all employees not affiliated with the brotherhoods, 5% payable Jan. 1 1917 and 5% on July 1 1917.—V. 103, p. 2157, 1217.

Tennessee Central RR.—Foreclosure Sale.—This property is advertised for sale at Nashville, Tenn., on Feb. 15 1917. Upset price, \$1,350,000.—V. 103, p. 1413, 1119.

Texas & Pacific RR.—Attachment Vacated.—
Supreme Court Justice Shearn in N. Y. City on Dec. 14 vacated the attachment for \$1.741,000 obtained Jan. 4 1916 by the trustees of the Jay Gould estate against the company, being the amount due on 35 notes made to the order of the St. Louis Iron Mountain & Southern Ry. on Mar. 1 1914 and assigned to the Gould estate in Aug. 1915 (V. 102, p. 154). Justice Shearn ruled that since the road has a Federal charter and holds its directors' meetings in New York, it must be regarded as a domestic corporation, notwithstanding its traffic is all outside the State. V. 103, p. 1688, 1505.

Toledo St. Louis & Western RR.—85% Deposited—Penalty After Jan. 9.—More than 85% of the outstanding stock (both preferred and common) having been deposited with the stockholders' protective committee, holders who have not already deposited their stock with the Empire Trust Co., N. Y. City, under agreement of Dec. 15 1914 are notified that they may deposit to and incl. Lan. Owithout resolutions.

fied that they may deposit to and incl. Jan. 9 without penalty.

No deposits will be accepted after Jan. 9, except on payment
of \$2 per share for each share and on such terms as the committee may determine, with the right to refuse any deposits. V. 103, p. 1594, 1589.

United Power & Transportation Co., Phila.—Circular. See Interstate Rallways above.—V. 102, p. 523.

United Railways of St. Louis.—Proxies Sought by Preferred Stockholders' Committee.—The committee named below representing a large amount of the preferred stock, has organized "for the purpose of investigating various matters vitally affecting the interests of this stock" and is asking for proxies to enable it to vote at the next annual meeting of the stockholders in February for the election of directors and to represent the pref. stockholders in connection with its investigation of the company's affairs. The matters which it is proposed to investigate are such as—

(a) The possibility of securing some payment on account of the accrued

which it is proposed to investigate are such as—

(a) The possibility of securing some payment on account of the accrued dividends now over 30%;

(b) Suitable representation of the pref. stockholders on the board;

(c) Whether the amounts expended in connection with claims for personal injuries are excessive;

(d) The 'imili-per-passenger tax' and the possibility of securing its reduction or adjustment

(e) The power contracts, and whether the cost of its power is reasonable;

(f) The legality and duration of the franchises, and the possibility of their reasonable extension;

(g) The possible readjustment of the company's capitalization, in view of the necessity of providing for (1) the payment of the large amount of underlying bonds maturing during the next few years (to meet which the company is apparently without available means); and (2) the future financing of the company's requirements.

Inquiry into some of these matters has already been begun. As progress is made, from time to time, it is intended to inform the preferred stockholders who co-operate. For the present, at least, the committee will pay its own expenses.

Committee—L. H. McHenry, Chairman, United States Trust Bldg., Louisville, Ky., J. A. Cheek, Danville; George E. Dieckman, 317 North Fourth St., St. Louis; J. B. Downing Jr., Middleport, Ohio; and H. P. Wilson, 50 Broad St., N. Y., with A. J. Scharf, as Secretary, United States Trust Bldg., Louisville, Ky.—V. 103, p. 2080, 839.

Virginian Railway.—Director.—

Virginian Railway.—Director.—
C. W. Huntington was on Dec. 11 elected a member and Chairman of the board of directors, to succeed C. W. Hotchkiss, deceased.—V. 103, p. 1880, 1785.

Wabash-Pittsburgh Terminal RR.—New Company.—See Pittsburgh & West Virginia RR. above.—V. 103, p. 2157.

Waycross & Western RR .- Officers .-L. S. Price, Jr., has been elected Auditor, Secretary & Treasurer.

Western Maryland Ry.—New Equipment Trusts.—
Arrangements are being made to place a new issue of approximately \$6,000,000 equipment trusts to bear date of Jan. 1 1917. The issue will be sold to banking interests as an entirety, and will cover equipment consisting of 5,000 55-ton steel hopper cars (some of which are already in use), certain passenger equipment and ten locomotives.—V. 103, p. 2156.

Western Pacific RR.—Increased Earnings.—An authoritative statement shows the increasing earnings, &c., as follows: Earnings for the Twelve Months ending Respectively on Dates Mentioned. Years ending—Oct.31'15. Jan.30'16. Apr.30'16. July31'16. Sept.30'16. Gross earnings...\$6,321,045 \$6,792,906 \$7,401,816 \$7,651,876 \$7,938,156 Net earnings....\$1,187,530 1,524,998 1,885,695 2,052,847 2,236,200 Operating ratio. \$1.2% 77.5% 75.5% 73.2% 71.8% The recent sale of 1st M. bonds and the funds now in the treasury give the company about \$19,000,000 cash for use as (1) working capital, (2) purchase of \$3,500,000 equipment, (3) \$2,500,000 for betterments, (4) the balance for construction or acquisitions of branch lines.

The company has ordered 2,000 steel box cars and 150 stock cars at a total cost of \$2,500,000, and of these cars 884 have already been delivered. The company is also constructing 100 stock cars in its own shops in Sacramento.—V. 103, p. 2156, 2080.

Wheeling & Lake Erie RR.—Successor Co.—A press report on Sept. 15 announces the incorporation at Columbus, O., of the new company, which will take over the property under the terms of the reorganization plan in V. 103, p. 1211. The name of the new company, it appears, will be closely similar to the old name.—V. 103, p. 2081, 1890.

INDUSTRIAL AND MISCELLANEOUS.

Adirondack Electric Power Corp.—Initial Dividend. An initial dividend of 1½% has been declared on the preferred stock, payable Jan. 1 to holders of record Dec. 14.—V. 101, p. 2073.

Ajax Rubber Co., Inc., N. Y.—Purchase.—New Stock.—
The stockholders will vote Dec. 26 1916 on authorizing an increase in the capital stock from \$5.000.000 (\$4,000.000 now outstanding) to \$10,000.000, the par value to remain \$50 per share. The increase will enable the company to carry out a contract for the purchase of the business and undertaking of the Racine Rubber Co. of Racine, Wis., as a going concern in exchange for shares of the capital stock of the Ajax Rubber Co., Inc.—V. 101, p. 2073.

Allis-Chalmers Mfg. Co.—Extra Dividend.—An extra dividend of 1½% has been declared on the \$16,500,000 pref. stock on account of accumulations along with the regular quarterly 1½%, payable Jan. 15 to holders of record Dec. This reduces the accumulations to 10%.-V. 103, p. 1594, 1303.

American Brake Shoe & Foundry Co.—Extra Dividend.
—An extra dividend of 2% has been declared on the \$5,000,-000 pref. stock, along with the regular quarterly 2%, both payable Dec. 30 to holders of record at 3 p. m. Dec. 22. The regular quarterly 13/4% on the common stock was also declared payable the same date.—V. 103, p. 2155, 1793.

American Gas & Electric Co.—Stock Dividend.—
An extra dividend of 2%, payable in common stock, and the regular quarterly 2½% have been declared on the \$3,864,250 common stock, both payable Jan. 2 to holders of rec. Dec. 18. Stock divis. of 2% each were paid in Jan. and July 1916, Jan. and July '15 and July '14. V. 102, p. 2344.

American Milling Co.—Dividend.—
A dividend of 7% has been declared on the stock, payable Jan. 15 to holders of record Dec. 31. Holders of Marsden Co. and the old American Milling Co. stock must deposit same to participate in the distribution.—V. 102, p. 1061.

American Rolling Mill Co.—Extra Dividend.—
An extra dividend of 1% has been declared on the common stock, along with the regular quarterly 2%, both payable Jan. 15 to holders of record the same date.—V. 103, p. 1890, 1886.

Associated Oil Co.—Tenders.—
Tenders of the First Ref. Mtge. 5% bonds will be received at the Union rust Co., San. Fran., until Jan. 15 to exhaust the sum of \$873,285, held the sinking fund.—V. 103, p. 2157, 495.

Atlantic (Ga.) Steel Co.—Earns.—11 mos. end. Nov. 30 '16.

11 Mos. to Gross Reserve for Reserve for Pref. Divs. Bal. for Nov. 30—Earnings. Interest. Replacements. (6 5-12%) Com. Divs. 1916.....\$892.337 \$58,000 \$95,000 \$48,125 \$691.212 Dividends at the annual rate of 6% are being paid on the \$1,000,000 common stock.—V. 103, p. 1120, 756.

From the present outlook the company will earn for December between \$85,000 and \$100,000. The company has pig iron for its 1917 requirements at \$15 per ton.—V. 103, p. 1890, 1509.

Austin (Tex.) Gas Light Co.—Stock Increase.—
A certificate was filed in Austin, Tex., on Dec. 2 increasing the capital stock from \$500,000 (\$250,000 pref. and \$250,000 common) to \$550,000.—V. 99, p. 1676.

(E. W.) Bliss Co.—100% Extra Dividend.—
An extra dividend of 100% has been declared on the common stock along with the regular quarterly 14% on the common and 2% on the pref. stocks, payable Dec. 23 to holders of record Dec. 15. These dividends will be paid from accumulated net earnings. An extra of 100% was also paid in July and October last.—V. 103, p. 1212, 495, 146.

Braden Copper Co.—Production.—(in lbs.) [000 omitted.] 6 Mos. to June 30— July. 1916 ---- 23,110 2,760 1915 ---- 15,238 2,890 —V. 103, p. 1414, 581. Sept. 2,970 3,222

Brier Hill Steel Co.—Extra Dividend.—Acquisition.—
An extra dividend of 2% has been declared on the common stock, along with the regular quarterly 11/2%, both payable to holders of record Dec. 20.
This company has purchased the property of the Western Reserve Steel Co. at a price reported to be about \$1,000,000.

The acquired company operates a sheet mill plant near Warren, Ohio, and also six hot mills, and has two under construction. Its original plant was completed in Fep. 1915. The Western Reserve Co. is capitalized for \$600,000 and has \$150,000 outstanding bonds. [These bonds, we are informed, are to be retired.—Ed. "Chronicle."]

The purpose of the acquisition, it is stated, was to diversify the sheet output of the Brier Hill Company, now operating 20 hot mills. The output of the Western Reserve consists of sizes and highly finished sheets. It produces about 600,000 tons a year. The purchaser will take possession Jan. 11 1917.—V. 103, p. 845, 667.

Brownton Pulp & Paper Co., Ltd.—Common Stack Sold

Brompton Pulp & Paper Co., Ltd.—Common Stock Sold.—Greenshields & Co., Montreal, and associates have sold this company's \$7,000,000 common stock, the subscription price being \$59 per share. Trustee, National Trust Co., Montreal. A circular shows:

Property, &c.—One of the largest producers in Canada of ground wood pulp, kraft pulp and kraft paper. Also manufactures newsprint paper, box board and lumber. Present annual output 30,000 tons groundwood pulp, 16,500 tons newsprint paper, 12,000 tons kraft pulp, 9,000 tons kraft and fibre paper, 10,500 tons boxboard, 15,000,000 ft. b.m. merchantaebl

lumber. Owns in fee simple 179,392 acres of freehold timber lands and controls by lease 107,477 acres of Crown lands in Quebec, adjacent to the St. Francis River. After deducting all current liabilities, bonds and new preferred shares, net assets of the new company as at Nov. 1 1916 should total not less than \$7,025,000, against \$7,000,000 common shares outstanding.

total not less than \$7,025,000, against \$7,000,000 common shares outstanding.

Earnings.—The old company's earnings for the year ending Oct. 31 1916 were about \$650,000, after deducting interest but before deducting war tax, or equal to about 5% on the new common stock. It is estimated that earnings for 1917 available for common shares, but before deducting war tax, should total \$2,000,000.

Directors.—F. N. McCrea, M.P. (Pres.), and E. W. Tobin, M. P., both of Sherbrooke, Que.; J. N. Greenshields, K.C., Pres. Wayagamack Pulp & Paper Co., and H. W. Beauclerk, both of Montreal; W. N. Munroe, Odell Paper Co., Auburn, Me., and J. A. Bothwell, Gen. Mgr., East Angus, Que.—V. 103, p. 1982.

California Packing Corporation.—Initial Dividend.—
An initial dividend of \$1 38 per share has been declared on the pref. stock (for the period from Oct. 19 to Dec. 31 at the rate of 7% per annum), payable Jan. 1 to holders of record Dec. 18.—V. 103, p. 2157, 1982.

Cleveland-Akron Bag Co.—Extra Dividend.—
An extra dividend of 1¾% has been declared on the stock along with the regular quarterly 1¾%, both payable Dec. 30 to holders of record Dec. 20.—V. 102, p. 347.

Colt Patent Fire Arms Mfg. Co.—Extra Dividend.—An extra dividend of 16% has been declared on the \$2,500,000 stock, along with the regular quarterly 4%, both payable Dec. 30 to holders of record Dec. 16. In Oct. last $12\frac{1}{2}\%$ was paid.—V. 103, p. 1034, 241.

Consolidated Gas, Electric Light & Power Co. of Baltimore.—Bonds Offered.—Alexander Brown & Sons, Brown Brothers & Co., Jackson & Curtis and Lee, Higginson & Co. are offering by adv. on another page at 93 & int., yielding about 5.10%, the unsold portion of their block of \$4,800,000 General (closed) Mortgage 4½% gold bonds of 1905, due Feb. 14 1935.

Outstanding issue, including those now offered, \$13,845,000; deposited as collateral security under Baltimore Electric Co. 5% bonds, 1947, \$1,-155,000; total authorized issue (closed mortgage), \$15,000,000.

as collateral security under Baltimore Electric Co. 5% bonds, 1947, \$1,-155,000; total authorized issue (closed mortgage), \$15,000,000.

Data from Letter by Pres. Herkert A. Wagner, Baltimore. Dec. 7.

The company does the entire gas, electric light and power business in Baltimore and vicinity, serving a population of about 700,000. All franchises are unlimited in time.

These bonds, as a first mortgage on the principal steam-electric plant of the company with capacity, installed or in process of installation, of 80,000 h. p., and is further secured by lien (subject in part to underlying securities) upon all the other electric, gas and other properties, real and personal, now owned or hereafter acquired by the company. It is the only mortgage covering the entire property. It is followed by \$3,500,000 5% convertible notes, and \$14,385,734 com. stock, now paying 7% dividends. At present market prices for the notes and stock (106 and 127, respectively) the equity behind these bonds has a value of more than \$27,000,000.

The proceeds of the [\$4,800,000 bonds now sold will be used in part to reimburse the company for the purchase and retirement of the 5% debenture stock formerly held abroad, and to provide the company with additional funds for extensions and other corporate purposes." [Some \$4,406,000 of these \$4,800,000 bonds have heretofore been pledged as part security for the debenture issue.—Ed.]

The net earnings for the fiscal year ended June 30 1916 (see report, V. 102, p. 753, 763) were substantially more than twice the fixed charges lince the consolidation in 1906, the company has shown an increase in gross earnings each and every year. In this ten-year period the gain in gross was 10°%, in net 117%, while fixed charges increased only 34%.

The P. S. Commission of Maryland has supervision of all issues of securities by this company, and has authority to fix its rates. The present maximum charges fixed by the Commission are 75 cents per 1,000 cu. ft. for gas and 8½ cts. per k. w. hour for electricity.

Continental Coal Co.—Sale Postponed.—
The foreclosure sale of this company's property which was to have taken place on Dec. 9 was postponed until Dec. 23. Upset price \$500,000.—V. 103. p. 846

Continental Zinc Co.—Dividend Reduced.—
A dividend of 50 cents per share has been declared on the stock, payable Jan. 20 to holders of record Dec. 20. In July last \$1 per share was paid.—V. 102, p. 347.

Cuban Sugar Mills Corp.—Bonds Offered.—A syndicate headed by Bertron, Griscom & Co. and Millett, Roe & Hagen are offering at 97½ and int. with 20% bonus in common stock \$1,500,000 First Mortgage 6% sinking fund gold bonds of this new enterprise incorporated in Delaware early in the year. in the year. A circular shows in brief:

in the year. A circular shows in brief:

Bonds dated Jan. 1 1917 and due Jan. 1 1932, but callable, all or part, on any int. date on 30 days' notice at 102½ and int. up to and including Jan. 1 1919; thereafter at 105 and int. Int. J. & J. in N. Y. Denom. \$1.000 and \$500 c*. Trustee, The Trust Co. of Cuba, Havana. Exempt from normal Federal income tax. Sinking fund \$75,000 annually and no dividend can be paid on the common shares un il \$750,000 bonds shall have been retired, and then only 5% until this entire issue has been paid. Capitalization Authorized and Outstanding.—First M. 15-year 6s, \$1,500,-000; cumulative 6% pref. stock (non-voting), \$600,000; common stock (par value \$100), \$3,000,000.

The company owns over 36,000 acres of virgin sugar land in the Province of Pinar del Rio, Cuba, in the centre of which tract a modern sugar mill is being erected, to be completed (under forfeiture) by April 1 1917. This mill will have a guaranteed capacity of 1,500 tons of cane or a little over 1,000 bags of sugar per day. Estimated net earnings \$440,000 on basis of an output of 120,000 bags and with sugar at 2½ cents.

Directors.—Murray W. Dodge, Bertron, Griscom & Co., N. Y., A. Hagen Millett, Roe & Hagen, N. Y., O. A. Hornsby (V.-Pres.), Trust Co*of Cuba, Havana; G. H. Saylor, Chase National Bank, N. Y., Jerre J. Warren (Pres.)

Cudahy Packing Co., Chicago.—Bonds Sold.—The company has sold to Lee, Higginson & Co., bankers, an issue of \$9,000,000 30-year 1st M. 5% sinking fund bonds. A public offering will be made next week.

See annual report in V. 103, p. 2075.

Detroit Edison Co.

Detroit Edison Co.—New Capital Stock.— The company is said to have under consideration a plan to increase authorized capital stock from \$25,000,000 to \$35,000,000, the stockholders to be given the right to subscribe for a part of the new stock to the extent of 10% or more of present holdings.

Additional Bonds Offered.—The bankers named below are offering at 101½ and int. a block of \$1,500,000 5% First & Refunding Mtge. gold bonds, due July 1 1940, making the amount now outstanding \$7,000,000. Int.M&S.

The bankers making the offering are: Coffin & Burr, Inc., Spencer Trask & Co., Harris, Forbes & Co. and the Harris Trust & Savings Bank. Their circular reports:

The company does the entire commercial electric lighting and industrial power business of the city of Detroit and of an extensive adjacent territory in Michigan, serving a total population estimated to exceed \$50,000. The company also does a large steam heating business in the city. The replacement value of the mortgaged property is conservatively estimated to be approximately twice the par value of all mortgage bonds outstanding, including this issue. On the basis of present market values, the junior securities represent an equity over mtge. debt of more than \$32,000,000.

 ceurities represent an equity over mtge. debt of more than \$32,000,000

General American Tank Car Corp.—Equipment Trust Certificates.—Drexel & Co. are offering an issue of \$1,200,000 5% Equipment Trust Certificates, Series 1, dated Nov. 1 1916. The bankers report:

Nov. 1 1916. The bankers report:

Dividends are payable M. & N. at the Philadelphia Trust Co., trustee, without deduction of the normal Federal income tax as now interpreted. Certificates are issued by the Phila. Trust Co., as trustee and lessor. Denom. \$1,000. dividend warrants attached, registerable as to principal only. Callable all or part on dividend dates, at 101½. Par value and dividends guaranteed by the corporation.

Maturities (Nov. 1). 1917. 1918. 1919. 1920. 1921. 1922.

Amount.........\$150,000 \$170,000 \$180,000 \$200,000 \$240,090 \$260,000.

Security.—Will be secured by 1,000 steel tank cars, to cost \$1,800,000.

Of this \$600,000 is to be paid in cash, and the balance by this issue.

The Company.—Exclusively engaged in the manufacture and rental of railroad tank cars. The plants at Warren, O., Caiumet, Ind., and Sand Springs, Okla., now produce about 16 cars daily. Net earnings applicable to dividends on all Equipment Certificates issued, are about ten times the requirements.—V. 103, p. 1414, 1121.

General Fireproofing Co.—Stock—Stock Dividend.—

This company, it is stated, has directed the issue of \$194,700 preferred and \$250,000 of common stock, the proceeds of the issue to be used for the plant, and for additional working capital.

A stock dividend of 50% has been declared on the \$500,000 common stock, payable in common stock at once to holders of record Nov. 30. Compare V. 102, p. 979.

Gulf States Steel Co.—Dividends on Second Preferred Stk.

Gulf States Steel Co.—Dividends on Second Preferred Stk.

As some confusion seems to exist regarding the dividends on the second preferred stock of the company, the following has been prepared from official statements. In order to declare a dividend on the common stock, it was necessary to pay or declare in 1916 6% on the 2nd pref. This has been done by the following payments and declarations: 1st payment, 1½%, Aug. 1; 3% Nov. 1 and 1½% declared to holders of record Dec. 15 1916 and payable Feb. 1 1917.

The dividend record on all stocks is as follows:

Common—1st dividend, 2%, payable Jan. 2 1917 to holders of record Dec. 15 1916.

First Preferred—1st dividend, 15 1-6% (being accumulations to Jan. 1 1916), Feb. 15 1916; 1½% each Apr., July, Oct. 1 1916 and Jan. 1 1917.

Second Preferred—1st dividend, 1½%, Aug. 1 1916; 3% Nov. 1 1916 and 1½% Feb. 1 1917.—V. 103, p. 1891, 1510.

(The) Hartman Corporation.—Stock Listed—Earnings.

The New York Stock Exchange has admitted to list this company's \$12,000,000 capital stock.

Net Sales and Earnings of the Corporation and Subsidiary Companies for Gulf States Steel Co .- Dividends on Second Preferred Stk.

Homestake Mining Co.—Extra Dividend.—
An extra dividend of \$1 has been declared on the stock, in addition to the regular monthly 65c., both payable Dec. 26 to holders of record Dec. 20. The same amount has been paid each Dec. since 1913.—V. 102, p. 1057.

Icy-Hot Bottle Co.—Extra Dividend.—

An extra dividend of 31% has been declared on the pref. stock along with the regular quarterly 11% on the pref. and 5% common stock.—

Keokuk Water Works Co., N. Y.—Stock Increase.—
This company filed at Dover, Del., on Dec. 11 an amendment to its charter increasing its authorized capital stock from \$600,000 to \$750,000.

—V. 95, p. 1545.

Keystone Telephone Co.—Accumulations.—
The company has declared a dividend of \$1 (2%) on the pref. stock on account of accumulations, payable Feb. 1 to holders of record Jan. 21. Payments on this account of 2% each have been made on July 15 1915 and February and Aug. 1 1916. This leaves about 55% accumulated.—V. 103, p. 2159, 1035.

Kings County Electric Light & Power Co., Brooklyn, N. Y.—Convertible Debentures.—The P. S. Commission on Dec. 4 authorized this company to issue \$2,500,000 of convertible debentures, in order to reimburse its treasury for \$600,000 expenditures from income for improvements in 1912 to 1914, and to acquire \$1,900,000 demand notes of the Edison Electric Illuminating Co.

Edison Electric Illuminating Co.

The last-named company is authorized to issue the \$1,900,000 notes in question for the purpose of paying off \$600,000 of promissory notes to banks, and to reimburse its treasury for income expenditures \$1,300,000.

Basis of Rate Order.—The heavy reduction in rates, which this company and its subsidiary, the Edison Electric Illum. Co., declined to put in effect on Dec. 1, notwithstanding the order of the Public Service Commission (and for which they ask a rehearing) is justified in the opinion of the Commission by the result of an inventory and appraisal of physical property that has been in progress since early in 1913, and their analysis of the same. In the work of appraisal the Commission's engineer, Clifton W. Wilder, had the co-operation of the company's engineers, Sanderson & Porter.

The differences as to the value of the tangible property were not great, but the Commission, for one reason or another, disallows, in whole or in part, various items for ratemaking purposes claimed by the company.

making purposes claimed by the company.

The five classes of items at issue between the company and the Commission are: (1) contingencies, engineering, &c., costs reduced \$1,096,738; (2) an item of \$7,140,000 for depreciation, which the company claims is unjustified, as the property has been fully maintained; (3) \$804,190 omitted by Commission as representing value of 66th St. generating station in excess of present requirements; (4) intangible items, \$4,531,-944, comprising (a) Edison license (patents now expired), \$945,000; (b) costs of organization and unifying system, \$3,586,944; and (5) items charged to operation, \$4,033,359, including costs of attaching business, installing lamps, &c. This last item is cut out because in the opinion of the Commission the rates charged by the company in the past have been sufficient to reimburse it for the outlay; (6) working

capital, \$325,776.
The "Electrical World" of N. Y., in its issue of Dec. 2,

summarizes the decision, saying in brief:

The "Electrical World" of N. Y., in its issue of Dec. 2, summarizes the decision, saying in brief:

Capitalization.—The outstanding capitalization on Jan. 1 1916 was as follows: Mortgage bonds, \$11,209,000; convertible debenture bonds, \$3,064,000; stock, \$13,436,000; total, \$27,709,000. In addition, there were \$800,000 bills payable. This capitalization includes (or has replaced) securities issued as follows: Edison license, \$945,000; guaranty fund for Edison purchase-money bondholders, less system securities in fund, \$258,000; securities given to promoters and contractors for Kings County Elec. Lt. & P. Co. property in excess of investment, \$2,000,000; securities insued for Amsterdam Co. in excess of property value, \$361,000; securities in excess of par value of securities acquired of Citizens, Municipal and Edison companies, \$1,701,000; stock dividends, Citizens and Municipal cos., \$600,000; discounts and premiums on bonds issued and refunded, \$775,000; total, \$6,640,000. The original investment is thus calculated to be less than \$22,000,000. On the actual capital contributed in money or property and devoted to electrical operations, the total dividends and interest are calculated to have approximated 9% per annum.

Depreciation.—The company contend ed that no deduction for accrued depreciation should be made in the valuation. The Commission, on the other hand, says:

"It has been the consistent determination of the Commission in both capitalization and rate cases to appraise physical property on the basis of present value, deducting accrued depreciation, both physical and functional. Accrued depreciation must be deducted in a valuation for rate-making purposes is not open to question in view of the decisions of the U. S. Supreme Court in Knoxville vs. Knoxville Water Co. and the Minnesota rate cases. The decision of the Appellate Division of the Supreme Court in this State in the case of People ex rel. Kings County Lighting Co. v. Willows is a conclusive authority from which this Commission may not deviate,

sion engineer at approximately \$1,305,000, as the cost less depreciation accrued. The decision adds: "This station is but little used relative to the investment involved. Certain additions made to the Gold Street station at a cost of about \$500,000 have provided a greater generating capacity than the total capacity of the 66th St. station."

Intangibles.—Other differences between the amount allowed and the company, claims relate mainly to overhead and intangible charges. These items, as shown in the table, aggregate \$4,033,359. The conclusion is: "It may in fairness be contended that, no matter what are the amounts to be included in the capital accounts under the company's theory, the moneys for the items discussed under this head have been collected from consumers in the rates imposed; and that, therefore, the consumers should not be taxed a second time, for a return on capital which they have contributed.

In regard to tranchise value, the Commission calls attention to that each consumers to the consumers of which should dispose fully of the claims and arguments in this case."

Claims under the head of "cost of unifying the system" are defined as "the cost of establishing monopoly." One result of the combination was plant duplications, and, in taking into the valuation both the 66th St. and the Gold St. plants, the Commission holds that it made an allowance for what might be regarded as a development expense incident to the unifleation of the system. The additional amounts claimed were not allowed.

Determining Values.—As the Commission holds that on Jan. 1, 1916 the original capital investment for electrical operation was approximately \$22,000,000, and the average annual return thereon was nearly 9%, it decides that these conclusions effectively dispose of the claims for golng "value." "Thus," the Commission concludes, "whether the basis for valuation be the actual capital investment for electrical operation was approximately \$22,000,000.

Therefore the circumstances the Commission concludes that "it is a qu

are informed, receiving good support, although owing to the usual delays it has not as yet been declared operative.

which the shareholders were asked to assent by mall, is, we are informed, receiving good support, although owing to the usual delays it has not as yet been declared operative.

Outline of Financial Plan Dated Oct. 31 1916.

1. That the first preferred stockholders agree to cancel their claim for accumulated dividends up to Doc. 1 1916.

2. That the second preferred stockholders agree to cancel their claim for accumulated dividends up to Nov. 1 1917.

3. That the common stockholders agree to exchange their present certificates of stock of \$100 par value for an equal number of shares of non-par value common stock.

This accumulated common stockholders agree to waive dividend rights until a permanent reserve of \$1,000,000 has been accumulated out of net earnings, this amount to be considered as additional capital and not to be distributed to any class of stock and its permanency being insured by proper legal action. This addition to the capital will guarantee the continued financial stability of the company and add value to every class of stock.

5. That the common stockholders further waive their rights to distributed to any class of stock and its permanency being insured by proper legal action. This addition to the capital will guarantee the continued financial stability of the company and add value to every class of stock.

5. That the common stockholders further waive their rights to distribute a special reserve of \$500,000 is accumulated, which special reset up the held against the obligation to pay a bonus as provided in the lease of the store property in the event it should be desirable to cancel such lease.

6. In the event the foregoing conditions are compiled with, then have the company authorize an issue of \$1,500,000. 1 to 10 serial, 7% semi-annual lacome Bonds, subordinated to all obligations to general creditors and prior to all stock liability. Of this issue, \$\$00,000 to be sold at once for par, and \$\$500,000 a year, which issue would be offered pro rata to stockholders. The balance of said issue is

McCord Manufacturing Co. (of New York), Detroit, Mich.—Pref. Stock Offered.—John Burnham & Co., Chicago, are offering at par (see advt. pages) the unsold portion of \$750,000 7% cumulative pref. stock, giving subscribers the

the net assets are 150% and the net quick assets 100% of the pref. stock out Data as to Maine Corp. from Pres. A. C. McCord, Chicago, Nov. 28. Organization.—Organized Jan. 1 1909 in Maine to manufacture automobile radiators, lubricators and gaskets for steam and gas engines. Properties.—(1) Detroit plant, original floor space less than 40,000 sq. feet, since quadrupled, and in addition we occupy three other plants, making a total of about 300,000 sq. ft. Original radiator capacity, 150 per day, now 2,000, and we are the largest independent manufacturers of automobile radiators in the country. (2) Plant established at Walkerville, Ont., opposite Detroit, to take care of Canadian orders; has been tripled this year. (3) To extend radiator facilities in Plant 1 and to take care of the demands of the gasket department, in 1915 a plant was purchased at Wyandotte (near Detroit), now increased 2½ times. (4) In 1915 we established a separate plant, giving increased capacity equal to all emergencies. Business.—Principal users of our radiators are: Studebaker, Dodge, Chalmers, Packard, Chevrolet, Hupp, Cole, Marmon, Mercer, Oakland, White, General Motors Truck, Federal Motors Truck, International Harvester, Ingersoll-Rand, Signal and Vim companies. The radiator includes the steel frame and whole front end of the car ahead of the hood. In addition to the radiator and gasket departments, the company manufactures certain hardware for railway passenger cars and lubricators for steam and gas engines for stationary, marine, submarine and locomotive service.

Assets and Earnings.—The new company starts with net quick assets of \$1,000,000 and total net assets in excess of \$1,875,000.

Operations—

Merrimac Chemical Co.—Dividends—Purchase—New -An official circular says in substance:

Stock.—An official circular says in substance:

The directors have declared a dividend of \$1 67 per share, payable Jan. 2
1917 to stock of record Dec. 12 1916. This dividend covers a period of
four months, from Sept. 1 1916 to Dec. 31 1916, and is at \$5 annual rate.
Regular dividends hereafter will be paid Q.-J.

The directors have declared a stock dividend of 11,760 shares (par value
\$588,000), payable on stock of record Dec. 12 1916, in ratio of one-half
share of new stock for each share of stock held.

To finance the purchase of the entire plant, assets and good-will of Cochrane Chemical Co. of Everett, Mass., \$1,764,000 new stock is to be offered
at \$73 (par \$50) to stockholders of record of Dec. 12 1916, in the ratio
of 1½ new shares for each share held. Subscriptions must be filed on or
before Dec. 30 1916 and paid on or before Jan. 4 1917. This new stock
and the new stock resulting from stock dividend will not participate in
dividend of \$1 67 a share payable Jan. 2 1917.

The new stock offered shareholders will be underwritten.—V. 103, p.2159.

Merritt Oil Corporation (of Maine).—Capital Stock Sold.—Carl H. Pforzheimer & Co., New York, have sold at \$9 per share a block of this new company's \$6,000,000 stock, Their advertisement for record appears on another page.

Data from Letter of Pres. K. C. Schuyler, New York, Dec. 5 1916.

Organization.—Incorporated in Maine [on or about Dec. 6 1916] with a capital stock of \$6,000,000, par \$10. There is outstanding \$375,000 shares and the balance is in the treasury.

Properties.—The company is being organized to own leases running from five years to perpetuity in term on acreage in Natrona and Converse counties, Wyo., in the heart of the Big Muddy field, 18 miles east of Casper, Wyo., the site of the refining works of the Midwest Refining Co., viz.: (1) An undivided ½ interest with the Ohio Oil Co. in a 500-acre tract, equal to 250 acres owned; (2) all of 250 acres adjoining on the south; (3) all of 280 acres on the north; (4) an undivided 25% in about 3,000 acres adjoining on the west, this interest being equivalent to 750 acres; and (5) acreage on the edges of the field, and is endeavoring to secure additional acreage. Exploration work has been done chiefly by Merritt Oil & Gas Co. and Midwest Refining Co. All oil so far produced has been refined at the Midwest refineries at Casper.

Relations With Other Interests.—The Midwest Refining Co., in addition to its land holdings in the field, owns a substantial interest in the corporation. As illustrating the values attaching to the lands in this field, we understand from reliable sources that the Ohio Oil Co. has paid \$500,000 for an undivided half interest in the 500-acre tract on which the new deep well of the predecessor co. now down 3,137 feet, is situated (the other half interest in said tract and well being the property of the Merritt Oil Corp.,) in addition to its other extensive holdings hereafter referred to, and has also acquired other interests in this field. The Texas Company has acquired leases on 500 or 600 acres and is vigorously attempting to make other acquisitions, as are other large interests. The Merritt Oil Corp. will occupy, its officers believe, the most favorable position in the field by reason of its ownership of leases, ranging at fair royalties from five yea

Midwest Refining Co.—Allied Co. Stock Sold.-See Merritt Oil Corporation, above.—V. 103, p. 65.

Mount Vernon-Woodberry Mills (Inc.), Baltimore. -Nelson, Cook & Co., Baltimore, in their monthly circular of Dec. 2 say in substance:

The recent advance in the stocks, in which the preferred sold up to 75½ and the common to 21½, must be a subject of considerable satisfaction to holders of these stocks which were taken in exchange for the old Cotton Duck 5% bonds in the proportion of 7 shares of preferred and 3½ shares of common for each \$1,000 bond. The outstanding preferred stock is \$6,109,000 and common stock, \$4,800,000.

National Surety Co., N. Y.—Stock Listed—Earnings.—
The New York Stock Exchange has authorized to be listed an additional \$1,000,000 capital stock on and after Dec. 18 1916, making the total amount authorized to be listed \$4,000,000.

Earnings.—For calendar years and 9 mos. to Sept. 30 1916: Earnings.—For calcular years and 9 mos. to Sept. 30 1916; Calcular Gross Prem. Reinsur. Net Prem. Int., Renis., Years— Written. &Co. New York Shipbuilding Corporation.—Stock Sold.— Hallgarten & Co., Chas. D. Barney & Co. and Montgomery, Clothier & Tyler have sold at \$47 50 per share their block of the capital stock of this new corporation.

It is the intention of the company, if it is shown to be feasible, to begin the construction of a standard type of ship. While ships of this type will not be identical in every respect, they will be very nearly alike, and it is expected that in such cases there will be a marked decrease of costs, amounting to perhaps 10%, and a resultant increase in profits. A complete description of the new company's organization, earnings, property, &c., will be found in V. 103, p. 2159, 2082.

New York Title & Mortgage Co.—Dividend Increased.—A dividend of 134% has been declared on the stock, payable Jan. 2 to holders of record Dec. 22. This is an increase of 14 of 1% over previous payments.—V. 103, p. 65.

Northern States Power Co.—Dividend Increased.—
A quarterly dividend of 1%% has been declared on the \$5,975,000 common stock, payable Jan. 15 to holders of record Dec. 30. This compares with 1%% in July and 1%% in October. The regular quarterly 1%% on the pref. was also declared payable Jan. 20 to holders of record Dec. 30.—V. 103, p. 669, 411.

Northwestern Yeast Co.—Extra Dividend. An extra dividend of 3% was paid on the stock on Dec. 15 along with the regular quar. 3% te holders of record Dec. 12.—See V. 102, p. 1253.

Ogilvie Flour Mills, Ltd.—Dividend Increased.—
A dividend of 2½% has been declared on the common stock, payable
Jan. 2 to holders of record Dec. 20. This compares with 2% quarterly
(8% p. a.) since 1910.—V. 103, p. 1511, 1122.

Ohio Cities Gas Co.—Sale of Notes—New Stock.—To finance in part its recent acquisitions (V. 103, p. 2083) the company has sold to the Guaranty Trust Co. \$5,000,000 6% serial notes dated Jan. 1 1917, maturing in 1, 2, 3 and 4 yrs.

These notes, it is said, will be unsecured obligations due \$625,000 each six months and subject to call as an entirety within the first two years at 102 and thereafter at 101.

Stockholders of record of Dec. 27, it is announced, will be allowed to subscribe for \$1,000,000 new common stock at \$85 a share (par \$25) in the ratio of one share of the new stock for each eight shares now held. Full payment for the new stock must be made on or before Jan. 22.—V. 103, p. 2083, 1986.

Ohio Copper Co. of Utah.—Successor Co.—
This company was incorporated at Augusta, Me., on or about Dec. 7
with \$2,500,000 stock, par \$1, as successor to the Ohio Copper Co. and the Ohio Copper Mining Co., which see above.—V. 103, p. 1892, 411.

850,000

or all mortgage and other indebtedness, and have nearly \$200,000 working capital in the treasury. [The committee will control the management for a term of years.]

Data from Circular of Rogers Committee, Dated Oct. 31 1916. With the most unfavorable conditions prevailing, it is conceded by all that the property is fairly worth over \$2.000,000. With copper at above 25 cents per pound, as it is to-day, the net earnings per year should exceed 40% of this amount. Therefore the new stock, it is confidently believed, will sell at considerably above par. The mine is located near Salt Lake City, Utah, and adjoins the celebrated Utah property. It has a very low-grade copper ore, but there are great quantities of it in sight, with extremely low mining cost, because of the peculiar conditions at the mine.

The Court in its opinion states: "The bankrupt's property has largely enhanced in value by reason of the phenomenal rise in the price of copper, from 11.739 cents a pound in Nov. 1914 to 26.720 a pound in August 1916. The mine was temporarily leased by the trustees and the receivers and is now producing 3,000 tons a day. The property is accordingly restored to a solvent condition, and should be returned to the real owners when the debts and expenses of administration are paid in full."

The committee proposes that there be installed at once the latest processes for treating ore, i. e., either the flotation or leaching process, or a better process if any, for it is believed that by so doing a recovery of nearly 50% more than now is obtained can be obtained, so that whatever the times—war or peace—the property can make money.

It is estimated that the amount required to acquire all the assets, other than money, after allowing for the credits and charges involved in the redemption of the property and the payment of the sums found due on the bonds, less whatever sums have been realized in the foreclosure,&c. will probably not exceed \$1,100,000. The amount of the bonds and accrued interest to date is approximately \$1,500,000

Ohio State Telephone Co.—New Stock.—
Stockholders were given the privilege to subscribe on or before Dec. 11 last for \$2,000,000 7% cumulative pref. stock at \$100 to the extent of 20% of their holdings. The present outstanding stock is \$4,974,900 pref. (7%) and \$5,206,000 common. Subscriptions were to be made on or before Dec. 11 with 10% of the amount subscribed for, the remaining 90% being payable not later than Dec. 21 1916.

The company is offering this stock direct to its stockholders, and the full proceeds will be expended for extensions and development.—V. 103, p. 2083, 1596.

Packard Motor Car Co.—Dividend Increased.—A quarterly dividend of 2% has been declared on the \$11,656,930 common stock, payable Feb. 1. This compares with 13/4% quarterly since Dec. 1909.

Alvan MacAuley has been elected Chairman of the board of directors to succeed Henry B. Joy.—V. 103, p. 1986, 1685.

Paragon Refining Co.—New Directors.—
J. Arthur House, Vice-President of the Guardian Savings & Trust Co. of Cleveland, and Thomas D. Kells of Toledo have been added to the board of directors.—V. 103, p. 1795.

Phelps, Dodge & Co.—\$10 Extra Dividend.—An extra dividend of 10% (\$10) per share has been declared on the \$45,000,000 stock along with the regular quarterly $2\frac{1}{2}\%$ (\$2 50), both payable Dec. 29 to holders of record Dec. 8. Regular and extra dividends up to the present time have been as follows:

Pierce-Arrow Motor Car Co., Buffalo, N. Y.—Pref. Stock Offering.—J. & W. Seligman & Co. and associates have sold the entire issue of \$10,000,000 8% cumulative convertible preferred stock, convertible share for share into common stock. The subscription price was 107 and divs. There are also outstanding 250,000 shares of common, no par value. Data from Letter of President Charles Clifton, Buffalo, Dec. 7 1916.

stock. The subscription price was 107 and divs. There are also outstanding 250,000 shares of common, no par value. Data from Letter of President Charles Clifton, Buffalo, Dec. 7 1916. Preferred Stock.—Preferred as to assets as well as dividends. Red. all or part at any dividend date on sixty days' notice at 125 and divs. Divs. Q.-J. Preferred stockholders have no rights of subscription except to preferred stock or securities convertible into preferred stock. Both common and pref. shares have the same voting rights.

The company must devote to the purchase (or call at 125 and divs.) of preferred stock cash equal to whatever is paid in any year in cash dividends on the common stock over \$5 per share. Preferred stock so retired and otherwise redeemed will be converted into common stock to be used for general purposes or for distribution as a stock dividend.

All Bonds to Be Paid Feb. 1 1917.—On Feb. 1 1917 the company will be free of all bonded debt, as the company's only indebtedness, consisting of \$1,250,000 of first mortsage bonds, will be called for payment on that date, cash having been set aside.

Property.—The plant is stuated at Buffalo on the New York Central belt line as the company is marked to the company of the cash cash and the company is marked to the company of the company and the called for payment on that date, cash having been set aside.

Property.—The plant is stuated at Buffalo on the New York Central belt line as the company has been except to the company of the company of the company has a company of the company has been deem anothinery. Has about 7,000 employees.

Earnings.—For the nine months ending Sept. 30 1916 the profits, after deduction for depreciation, were determined by Price, Waterhouse & Co. to amount to \$2,460,000. October earnings were \$403,000, and Nov. and Dec. are estimated at \$500,000.

Year end. July 1 1911 ... \$1,960,000 | Bm portise compare as follows:

Year end. July 1 1912 ... \$1,422,000 (Cal. year 1915 4,381,000 do do 1912 ... 1,464,000 | Bm portise company as

Initial Dividend.—An initial dividend at the rate of 8% per annum has been declared on the pref. stock for the period from Dec. 6 1916 (the date of issue of pref. stock), to and including Dec. 31 1916, payable Jan. 2 1917, to holders of record Dec. 20 1916.—V. 103, p. 1893, 1796.

Pittsburgh Plate Glass Co.—Stock Increase.—
The stockholders will vote Feb. 28 on increasing the authorized capital stock from \$22,750,000 to \$25,000,000. Out of the new stock it is proposed to pay a stock dividend of 10%.—V. 103, p. 1275.

(R. J.) Reynolds Tobacco Co.—Extra Dividend.—An extra dividend of 5% has been declared on the \$10,000,000 common stock, along with the regular quarterly 3%, both payable Jan. 1 to holders of record Dec. 21. Extra dividends of 2% were paid in Apr., July and Oct. last. The regular 1¾% on the pref. was also declared payable the same date.—V. 102, p. 1054.

Roxana Petroleum Co. of Okla.,—Controlling Co.— See Royal Dutch Co. below.

Royal Baking Powder Co.—Extra Dividend.—
An extra dividend of 2% has been declared on the \$10,000,000 common stock, along with the regular quarterly 2% on the common and 1½% on the pref., all payable Dec. 30 to holders of record Dec. 15. In Dec. 1915 an extra div. of 2% was also declared.—V. 101, p. 2078.

Royal Dutch Company for the Working of Petroleum Wells in Netherlands India.—Official Statement.—In connection with the over-subscription at about \$69 a share of a block of American shares (three of which, with no par value, represent a single Dutch share of 100 guilders, or say \$40 20 par value), there has been issued an advance draft of an official letter which we have condensed as below:

Digest of Statement by Gen. Man. Director H. W. A. Deterding,
The Hague, Dec. 1916.

Organization.—Incorporated in The Hague, Holland, in 1890, with a
capital of 1,300,000 florins (\$522,600). Through its subdiaries it is now
the largest international producer and distributor of mineral oil and its
by-products of Europe. Capitalization, exclusive of present issue (approximate amounts in dollars inserted by Ed):

In Dutch Capitalization.—In II. S. Cold.

American Interests Expanding Rapidly.—The combination owns a predominating interest in the Roxana Petroleum Co. of Oklahoma and the Shell Company of California. The "Roxana" has an issued capital of \$5,000,000 and the "Shell" of \$33,535,575. The "Roxana" owns fields in the well-known oil districts of Cushing, Healdton and Bartelsville. There are under construction 140 miles of six-inch pipe line from Cushing to Healdton, to be put in operation in Jan. next, and 450 miles of ten-inch pipe line from Cushing to St. Louis, to be put in operation by the end of 1917. The combination has further undertaken the construction of a large refinery in St. Louis. At Martinez, on the Pacific Coast, near San Francisco, a refinery capable of handling 25,000 bbls. a day and storage facilities at Martinez and on the fields for 4,250,000 bbls. have been established, as well as an eight-inch pipe line 170 miles long, from the field to the refinery. In Mexico the allied companies have also storage for 2,000,000 bbls. and further for 500,000 bbls. nearing completion. The combination is further occupied in establishing large storage facilities and a refinery of exceptionally great capacity in Curacao, West In ites, in the immediate proximity of the Panama Canal. Policy.—Our main object has been to acquire throughout the world producing territories and make such arrangements as will enable us to meet the demands of consumers by local production, if possible, or by furnishing oil from the nearest neighboring district, Independent as far as possible of freight and transport questions. Our subsidiary companies have a fleet of 292,970 tons, and under construction an additional 5,800 tons. The contracts for these 5,800 tons, as well as for 35,400 tons quite recently put into service, could now be disposed of at a profit of over Fl. 20,000,000.

Production of the Company and Its Affiliates (Tons).

In June 1916 the shareholders were permitted to subscribe at par (equal to a bonus of about 120%) for one new share for each three old shares.

San Joaquin Sugar Estates, Inc.—Change of Name.—
The Supreme Court at N. Y. has granted this company authority to as sume, on and after Dec. 28, the title of the Pacific Sugar Corporation.

Scovill Mfg. Co. (Waterbury, Conn.).—Special Div.—A special dividend of 25% payable in Anglo-French bonds has been declared on the stock payable Jan. 5. An extra cash dividend of 10% and the usual quarterly dividend of 2% were also declared, payable Jan. 1. See V. 103, p. 2083, 1597.

Shawinigan Water & Power Co.—Contract.— See Southern Canada Power Co., Ltd., below.—V. 103, p. 1986, 1691

Shell Transport & Trading Co. of London.—Allied Co. See Royal Dutch Co. above.—V. 97, p. 600.

Simplex Automobile Co. of N. Y.—Stock Increase.—
The company filed a certificate in Delaware Dec. 14 increasing the authorized common capital stock from \$3,000,000 to \$7,000,000; the 7% cumulative pref. stock remains \$2,000,000. All of the company's stock is owned by the Wright-Martin Aircraft Corp. See V. 103, p. 1987, 1046.

Smith Motor Truck Corporation .- Directors .-The following directors have recently been elected: A. D. Smith, E. I. Rosenfeld, A. G. Henauer, J. M. Hoyt, C. B. Little, Louis Hennock.—V. 103, p. 2160, 2083.

Southern California Edison Co.—Directors Approve. The directors have approved the proposed agreement with the City of Los Angeles.

Merger Terms.—A statement filed with the California RR. Commission shows that the company desires to purchase the control of the Pacific Light & Power Corporation on the

The Southern California Edison Co. proposes to pay \$4,000,000 in cash and 120,299 shares of its 2d pref. 5% stock for the following securities of the Pacific Light & Power Corporation, including 95% of its outstanding capital stock: 46,175 ist pref. shares; 96,602 2d pref. stock; 104,685 of common capital stock; \$5,000,000 First & Refunding bonds, and \$1,096,048 of floating indebtedness. The company would also issue 111,522 shares of its common stock for the Pacific Co.'s properties and franchises, but this stock, it is stated, would remain in the latter's treasury. The properties of the Pacific Co. are valued in the application at \$33,860,830, and are to be acquired by the Southern California Edison Co. subject to an indebtedness aggregating \$25,620,756. The Edison Co. alleges that the cost of its properties as of Oct. 31 1916 was \$30,311,329. Compare V. 103, p. 2160, 1986.

Southern Canada Power Co., Ltd.—Bonds Offered. W. F. Mahon & Co., Halifax, N. S., are offering at par, with a bonus of 50% common stock, \$400,000 6% First & Ref. M. sinking fund gold bonds, dated Sept. 1 1913. Due Sept. 1 1948. A circular shows:

Interest is payable M. & S. at the Canadian Bank of Commerce, Montreal ew York and London, Eng. Denom. \$100, \$500 and \$1,000 or sterling quivalents. Trustees, Montreal Trust Co.

1948. A circular shows:

Capitalization—

First & Ref. 6s (including present issue)———— \$5,000,000 *\$1,300,000

*\$139,000 are held in escrow to retire a like amount of underlying bonds. Proceeds of the present issue will be applied to extensions and improve ts.

Organization, Properly, &c.—Incorporated Aug. 18 1913 in Canada and has acquired water powers, capable of 90,000 h. p., development, with an ultimate development of about 150,000 h. p., consisting of six on the St. Francis River, Quebec, and in addition two small developed powers. Has also acquired the following properties; (a) St. Johns Electric Light Co. (light and power to St. Johns; (b) the Gas. Electricity & Power Co. of St. Hyacinthe (light, power and gas to St. Hyacinthe and vicinity); (c) the Drummondville Municipal Lighting & Power System, including a small developed water power (light and power to Drummondville and vicinity); and (d) the Dierville, all being in successful operation.

In addition the company owns saleable real estate in Drummondville, appraised at \$188,065. Of this \$45,000 has been sold, and payments will apply to the redemption of the underlying bonds. The company has also commenced to distribute power to the village of St. Hughes, is wholesaling power to towns of Beloel and St. Hilaire, and has secured franchises and contracts in several other municipalities, in which it is preparing to operate. Contracts.—The company has a valuable contract with the Shawinjan Water & Power Co. for the sale to it of 5,000 h. p. for the same period upon completion of its second development. In addition the company has contracted in the Shawinjan Co. for power pending the first development.—The company operates practically without competition, over 3,000 s.m. east of the St. Lawrence River, and to the international boundary, containing a population of over 475,000.

will vote Feb. 14 on increasing the authorized capital stock from \$12,500,000 to \$20,000,000.

It is stated that the proposed increase will represent a portion of the company's surplus, and the directors recommend that the same be distributed as a stock dividend to stockholders of record Feb. 14 1917 in proportion to their holdings.

Vice-Pres. John L. McKinney, it is stated, has confirmed the reported purchase of 1,500 acres of oil and forest holdings of the Enterprise Transit Co. in Forest, Warren, Elk and McKean counties, Pa., and Cattaraugus County, N. Y., by the South Penn Oil Co. The oil holdings are said to have an output of 100 barrels a day.—V. 103, p. 1986, 762.

South Porto Rico Sugar Co.—Listing.—

The New York Stock Exchange has authorized the listing of \$202,500 additional pref. stock and \$22,200 additional common stock on and after Dec. 16. making the total amount authorized to be listed of each class \$4,000,000. The directors on Dec. 14 authorized the sale of this additional stock for "corporate purposes," the common stock to be sold at the market (but not less than par) and the preferred at not less than 118%—V. 103, p. 1792, 1597.

Supplee Milk Co., Philadelphia.—Preferred Stock Of-

Supplee Milk Co., Philadelphia.—Preferred Stock Offered.—Advice comes to us through Frazier & Co. that in a previous issue of the "Chronicle" under this caption there appeared a notice relating to an offering of the issue of preferred stock, containing some errors. Frazier & Co. now authorize the following statement: "\$500,000 par value of Supplee Milk Co. preferred stock is being brought out simultaneously by H. A. Kahler & Co. in New York and by Frazier & Co. and Chandler & Co. in Philadelphia, and there still remains a small unsold balance. Correct description and offering appear on page xxi of this publication.

Tamarack Mining Co.—New President.— Charles S. Smith, President of Old Dominion and Arizona Commercial Mining Co., has been chosen President, succeeding Eugene V. R. Thayer, resigned.—V. 102, p. 1635.

Tennessee Coal, Iron & RR. Co.—Underlying Bonds to be Paid Off .-

Notice is given by adv. on another page that the (\$3,997,000) Purchase Money & Improvement Mtge. 6% gold bonds, Birmingham Division (Pratt Coal & Iron Co. purchase) and the (\$1,107,000) Consolidated Mtge. 6% gold bonds, Tennessee Division, both dated Jan. 1 1887, will be paid Jan. 1 1917 at the Union Trust Co. of N. Y. These bonds, we are informed, will be redeemed forthwith and new General Mtge. gold bonds of 1901 reserved against the same will be certified to the trustee, though not yet sold. The effect will be to make the General Mtge. a first lien on all the properties covered by that mortgage excepting only those included in the lien of the \$892,000 Cahaba Coal Mining Co. 1st M. 6s of 1892 and the \$730,000 Alabama Steel & Shipbuilding Co. 1st M. 6s of 1898, for both of which issues General Mtge. bonds are reserved.—V. 98, p. 1396.

Tidewater Oil Co.—Fatra Dividend.—

Tidewater Oil Co.—Extra Dividend.—
An extra dividend of 1% has been declared on the stock, along with the egular quarterly 2%, both payable Jan. 2 to holders of record Dec. 15.—V. 103, p. 150.

Transue & Williams Steel Forging Corp.—Initial Dividend.—An initial dividend of \$1 per share has been declared on the stock, payable Jan. 11 to holders of record Dec. 29.—V. 103, p. 2161, 1797.

Trumbull Steel Co.—Extra Dividend.—
An extra dividend of 2% has been declared on the common stock, along with the regular quarterly 1½% on the common and 1¼% on the pref. stocks, payable Jan. 1 to holders of record Dec. 20.—V. 103, p. 1894, 1512.

Union Switch & Signal Co.—Offer for Stock.—
See Westinghouse Air Brake Co. below.—V. 103, p. 584, 1046.
United Alloy Steel Corp.—Initial Dividend.—An initial dividend of \$1 per share has been declared on the stock, payable Jan. 10 to holders of record Dec. 28. Compare V. 103, p. 1709, 1512.

United Fuel Gas Co.—Additional Bonds Listed.—
The New York Stock Exchange has authorized the listing of \$472,500
First Mtge. 6% 20-year sinking fund bonds, series A, due 1936, making the total authorized to be listed of this issue \$8,460,000. See previous listing statement to the Exchange published in full, V. 103, p. 1133. See also recent offering, &c., V. 103, p. 2161, 1216.

United Profit-Sharing Corp.—Par Value Reduced.—
The stockholders on Dec. 4 authorized the reduction of the par value of the shares of capital stock from \$1 to 25c. The directors also authorized the distribution on Dec. 26 to the bolders of record Dec. 15 of 75c. per snare, which represents the difference between the par value before reduction, \$1 per share, and the present par value of 25 cts. Certificates of stock should be presented at Guaranty Trust Co., N. Y. City, on or after Dec. 26 to have the payment noted thereon.—V. 103, p. 1709.

United States Rubber Co.—New Bond Issue for Refunding, &c.—The company, it is understood, is completing arrangements for the authorization of a \$100,000,000 bond issue, of which about \$60,000,000, bearing probably 5% interest, will shortly be issued. The major part of these \$60,000,000 bonds will be used to refund present indebtedness, including about \$30,000,000 securities of the parent company and subsidiaries, which nature in 1918. The floating debt to be cared for through permanent financing aggregates approximately \$20,000,000. The new bonds will care for the company's requirements for many years to come. Kuhn, Loeb & Co. are supposed to be engaged in underwriting the initial issue.—V. 103, p. 2161, 1709.

United States Steel Corp.—Bond See Tennessee Coal Iron & RR. Co. above. -Bond Payment.—Orders.-

See "Trade and Traffic Movements" on a previous page.—V. 103, p 2161, 1987.

Western Union Telegraph Co.—Extra Dividend.—An extra dividend of 1% has been declared on the \$99,786,727 stock along with the regular quarterly 1¼% both payable Jan. 15 to holders of record Dec. 20. In Jan. 1916 ½ of 1% extra was paid.—V. 103, p. 1432, 948.

Western United Gas & Electric Co., Aurora, Ill.—Bonds.—The Chicago Savings Bank & Trust Co. has offered at $94\frac{1}{2}$ and int., to yield 5.35%, a block of General Mtge. 5% gold bonds of 1913, due Feb. 1 1950, but callable after Aug. 1 1923, at 1021/2 and int. A circular shows:

\$3,000,000 1,500,000 — 720,000 — 536,000 Reserved to retire underlying bonds______
Total bonds outstanding

Reserved to retire underlying bonds 5%—536,000

Total bonds outstanding 6,142,900

Additional escrow bonds may be issued for not over 75% of the actual cost of extensions, and then only when the annual net earnings are twice the interest charges, including bonds proposed to be issued.

Earnings for Year ended Jan. 31 1916, with Interest Charge on These and Underlying Bonds.

Gross earnings \$1,602,914 Interest charge \$305,264\$

Net, after taxes \$701,382 Surplus 396,118

The company serves 58 cities and towns located in the Fox River Valley, in Illinois, all within a radius of 45 miles of Chicago, the total population served being about 210,000. These bonds are a direct mortgage against the entire property, which shows net earnings in excess of twice interest charges on all bonds and has favorable long-term franchises; in the hands of experienced and efficient operators; ample sinking fund provisions; investment in property placed by competent engineers at over \$10,000,000.

Westinghouse Air Brake Gr

westinghouse Air Brake Co.—Proposal to Purchase Control of Union Switch & Signal Co. and Thereafter to Pay 20% Stock Dividend.—Chairman H. H. Westinghouse in circular dated at Wilmerding, Pa., Dec. 8 1916, says in subst.:

Subject to ratification by you at a later date, your directors have this day approved the project of acquiring a controlling interest in the Union Switch & Signal Co. by the purchase of not less than 60% of its outstanding capital stock on the terms below stated, provided our stockholders at a meeting to be called when said 60% of the outstanding stock of the switch company shall have been deposited, shall ratify the terms of the agreement and shall authorize an increase of our capital stock from \$20,000,000 [\$19,730,967 outstanding Dec. 8 1916] to \$30,000,000 in order to provide the stock necessary for the proposed exchange and in due course thereafter to pay a stock dividend of 20%, or \$10 per share.

Proposed Basis of Exchange (Total Amounts Inserted by Editor).

Union Switch & Signal Co.

Common [\$6,162,758], three \$50 shares. Two \$50 shares [or \$400,000]

The basis of exchange proposed represents a close approximation of the relative book value of the tangible assets after careful comparisons and revaluations. Always closely associated through directors and many stockholders in common, and supplying wholly distinct and non-competitive manufactured products to the same general trade, it is natural that these companies should come under the same control and management with the benefits incident thereto. Such was the purpose of their common founder, George Westinghouse, not long before his death.

Further advices regarding this matter will follow, with notice of the stockholders' meeting, when a sufficient number of shares of the capital stock of the Union Switch & Signal Co. shall have been deposited.—V. 103, p. 1512, 1411.

Westinghouse Electric & Mfg. Co., New York.—Option to Subscribe for \$15,000,000 (25%) New Common Stock.—Subject to authorization by the stockholders at a special meeting (called for Feb. 15 1917), the privilege is offered to helders of preferred and common stock of record Dec. 30 to subscribe at par at the company's office, 165 Broadway, N. Y., on or before Feb. 21 1917, for about \$15,000,000 new common stock in amounts equal to 25% of the par value of their respective holdings. Kuhn, Loeb & Co. have agreed to form a syndicate which is to take so much of caid stock as is not subscribed for but the stock halles. said stock as is not subscribed for by the stockholders. There is now outstanding and listed on N. Y. Stock Exchange \$55,383,650 common and \$3,998,700 pref. Circular of Dec.

Subscriptions must be accompanied by check for full amount, \$50 18 per share, N. Y. funds, being the equivalent of par value, plus accrued dividends at the current rate of 6% p. a. to Feb. 21 1917, from Jan. 31 1917, when dividends on the new stock will begin to accrue. Subscription warrants will be issued shortly after Dec. 30 1916. No subscription may be made on a fractional warrant, but these, if surrendered on or before Feb. 19 1917 to the U. S. Mtge. & Trust Co., 55 Cedar St., N. Y., in amounts aggregating \$50, will be exchanged for full share warrants. The company will not sell or purchase fractions.

Earnings.—Chairman Tripp in circular dated Dec. 13 says: "The company's net profits for the seven months ending

Oct. 31 1916, after deducting all interst charges, were \$7,-651,010. During the early months of this period large amounts were written off for depreciation on special tools and other facilities acquired in connection with contracts for the machining of shells. These items have now been substantially all absorbed, so that your company's net income from all sources, after deducting interest charges, is now averaging over \$1,600,000 per month. A continuance of this rate would close the fiscal year ending March 31 1917 with a profit of over \$15,000,000, equal to 25% on the entire share capital of the company new outstanding share capital of the company now outstanding.

"Unfilled orders on hand for the regular products of your company, that is to say, exclusive of rifle or shell contracts, amount to over \$31,000,000, which is by far the largest amount your company has ever had on its books."

amount to over \$31,000,000, which is by far the largest amount your company has ever had on its books."

Further Particulars from Statement by Chairman Guy E. Tripp, New York, Dec. 13 1916.

The company's facilities are now taxed to capacity to manufacture its regular products, and in spite of vigorous efforts resulting in our present record output, much profitable business offered has had to be declined. There are many factors contributing to this condition, notably, (a) Great increases in central station capacity near manufacturing centres have made profitable the sale of electric current at rates which have so stimulated consumption as to create an enormous demand for industrial motors. (b) The coal shortage of the last six months tends to further accelerate the movement to substitute central station service for isolated plants. (c) Increased attention is being directed toward hydro-electric developments, and pending legislation in Congress is designed to stimulate such construction. (d) In rallroading practically every class of heavy service is now performed successfully by electric power, and this field promises rapid expansion. (e) The steam turbine having practically supplanted the reciprocating engine in electric power plants, has also invaded the field of ship propulsion, both by direct steam drive as well as by the electric drive contemplated in the U. S. naval program.

It is reasonable, therefore, to expect that the present large volume of our regular business will not only be maintained, but will be materially increased. To provide the additional manufacturing facilities needed, there has been purchased on the Delaware River at Essington, Pa., just outside of Philadelphia, a tract of land having a deep-water frontage and large enough to accommodate an ultimate factory development several times as great as that of the East Pittsburgh works. It is planned to begin immediately the erection on this land of a new plant to cost between \$5,000,000 and \$7,000,000. The larger volume of business which these

West Point (Ga.) Mfg. Co.—Dividend Increased.— A semi-annual dividend of 5% has been declared on the stock payable ec. 30 to holders of record Dec. 15. This increases the annual rate from to 10%.—V. 102, p. 2262.

CURRENT NOTICE.

The public utility firm of John Nickerson Jr., New York, St. Louis and Boston, are to-day advertising a list of bonds of well-known public utility properties yielding 4.52 to 5.07%. These offerings have been selected just for investment and the firm believes that the earnings of these issuing companies will go on steadily in peace or in war times. In preferred stocks the banker suggests Utah Power & Light Co. 7% first preferred stock, to yield about 6.93% as one of many preferred stocks which afford a high degree of safety combined with an attractive yield. Complete description of this issue and any of the bonds listed in to-day's advertisement will be furnished on inquiry.

-At 92% and interest, to net the investor 51/2%, Reilly, Brock & Co., 306 Chestnut St., Philadelphia, and Bertron, Griscom & Co., Land Title Bldg., Philadelphia, are jointly offering by advertisement on another page \$1,556,000 Knoxville Ry. & Light Co. refunding and extension mort-gage 5% bonds, due June 1 1946. Normal Federal income tax is paid by company and bonds are tax-exempt in Penna. Net earnings are stated to be over twice bond interest. Circular will be supplied on application to the bankers.

—All the bonds having been sold, Alex. Brown & Sons, Brown Brothers & Co., Jackson & Curtis and Lee, Higginson & Co. are publishing a matter-of-record advertisement of their joint offering of \$4,800,000 Consolidated Gas Electric Light & Power Co. of Baltimore general mortgage 4½%

bonds, due Feb. 14 1935. Price 93 and interest, yielding 5.10%. See to-day's record advertisement for full description of this offering.

—Holmes, Bulkley & Wardrop, members of the New York and Pittsburgh Stock Exchanges, announce the removal of their offices to the First National Bank Building, 2 Wall Street, this city. The firm have triple the office space which they formerly had in their old quarters. phone number is changed to Rector 6730. The bankers have a direct wire to the Pittsburgh office.

—Illustrated literature bearing upon the intrinsic durability of public utility investments when the properties are operated by experienced specialists will be sent to inquirers upon request to H. M. Byllesby & Co., 220 So. La Salle St., Chicago, or 1220 Trinity Bldg., New York.

—Thompson, Shonnard & Co., members New York Stock Cotton and Coffee Exchanges, of 20 Exchange Place, this city, announce that Leon A. Andrus is now associated with their firm. After Jan. 1 Thompson, Shonnard & Co. will be located at 120 Broadway.

Reports and Documents.

UNITED KINGDOM OF GREAT BRITAIN AND IRELAND

OFFICIAL STATEMENT TO THE NEW YORK STOCK EXCHANGE IN CONNECTION WITH THE LISTING OF TWO-YEAR FIVE PER CENT SECURED LOAN GOLD NOTES, DUE SEPTEMBER 1 1918.

New York, December 5 1916.

Application is hereby made for the listing on the New York Stock Exchange of \$250,000,000 Two-Year Five Per Cent Secured Loan Gold Notes of the Government of the United Kingdom of Great Britain and Ireland, due September 1 1918, on official notice of issuance in exchange for outstanding temporary notes.

The notes were authorized by act of the said Government, known as War Loan Act 1915, 5 and 6 George V, C 55, and the Finance Act 1916, 6 and 7 George V, C 24, S 58, and are issued under and secured by the pledge by said Government to The Farmers' Loan & Trust Company, Trustee, dated September 1 1916. The notes are dated September 1 1916, are due September 1 1918, and bear interest at the rate of 5% per annum, payable semi-annually on March 1st and September 1st.

Both principal and interest are payable at the office of J. P. Morgan & Co., in the City of New York, State of New York, United States of America, in gold coin of the United States of America, of the standard of weight and fineness existing September 1 1916, without deduction for any British taxes, present or future.

The notes are in coupon form only, of the denominations of \$1,000, \$5,000 and \$10,000. Notes of a denomination higher than \$1,000 may be exchanged for notes of equal aggregate principal amount of lower denomination or denominations.

The notes are redeemable at the option of the Government, in whole or in part, on notice published thirty days previously, as follows:

At 101 and accrued interest on any date prior to September 1 1917. At 100½ and accrued interest on September 1 1917 and on any date thereafter prior to maturity.

All notes redeemed shall be forthwith canceled.

The agreement provides, in part, as follows:

I. In order to secure the payment, principal and interest, of all of the notes of said issue at any time outstanding, according to their tenor, and in consideration of the purchase and acceptance of such notes by the original and subsequent takers and holders thereof, the obligor hereby pledges with your company certain bonds, stocks and other securities (hereinafter termed, collectively, "pledged securities") of the aggregate value of not less than \$300,000,000 as follows—the several issues of such securities, and the unit values at which such securities severally and respectively are pledged hereunder, being set forth, in Schedule B hereto annexed—viz.:

Group 1. Stocks, bonds and other securities of corporations organized in the United States of the aggregate value of not less than \$100,000,000.

in the United States of the aggregate value of not less than \$100,000,000. Group 2. Bonds and other obligations of the Government of the Dominion of Canada, either as maker or guarantor, and stocks, bonds and other securities of the Canadian Pacific Railway Company, all of the aggregate value of not less than \$100,000,000.

Group 3. Bonds and other obligations of the several following Governments, either as maker or guarantor, viz.: Of Argentina, Chile, Norway, Sweden, Denmark, Switzerland and—or Holland, all of the aggregate

Such pledge to your company is in trust for the benefit of all present and future holders of the notes, so that subject to the terms hereof the principal and interest of the notes shall be secured ratably by such pledge.

Coupons or warrants for interest or dividends maturing or payable on

Coupons or warrants for interest or dividends maturing or payable on or prior to September 1 1918, on any securities held by your company under this writing, may be lodged at the office of your company in London, England, or at such other agencies in London as your company may elect.

II. In case at the time of the authentication by your company of the notes, the obligor shall not have delivered to you all of the securities deliverable under Clause I hereof, the obligor will deposit temporarily with you, as part of the security hereunder (1) corporate stocks, bonds or other securities that are listed upon the New York Stock Exchange and are approved by J. P. Morgan & Co. as acceptable for the purpose, of a value equal to the difference between \$300,000,000 and the aggregate value of the securities that shall have been delivered under Clause I, and (2) a sum in cash equal to five-sixths of the difference, if any, between \$300,000,000 and the aggregate value of the securities delivered under Clause I and the securities delivered under this Clause II.

Thereafter, from time to time, upon delivery to your company of any securities deliverable under Clause I and not theretofore delivered, your company either (a) will redeliver such temporarily deposited securities of an amount in value equal to the amount in value of the securities so delivered under Clause I, or (b) will repay such temporarily deposited cash of an amount equal to five-sixths of the value of the securities so delivered under Clause I.

III. From time to time, upon the written request of the obligor and the written approval of J. P. Morgan & Co., your company shall release any of the pledged securities, provided that contemporaneously there be substituted for the securities of each group so released, other securities of the same group of equal aggregate value.

IV. If, at any time, the pledged securities shall have depreciated in aggregate value either because of change in market price, or in the rate of

exchange, so that such aggregate value shall become less than 120% of the principal amount of the notes at the time outstanding, the obligor, from time to time, will deliver to your company, as part of the trust estate, additional securities of one or more of the groups sufficient to bring the value of all of the securities pledged to a sum exceeding by not less than twenty per cent (20%) the principal amount of the notes at the time outstanding, so that at all times such twenty per cent (20%) excess value shall be maintained; provided, however, that if at the time of such depreciation the trustee shall hold, as part of the security under this writing, any cash deposited in lieu of securities, than and in such case the obligor shall not be required to pledge additional securities hereunder unless at the time the aggregate value of the pledged securities held by the trustee shall have become less than 120% of the difference between the aggregate principal amount of the outstanding notes and the amount of such cash, nor to pledge any additional securities except to an amount sufficient to increase the value of the pledged securities to the amount of 120% of said difference in amount.

difference in amount.

V. * * * * The value of such securities payable in currency of the United States, shall be the market value of the securities on the New York Stock Exchange, if quoted thereon, and, if not quoted thereon, the market value in the general securities market in New York; (b) the value of such securities not payable in United States currency shall be the market value in London of the securities in pounds sterling, converted into dollars in the City of New York at the then exchange value of pounds in the New York market; and (c) if any of the securities in the judgment of J. P. Morgan & Co. have no quoted market prices, the market value of such securities shall be taken to be such as J. P. Morgan & Co. shall fix for the purpose.

All determinations of value have been made and shall be made without including any amount for accrued interest on any of the securities valued.

VI. The security hereby constituted shall become enforcible in each and every of the following events of default by the obligor (hereinafter termed "events of default"), viz.:

(a) Default in the payment of the principal of any of the notes.(b) Default in the payment of any installment of interest on any of the notes, which default shall have continued for the period of thirty (30) days.

(c) Default in pledging hereunder additional securities to maintain the margin as provided in Clause IV of this writing, which default shall have continued for the period of thirty (30) days after notice to the obligor from your company.

VII. Until the happening of an event of default, the obligor shall be entitled (1) to collect and to receive for its own account all interest, dividends and other income of the pledged securities, and accordingly at a reasonable time prior to the due date thereof to have delivered by your company to the obligor or upon its order all coupons and warrants for such interest, dividends and other income; and (2) to exercise any voting rights appertaining to any of the pledged securities.

VIII. Upon the happening of an event of default, your company in its discretion may, and upon the request of the holders of twenty-five per cent (25%) of the principal amount of the notes at the time outstanding and upon being indemnified to its satisfaction your company shall, sell, collect and convert into money the pledged securities or any part thereof, and all right of redemption thereof.

XIII. From time to time, acting by its agents authorized in writing (of which authorization a duplicate shall be filed with your company), the obligor may sell any of the pledged securities, provided that the obligor shall not be in default in the payment of the principal or interest of any of the notes, and provided, further, that any default existing prior to such sale in the agreements of the obligor contained in Clause IV hereof, may and shall be remedied by the application of the proceeds of sale to the redemption of notes as hereinafter provided. Such sales may be made in such manner and at such place, and whether publicly or privately, as the obligor or its agents authorized as aforesaid may deem advisable. In case of any such sale, your company shall release the securities so sold, upon receipt by your company of the net proceeds of the sale as certified in writing to your company by the obligor or by J. P. Morgan & Co., the date of such release and delivery of such securities to be the date specified

in said writing.

XIV. * * * Any and all proceeds of any sale pursuant to the provisions of Clause XIII hereof, shall be applied to the purchase or redemption of notes.

XV. The right to enforce the security given by these presents for the benefit of the notes, shall vest exclusively in your company and its successors in the trust, and all action by your company in such enforcement shall be for the ratable benefit of all of the notes at the time outstanding. No holder of any note or coupon shall bring any suit, action or other proceedings for the enforcement of such security.

The notes are executed by D. G. Osborne.

UNITED KINGDOM OF GREAT BRITAIN AND IRELAND,

By CECIL SPRING RICE, Ambassador. December 11 1916.

The Committee on Stock List directs that on and after December 12 1916 the above-described \$250,000,000 Two-Year Five Per Cent Secured Loan Gold Notes of the United Kingdom of Great Britain and Ireland, due September 1 1918, be admitted to the list, on official notice of issuance in exchange for outstanding temporary notes.

WM. W. HEATON, Chairman.

GEORGE W. ELY, Secretary.

THE CUBAN-AMERICAN SUGAR COMPANY

ANNUAL REPORT FOR THE FISCAL YEAR ENDED SEPTEMBER 30 1916.

New York, December 8 1916.
To the Stockholders of The Cuban-American Sugar Company: Your Board of Directors submit the following Report for

the fiscal year ending September 30 1916:

The production of raw sugar for the year was 268,310 tons (of 2,000 pounds), as compared with 236,401 tons for the year ending September 30 1915. While the tonnage of cane ground was less than in the previous year, the production of raw sugar was the largest in the history of the Company; due to favorable weather conditions the percentage of sucrose in

The operations of the raw sugar mill at Gramercy, La., were suspended in the fall of 1915. It was found more advantageous to dispose of the cane elsewhere.

The tonnage of cane ground and the year's output of raw and refined sugar for the last two years appears in the following table:

Cane Ground	1915-16. 2,188,047 Tons	1914-15. 2,218,168 Tons
Raw Sugar Production: Chaparra Delicias Tinguaro Unidad Mercedita Constancia Gramercy, La	436,889 " 248,536 " 116,547 " 76,521 " 175,407 "	(Bags 320 Lbs.) 525,088 Bags 315,872 " 236,956 " 84,472 " 93,617 " 196,055 " 25,447 "
Total	1,676,940 Bags or 268,310 Tons	1,477,507 Bags or 236,401 Tons
Refined Sugar Production: Cardenas Refinery, Cuba Gramercy Refinery, La		14,713,144 Lbs. 154,954,482 "

The net profit of the Company for the fiscal year amounted to \$8,235,112 39, after deducting \$729,338 68 for depreciation on Buildings, Machinery and Equipment. Ample provision has been made for doubtful Colonos accounts, and for the year's proportion of the cost of original plantings.

During the fiscal year \$768,408 69 has been expended on the acquisition of additional lands in Cuba, consisting of virgin cane lands adjoining the extensive territory of Chaparra, and of the Asuncion Estate, adjacent to Mercedita. The latter purchase strengthens and completes Mercedita with a cane supply commensurate with this modern and efficient house. ficient house.

The total acreage now owned and leased by your Company is as follows:

OwnedLeased		In Cane. 146,579 7,825	Per Cent 32 47
	465.353	154.404	33

These lands have been carefully acquired during a period of sixteen years. While, as shown, one-third is devoted to cane, a necessary part is devoted to pastures and other uses; there remain available for such further development as you

may elect to make in the future, over one hundred thousand acres of fertile soil, especially suitable for cane.

During the year improvements of the Plants have involved the expenditure of \$1,902,018 11 on Factory Buildings, Mills and Machinery, Dwellings and Schools, New Warehouses, Railroad Extensions and Equipment.

The detailed appraisal of the Company's buildings, machinery and equipment referred to in the last annual report

chinery and equipment referred to in the last annual report has been made, and these now stand at \$17,800,146 86, based on normal, and not on existing, values of material and labor. After the deduction of \$1,827,448 13, made as a result of this appraisal, and of \$339,559 21 expended during the year on executary to the standard of \$1,827,448 13. the year on special replacements to maintain your factories

in their most efficient state, the reserve to meet general depreciation, which is carefully provided for in every budget, is now \$3,932,641 09, or about 22 per cent of the book value

of buildings and machinery. Regular quarterly dividends of 1¾ per cent were paid on the Preferred Stock, and quarterly dividends of 2½ per cent were paid on the Common Stock; an extra cash dividend of 10 per cent on the Common Stock and a distribution of Common Capital Stock equivalent to 40 per cent were declared to owners of Common Capital Stock, both payable Octover 2

During the year \$367,000 of The Cuban-American Sugar Company's Six Per Cent Bonds were retired by the operation of the Sinking Fund Provision, making a total of \$1,251,000 of these bonds retired in this manner, leaving outstanding on September 30 1916 \$8,749,000.

The outlook for the approaching campaign is satisfactory. The factories have been enlarged and strengthened, and the work of the mills will doubtless surpass all previous experi-ence. The fields present an aspect of unusual promise, and the supply of cane, as well as the output of sugar, should ex-

ceed any former year's record.

The accounts of the year have been examined by Messrs.
Lovejoy, Mather & Hough, Public Accountants, and their certificate is made part of this report.

Respectfully submitted by order of the Board.
R. B. HAWLEY President. THE CUBAN-AMERICAN SUGAR COMPANY AND ITS SUBSIDIARY COMPANIES.

CERTIFICATE OF ACCOUNTANTS.

To the President and Directors of The Cuban-American Sugar

Company: We have examined the books and accounts of The Cuban-American Sugar Company and its subsidiary companies for the year ending September 30 1916, and hereby certify that the annexed Consolidated Balance Sheet has been correctly

prepared therefrom, and, in our opinion, sets forth the true financial position of the companies as at that date, and that the relative Profit and Loss Account correctly shows the results of the operations for the period

The Stock of Raw Sugars on hand has been valued at the net prices subsequently realized and the Refined Sugars at cost, which was lower than market at September 30 1916.

LOVEJOY, MATHER & HOUGH,

Public Accountants & Auditors.

55 Liberty Street, New York City, Dec. 5 1916.

Consumers' Gas Co. of Toronto.

(68th Annual Report-Fiscal Year ending Sept. 30)

Pres. A. W. Austin says in substance:

Pres. A. W. Austin says in substance:

Output.—Notwithstanding the unusual conditions existing as a result of the war, there has been a substantial gain in the number of customers, while the quantity of gas sold during the year has exceeded that of any other year in the history of the company.

Suit.—The friendly action brought by the City of Toronto against the company, to determine whether the city or the company should bear the cost of the removal of gas mains laid in a city street to another location in the street, in order to permit the city to construct sewers or other local improvement works, has finally been determined by the Judicial Committee of the Privy Council. The Judicial Committee found that while it was within the right of the city in constructing a drain, to order the lowering of the company's gas main, the city is bound to pay the cost of doing the work. This decision will regulate the general liability for the cost of operations of such nature.

The Commercial Times.

COMMERCIAL EPITOME

Friday Night, Dec. 15 1916.

Although trade in many directions has continued active, the German overtures for peace have tended to keep new transactions within more conservative bounds. Yet the holiday trade is unusually large and retail business at the West, by reason of the cold weather, is much better. Further advances in wages have been made in some industries. Steel and iron mills have enough contracts in hand to keep them busy for many months to come. There has been brisk buying of steel rails for delivery as far ahead as 1918. Lake navigation is closed after a very profitable year. Stocks of merchandise generally are said to be only moderate and in some cases small. On the other hand, the crest of the great business wave of 1916 seems to have been reached, if not passed. Buyers are looking more closely at prices. There is distinctly less of the foregick buying at any price so long a tinctly less of the feverish buying at any price so long a feature of the situation. In the metal trades the tone is more cautious, even though the consumption is still very large. Some cotton goods have declined noticeably. Wheat large. Some cotton goods have declined noticeably. Wheat under the influence of the peace proposals is down about 20 cents a bushel, and flour has also fallen—an important item, not to speak of corn and other grain. Sugar for the same reason has declined. Copper has declined in foreign markets, and the demand for pig iron has fallen off, owing to the talk of possible peace in 1917. Money rates have been firmer, ocean freights are scarce and high, war risks, in spite of peace proposals, have risen, and the cost of living, regardless of some decline in food prices, is still so high as to excite

of peace proposals, have risen, and the cost of living, regardless of some decline in food prices, is still so high as to excite general complaint. Industry, moreover, is hampered by the searcity of labor. But, though the leaning is towards greater conservatism, the feeling is generally cheerful.

LARD quiet; prime Western, 17.05c.; refined to the Continent, 18c.; South America, 18.50c.; Brazil, 19.50c. Futures advanced on peace talk, in the belief that peace would mean big buying of lard and other provisions by the Central Powers. Packers bought as well as commission houses. Later prices reacted, as it seemed that peace was unlikely in the near future. Local stocks are moderate. The Belgian near future. Local stocks are moderate. The Belgian Relief Committee bought to a fair extent. To-day prices advanced on the belief that peace will come in 1917. Also hogs were 10 to 15c. higher.

PORK quiet but firm; mess, \$31 50@\$32; clear, \$30@\$32. Beef products steady; mess, \$23@\$23 50; extra India mess, \$40@\$42. Cut meats lower; pickled hams, 10 to 20 lbs., $17\frac{1}{2}$ @18c.; pickled bellies, $15\frac{1}{4}$ @15\\ 20 \frac{1}{2}@24\\ 4c. Eggs, fresh, 28 @51c.

COFFEE higher and latterly in rather better demand-owing to peace talk; No. 7 Rio, 93%c; No. 4 Santos, 103%@ 10½c.: fair to good Cueuta, 11¼@113¼c. Futures ad-vanced on peace talk, buying by Cotton Exchange houses and higher Brazilian cost and freight quotations. On the other hand, receipts are liberal, stocks here are larger than a year ago—1,440,233 bags of Brazil, against 1,126,686 last year. Brazilian stocks are increasing; that at Santos is 3,093,000 bags; spot trade here has most of the time been unsatisfactory. To-day peace talk caused large trading and prices closed 7 to 11 points higher with sales of 174,250 bags. Quotations were as follows: bags. Quotations were as follows:

SUGAR dull and lower; weakness in futures was a feature; centrifugal, 96-degrees test, 5.27c.; molasses, 89-degrees test 4.40c.; granulated, list price 7.15c., but some business reported at 7.05c. regular terms. Futures have declined, owing to increased estimates of the Cuban crop and peace talk Peace would put an end to big buying here by the Allies Guma estimates the Cuban crop at 3,572,000 tons. That was distinctly larger than the general idea of the crop had been. Moreover, refiners have been cutting prices. On the other hand, some believe the ultimate effects of peace would be bullish, through an increased general European demand. To-day prices closed unchanged to 7 points higher, with sales of 18,110 tons. Closing prices were as follows:

OILS.—Linseed dull and lower; city raw, American seed, 93@96c.; city boiled, American seed, 94@97c.; Calcutta \$1 15. Lard, prime, \$1 30@\$1 35. Cocoanut, Cochin 16@17c., Ceylon 15½@16c. Corn 11.81c. Palm, Lagos 12½@12¾c. Soya bean 12@12½c. Cod, domestic 75@76c. Spirits of turpentine 56¼c. Strained rosin, common to good, \$6 70. Cottonseed oil on the spot 12.50c. To-day futures closed as follows:

Dec__cts.12.48@12.65 | March.cts_12.36@12.37 | June__cts_12.45@12.55 | January__12.40@12.44 | April ____12.44@12.47 | July_____12.51@12.54 | February_12.40@12.44 | May ____12.45@12.46

x Includes \$73,496 annual dividend to March 1 1913 and \$35,126 accrued dividends for six months to Sept. 1 1913.

A 50% dividend on the common stock, calling for \$400,000 (\$160,000 reinvested in common capital at par) was declared in 1914-15, thereby increasing the common stock from \$800,000 to \$960,000.

PETROLEUM active and advancing; refined in barrels, \$8 65@\$9 65; bulk, \$4 50@\$5 50; cases, \$10 75@\$11 75. Naphtha, 73 to 76-degrees, in 100-gallon drums and over, 40½c. Gasoline still active; motor gasoline in steel barrels to garages, 22c.; to consumers, 24c.; gasoline, gas machine, steel, 40c.; 73 to 76 degrees, steel and wood, 31@34c.; 68 to 70 degrees, 28@31c. Mid-Continent, Central West, Louisiana and Texas crude oil advanced. All grades of Caddo crude petroleum advanced 10c. a barrel. Some grades of Gulf Coast advanced 15 cents a barrel. Field work in Wyoming has been stopped by the winter. Stocks of crude oil decreased nearly half a million barrels. Prospects in Northern Tennessee are said to be good. Prices follow:

Pennsylvania dark	\$2 75 North Lima\$1 5	3 Illinois, above 30
Cabell	2 17 South Lima 1 5	3 degrees\$1 57
Mercer black	2 20 Indiana 1 3	8 Kansas and Okla-
New Castle	2 20 Princeton 1 5	7 homa 1 10
Corning	2 10 Somerset, 32 deg 2 2	0 Caddo La., light 1 10
Wooster	1 75 Ragland 9	5 Caddo La., heavy 75
Thrall	1 10 Electra 1 1	0 Canada 1 88
Strawn	1 10 Moran 1 0	California oil73@82
De Soto	1 00 Plymouth 1 1	8 Henrietta 1 00

TOBACCO has continued firm with a steady demand and supplies anything but bountiful. The stock of filler is especially small. For leaf high prices are being paid in the country. Sumatra is in fair demand, though the assortment is not attractive. Cuban leaf is in steady demand and firm.

COPPER reported steady despite German peace proposals. The demand has been less active, however. Lake here on the spot 35@35½c.; electrolytic 35@35½c., for future delivery 31½@34½c. The ultimate effect of peace, it is conceded, would be lower prices. London broke sharply, supposedly owing to the German peace proposals. Producers here generally scout the idea of an early peace. It is claimed too that the 488,000,000 lbs. bought some time ago by the Allies for delivery in the first half of 1917 will be taken whether peace is declared or not. Tin quiet and lower on the spot at 423/4c.; later firmer at 43c, owing to a sharp increase in war risk insurance rates, and peace proposals by Germany. Peace is considered a big bull factor in tin, as the Central Empires, it is believed, would buy heavily after the war. London and Singapore have declined. Spelter quiet and lower on the spot at 11 3/4c. Second hands have sold freely. The German peace proposals had a depressing effect. London lower. Lead active and higher on the spot for a time at 8.10c. January and February deliveries have been in good demand. Later, however, lead was easier at 7.75c., owing to profit taking by speculative interests fearing that German peace proposals might lead to an ending of the war. Pig iron less active for the home trade, owing to peace talk. But 50,000 tons of Bessemer iron were sold, it is understood, to France and Italy at about \$37 at the seaboard, delivery first half of next year, much of it Valley furnaces. Prices have remained generally steady. Bar iron is \$5 higher. No. 2 Northern \$29 50@\$30 50, No. 2 Southern \$23@\$25, Birmingham. Steel has been firm and the opinion is that the importance of peace talk as to its immediate effect on prices has been exaggerated, especially as recently the sales to the domestic trade have much exceeded those to Europe. It is even said that not over 15% of the present production is de-signed for the Entente Allies. The home demand for struc-tural steel is said to be gradually increasing, partly for bridge building. The inquiry for ship plates is also reported good.

COTTON

Friday Night, Dec. 15 1916.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 200,130 bales, against 242,504 bales last week and 239,911 bales the previous week, making the total receipts since Aug. 1 1916 4,326,808 bales, against 3,645,796 bales for the same period of 1915, showing an increase since Aug. 1 1916 of 681,012 bales.

Note.—Exports from New York include 60 bales Peruvian to Havre and 895 bales West Indian to Liverpool.

In addition to above exports, our telegrams to-night also give us the following amounts of cotton on shipboard, not cleared, at the ports named. We add similar figures for New York.

		On Shipboard, Not Cleared for-

Speculation in cotton for future delivery has been active at lower prices. Later came a rally on peace talk. At one time prices showed a decline of 166 points on May as compared with last Friday's closing, or \$8 30 a bale. This was a drop of 375 points from the high price of the season on Nov. 27, or no less than \$18 75 a bale. But from the "low" of 17.80c. on Monday, Dec. 11, due to an unexpectedly high crop estimate by the Government, 11,511,000 bales, there was a recovery on the following day to 19.02c., or a rise in 24 hours of 122 points. This illustrates strikingly enough the gigantic range of fluctuations in a week crowded with exciting events. The crop estimate of last Monday was anywhere from 200,000 to 400,000 bales larger than had been expected, averaging, however, about 300,000 baies more than previous guesses. It is true, however, that the average guess of the members at the New York Cotton Exchange on the previous Saturday was 11,429,000 bales. Some, indeed, were amazed at the apparent effect of the Government crop estimate. They ascribed the sudden collapse of the market of 138 to 155 points on this crop and 85 points on October to the fact that the crop estimate capped the climax after a

week of more or less disturbing events. They included submarine rumors, reports that the Washington authorities were likely to take aggressive action concerning them, the rise in money rates, nervousness in the stock market, an advance in war risks, the scarcity and dearness of ocean freights, some reports of a slackening demand for cotton goods, and nints with or without foundation, that some of the Southern banks were calling in loans. A tendency to increase the private estimates of the crop must also be mentioned. Finally, the market had become overbought after an advance for the season of 750 to 930 points, the latter on January. Enormous liquidation took place on Monday and at first there was considerable selling on Tuesday. This in a measure, with the great decline, cleared the atmosphere. And when, on the 12th inst., it was suddenly announced that Germany had made overtures for peace, the effect was electrical. A break of roughly $3\frac{1}{2}$ to 4 cents a pound since Nov. 27 had led to an improvement in the technical position. The market was ripe for a rally and prices ran up 50 to 70 points. In fact, on the 12th inst. they rose some 80 to 90 points from the low level of the morning. On Wednesday came a setback, owing largely to the rise in money rates, nervousness in the stock market, an ading. On Wednesday came a setback, owing largely to the hostile tone of the English and French press. This, with very large selling by Liverpool and some general liquidation, caused a drop of some 60 to 65 points. On Thursday prices again came to the right-about, and advanced some 40 to 45 points. This was due to the fact that Washington dispatches stated that the Allied Governments would take measures to ascertain Germany's terms of peace. Moreover, the Census Bureau's figures on the consumption were even more bullish than had been expected, Liverpool advanced, Neill reiterated his estimate of the world's consumption of American cotton at 14,750,000 bales, Tattersall reported an excellent state of Lancashire's business at increasing profits in some cases, spot markets were firm and trade interests here bought. A decline in stocks and wheat was supposed to reflect the increasing probability of peace, and cotton was strengthened accordingly. On the other hand, some think that peace is not likely to be declared in the near future. They believe that obstacles of an insurmountable kind stand in the way. They believe, too, that the crop is being underestimated that even the Government figures are too low; that there will be no shortage of supplies and that the rise this season reached its crest on Nov. 27, when January touched 21.19c., March 21.32c., May 21.55c. and July 21.51c., and that from now onward there is likely to be a gradual but nevertheless certain decline. That remains to be seen. What is certain is that it is now a more or less nervous market depending on reports favorable or unfavorable to a carly peace. certain is that it is now a more or less nervous market de-pending on reports favorable or unfavorable to an early peace. To-day prices, at one time a little higher, ended some 10 to 12 points lower on Liverpool, Wall Street and Western selling. But spot houses were buying, spot markets were firm and spot prices here were actually advanced 30 points regardless of some weakness in futures. Many of the trade believe that peace is not far off. Nevertheless prices are lower for the week. Spot cotton closed at 18.60c. for middling uplands, showing a decline for the week of 55 points. middling uplands, showing a decline for the week of 55 points.

The following averages of the differences between grades, as figured from the Dec. 14 quotations of the eleven markets, designated by the Secretary of Agriculture, are the differences from middling established for deliveries in the New York market on Dec. 21:

Middling fair	on	Strict middling "yellow" tinged_0.22 off

Note.—Our Interior Towns Table has been extended by the addition of 8 towns. This has made necessary the revision of the Visible Supply Table and a number of other tables.

The above totals show that the interior stocks have increased during the week 28,310 bales but are to-night 134,192 bales less than at the same time last year. The receipts at bales less than at the same time last year. The receipts at all towns have been 87,335 bales less than the same week last year.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE AUG. 1.—We give below a statement showing the overland movement for the week and since Aug. 1, as made up from telegraphic reports Friday night. The results for the week and since Aug. 1 in the last two years are as follows: week and since Aug. 1 in the last two years are as follows:

	-1916]	915
Dec. 15—	Since		Since
Shipped— Week	. Aug. 1.	Week.	Aug. 1.
Via St. Louis18,200	492,951	29,263	242.055
Via Mounds, &c. 9.704	163,120	16.186	176.699

 WEATHER REPORTS BY TELEGRAPH.—Advices

to us by telegraph this evening from the South denote that temperature has been lower generally during the week with snow in some localities. The gathering of the remnant of the crop and the marketing of cotton has been interfered with.

Galveston, Tex.—We have had rain on one day of the past week, the precipitation reaching two hundredths of an inch.

Average thermometer 51, highest 70, lowest 32.

Abilene, Tex.—Dry all the week. Average thermometer

38, highest 56, lowest 20.

Fort Worth, Tex. The week's rainfall has been two hundredths of an inch on one day. The thermometer has averaged 41, the highest being 64 and the lowest 18.

Palestine, Tex.—Dry all the wood.
ranged from 18 to 60, averaging 39.
San Antonio, Tex.—There has been no rain during the week.
Average thermometer 49, highest 72, lowest 26.

Tex.—Dry all the week. Minimum thermometer

New Orleans, La.—Rain has fallen on three days of the eek. The rainfall reached two inches and fifty-eight hun-

dredths. Average thermometer 50.

Shreveport, La.—It has rained on three days during the

week, to the extent of one inch and one hundredth. The thermometer has ranged from 25 to 64.

Vicksburg, Miss.—There has been rain on three days of the week, the precipitation reaching sixty hundredths of an inch. The thermometer has averaged 49, ranging from 21 to 60. 21 to 69.

Mobile, Ala.—It has rained on three days during the week, the rainfall being two inches and sixty-five hundredths. The thermometer has averaged 48, the highest being 73 and

Selma, Ala.—There has been rain on three days during the week, the precipitation being one inch and ten hundredths. The thermometer has ranged from 25 to 60, averaging 49.5.

Madison, Fla.—There has been rain on three days of the past week, to the extent of one men and love, the dredths. The thermometer has averaged 50, ranging from 35 to 65.

Savannah, Ga.-We have had rain on three days during the week, with rainfall of sixty-seven hundredths of an inch. The thermometer has ranged from 34 to 78, averaging 54.

Charleston, S. C.—There has been rain on two days of

the week, the rainfall being eighty hundredths of an inch. Average thermometer 53, highest 72, lowest 34.

Charlotte, N. C.—The week's rainfall has been one inch and twelve hundredths. The thermometer has averaged 46, the highest being 69 and the lowest 22.

Memphis, Tenn.—Snow on Thursday stopped picking and interfered with marketing. We have had rain and snow on two days of the week, the precipitation being one inch and twenty hundredths. The thermometer has averaged 35, ranging from 23 to 60.

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 8 a. m. of the dates given:

RECEIPTS FROM THE PLANTATIONS.—The following table indicates the actual movement each week from the plantations. The figures do not include overland receipts nor Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the outports.

Week	Receipts at Ports.			Stock at Interior Towns.			Receipts from Plantation		
end'g	1916.	1915.	1914.	1916.	1915.	1914.	1916.	1915.	1914.
Oct. 27 Nov.	305,928	245,558	272,727	1,105,079	994,683	820,382	357,633	321,616	396,337
3	271.037	200.421	338.055	1.192.916	1,091,734 1,186,584	1,024,495	379,421 305,354	295,271	435,426
17 24	263,463 240,082	186,346 171,948	359,216 360,439	1,230,704 1,274,398	1,275,401 1,327,340	1,097,236 1,165,390	301,251 283,776	275,163 223,887	431,957 428,593
Dec. 1 8 15	242.504	265.737	370.458	1.350.749	1,389,157 1,468,597 1,513,251	1,258,039	284,303	345,177	421,739

The above statement shows: 1.—That the total receipts from the plantations since Aug. 1 1916 are 5,352,133 bales; in 1915 were 4,681,870 bales, and in 1914 were 5,005,451 bales. 2.—That although the receipts at the outports the past week were 200,130 bales, the actual movement from plantations was 228,440 bales, the balance going to increase stocks at interior towns. Last year receipts from the plantations for the week were 287,823 bales, and for 1914 they were 475,734 bales. The above statement shows: 1.—That the total receipts

AGRICULTURAL DEPARTMENT'S COTTON CROP ESTIMATE.—The report on cotton, issued by the Agricul-

tural Department on Dec. 11, is as follows:

The Crop Reporting Board of the Bureau of Crop Estimates of the United States Department of Agriculture estimates, from the reports of the correspondents and agents of the Bureau, that the total production of cotton in the United States for the season of 1916-17 will amount to 5,506,896,000 lbs. (not including linters), equivalent to 11,511,000 bales of 500 lbs. gross weight.

The estimated production, with comparisons, by States, follows:

		-Bales of 5	00 lbs Gro:	ss Weight-	Price	per lb
				5-ur. avae.		c 1.

This statement shows that the receipts for the week ending Nov. 22 were 352,445 cantars and the foreign shipments 16,635 bales.

MANCHESTER MARKET.—Our report received by cable to-night from Manchester states that the market is easier following the course of the raw material. Speculation has been checked and the demand form India is slow. We give prices for to-day below and leave those for previous weeks of this and last year for comparison.

BREADSTUFFS

Friday Night, Dec. 15 1916.

Flour has been quiet and depressed, owing to the German overtures which seem to threaten the continuance of trade with the Allies. The decline in wheat was of course a factor. The Greek purchases of 8,000 tons recently, it is now supposed, will have to be resold or stored until the snarl between the Allies and Greece is straightened out. France has recently bought to some extent. But peace talk has undoubtedly had a distinct tendency to halt trade both for home and foreign account, and to cause lower prices. The total output for the week at Minneapolis, Duluth and Milwaukee was 398,000 bbls., against 411,000 in the previous week and 530,000 last year; total from Sept. 1 to Dec. 9, 5,743,000 bbls., against 7,453,000 during the same time last year.

Wheat has declined sharply owing to German proposals looking to peace. It is true that many have scouted the idea of an early ending of the war. They have thought that Germany's move was designed largely to still any domestic unrest that may have arisen. But many others believe that Germany is sincere in its desire to terminate the most terrible war of all history, and that its recent note to the neutral Powers will prove to be the entering wedge to that end. On Tuesday prices fell 81/2 cents, owing to the peace proposals. World's stocks are 213,192,000 bushels, or 35,000,000 bushels more than a year ago. East of the Rockies the United States has 70,184,000 bushels, or 16,000,000 bushels more than a year ago. The winter wheat plant in this country is in generally good condition. In India the crop prospects are favorable on a larger acreage than last year's, with reserves holding out well, native feed grains being plentiful. Germany's food grain crops, according to reports of neutrals, are more plentiful; also the weather in Germany has been favorable for seeding. In Central and Southern Argentina the crop is turning out better than was War risks are reported higher in this country, expected. ocean freights scarce and dear and car shortage and railroad embargoes at the seaboard have also hampered business for export. The possibility of a persistent agitation for an embargo on the exportation of foodstuffs if the war continues not lost sight of. Some believe, too, the weakness in the stock market indicates ing belief that the war is nearing its en not growing belief that the war is nearing its end. On the other hand, the English and French press has shown hostility to the idea of entering into peace negotiations at this time. Some export business has been done, despite the existing obstacles. The entire agricultural area in Europe existing obstacles. The entire agricultural area in Europe has suffered and will continue to suffer for some time to come from the effects of vast military operations, scarcity of labor and poor seed. In France, the acreage will be smaller and the outlook is not favorable, partly owing to defective cultivation. Meantime, French native supplies are only moderate and arrivals of foreign wheat small, owing to the scarcity of ocean tonnage. Private reports from Russia say that the acreage has been reduced, that the seed is poor and cultivation bad. In Italy the acreage is small, the weather has been wet and cold, seeding is slow, and the general outlook unsatisfactory. Bad weather has interfered with field work in England. In the Balkan States, cold, wet weather, with snow in some parts, and the movements of big armies have put a stop to farm work over large areas, seeding is late there and in fact in most districts, according to the latest reports, it will have to be abandoned. In Argentina the crop is everywhere light, even through some districts are turning out rather better than expected. The belief in some quarters is that Europe will have to buy largely from the United States throughout 1917 whether the war ends soon or not. It is believed that in the event of peace Germany and Austria would be good buyers of American wheat, despite the reopening of the Dardanelles in that event. To-day, however, peace ideas were bearish beyond question and prices fell 7 1/8 to 12 5/8c. at Chicago and 12 1/4 to 13 3/4c. at Winnipeg. Also the Government increased its total estimate of the crop about 32,000,000 bushels. It is 639,886,000 bushels, against 1,011,505,000 last year and 891,017,000 in 1914.

Indian corn advanced early in the week but last Tuesday broke sharply on the German peace proposals, which caused ling, partly in sympathy with the break in wheat. Besides, receipts at primary points increased and the cash demand was slow. The outlook for export business was poor in view of car shortages, railroad embargoes and high freights. Buenos Aires prices declined with crop prospects better owing to rains and freights scarce and very firm. On the same day Liverpool was weaker owing to a general disposition to sell partly by reason of excessive insurance rates. Moreoever, the spot demand was slow in Liverpool and the American offerings larger. But prices have at times

resisted pressure in spite of any unfavorable factors. all, the available supplies are light and the pressure to sell futures has been smaller than might have been expected. The scarcity and firmness of ocean freights in Argentina seems to preclude the possibility of very large shipments from that direction in the near future. In Liverpool, too, the arrivals are small. This fact, together with the fact that shipments from Argentina have been only fair, has not been without its influence. Though American shipments may have increased somewhat, the total, after all, is far from large Stocks, not only in Liverpool but on the Continent, are small and the consumption large, partly owing to the fact that corn, it appears, is being mixed with other grain because of the scarcity and dearness of other cereals. were lower.

Oats declined in sympathy with wheat. Liquidation early in the week was heavy partly on the German peace overtures. At the same time the car shortage has interfered with business. Stocks at interior points are large and the obstacles to export business are considered rather serious. This alone has caused more or less selling for short account. On the other hand, some export business has been done in spite of the difficulties which beset trade with Europe. Liverpool has reported a steady or firm market with the demand good and arrivals limited. To-day, however, prices gave way with other grain. Stocks are large and the Government report increased the crop estimate 32,000,000 bushels, making it 1,251,992,000 bushels, against 1,540,362,000 last year and 1,141,060,000 bushels in 1914.

THE DRY GOODS TRADE

New York, Friday Night, Dec. 15th, 1916.

A further contraction in business has been noted in drygoods markets during the past week. An unsettled feeling has developed as a result of the sharp break in prices for raw material which have declined over three cents from the recent high levels. Although manufactured goods have not as yet displayed any inclination to follow the weakness in raw material markets, buyers have been encouraged to hold offin the hope of securing concessions. Second hands are beginning to show more or less anxiety and in some instances are reported to be lowering quotations in order to encourage sales but this has not become general and prices as a rule are firmly maintained. Yarns which would naturally be the first to act in sympathy with raw material markets are firmly held and offered sparingly by spinners. On the other hand, manufacturers appear to be convinced that the Government's estimate of over eleven and a half million bales of cotton crop this year indicates that there will be sufficient supplies to meet requirements until the new crop becomes available. The unsettled feeling has been further augmented by the many conflicting rumors regarding the possible ending of the European war within the near future, and while there is a considerable difference of opinion as to what effect peace would have on the dry goods markets, it is generally believed that it would result in a sharp advance in prices for raw material and cause a scarcity as Continental countries would likely become heavy buyers to replenish their depleted stocks. If peace should fail to materialize for another year or two, and prices for raw material remain at present levels or lower, prices for dry goods will no doubt have to undergo a downward readjustment. In the meantime jobbers and retailers continue to do good business with the latter in the market for liberal supplies to provide for their January trade. While export markets in general are quiet, there is a steady business passing with various South American countries.

DOMESTIC COTTON GOODS.—While the general attitude in markets for staple cottons is to await developments, there is a good demand for prompt goods and some improvement noted in certain quarters for distant deliveries. Many buyers, encouraged by the decline in prices for raw material. are confining their purchases to actual needs as they expect to secure concessions if the raw material markets fail to recover. Converters have been selling certain lines of finished goods at slight reductions, but this action on their part is said to be due chiefly to a desire to reduce stocks before the taking of inventories at the end of the year. Fair sales have been made in colored goods, and jobbers have purchased various lines of ginghams for delivery through the first quarter of the new year. Prints have been in moderate request, although purchases have consisted largely of small lots to cover nearby needs. While demand for bleached cottons has been quiet, prices are firmly held as producers are well sold ahead. Gray

goods, 38-inch standard are quoted at 81/4c.

WOOLEN GOODS .- No particular change has been noted in conditions surrounding the situation for woolens and worsteds, prices for which are firmly maintained in sympathy with the strength of raw material. Business continues active with a good demand noted for heavy weight goods. In the markets for men's wear, staple lines are moving on a liberal scale. Overcoatings for next season have been opened by some manufacturers, and liberal sized orders are reported to have been placed. Prices so far are said to rule higher as compared with those of a year ago, and it is generally believed that they will not be any lower. The clothing makers strike is attracting considerable attention in the woolen and worsted goods trade, but as yet it has not had any effect on business.

FOREIGN DRY GOODS.—A feature of interest in the market for linens during the past week was the announcement from abroad that higher prices were being asked for cambrics and sheers. According to local merchants, this will be very seriously felt in the handkerchief trade where prices already have reached prohibitive levels with goods scarce. The situation as regards supplies of all kinds of linens as well as substitutes is steadily growing more serious. A fair business has been transacted with jobbers and retailers during the past week, as the latter have been endeavoring to secure supplies for the Holiday trade. Housekeeping lines are principally in demand. Burlaps markets are inactive with purchases confined to small lots covering immediate needs. Sentiment is unsettled, and large buyers are generally disposed to await further developments in connection with the agitation for peace. Prices remain unchanged with light weights quoted at 8.75c and heavy weights at 10.00c to 10.25c.

CITY DEPARTMENT. STATE AND

MUNICIPAL BOND SALES IN NOVEMBER.

We present herewith our detailed list of the municipal bond issues put out during the month of November, which the crowded condition of our columns prevented our publishing at the usual time. In the case of each loan reference is made to the page of the "Chronicle" where an account of the sale is given.

The review of the month's sales was given on page 2171 of the "Chronicle" of Dec. 9. Since then several belated November returns have been received, changing the total for the month to \$16,951,818. The number of municipalities issuing bonds during November was 249 and the number

of separate issues 363.			id the h	umber 3

News Items.

Argentina (Republic of).—New Loan.—Reference is made in our editorial columns this week to the new loan of \$16,800,000 recently negotiated with a group of bankers headed by J. P. Morgan & Co.

Arizona.—General Election Results.—The propositions re ported below were submitted to the voters on Nov. 7 (V. 103, p. 1441), and we show the result of the vote in each case:

p. 1441), and we show the result of the vote in each case:

Proposed to the People by the Legislative Assembly.

Amendment to Subdivision 5, Section 1, Article 4, of the constitution, providing for initiative and referendum measures to become laws when approved by a majority of the total votes cast at election. Defeated.

Amendment to Section 2, Article 9, of the constitution, providing for the exemption from taxation of certain property and public debts, as evidenced by the bonds of Arizona, its counties, municipalities, or other subdivisions. Further provision is made for the exemption from taxation of the property of widows, residents of this State, not exceeding the amount of \$2,000, where the total assessments of such widow does not exceed \$5,000. All property in the State not exempt under the laws of the United States or under this constitution, or exempted by law under the provisions of this section, shall be subject to taxation to be ascertained as provided by law. This section shall be self-executing. Defeated.

Amendment to the constitution by adding thereto another article to be designated as Article 24, prohibiting the receiving from without the State, the possession by a person introducing into the State, the transportation within the State of Arizona, of ardent spirits, ale, beer, wine or intoxicating liquors, and providing for the destruction of liquors used in violation of above provisions. Carried.

Amendment to Article 4 of the constitution providing for legislative redistricting. Defeated.

Amendment to Article 23 of the constitution by adding thereto a new section to be designated as Section 4, providing for local option. Defeated.

Amendment to the constitution by adding thereto another article to be designated as Article 24, providing for the protection and safety of workmen in all places of employment and for the inspection and regulation of places of employment in all inherently hazardous works and occupations; providing a schedule of compensation for injury to or death of workmen and methods of paying the same, and prescribing the liability of employers who do not elect to pay such compensation; establishing the industrial accident board; defining its powers and duties; providing for a review of its awards; and abrogating any and all laws and constitutional provisions in conflict herewith.

Defeated.

Amendment to Section 1 of Subdivision 1 of Article 4 of the constitution, providing for the abolition of the State Senate. Defeated.

Act creating a department of labor, prescribing the duties, powers, qualifications and compensation of the Commissioner of Labor, and the employees of the department, providing for a board of arbitration to act in conjunction with the Commissioner of Labor in certain instances, and prescribing appropriation for the carrying out of the provisions of this Act. Defeated.

Act amending Paragraph 173, Chapter 1, Title 8, Penal Code, Revised Statutes of Arizona, 1913, abolishing the death penalty. Carried.

Act to establish the office of State Architect and Superintendent of Build

British Government Loan.—Admitted to New York Stock Exchange List.—The Committee on Stock List of the New York Stock Exchange on Dec. 11 directed that on and after Dec. 12 the \$250,000,000 permanent 2-year 5% Secured Loan Gold Notes, due Sept. 1 1918, be admitted to the list on official notice of issuance in exchange for outstanding temperary notes. ing temporary notes. See V. 103, p. 893.

Illinois.--Amendments Approved at General Election .are advised that both the amendment to Article 9 (to be known as Sec. 14), giving the General Assembly power over subject matter of taxation of personal property and the amendment to the General Banking Laws, were adopted at the November election. See V. 103, p. 958.

Iowa.—Proposed Amendment to Constitution Ratified.—By a vote of 267,739 "for" to 139,780 "against," the voters on Nov. 7 ratified the proposed amendment to the constitution repealing Section 7, Article 2, relating to and providing for the time of holding general elections.—V. 103, p. 599.

Maryland.—Results at General Election.—At the general election on Nov. 7 the voters ratified a proposed amendment to Section 52, Article 3, of the Constitution, regulating the making of appropriations by the General Assembly in regular session. A proposition (Chapter 30, Acts of 1916) was submitted at the same election in the places mentioned below, each as a separate political unit, to determine whether cornect the sale and transportation for sale of alcoholic below, each as a separate political unit, to determine whether or not the sale and transportation for sale of alcoholic, spirituous, vinous, malt and intoxicating liquors shall be forever prohibited, from and after May 1 1918. The proposal was defeated in Baltimore City, Baltimore County, the 1st and 3d Precinct of the 5th District of Anne Arundel County, Annapolis City, Allegany County, Prince George's County and Ellicott City. Washington County, Frederick County and the city of Havre de Grace voted in favor of the proposition.—V. 103, p. 958.

Nevada.—Proposed Amendments to Constitution Approved. —The following proposed amendments to the constitution were approved by the voters at the November general election (V. 103, p. 862):

Amendment to Section 3, Article XI, relating to revenues to be used for educational purposes. Amendment to Section 3, Article IX, changing limit of State debt from \$300,000 to 1% of assessed valuation of property in the State.

New York City.—Mayor Vetoes Aldermanic Budget Cuts.—Reductions amounting to \$120,420 made by the Board of Aldermen in the budget for 1917, were vetoed by Mayor Mitchell on Dec. 12. Practically all the cuts made by the Aldermen were in salary increases and the creation of new positions. The Mayor, in his criticism of the Board of Aldermen, said in part:

Aldermen, said in part:

It is quite possible that a body of men such as the Board of Aldermen, in considering the budget for the city, might properly come to the conclusion that items included by the Board of Estimate could be reduced without injury to the city's business, or indeed, to its positive welfare. Because, however, of the discriminating nature of the action of the Board of Aldermen in making these reductions, because of the undeniable merit or positive necessity of the amounts and items lifted from the budget, because of the method of the Board's action and all of the surrounding circumstances I am driven irresistibly to the conclusion that the action of the Board of Aldermen this year was not the product of a conviction that it would serve the welfare of the city or the efficient conduct of its business, but a blundering attempt of a partisan majority to make political capital out of the appearance of economy, where economy has not in fact been practiced, and in total disregard of the merits of the subject.

It is my duty to resist this kind of interference with the due and orderly conduct of the city's business and to point out that to permit it would be to invite a return to conditions which the people of this city are striving to banish permanently from their municipal life.

The total amount of the 1917 budget as adopted by the

The total amount of the 1917 budget as adopted by the Board of Estimate was \$211,115,016 82. See V. 103, p. 1717.

North Carolina. — Amendments to Constitution Adopted .-The Secretary of State advises us that the four proposed amendments to the constitution were favorably voted at the general election in November. V. 103, p. 773. One of these proposals amends Article II. by adding a new section, restricting local, private and special legislation. A second amends Section II of Article IV, preventing delays in trials by providing emergency judges. A third amends Section 1 of Article VIII, preventing special charters to corpora-tions by the General Assembly, and a fourth amends Section 4 of Article VIII, preventing special charters to towns cities and incorporated villages. towns, cities and incorporated villages.

St. Clair County (P. O. Osceola), Mo.—Bond Issue to Liquidate Old Debt Defeated.—The special election held Dec. 12 resulted, it is stated, in the defeat of the proposed issuers of \$620,000 heads to be used for the purpose of liquidate. suance of \$630,000 bonds to be used for the purpose of liquidating an old debt incurred by this county in 1870, when \$250,000 bonds were issued for the construction of the Clinton and Memphis branch of the Tebo & Neosho RR., which line was never built and only \$19,000 of the issue has ever been paid.—V. 103, p. 1910.

South Dakota.—General Election Results.—The propositions reported below were submitted to the voters on Nov. 7

South Dakota.—General Election Results.—The propositions reported below were submitted to the voters on Nov. 7 (V. 103, p. 1055).

Proposed Amendments to the State Constitution.

First.—Amendment to Article 13 y adding a new section, to be known as Section and the section of the state of the section of the state of the section of the state of the section of the state from the lands belonging to the State. Under the constitution as it now stands, the State is prohibited from engaging in any work of internal improvement. This amendment modifies the present constitution as at the outbrief of the section of the section of the section of the section of the State of the State of the section of the State of the State of the State of the provides however, that no expenditure of money for the same shall be made except by a vote of a two-thirds majority of the Legislature. Carried.

Second.—Amendment to Article XXI by adding a new section, to be known as Section 7, and authorizing the Legislature to provide for the irrigation of sericultural land. It is proposed in the amendment that irrigation of sericultural land. It is proposed in the amendment that irrigation at the expense of the lands irrigated, whereas at present the Legislature has no such power. Carried.

Legislature has no such power. Carried article XI on "revenue and finance." The constitution as it now stands authorizes the Legislature to make an annual tax levy of two mills for ordinary purposes, two mills more to pay interest and principal on the public debt, and a sufficient amount in addition to pay any deficiency in general expenses that there may be from the preceding year, whereas, this amendment mintes the possible more to pay interest and principal on the public debt, and a sufficient amount in addition to pay any deficiency in general expenses that there may be from the preceding year, whereas, this amendment authorizes a tax upon the provides that the franchises and incomes of corporations shall be considered in taxing them, whereas this amendment

First.—An Act to provide for regulation of political party transactions. Defeated.

Second.—An Act relating to the issuance of permits for the sale of intoxicating liquors. Defeated.

Third.—An Act providing for the establishment of a Department of Banking and Finance. Defeated.

Fourth.—An Act creating a State Banking Board. Defeated.

Fifth.—An Act relating to verdicts in civil actions and providing for verdicts by five-sixths of the jury. Defeated.

Virginia (State of).—Corrected Debt Statement.—We publish below a corrected statement of the State's debt, which was received too late for use in our "State and City Section," issued on Nov. 25:

STATE DEBT.—For a detailed report of the Virginia debt as it stood prior to 1892, and for the history of the debt settlement made by and between the Virginia Debt Commission and the Bondholders' Committee, see the "State and City Supplement" of April 1893, pages 151 and 152.

On Nov. 1 1916 Virginia's debt stood as shown below:

Deposited with Commissioners of Sinking Fund	1,720,663.22
Canceled	\$18,080,523.22 2,720,357 26
Total outstanding, Act of Feb. 20 1892	\$15,360,165 96 5,518,754.16

\$2,384,805 85 \$2,800 00 \$2,467,605 85 452,717.17

Note.—The school and college debt here mentioned does not represent any obligations outstanding in the hands of the public. It consists entirely of amounts owing the educational institutions, and is evidenced by certificates of indebtedness issued under Chapter 344, Laws of 1892. These certificates are redeemable at pleasure of the State and are non-transferable.

The Virginia Legislature reenacted the Funding Act of Feb. 20 1892, and under its provisions all old Virginia bonds were allowed to be brought in and funded into new Century bonds, upon the same terms as the Olcott settlement, provided they were presented for funding prior to Dec. 31 1896. By the Act of Jan. 25 1898, however, bondholders were given until July 1 1898 to come in and accept the terms, and the time has been regularly extended since then, the latest extension having been until Dec. 31 1916, with power in Board of Sinking Fund Commissioners to extend one year more. Bonds funded under any amendment or extension to the Act of Feb. 20 1892 carry interest from the semi-annual period next preceding the date of funding.

NEW LOANS

\$540,000 KANSAS CITY, MISSOURI IMPROVEMENT BONDS

Sealed proposals will be received by the undersigned, the Mayor and the City Comptroller of Kansas City, Missouri, until JANUARY 4, 1917, at 10 o'clock a. m. for the purchase of all or any part of the following-named bonds of the City of Kansas City, Missouri, in the following named

Comfort Station Bonds \$40,000 Bridge and Viaduct Bonds___250,000 Levee and Drainage Bonds___250,000

Levee and Drainage Bonds...250,000

All of said bonds are in denominations of one thousand dollars each, and bear interest at the rate of four and one-half per cent per annum. The Levee and Drainage bonds, numbered 101 to 350, inclusive, are dated March 1, 1913, and mature March 1, 1933. The Confort Station bonds, numbered 1 to 40, inclusive, and the Bridge and Viaduct bonds, numbered 201 to 450, inclusive, are dated July 1, 1915, and mature July 1, 1935. Interest is payable at the office of the City Treasurer in Kansas City, Missouri, or at the Chase National Bank of New York, in the City and State of New York, at the option of the holder.

No bid will be received which is in whole or in part less than par. The lagality of the bonds will be approved by the firm of Dillon, Thomson & Clay of New York City, whose opinion, or duplicate thereof, as to the legality of said bonds, will be delivered to the purchaser or purchasers of Each bid must be made on a blank form fur-

be delivered to the purchaser or purchasers of said bonds
Each bid must be made on a blank form furnished by the city, and must be accompanied by a duly certified check on a solvent bank or trust company doing business in Kansas City, Missouri, payable to the order of the City Comptroller of Kansas City, Missouri, for two per cent of the par value of the bonds bid for. The right is reserved to reject any and all bids.

Bids will be received at the office of the Mayor. City Hall, Kansas City, Missouri, but no bid will be entitled to consideration unless so received by or before the hour above specified for receiving bids.

bids.

Delivery of the bonds will be made January 11, 1917, at 10 o'clock a. m., at the office of the City Comptroller, City Hall, Kansas City, Missouri. Printed circulars containing more definite and detailed information with reference to said bonds, and blank forms for bids, can be had on application to the City Comptroller, Kansas City, Missouri, or to Messrs. Dillon, Thomson & Clay, Equitable Building, 120 Broadway, New York City.

GEORGE H. EDWARDS,

GEORGE H. EDWARDS,
Mayor of Kansas City, Missouri,
EUGENE H. BLAKE,

RAILWAY EARNINGS

SECTION OF THE

COMMERCIAL & FINANCIAL CHRONICLE

Copyr and in 1916 according to Act of Congress, by WILLIAM B. DANA COMPANY, in office of Librarian of Congress, Washington, D. C.

VOL. 103.

NEW YORK, DECEMBER 16, 1916.

NO. 2686.

THIS entire publication is devoted to a presentation of the reports of earnings and expenses of United States railroads for the latest month (October) and for the fiscal year to date, including said month. The table embraces every steam operating railroad in the country which is obliged to make monthly reports to the Inter-State Commerce Commission at Washington. Up to Jan. 1 1912 the Commission required monthly returns from every road, no matter how small its earnings. Since that date roads earning less than \$100,000 per annum have been relieved from the necessity of filing returns. Leased lines not operating their own roads do not make returns.

Sworn Returns. The figures are a transcript of the sworn returns on file at Washington. They have the further advantage of uniformity of method and classification. Every company is obliged to make up its returns on the same basis and in the same way as every other company.

Earnings
Our Specialty.

The "Chronicle" has always made a specialty of weekly and monthly reports of railroad earnings, and for over forty-five years its weekly and monthly summaries have been everywhere accepted as authoristate Commerce Commission in the one direction in which lies its chief usefulness—the field of publicity.

These Inter-State Commerce returns also make it possible for us to present full details of both the revenues and expenses. Besides reporting total gross earnings, we show separately the passenger and the freight revenues. In the case of the expenditures we report the outlays for both maintenance of way and maintenance of equipment as well as the traffic and transportation expenses. We also show the net revenue from outside operations. Lastly, we give the taxes and the miles of road on which the earnings are based.

Cents Discarded. The cents we have necessarily been obliged to discard altogether, and if in any case the results should happen to vary a dollar, one way or the other, from exact proof, the reason for the variance will be found in that circumstance.

Company Returns at the end to show also the figures issued by the companies themselves, where they are made up on a basis different from that of the Commerce returns, or where they give fixed charges in addition to earnings, or where they have a separate and distinct fiscal year.

Former Returns to be Continued.

The matter contained in this extra and novel publication is entirely additional to the comprehensive reports of earnings we furnish in the "Chronicle" from week to week. All the returns of the leading roads, and also all weekly figures of gross earnings, are printed regularly and promptly in the "Chronicle" as soon as received. But in addition we issue once a month—say about the 20th—this special publication, furnishing a sort of compendium of earnings in which we bring together all the returns for the latest month for which the statistics are available.

Only for Subscribers.

As in the case of our numerous other Supplements or "Sections," all of which are expensive publications, the "Railway Earnings Section" will be furnished only to "Chronicle" subscribers. These will receive copies in any other way, as none will be printed for general sale.

INTER-STATE COMMERCE COMMISSION RETURNS

In the following we show the figures for the latest month of every road which is obliged to make monthly returns of earnings and expenses to the Inter-State Commerce Commission at Washington. We give first the roads that are under the control of the larger systems, and then add the returns of all other roads, arranged in alphabetical order. In a subsequent part of this publication—pages 30 to 32—we also give the Company returns where these differ in any way from the Commerce Commission returns or embrace more facts than are contained in these latter.

COMPANY RETURNS

All the figures in the foregoing pages are transcripts of the monthly returns as filed with the Inter-State Commerce Commission at Washington. Many railroad companies also issue monthly statements of their own, and the form of the returns in such cases is often different from that prescribed by the Commerce Commission. In some instances the figures in the two returns correspond, but the company statements go beyond the requirements of the Commission and give fixed charges and income from investments in addition to earnings and expenses.

It is our purpose that each issue of the "Railway Earnings Section" shall furnish an absolutely complete record of all monthly returns, in whatever form issued, that may be put out by any steam railroad in the United States. Accordingly, we bring together on this and the following two pages all the company statements where they differ in any way from the returns to the Commission, or where they embrace more facts than are contained in such returns. In these instances, of course, uniformity is lacking. Each company makes up its statement according to its own conception of what will serve best to convey a correct idea of the course of its income in the distinctive circumstances that may attend its operations or the character of its business. We in turn give the statements in the precise form furnished by the companies. Obviously, we cannot undetake to reconcile differences or discrepancies that may appear between the company figures and the Inter-State Commerce returns.

It should be distinctly understood that where the company statements are identical with those rendered to the Commerce Commission.

It should be distinctly understood that where the company statements are identical with those rendered to the Commerce Commission, we do not undertake to repeat them here. In such cases the reader must look for the figures among the detailed statements on preceding pages, which include every steam road that is obliged to make monthly returns to the Commission.

There is just one exception to the rule excluding statements that agree with those made to the Commerce Commission. Where the fiscal year of a company differs from that in the Commerce returns—that is, from July 1—we introduce the road here in order to present the figures for its own fiscal year.
